General Contract Conditions Spain
Eight Edition, valid as of 11/02/2022

1. SCOPE

1.1. These General Contract Conditions (henceforth, "General Conditions") shall be applicable to the contracts governed by Spanish law that are entered into between companies of ENEL Group (henceforth, "ENEL") and the Contractor (henceforth jointly referred to as the "Parties").

1.2. ENEL promotes a sustainable business model and positions environmental, social, and economic sustainability alongside with innovation right at the centre of its corporate culture, hence implementing a development system that is based on sharing the creation of value both inside and outside the business. ENEL pursues to attain The United Nation's Sustainable Development Goals (SDGs) and is a "Participating" member of the UN Global Compact since 2004 and, in 2020, it was confirmed as a LEAD company, thanks to adhering to the ten (10) fundamental principals in relation to human rights, labour standards, environmental protection and fight against corruption.

ENEL undertakes to encourage social, economic, and environmental sustainability, also through its contractual relationships with its Contractors. The Contractor declares it declares it knows ENEL's standards in relation to sustainable development which are available in the following link [https://www.enel.com/company/our-commitment/sdg-onu], and also shares the same goals.

1.3 Any exception to these General Conditions proposed by the Contractor shall only be valid where they are in writing and expressly accepted by ENEL; and shall only apply to the Contract it is related to and will not be applied to any other contract that could be entered into in future with the same Contractor.

2. DEFINITIONS.

- **Final Receipt Document:** document confirming the final receipt and acceptance by ENEL of the purchased materials or equipment, the works or services and the expiration of the Warranty Period.
- **Provisional Receipt Document**: document which records:

  1) the successful outcome of inspection and/or testing activities in regard to particular equipment or material purchased by ENEL that is subject of contract. This document also records any necessary modifications or corrections of deficiencies that are found during the inspection and/or testing, and/or

  2) the successful outcome of a works progress examination, the exact performance or completed correction of the service that is subject of contract, and compliance with technical standards and contractual clauses relating to the various phases of the activities provided in such Contract. In addition, this document contains the necessary modifications or corrections to the deficiencies detected.
- **Framework Agreement:** Type of Agreement entered into between ENEL and the Contractor that pursues to establish the technical and financial terms and of any other nature, that must govern the subsequent agreements resulting from the Framework Agreement, that could be executed during the term of the latter, for the supply of materials and/or equipment or the provision of services, similar or repetitive, according to the same conditions and prices. The execution of a Framework Agreement, unless provided otherwise in said Agreement, does not imply for ENEL that it has the obligation to subsequently execute any other Agreement.
- **Authorisation to Dispatch:** Document issued by ENEL which entitles the Contractor to proceed to full or partial dispatch of the equipment or material subject of contract.
- **Dispatch Note:** Document issued by the Contractor once all the agreed processes have been complied with, by means of which ENEL is informed that total or partial shipment of the equipment or material subject of Contract has been processed.
- **Agreed Quality:** Agreement between ENEL and the Contractor, according to which the latter guarantees the quality levels convened by both Parties.
- **Letter of intent:** Agreement that contains the prior and general commitments that may or may not be formalised through a Contract. The aim is to enable to start of the Contract formalisation by the Contractor, once the essential obligations have been agreed upon by the Parties, and to avoid conditioning the entirety of the contractual performances on the negotiation of pending details. The issuance of this document implies that the Parties commit to these General Conditions.
- **Contract:** the set of all contractual documents as specified below, that regulate, in writing, the duties of the Parties and the acquisition of materials or equipment and/or the performance of a given works, or the provision of a given service:

  1. **Main body of the Contract:** the document that includes the name and identification data of the Parties, specifies the scope and the duration of the Contract that provides the economic,

Patricia Álvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

administrative, and regulatory terms and that lists and refers to all of the contractual documents that form the Agreement.

2. **ENEL's Technical-Economic documents:**

   - **Technical Specifications**: the document that contains the technical requirements related to the Contract.
   - **Consideration or Price List:** the document that provides the economic consideration to be paid for the specific services rendered by the Contractor, which may be grouped per category.
   - **Other documents:** Other documents related to a specific Contract (e.g., description of the works and interventions; graphic and descriptive design printouts; time schedule, etc.).

3. **General Conditions:** This document.

4. **Health, Safety and Environmental Terms (HSE Terms):** Document that governs the Party obligations in relation to health, safety, and the environment during the performance of the Contract. The Health, Safety and Environmental Terms are available in ENEL's global procurement webpage portal.

- **Contract Term**: The Period the Contract will be in force, as provided in the said document.

- **Subsidiary**: Regarding any legal person, any other legal person, that: (a) directly or indirectly controls, or is controlled by, or is under the joint control of the said legal person; or (b) directly or indirectly owns or owns fifty per cent (50%) or more of any kind of voting shares or other shares in the share capital of the said legal person; or (c) has fifty per cent (50%) or more of any kind of voting shares or shares in the share capital that is directly or indirectly owned as a beneficiary or is held by the said corporate entity, or (d) holds shares as a main legal person of the said legal person or the said legal person has a general corporate interest in the other legal person. For the purposes of this definition, the word "control" means direct or indirect ownership of the power to manage or originate management of the administration or the policies of a corporate entity, be it by means of the ownership of voting shares or in any other way.

- **Electronic signature**: Electronic signature system that, when applicable and in conformity with the legislation in force, allows the verification of the identity of the Parties with the same value as a handwritten signature, validates communications generated by the signatory, and verifies the origin and integrity of an electronic document or a set thereof.

- **Economic guarantee:** Documentation that the Contractor provides ENEL with, in order to financially guarantee the accurate fulfilment of all contractual obligations and any other obligations.

- **ENEL Group, or ENEL**: ENDESA, S.A. Group and/or all or any of its subsidiaries, as well as ENEL S.p.A and/or all or any of its subsidiaries.

- **Taxes:** Any tax or any levy in general, determined by the competent Authorities or by the laws applicable to a Contract that must be paid according to the legislation in force.

- **Offer:** Proposal made by an offeror as an answer to an offer request issued by ENEL, that will be binding to the offeror during the term provided therein but that will not be binding for ENEL until the relevant Contract is executed, and it will not generate any obligation or responsibility for ENEL according to the present General Conditions.

- **Warranty Period:** Period of time during which the Contractor guarantees the correct functioning of the materials or equipment supplied, and that these are free from defects and in perfect state of use, as well as the correct performance of the services provided.

- **Quality Control Plan:** Document issued by the Contractor that specifies the processes, procedures, and associated resources, to be applied in order to comply with the requirements of the Contract.

- **Purchase Global Web Portal**: ENEL web portal accessible to the Contractors to operate on-line with ENEL.

- **Sound Industrial Practices**: regarding the provision of services/supplies/works, those practices, methods, instructions and safety, performance, efficiency, dependability and economy measures internationally recognised by industry members, and applicable as fair and appropriate, and those practices, methods, or acts that, when carried out exercising reasonable judgement by those who have reasonable experience in the industry, in view of known facts at the time when a decision is made, are expected to attain the intended outcome at a reasonable cost and in accordance with the Law, dependability and safety. These sound industrial practices do not intend to be limited to the best practices, methods, or acts, excluding all others, but conform a spectrum of fair and appropriate practices, methods, and acts.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

- **Inspection Points Programme**: Document issued by the Contractor and approved by ENEL, that shows the different inspections, tests, trials, or exams to be conducted in order to fulfil the requirements of the Contract.
- **Contractor:** Legal or natural person, (including business associations, regardless of their legal structure) that enters into a Contract with ENEL.
- **Reception at Origin:** Procedure in which mandatory tests or trials for the reception of the material are carried out in the presence of ENEL technicians or the person or entity authorised by them, and within the facilities of the Contractor, its subcontractor or sub supplier, or any other entity agreed upon between both Parties.
- **Reception via Protocol:** Review of the mandatory trial protocols, previously conducted by the Contractor, by means of which ENEL technicians, or the person or entity authorised by them, approve the dispatch of the material at hand or, on the contrary, decide on the verification of the results of the said protocols resorting to the Reception at Origin Method.
- **Quality Assurance System:** System that establishes those resources, actions, activities, and requirements that the Contractor must comply with to develop efficient and adequate quality management in the execution of the object of the Contract.
- **Subcontractor:** A natural or legal person (including business associations, regardless of their legal structure) that enters into a works or service Contract or a Framework Agreement with the Contractor or with another subcontractor, in order to execute part of the works or services contracted by ENEL with the Contractor.
- **Sub supplier:** A natural or legal person (including business associations, regardless of their legal structure) that enters into a goods, equipment or materials Supply Contract or a Framework Agreement with the Contractor, a subcontractor or another sub supplier to execute part of the works or services contracted by ENEL with the Contractor.

3. LANGUAGE.

The authentic version of these General Conditions has been drafted in Spanish.

4. EXECUTION AND LEGAL NATURE OF THE CONTRACT.

4.1. The Contract is executed between the Parties through its signature. By signing the Contract, which may also be done through digital signature, the Contractor declares full and unconditional acceptance of the said Contract.

4.2. The Contract will not be renewed automatically nor tacitly extended.

4.3. In the event of Contracts or Framework Agreements that ENEL may subscribe with the Contractor for the benefit of two or more companies of ENEL Group, the Contracts that derive thereof will be individually executed between the companies of the ENEL Group that receive the service or the supply, and the Contractor or its subsidiaries or associated companies or permanent establishments located in the same country as the company of the ENEL Group.

4.4. The legal nature of the Contract is commercial and therefore the relationship between the parties is that of an exclusive commercial nature, and will be governed by its own clauses and, in all that is not provided for therein, shall be governed by the Commercial Code, specific laws and trade customs.

4.5. The relationships between the Parties to the Contract are those specific to two legal entities that are independent among themselves and independent from third parties. Unless otherwise expressly provided for in the Contract, neither Parties nor their employees will act or will be interpreted as acting as a representative, agent or proxy of the other Party, and its acts and/or omissions may not originate any relationship that binds the other Party to third parties. Furthermore, neither the execution nor the performance of the Contract may be interpreted as a relationship of association, commercial or civil company or entity, joint venture, consortium or any other risk and venture relationship shared by the Parties to the Contract.

5. INTERPRETATION AND HIERARCHY.

5.1. In the event of conflict or incompatibility among the contractual documents of the Contract, the priority and precedence shall be determined according to the following order

1º Main body of the Contract.

Patricia Álvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 83

2º ENEL's Technical-Economic documents.

3º HSE Terms.

4º General Conditions.

5.2. Should a conflict arise between the contractual documents and mandatory provisions of the governing law, the mandatory provisions of the governing law shall prevail.

5.3. It shall not be held that a Party has waived any right, power or claim provided in the Contract unless such waiver is explicitly declared in writing to the other Party. The waiver of a right, power or claim shall not imply a waiver of any future right, power and claim even where the latter are of the same nature as the former. Consequently, the temporary lack of exercise or the delay by any of the Parties of any action in defence of its rights shall not imply a final waiver by such Party to any action or to the exercise of court or out of court rights it may be entitled to in accordance with the legal statute of limitation.

5.4. In the event of any provision of the Contract being held null, such invalidity shall not affect the remaining provisions of the Contract, which may be applied without the invalid provision being in force. The Parties, considering the scope of the Contract and by mutual agreement, shall seek to amend the invalid provision in such a way that it complies with its original purpose as much as possible.

6. COMMUNICATIONS

6.1. Any communications between the Parties shall be made in writing, at the location or address and in the manner provided in the Contract. The Parties undertake to promptly report to each other any change of location and address. In the absence of such notification, communications shall be deemed effective if sent in the agreed manner to the addresses referred to in the Contract

6.2. ENEL reserves the right to use electronic procedures for the exchange of documents relating to the Contract. Unless otherwise agreed in the Contract, electronic means of communication may be used, provided that they allow the tracking of any communication

6.3. The Contractor shall abide by, and promptly give effect to all communications it receives from ENEL, without any further formalities.

7. ECONOMIC CONDITIONS.

7.1 Consideration.

7.1.1 The price of the Contract is the consideration agreed for the acquisition of materials and/or equipment and for the execution of works or services, and it considers the total value of the Contract. It includes everything necessary for the full performance of the contractual services, and everything that must be provided or performed by the Contractor, including all costs or charges apart from what is due for services and items that have been explicitly excluded and the taxes imposed by the applicable legislation.

The Contractor shall investigate all conditions and circumstances that affect or may affect the price of the Contract (including, but not limited to, the nature and characteristics of the work to be executed, the location and the environmental conditions, seismic and atmospheric conditions which prevail in the place where the Contract is performed, the presence of other Contractors, subcontractors and sub suppliers and other facilities in the aforementioned place, the conditions of the soil and subsoil, the topographic conditions, local uses, legislation and regulations, existing locations and facilities, where appropriate, the general working conditions in the place where the services and/or works will be carried out and in other places, access routes, surface conditions, rights and permits, etc.). The Contractor shall determine the adequacy of the price of the Contract in accordance with the aforementioned conditions and circumstances, releasing ENEL from any claim for increase in the price of the Contract in relation to these conditions and circumstances.

7.1.2. The total price of the Contract includes, at least, the added estimate of the following:

- Direct and indirect labour.
- Machinery and personnel involved in its use.
- Machinery depreciation.

Patricia Alvarez Chamosa
Traductora-Intérprete Jurada de INGLÉS
Nº 8391

- Consumables and non-consumables.
- Provision and use of all tools suitable for the speciality of the Contractor.
- Necessary equipment for the protection, security, and correct execution of work, as well as the costs and means for its obligations to be fulfilled as regards control, training, and information on occupational risks.
- Construction, provision, maintenance, dismantling or demolition of all the temporary facilities and auxiliary buildings which the Contractor requires for offices, warehouses, workshops, changing rooms, toilet facilities, surveillance, etc. and of any built-in compliance with the Occupational Risk Prevention Regulations.
- Transport to/from the work site, for the personnel, material, and any other means.
- Installation and authorisation of services and supplies.
- Maintenance expenses.
- Overheads and industrial profit.
- Subsistence allowance and maintenance expenses for the personnel of the Contractor and for all its agents, representatives, employees, self-employed persons, and subcontractors or sub suppliers.
- Any taxes, fees, and duties for which the Contractor is liable in accordance with the law as a taxpayer, unless these may be recovered by ENEL.
- Expenses for the Contractor which derive from programming, inspections and trials, material control, execution control, tests, acceptances, and other analysis.
- Full performance of the purpose of the Contract in accordance with the applicable laws and regulations, with the Technical Specifications and other contractual documents.
- Costs for formalizing and maintaining the financial guarantee, insurance, and other guarantees, where appropriate.

7.1.3 The prices shall be broken down, specifying the price of the services, the price of the materials, and also the relevant taxes pursuant to the applicable legislation.

7.1.4 The Contractor shall assume any additional cost for freightage, carriage and other expenses derived from non-fulfilment of the delivery and dispatch conditions stipulated in the Contract and in these General Conditions.

7.1.5 ENEL shall not pay for any materials, equipment, or work outside the Contract unless the delivery or execution of the aforementioned has been previously offered by the Contractor, in writing and expressly indicating its price, and this must be accepted, also in writing, by a representative of ENEL who is duly authorised to do so.

7.1.6 The Contractor is liable for any extensions, amendments, and reductions to the scope of the Contract, to the agreed prices, provided that the aforementioned do not represent, as a whole, an increase or decrease of over twenty per cent (20%) of the amount of the Contract. The new delivery date, where appropriate, shall be established by mutual agreement of both Parties, at the reasoned proposal of the Contractor.

7.1.7 Where the extensions, amendments or reductions proposed by ENEL, motivated by a justified reason, represent, as a whole, an increase or decrease of over twenty per cent (20%) of the amount of the Contract, the Contractor may accept or reject these, however in the case of the latter, ENEL shall have the right to terminate the Contract.

7.1.8 In the event that an additional scope must be executed which is not initially stipulated in the price table of the Contract, the price for this scope shall be determined between ENEL and the Contractor, at the proposal of the latter, which must be duly justified, based on the breakdown of costs of other similar units for which there is a fixed unit price.

7.1.9 The negotiation of the price of the additional scope shall be independent of this scope being observed, and the Contractor undertakes to execute it immediately after having received the request from ENEL.

7.1.10 At the previous and express request of ENEL, the Contractor shall include a unit price scale in its offer, where considered necessary by ENEL, throughout the performance of the Contract, the execution of the Contractor of labour units, services, or additional supplies, which are not initially stipulated in the scope of the Contract (administration prices). The aforementioned prices, once they have been agreed on by the Parties and incorporated into the Contract, shall include the same concepts as those defined in clause 7.1.2. and they shall be applied when it is not possible to set a price for the additional scope or in cases deemed necessary by ENEL.

7.2 **Price Change.**

The prices are fixed and unchangeable. A price change may occur if provided in the Contract or where required by the applicable law.

Patricia Alvarez Chamosa
Traductora-Intérprete Jurada de INGLÉS
Nº 8391

7.3 **Invoicing.**

7.3.1. Before issuing an invoice, the Contractor shall request prior consent of ENEL in relation to the services, supplies or works provided, delivered, or performed by the Contractor. ENEL shall not deny or delay such consent without reason.

7.3.2. Invoices must be valid, and ENEL shall only accept them if they contain all information required by the Contract and by the applicable regulations, and only if the activities or supplies covered by the Contract have been duly carried out. Invoices not referring to the specific Contract number shall neither be accepted nor considered in order to compute the date of their receipt. Even where the Contract provides the payment of invoices in different currencies, any single invoice must be issued under a single currency.

7.3.3. In the event that the Contract allows invoicing in a different currency to that primarily established in the same, the Exchange rate applicable to calculate the amount invoiced shall be determined using the date of payment of the same.

7.3.4. ENEL may return to the Contractor those invoices that:

1. are not reporting information or data required by the Contract or the applicable law.
2. contain items not authorised by ENEL.
3. are issued in a currency other than that provided in the Contract.

In case of return of an invoice, ENEL shall specify the grounds for returning invoices. The return an invoice excludes the original receipt date of the former.

7.3.5 The following items must be broken down within the same invoice:

a) Potential scopes agreed upon with the prices provided in section 7.1.10. as a compliment to what was initially agreed to in the Contract.

b) Increases as a result of applying Price review formulas to the prices provided under the Contract. In this case it shall be necessary to provide proof of the value of the indexes applied, and details of the application of the relevant review formula.

7.3.6. Should an invoice be lost, the Contractor may issue a duplicate, provided that this is original and that it states, "Duplicate based on loss of the original".

7.3.7. The invoice may not have an earlier date to the provision of services or the reception of the material or equipment or to that provided for in the Contract.

7.3.8. All the invoices and, where applicable, their supporting documentation, must be sent to one of the following addresses according to the format of the invoice:

- AUTOMATIC INVOICE:
Preferred invoicing means with ENEL Group that is processed through the DRAPE application, that can be accessed through the Webuy procurement portal: https://webuy-gp.enel.com/esop/guest/login.do

- PDF INVOICE. NON-CHANGEABLE:
File is uploaded through the DRAPE application, that can be accessed through the Webuy procurement portal: https://webuy-gp.enel.com/esop/guest/login.do

- PAPER INVOICE, VIA ORDINARY MAIL:
ENDESA
Centro de Servicios Administrativos Iberia
Ribera del Loira, 60
28042 MADRID – ESPAÑA

7.3.9. In the case referred to under sub-clause 4.3., where the Contractor refers to its subsidiaries or associated companies or permanent establishment in the Country where the ENEL Group companies are established, the performance of the Contract purpose as well as the relevant invoicing must be provided directly by the subsidiaries, associated company, or its permanent establishment in the same Country in which the ENEL Group company is located.

7.4. **Payment Conditions.**

7.4.1. Subject to prior review and approval by ENEL as regards compliance by the Contractor with all the contractual terms, invoices received shall be paid within the deadline provided in the Contract in accordance with the legislation in force.

Patricia Alvarez Charrosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

7.4.2 The Parties agree that in the event of delay in payment by ENEL for reasons solely attributable to ENEL and upon written and reasonable request, it shall pay the Contractor, an additional amount as penalty interest of three per cent (3%) of the amount due.

7.4.3 All payments carried out prior to Provisional Acceptance or delivery, in accordance with the Contract provisions, shall be considered payments on account of the final price.

7.4.4 Save for exceptions previously approved by ENEL, payments shall be made to the Contractor via bank transfer.

7.4.5. The Contractor commits to providing all details of its bank account to ENEL. The Contractor is obliged to inform ENEL immediately of any change in its tax information and general information (such as: VAT number, address, company name, etc.) and any change of ownership/corporate shareholding. Failure to communicate the above information may result in the suspension of payments of invoices that contain data that is not up to date.

7.4.6. The payment of the invoiced amount(s) shall not imply that ENEL has acknowledged that the Contract has been properly performed by the Contractor or that ENEL has waived its rights and claims against the Contractor, as any payment is made without prejudice to any future right or claim.

7.4.7. ENEL shall be entitled to compensate the amounts to the Contractor, in the amount that the latter has monies payable to ENEL or any other companies of the ENEL Group.

7.4.8. Should ENEL confirm that the Contractor is in breach of any of its obligations and this may generate joint or subsidiary liability or any other direct action against ENEL, regardless of the termination of the Contract taking place or not, and as soon as such circumstances are known to ENEL, it may retain all sums that may be pending payment to the Contractor in any concept, in the amount sufficient to cover the said liabilities, being able to even pay for the said obligations on its own account if permitted by the law. This right to retention and payment on account of the Contractor will be extended to all damages derived from the breach or guarantee of the Contract, or any other case in which ENEL could be liable.

8. TAX.

8.1. The prices fixed in the Contract are inclusive of taxes, duties, and charges. The taxes, duties and charges resulting from the Contract that are applicable in any of the jurisdictions where the Contractor and ENEL have their tax residencies shall be paid, withheld, or discounted from the price by each one according to the law applicable.

8.2. The Parties mutually undertake to fulfil all requirements and procedures and to deliver all documents necessary for the proper payment of taxes and invoices, including withholdings and similar duties that may be due according to and in compliance with the legislation in force. Similarly, the Parties undertake to cooperate in order to obtain exemptions or other tax benefits applicable to the Contract purpose. If, due to a lack of diligence or any other cause attributable to the Contractor, ENEL loses an entitlement to a tax benefit, it may discount the amount of the tax benefit it has not been able to profit from the agreed price, provided this is proven by any means admissible by law.

8.3. The Contractor will furnish ENEL with a Certificate issued by the Spanish Tax Authorities certifying that its taxes are paid up to date as per 43.1.f) of the General Tax Law. The certificate shall be delivered prior to the signing of the Contract and date of the first payment. In those Contracts where the term is over one (1) year, the certificate shall not only be issued with the signing of the Contract but also subsequently on an annual basis. Where a certificate has not been issued or the certificate provides that there are amounts due, payment to the Contractor shall be suspended by ENEL until the Contractor provides a certificate showing it is up to date with its payments.

8.4. If ENEL is required to make deductions from payments due to the Contractor, and where the latter so requests, ENEL shall subsequently issue a certificate with the referred deductions applied and more specifically in relation to the amounts paid and amounts withheld.

8.5. Where the Contractor has its residence in Spain, it will review, with ENEL, if the terms and conditions of the Contract entail a distinguishing treatment in order to apply the reverse charge mechanism in indirect taxes that may be applicable in accordance with the legislation in force at the time of the accrual of the operations, which will entail that the Contractor shall issue its invoices leaving out indirect taxes.

8.6. If the Contractor does not have its residence in Spain, in the event of the existence of a Convention on the elimination of double taxation in force signed between the country of residence of the Contractor and Spain, and the Contractor calls for the application of any of its provisions, it shall provide ENEL with the relevant residency certificate proving that it is a tax resident in its country for the purposes of the provisions of the Convention at hand, and the qualification of the rent will be granted by Spain. The certificate must be provided with the first invoice issued and/or as soon as ENEL requests the same. Should the certificate expire while the Contract is still in force, the Contractor must provide ENEL with a new certificate to enable the Convention to apply.

8.7. Should equipment or materials be shipped from abroad in Contracts performed in the DDP modality (Incoterms ICC 2020), taxes will be paid as follows:

a) The Contractor will pay all taxes and charges that may apply to the goods at the country of origin and those that may apply at countries of transit for the said goods until final delivery, as well as

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

the taxes charged at the country of destination that are payable according to the financial benefits obtained for the sale of the said goods.

b) The Contractor, in addition, shall pay the customs tariffs and taxes on imports or their equivalent at the country of destination, as well as other official customs dispatch expenses regarding the imported materials and/or equipment, except where otherwise agreed upon with ENEL.

8.8. Taxes on national materials or equipment will be paid by ENEL or by the Contractor, in accordance with the legislation in force.

9. PERFORMANCE.

9.1. Introduction.

9.1.1. The Contractor, if required by the Contract, shall be obliged to appoint, and maintain, throughout the performance of its activities pursuant to the Contract, one or more representatives with full authority to discuss technical and economic matters, with particular reference to safety and occupational health, labour law and work-related social obligations, and respect for the environment.

9.1.2. ENEL reserves the right, during the performance of the Contract, to object said representative(s) for good reason. In such a case, the Contractor shall be obliged to appoint a different representative(s) within ten (10) working days, unless otherwise provided in the Contract.

9.1.3. ENEL undertakes to provide, upon request of the Contractor, all necessary information for the performance of the activities covered by the Contract. Where the data provided by ENEL is insufficient or incomplete, the Contractor undertakes to request missing information in good time.

9.1.4. ENEL has the right to check and verify the exact performance of the Contractor of all obligations under the Contract and in compliance with all instructions issued by ENEL, the proper and timely performance by the Contractor of all activities necessary for the fulfilment of the Contract in accordance with the terms and conditions set forth in the same Contract.

9.1.5. Without prejudice to its right to terminate the Contract, if ENEL, at the outcome of said checks and inspections, in any manner and at its sole discretion, determines that the Contractor has operated in breach in the exact performance of the Contract – this may include only errors or inaccuracies – the Contractor must remedy the deficiencies at its own expense; no contractual deadline will be postponed while the Contractor remedies its deficiencies, and in addition, ENEL shall reserve its right to claim the Contractor for any damages suffered.

9.1.6. ENEL reserves the right to request to the Contractor, at any time, the anticipation of all or part of the performance object of the Contract and the right to evaluate a possible recognition of a financial bonus. ENEL may request the advance by means of a specific written request and the Contractor will communicate its consent, always in writing, expressly accepting the new deadline requested by ENEL. It is understood that the ENEL advancement request does not produce an automatic recognition of the financial bonus, even where specifically accepted by the Contractor. The recognition of the financial bonus, to the extent provided in the contract, remains subject to the specific acceptance of ENEL and subject to the aforementioned anticipation being carried out by the Contractor in full compliance with all its legal and contractual obligations, especially in the field of work, health, and safety. No bonus can be recognised if penalties have been applied to the Contractor during the execution of the contract

9.2. Inspections, tests, and trials.

9.2.1. ENEL may carry out inspections of the materials or equipment covered by the Contract at any stage of their manufacture, including the works or services contracted, as well as the materials or equipment that the Contractor uses to implement these. Such inspection may be performed through its own staff or through the persons or entities appointed for such purpose, both in the Contractor's works, offices, factories, workshops, or warehouses as well as those of its subcontractors. To this effect, ENEL inspectors shall have free access to the aforementioned premises and the Contractor must provide access where required. ENEL and/or the personnel or bodies designed for this purpose, must observe the relevant policies of the relevant facilities. The Contractor is authorised to restrict ENEL's access to its intellectual property and/or confidential information, expressly classified as such in the Contract, provided that the Contractor grants ENEL access to all the information required in order to correctly carry out inspections, trials or tests.

9.2.2 Where inspections, trials or tests are provided in the Contract, without prejudice ENEL's right to inspections, the Contractor undertakes to perform, by its own means, all the agreed tests and inspections which must be carried out in accordance with the applicable standards and the administrative regulations or regulations which are generally applied. The Contractor shall inform ENEL in writing of the date on which the aforementioned will be carried out, at least ten (10) days in advance. Likewise, the Contractor shall announce the results of the tests or trials performed and shall include them in the relevant certificates or protocols for ENEL, even if they have been carried out in the presence of ENEL's inspectors or representatives.

9.2.3. The Contractor may not start or stop any manufacturing, construction or assembly phase, or dispatch materials before the inspections and tests have been satisfactorily completed, when preventive inspections and tests are required or before express authorisation has been given in writing by ENEL, or unless ten (10) days have lapsed once notification has been given by the Contractor of the inspection and trials, where ENEL has not given instructions otherwise.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
8391

9.2.4. ENEL may perform tests or inspections in addition to those provided in the Contract, where it deems necessary. If these tests show a positive result, any additional costs that may be incurred shall be borne by ENEL. If the results are negative, the costs shall be borne by the Contractor.

9.2.5. The performance of inspections, tests or trials with a positive result does not mean that the purpose of the Contract has been performed entirely as agreed, nor that it must be accepted accordingly by ENEL, nor does it exonerate the Contractor from any liability that may concern it.

9.2.6. The absence of a claim on the part of ENEL as regards the performance of the Contract, even following the aforementioned check and control activities, shall not entail a limitation to the liability of the Contractor if it does not fulfil the contractual obligations, even if this non-compliance is subsequently determined.

9.2.7. Where the results of the inspections, tests or trials performed show that any of the provisions of the Contract has not been fulfilled, ENEL may request the replacement or restoration of materials, equipment or works, the cost of which must be borne by the Contractor, and this shall be free of charge for ENEL. In the event that ENEL requires materials to be replaced, the aforementioned must be identified clearly and the Contractor may not use them in the execution of the contractual activities.

9.2.8. The duration and conditions for the performance of inspections, tests and trials which are carried out may not, under any circumstances, be referred to by the Contractor as a cause of or justification for delay in the delivery date, which is specified in the Contract, unless ENEL is solely liable without just cause for the delay in the performance of the aforementioned, and said delay is not covered by the provisions of the Contract.

9.2.9. Without prejudice to the foregoing, as regards Contracts that include tests or trials, these tests or trials shall be performed in full compliance with the Inspection Points Programme which is prepared by the Contractor and approved by ENEL.

9.2.10. As an alternative to physical access to the sites, offices, factories, workshops, or warehouses, at the request of ENEL, the Contractor and its subcontractors or sub suppliers shall allow and facilitate remote inspections or tests to be carried out. The Contractor or its subcontractors or sub suppliers shall make the connection system available to ENEL (for example, video conference, smart glasses, webcam, etc.) and shall allow a video of the inspections/tests to be transmitted, documentation to be revised and both local and remote participants to interact with each other.

9.3. **Quality Control.**

9.3.1. Quality Control comprises the set of actions, activities and techniques required to furnish ENEL with the necessary reliance that the material, equipment, or service subject of Contract shall reasonably comply with the standards required by ENEL and, where applicable, with the relevant regulations and technical standards.

9.3.2. The Contractor shall be solely liable for Quality Control, regardless of the controls and tests performed or required by ENEL through its own means or those of a third party, which, if carried out, shall not alter the responsibility that is exclusively borne by the Contractor.

9.3.3. Before starting the manufacturing process, or providing the works or services contracted, the Contractor shall, upon request by ENEL for the latter's approval, issue a Quality Control Plan (as per ISO 10.005 or similar) that will include the Inspection Points Program, as well as a list of applicable operations and proceedings. Once the referred Quality Control Plan has been issued, ENEL may file allegations to this within fifteen (15) working days, provided this is based on justified grounds, and the Contractor undertakes to modify this with due diligence, making the necessary corrections according to the allegations raised by ENEL.

9.3.4. During the performance of the Contract, the Contractor shall ensure strict observance with the provisions contained in the Quality Assurance System and the Quality Control Plan endorsed by ENEL who reserves the right to perform any audits necessary to verify the referred compliance. Upon end of Contract performance, the Contractor shall provide ENEL with a final Quality Control report for approval, a Quality Control report that must be in accordance with the provisions of the Contract and Quality Control Plan endorsed.

9.3.5. In the event that there is intention to discontinue products by the Contractor, ENEL may request the Contractor to deposit the technical documentation necessary for the manufacture of the said materials and equipment covered in the Contract before a Notary Public, making this available to ENEL.

9.3.6. Fulfilment of the aforementioned Quality Control terms does not, under any circumstance, release the Contractor from any liability for incorrect contract performance.

9.4. **Terms of delivery and receipt.**

9.4.1. <u>Introduction.</u>

9.4.1.1. Deliveries, including partial deliveries, must be made on the dates or by the deadlines specified in the Contract

9.4.1.2. If a fixed deadline is not provided in the Contract and only a term for completion, or delivery is established, such term shall begin to run from the date provided in the Contract or in the Letter of Intent, where applicable.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 4391

9.4.1.3. The advance of the completion date or the reduction of the contractual term are admitted only upon express consent by ENEL. In such a case, the aforementioned authorisation shall not determine an earlier payment from ENEL of all or part of the consideration.

9.4.1.4. The termination date may not be delayed, nor may the terms for execution or delivery be postponed or extended, unless for reasons attributable to ENEL or as result of Force Majeure.

9.4.1.5. The Contractor undertakes, at its own expense, to implement any mean reasonably available to compensate, as far as possible, for any delay on the contractual deadlines and terms, even where such delay is justified.

9.4.1.6. Under no circumstance -even where a dispute resolution is pending- may the Contractor voluntarily suspend or delay the performance of the Contract. In the event of breach of the foregoing, ENEL reserves its right to terminate the Contract, without prejudice to its full entitlement to seek indemnity for the damages potentially suffered.

9.4.2. Materials and/or equipment.

9.4.2.1. With each delivery, the Contractor must attach all the final technical documentation as well as the protocols of the trials provided in the Specifications, in the Main body of the Contract and the rest of the ANNEXES and, where applicable, in the relevant technical standards. In addition, the Contractor must certify, where requested by ENEL, that the design, raw materials, materials and the brands and types of components used in the performance of the Contract are identical to those formerly approved.

9.4.2.2. To carry out delivery, the Contractor shall issue ENEL, with reasonable notice, for the attention of the contact person provided in the Contract, the Dispatch note containing at least the following:

- Reference number of the Contract.
- Number of packages sent, providing the content of the same.
- Express indication, in the event that it is the last delivery.
- Details of the transport means used and the company performing this with information and the telephone number of the contact person of that company.

9.4.2.3. The Contractor shall immediately notify ENEL any circumstance that could change the delivery terms agreed and/or previously notified.

9.4.2.4. As regards materials or equipment subject to Quality Control, and unless otherwise agreed, the Contractor shall not proceed to dispatch of the same until it has the Authorisation to Dispatch following the Receipt by protocol or Receipt at origin issued by ENEL. Exceptions include the supplies that are included in a Concerted Quality regime. If the Contractor proceeds to dispatch without complying with the referred requirements, all costs arising from the same shall be borne by the Contractor.

9.4.2.5. Unless otherwise provided in the Contract, the delivery of materials and equipment shall be carried out in accordance with mode DDP (ICC Incoterms 2020) at the destination point established in the Contract. The terms shall be interpreted according to the Incoterm as regards delivery, ownership, insurance, etc., unless it is contrary to the relevant provisions in the Contract.

9.4.2.6. Without prejudice to the delivery date provided in the Contract being considered duly fulfilled by the Contractor on the delivery date provided in the Contract, ENEL reserves the right to delay any dispatch or expedition of materials or equipment. The price agreed in the Contract includes storage costs and insurance on the part of the Contractor, in compliance with sound market practice, during the month that follows the delivery date provided in the Contract. If the delay in dispatch or expedition were to be extended for a longer period, in excess to the referred month, then the Parties shall mutually agree on the relevant compensations due, where appropriate, based on additional storage and insurance costs.

9.4.2.7. Where the materials or equipment do not require tests or trials and final recognition, then the effective delivery of the materials and equipment by the Contractor, with ENEL's approval and according to the Contract provisions, entails the transfer of ownership to ENEL as well as the risks associated to entitlement and possession, including the risks of loss and damage, and the start of the Warranty Period. This is without prejudice to the liability that still remains on the Contractor based on eviction, hidden defects or any other liability that may be allocated according to the law applicable.

9.4.2.8. Subsequently, the expiry of the Warranty Period, with ENEL's approval and in accordance with the Contract provisions, entails final acceptance by ENEL of the materials and equipment purchased. Again, this is without prejudice to the liability that still remains on the Contractor based on eviction, hidden defects or any other liability that may be allocated according to the law applicable.

9.4.2.9. When the materials and equipment require tests or trials and final recognitions, and once received by ENEL, and are in compliance with all the terms or activities provided in these Conditions as well as the Contract, a Provisional Receipt shall be carried out and subsequently a Final Receipt according to the terms provided in section 9.4.3 however the deadlines provided in sections 9.4.3.1.1 and 9.4.3.2.1 shall be reduced to eight (8) calendar days.

9.4.2.10. Where the materials or equipment require assembly in an installation in order to check fitness and operation, it shall be understood as jointly performed with Provisional or Finales Reception of the installation.

Patricia Álvarez Charnosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

9.4.3. Works and/or services.

9.4.3.1. Provisional Acceptance.

9.4.3.1.1. With sufficient notice, the Contractor shall inform ENEL of the date on which the execution of the work or service subject to the Contract shall come to a complete end, in order for the date (day and time) to be set by mutual agreement for Provisional Acceptance to be executed, and this date may be no later than thirty (30) calendar days from the execution of the work or service being completed.

9.4.3.1.2. On the day set for Provisional Acceptance to be executed, the ENEL representative, in the presence of the representative of the Contractor, shall proceed to examine the state of the work or service contracted and to check that the applicable legislation, technical regulations and obligations included in the Contract are complied.

9.4.3.1.3. Provisional Acceptance shall be executed once the specific tests have been performed to the satisfaction of ENEL and once it has been confirmed that the work or service subject to the Contract has been carried out correctly. In this case, ENEL shall prepare the Provisional Acceptance Certificate, which must be signed by both Parties. The signing of this Certificate means that the works or services contracted have been delivered and made available to ENEL, and property, as well as the risks inherent in ownership and possession, have been transferred, including the risks of loss and damage, and the start of the Warranty Period, all of the foregoing without prejudice to the enduring liability of the Contractor for encumbrances, hidden faults or any other liability that may be enforced on the aforementioned in accordance with the applicable legislation.

9.4.3.1.4. In the event that the examination of the work or service contracted were not satisfactory at the discretion of ENEL, or the established tests were not passed, ENEL shall prepare an Inspection Certificate for the works or services, which shall include any defects detected and the deadline for these to be repaired by the Contractor, which must be solely and exclusively borne by the aforementioned. Where the Contractor wishes to express its disagreement with any technical or financial aspect, it shall do so with well-founded reasons in the Certificate itself.

9.4.3.1.5. Once the set period has come to an end, the appropriate examination and tests shall be carried out. If ENEL finds these satisfactory, the Provisional Acceptance Certificate shall be signed. Otherwise, a new Inspection Certificate shall be prepared, indicating the defects detected and ENEL may choose to terminate the Contract due to non-compliance by the Contractor, or grant the aforementioned a new period for defects to be repaired, which must be solely and exclusively borne by the Contractor, in both cases without prejudice to the power of ENEL to proceed to claim for damages and/or enforce any financial guarantee which may have been given by the Contractor.

9.4.3.1.6. Any additional periods granted to the Contractor by ENEL to repair any deficiencies detected when executing Provisional Acceptance do not constitute an extension of the contractual periods and, consequently, the Contractor shall be liable for any penalties and damages incurred as a result

9.4.3.2. Final Acceptance.

9.4.3.2.1. With sufficient notice, the Contractor shall inform ENEL of the date on which the Warranty Period will come to an end, in order for the date (day and time) to be set by mutual agreement for Final Acceptance, and this date may be no later than thirty (30) calendar days from the aforementioned communication being received by ENEL, or before the end of the Warranty Period.

9.4.3.2.2. On the day set for Final Acceptance to be executed, the ENEL representative, in the presence of the representative of the Contractor, shall proceed to examine the state of the work or service contracted and to check that the applicable legislation, technical regulations, and obligations included in the Contract are observed.

9.4.3.2.3. ENEL shall express its agreement by signing the relevant Final Acceptance Certificate, which must be signed by both Parties, and where the fulfilment of all obligations of the Contractor shall be recorded. The signing of this Certificate signifies the final acceptance by ENEL of the works or services contracted, without prejudice to the enduring liability of the Contractor for encumbrances, hidden faults or any other liability that may be enforced on the aforementioned in accordance with the applicable legislation.

9.4.3.2.4. In the event that ENEL were to observe minor defects, it may also sign the Final Acceptance Certificate, indicating said defects in the same, the deadline for these to be corrected by the Contractor, which must be solely and exclusively borne by the aforementioned, the conditions of the financial guarantee in order to ensure the effectiveness of the repair and the period in which the Contractor must perform these. Where the Contractor wishes to express its disagreement with any technical or financial aspect, it shall do so with well-founded reasons in the Certificate itself.

9.4.3.2.5. In the event that the set period was to end without the defects having been repaired, ENEL may terminate the Contract due to non-compliance of the Contractor or grant the aforementioned a new period for defects to be repaired, which must be solely and exclusively borne by the Contractor, in both cases without prejudice to the power of ENEL to proceed to claim for damages and/or enforce any financial guarantee which may have been given by the Contractor.

9.4.3.2.6. Where the Contractor does not witness the Final Acceptance procedure, despite having been called to do so, the Certificate which has been prepared by ENEL shall have the same effects as if it had also been signed by the Contractor.

Patricia Álvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

9.5. **Transfer of property and risk.**

9.5.1. Materials and/or equipment.

9.5.1.1. Unless otherwise stipulated in the Contract, the materials and/or equipment, duly packed in accordance with the Contract, shall be considered for all effects and purposes to belong to ENEL when accepted by the aforementioned in the place and pursuant to the agreed conditions and/or in the warehouses, offices and/or plants of ENEL. Where provided, unloading shall be carried out under the responsibility of the Contractor, with the aforementioned bearing any expenses derived from this.

9.5.1.2. Without prejudice to the foregoing, the Contractor authorises ENEL to take possession of the materials and/or equipment, in full or in part, from the moment they enter into a site or facilities belonging to ENEL and it authorises ENEL to make use of them as may be required, including working, assembling or carrying out other jobs on them or with them, and incorporating them into the site or facilities of ENEL, unless this authorisation is expressly limited to ENEL for justified reasons. Where authorised to do so, ENEL may use or incorporate these materials and/or equipment into its operating processes, making the result of this process its own.

9.5.1.3. Until the risks are transferred to ENEL, the Contractor shall have valid insurance with appropriate cover for the materials and equipment, even if these are already in the possession of and used by ENEL.

9.5.2. Works and/or services.

9.5.2.1. Unless otherwise provided in the Contract, the results of the works and/or services subject to the Contract shall belong to ENEL upon the signing of the Provisional Acceptance Certificate.

9.5.2.2. Without prejudice to any rights which correspond to the State by law, or to third parties, ENEL, reserves the possession and property of all types of findings in any excavations and demolitions which take place on its land, as well as usable mineral substances. In this case, the Contractor must use all precautions necessary, or any indicated by ENEL. ENEL shall pay the Contractor the excess of activities and/or extraordinary expenses brought about by this work, in addition to applying an extension to the period for performance, where necessary.

9.5.2.3. Without prejudice to the clauses included in the preceding sections, ENEL reserves the right to request at any time that the Contractor, which shall undertake to fulfil this requirement, unless there is a justified reason for not doing so at the discretion of ENEL, transfer the ownership of the works, facilities, materials, and equipment included or present in the work site. In this case, the Contractor may continue to carry out its activities and it shall still be liable for any installation risks until the Final Acceptance Certificate is signed.

9.5.2.4. Until the risks are transferred to ENEL, the Contractor shall have valid insurance with appropriate cover for the results of the results of the works and/or services subject to the Contract, even if these are already in the possession of and used by ENEL.

9.5.3. Fault and defects.

The Contractor shall be liable for any apparent or hidden faults, damages, flaws, or defects which emerge or are confirmed in the performance of the Contract or during the Warranty Period, and until the end of the period stipulated by the legislation in force, with the exception of legal liabilities or liabilities of any other nature that may arise. In the case of mass or serial defects, the Contractor must replace or carry out all necessary work again, without needing to wait for the defect to appear in all services or supplies.

10. SUBCONTRATACTING AND SUBSUPPLYING.

10.1. The Contractor may not subcontract or sign any sub supplier agreements for all or part of the performance of the Contract unless express authorisation has been granted by ENEL beforehand.

10.2. The Contractor may subcontract up to a percentage of forty-nine per cent (49%) of the total amount of the Contract, unless a different percentage is provided for in the Contract.

10.3. Only one level of subcontracting is permitted, except in cases where the applicable law provides otherwise. The requirements and limitations in relation to levels of subcontracting shall be governed by the provisions of the Contract and Spanish legislation.

10.4. Where appropriate, the Contractor shall provide ENEL with a list of possible subcontractors and sub suppliers, and the activation planning of the aforementioned; such list and the relevant activation planning may be subsequently updated. The Contractor may not sign any subcontractor or sub supplier agreements with any natural person or legal entity outside the aforementioned list, and which has not been previously approved by ENEL in writing. The request for approval shall be sent to ENEL at least thirty (30) calendar days before the estimated start date for the work of the subcontractor or sub supplier. The request for approval must include the following details:

(i) Information on the subcontractor or sub supplier.

(ii) Start/end date for the work of the subcontractor or sub supplier; and

Patricia Álvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

(iii) Part of the scope of the Contract which is requested to be subcontracted (type, volume, countries) or performed by means of sub supplying.

10.5. As a requirement for being approved by ENEL, the Contractor shall request that the subcontractor or sub supplier regularly register in the ENEL Global Procurement Portal.

10.6. Under no circumstances may a contractual relationship be established between the subcontractors or sub suppliers of the Contractor and ENEL, and the Contractor shall always be liable for all activities of the aforementioned subcontractors or sub suppliers, and for the fulfilment of their contractual, legal and tax obligations, as well as any damages caused to ENEL by any of its subcontractors or sub suppliers, by its agents, advisers, and workers.

10.7. ENEL shall not be held liable for any subcontractor, or for any of its personnel, for any claim directly or indirectly resulting from the Contract, with the exception of the provisions of art. 42.3 of the Law on Occupational Offences and Sanctions [*Ley sobre Infracciones y Sanciones en el Orden Social*] in relation to art. 24.3 of the Occupational Risk Prevention Act [*Ley de Prevención de Riesgos Laborales*] , by means of which the Contractor undertakes and is liable to ENEL to carry out everything within its power to prevent these claims from being filed and/or processed.

10.8. The Contractor must obtain the express and written waiver of the subcontractor or sub supplier of the direct action governed by article 1.597 of the Civil Code [*Código Civil*] and submit this to ENEL. Any failure of the Contractor to obtain and submit this waiver to ENEL shall authorise ENEL to terminate the Contract due to breach, without prejudice to any other legal action that may be applicable.

10.9. The Contractor shall be held liable for ENEL and shall hold the aforementioned harmless from any legal or non-legal action, or proceedings conducted against ENEL by any subcontractor, or by its personnel with the exception of the provisions of art. 42.3 of the Law on Offences and Sanctions of a Social Nature *[Ley sobre Infracciones y Sanciones en el Orden Social]* in relation to art. 24.3 of the Occupational Risk Prevention Act *[Ley de Prevención de Riesgos Laborales]*. This indemnity must be considered independently and without prejudice to the Government or the Courts hereto imposing other sanctions or liabilities, pursuant to the legislation in force.

10.10. The aforementioned indemnity shall affect both the amount payable by ENEL, as well as any type of expense or cost incurred by ENEL as a result of this claim. In particular, in the event that a court or out of court claim is filed against ENEL, either by virtue of article 1.597 of the Civil Code [*Código Civil*], or originating from the workers of the Contractor or of its subcontractors, agents or advisers, ENEL shall be authorised to withhold the appropriate amount, applicable to any sums owed by ENEL or applicable to the financial guarantees provided by the Contractor which are in the possession of ENEL, in order to cover the claimed principal, in addition to any amounts which are prudentially estimated for interest, expenses and costs. Failure of the Contractor to fulfil the provisions in this section shall be considered a material breach and shall authorise ENEL to terminate the Contract due to non-compliance by the Contractor, without prejudice to any other legal action to which ENEL may be entitled.

10.11. The Contractor undertakes to obtain from the subcontractor and from the sub supplier express acceptance in writing of the obligations as regards ENEL concerning the Contractor, of all the contractual, legal, labour, confidentiality and safety conditions, and the relevant supporting documentation must be submitted to ENEL.

10.12. ENEL may at any time inspect and supervise the work or products of the subcontractor or sub supplier, and the fulfilment of its obligations, in relation to the performance of the Contract. The subcontractor or sub supplier undertakes to fully cooperate with ENEL as required for the performance of the aforementioned (documentation, reports, unrestricted access to its factories, workshops, or facilities, etc.).

10.13. During the performance of the Contract ENEL reserves its right to reject any subcontractors or sub suppliers which it does not deem appropriate to maintain based on well-founded reasons.

11. ASSIGNMENT.

11.1. Assignment of receivable and payables.

11.1.1. ENEL may, with the sole condition of notifying this to the Contractor, assign its receivable rights and payment obligations under the Contract in favour of any company part of ENEL Group.

11.1.2. The Contractor may not assign receivable rights and payment obligations under the Contract in favour of any natural or legal person, without prior express authorisation from ENEL.

11.2. Contract Assignment.

11.2.1. ENEL may, with the sole condition of notifying this to the Contractor, assign its rights and duties under the Contract in favour of any company part of ENEL Group. In the event that assignment by ENEL is performed in favour of any other natural or legal person different to those provided in the preceding paragraph, ENEL must obtain prior express authorisation from the Contractor.

11.2.2. The Contractor may not assign its rights and duties under the Contract in favour of any natural or legal person, without prior express authorisation from ENEL. Such authorisation request to ENEL shall include express acceptance from the proposed assignee of the duties it is to acquire before ENEL in relation to the contractual terms

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

(legal, labour, confidentiality, security-related etc.), and it is indispensable to provide ENEL with the relevant supporting documentation.

12. CONTRACTOR'S OBLIGATIONS AND RESPONSIBILITIES.

12.1. The Contractor is fully liable for everything that is necessary to perform the Contract, and in any case for everything that is allocated as its duty under the Contract, and in particular, for the following:

- carrying out inspections, testing and checks required by the Contract and applicable regulations, as well as all of all costs arising therefrom.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

- processing and obtaining visas, authorisations, and licenses necessary for the performance of the Contract, except those that are under the responsibility of ENEL by provision of law.
- organising its personnel, employed in various capacities in the performance of contractual activities, provided that at all times the Contractor's responsibility is clearly identified and separated from that of ENEL.
- the appointment of a person in the Contractor's own organisation to act as ENEL'S referring individual during the performance of the Contract.
- correctly perform the tasks required to execute the Contract bearing all its associated costs.

12.2 The Contractor shall perform the Contract in accordance with the provisions herein, reasonable market practice, the laws and regulations required by the relevant Authorities. The Contractor must carry out strict quality controls and shall only instruct especially qualified staff for the performance of the Contract.

12.3 The Contractor shall liaise with ENEL and those third parties designated by ENEL and shall endeavour- as much as possible from a commercial perspective- to schedule, coordinate and perform the Contract with the aim of not delaying or prejudicing its relevant performance and termination. The Contractor shall liaise with the aforementioned third parties in the same way that the Contractor is obliged to cooperate with ENEL by virtue of the Contract.

12.4. The Contractor shall be liable for compliance with legal and tax obligations as well as contractual duties with its Contractors and subcontractors or sub suppliers.

12.5. Where the Contractor is comprised of two or more entities, each of them is jointly and severally obliged to comply with all provisions of the Contract and performance of the Contract in accordance with the applicable legislation.

12.6. The Contractor is obliged to avoid any situation that could give rise to conflicts of interest and therefore must take all necessary measures for their prevention and identification, and it has to immediately inform ENEL of any conduct that may give rise to a conflict of interest.

12.7. The Contractor is liable for immediate payment of all the costs borne by ENEL (including lawyer fees and court agent fees, provisions of funds for both, certificates, authorisations, charges, expenses, guarantees or surety insurance or legal deposits to file challenges or those that may otherwise be required or necessary in any way, etc.) by reason of its legal defence before administrative acts, out of court or pre-judicial claims and judicial claims of any sort and division addressed to ENEL, including actions brought by the Contractor's staff or its subcontractors, sub suppliers or assignees against ENEL, as well as employees, subcontractors, sub suppliers and self-employed workers from the same, third party claims or from any other that may be considered as directly or indirectly arising from the Contractor's performance of the Contract. The duty to pay representation and defence costs undertaken by the Contractor is not conditional upon ENEL's choice of professional, nor does it entail prior submission by the Contractor to the mechanisms and defence means that ENEL may consider appropriate for its own interest.

12.8. The Contractor undertakes to promptly notify ENEL the start of any proceedings in relation to winding up, transformation, merger, spin-off, capital increase or decrease or, any other extraordinary operations, including the sale and/or purchase of majority shareholdings and/or branches of the company, as well any significant changes to its board of directors. Without prejudice to compliance issues of Contractor's confidentiality duties, the abovementioned notification shall be carried out in a timely fashion and in any event no later than five (5) working days from the abovementioned events.

12.9. Where the Contractor is foreign, and before the start of the works, the Contractor must guarantee that the "key personnel" (such as the foreman, the supervisor, or the construction manager) are able to understand and communicate in Spanish or that which is established under the Contract, both in verbal and written form.

13. WARRANTY PERIOD.

13.1. The Contractor shall warrant:

a) the suitability, exclusive ownership and/or legitimate availability of all materials and/or equipment and that they are all free and clear from any liens and encumbrances.

b) that all materials and equipment:

- comply with the relevant legal requirements, specifications, standards as well as with the Contractual provisions.
  - are free from visible or hidden defects.
  - are fit for their intended use.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

- are of the required quality.
- are not used.

c) that the works comply with all contractual requirements and are in any case fit for their intended use.

13.2. The Warranty shall not cover defects or errors

- caused by incorrect use by ENEL, except in those cases where such incorrect use results from errors or vague information provided in the manuals or instructions provided by the Contractor.
- resulting from normal wear and tear, including that which results from the environment, operation, or use.
- Resulting from modifications to the equipment that does not comply with the Contract, or the instructions or recommendations provided by the Contractor.

13.3. The Warranty applies to defects in design, construction, and hidden defects, and to others specified in the Contract. Pursuant to the Warranty, the Contractor is obliged to carry out, as soon as possible and at its own expense, any repairs or replacements that may be necessary, including the removal and transport of defective parts. In particular, the Contractor undertakes to:

a) replace, as soon as possible or in any case, as set forth in the Contract, all materials and equipment that do not comply with the provisions or requirements thereof, and all those that are inadequate or present poor quality. Such material and equipment shall remain stored in ENEL's premises until replaced, without prejudice to ENEL's right to use the materials rejected until they are recalled.

b) fix, repair, or replace material or equipment that has design, material, labour, manufacturing, or functioning defects.

c) replace all materials and equipment provided in the event of any defects in series, thereby justifying the solution adopted to prevent those defects being produced in the remaining materials or equipment that need to be supplied. A series defect is deemed to exist where the percentage of defective materials and equipment covered by the Contract exceeds the percentage established in the Contract, or if it is not specified, when the percentage exceeds 10% of the total.

d) return the equipment/ sites provided by ENEL in the same conditions that they were delivered.

e) indemnify ENEL for any third-party claims.

13.4. The above-mentioned obligations, and all expenses resulting for various reasons from the execution of the Warranty, shall be the sole responsibility of the Contractor.

13.5. ENEL shall always be entitled to take decisions, which shall be duly communicated to the Contractor, regarding the correction and adjustment or repeated performance, construction, or assembly of anything found to be defective. ENEL may order, for justified reasons, adjustments, corrections, repairs or temporary replacements and all related costs shall be borne by the Contractor, pending arrival of the new parts or new construction or assembly, as required.

13.6. In any case, the remedies referred to in the above sub-clause shall be performed by the Contractor as soon as possible, so that ENEL is affected as little as possible and in a manner that will not cause delays in the completion of the works or determine any service interruption of any installation or, if this is not possible, by minimising the delay or the time for which installations are totally or partially unavailable.

13.7. If the Contractor fails to comply with the obligations referred to in this clause, ENEL shall be entitled to adopt any appropriate measure independently, or by resorting to third parties' assistance, at the Contractor's expense. The Contractor shall also be obliged to compensate ENEL for any damages or losses it has suffered, as provided for under the Contract.

13.8. The Warranty period is suspended on the date on which ENEL's decision is validly communicated, regardless of whether this be in accordance with section 13.5 as well as section 13.7, to the Contractor, and it shall be extended accordingly until completion of all repairs, replacements, or new assembly activities, or works that must be carried out.

13.9. Spare parts are also subject to the above-mentioned Warranty.

13.10 The Warranty Period of the materials and equipment, as well as that of the works and services hired shall extend to the date provided under the Contract. Where this date is not provided it shall extend for a one (1) year period from the date of Provisional Reception. Where such document has not been incepted then the one-year period shall begin from the date in which ENEL provides its conformity to the delivery of the material, or where there is none, then from the communication informing of the termination of the works or service contracted, and delivery of the relevant documentation to ENEL by the Contractor for the processing of the administrative authorisation in order for the installation to start to operate, where applicable.

13.11. Where the Warranty Period has lapsed and six (6) months have not passed since the start of operations of ENEL's main facility -which is destined or forms part of the subject of contract-, the Warranty Period shall be extended automatically to such six (6) months, unless the materials or equipment provided by the Contractor have suffered any repair or replacement, in such cases, they shall be warrantied for a period equal to that of the initial Warranty Period. This shall not entail further costs for ENEL.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

13.12. Once the Warranty Period has expired and Final Acceptance has taken place, ENEL may – at its sole benefit- either directly or through third parties, freely modify or amend the materials and equipment subject of contract as well as the constructions performed or facilities installed, even where supported by licences, patents, or any other type of industrial property in favour of the Contractor, keeping confidentiality at all times.

13.13. The expiration of the Warranty period or the final acceptance of the materials/works covered by the Contract, does not release the Contractor from liability for defects or for hidden defects, or from any other liability pursuant to the applicable law or under the Contract.

14. PENALTIES.

14.1. Without prejudice to that established in these General Conditions regarding the Contract Termination for reasons attributable to the Contractor, the Contractor's failure to meet the delivery dates and performance deadlines, both partial and final, and any other breaches expressly envisaged in the Contract or in these General Conditions shall enable ENEL to apply a penalty which shall not be of an indemnity nature in any case, hence it will not be the only remedy available to ENEL for compensating the damages caused by the Contractor's breach which generated the penalty.

14.2. Where no other penalty is provided in the Contract, the penalty for delay – such delay need not be claimed- shall be 1.5% of the Contract's total price per calendar week delay in the first four (4) weeks and 4% of the Contract's total price per calendar week delay as of the fifth week.

14.3. If ENEL is partially or fully deprived, during the Warranty Period, of the availability or use of contracted materials or equipment, or of the completed works or assembled installations due to a defect, imperfection or breakdown that has occurred to them or which has been noticed on the same and are not attributable to ENEL, or because of deficiencies in the performance or in the work carried out to remedy said defects, the Contractor shall be sanctioned with the penalty established for such purpose in the Contract and, if this has not been established, with 0.1% of the Contract's total price per calendar day of non-availability or non-use.

14.4. The sum of the penalties cannot exceed fifteen per cent (15%) of the Contract's total price including, where applicable reviews, extensions and works with a price for administration. Should that limit be exceeded, ENEL shall apply the penalty and be entitled to either terminate the Contract or continue demanding compliance by the Contractor's, in both cases, including indemnity for damages in accordance with the law applicable.

14.5. Collection the penalties shall not deprive ENEL of the power to additionally pass on to the Contractor the amount for all the damages, expenses, and extra costs which it must bear and/or pay to third parties directly as a result of the Contractor's delay or non-compliance.

14.6. Application of the penalties envisaged shall not release the Contractor from duly complying with the entire Contract. Consequently, the Contractor is obliged to remove the technical deficiencies detected, pay the relevant penalties, bear the costs to make up for the missed deadlines, and replace the materials or equipment or redo or repeat, where applicable, the works or services addressed by the Contract, at ENEL's request.

14.7. The fact that ENEL fails to apply one or more penalties in relation to any breach under a Contract does not entail a waiver by ENEL to apply any other subsequent similar penalty or penalties that could result from the same cause.

14.8. The procedure for collecting any penalties arising from the Contract shall be carried as provided in this section:

a) ENEL shall notify the Contractor in a reasoned document of the penalty that the latter must pay, detailing the amount. The Contractor shall have no more than fifteen (15) calendar days from the date of notification to provide relevant allegations regarding its release in writing.

b) Once the said term has expired, and should ENEL not accept the arguments of the Contractor, ENEL may opt, indistinctly and its sole discretion, between:

b.1.) requesting the Contractor, who undertakes to address the said request, that it deducts the amount corresponding to the penalty applied from its next invoice/s to ENEL, or

b.2.) issuing an invoice in the name the Contractor for the amount corresponding to the penalty applied, the Contractor expressly authorising ENEL at this time:

- to issue and invoice in the name of the Contractor in the amount of the said penalty, according to the tax legislation in force, and
- to monetarily compensate the amount of the penalty with the amount of the next invoice/s issued by the Contractor for the performance of the Contract.

Should the collection of the penalty by ENEL become impossible utilising the mechanisms described in subsections b.1.) y b.2.) above, ENEL reserves its right to execute, in the relevant amount, the financial guarantee that may have been lodged, or to carry out the collection by any other means contemplated in the Contract, the laws or in the present General Conditions, notwithstanding the damages in favour of ENEL that may apply.

c) Should ENEL execute the financial guarantee, the Contractor shall be obliged to restore it in the same amount prior to the execution, according to subsection 18 of the present General Conditions. ENEL will suspend the refunding of the balance that may have resulted, where appropriate, between the total amount of the financial

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8991

guarantee executed and the amount of the penalty applied, so long as the restitution has not taken place. Should the amount of the financial guarantee be insufficient to cover the amounts of the penalties, ENEL will compensate the Contractor, through the mechanism established in subsection b.2.) above, for outstanding payments to the Contractor that may be necessary to cover the total amount of the penalties, notwithstanding the restoration of the guarantee by Contractor, according to the aforementioned.

15. SUSPENSION, WITHDRAWAL AND TERMINATION OF THE CONTRACT.

15.1. Suspension.

15.1.1. If, for any reason, ENEL considers it necessary or is obliged to temporarily suspend all or part of the performance of the Contract, it shall send a written communication to the Contractor, stating the cause and providing an estimate of the duration of said suspension. The suspension shall take effect as of the date provided in the notification. The Contractor must, from that date, cease the activities and store and maintain the materials, equipment and works, without prejudice to all the obligations that result from the legislation in force and / or are established in the Contract.

15.1.2. The resumption of activities will be communicated in advance by ENEL through written notice to the Contractor and shall take place no later than the day set out therein. The remaining term for the completion of the suspended part for performance of the Contract will begin to run from that date. The Contractor shall have the right to receive payment, as provided in the Contract, for tasks already carried out. Payment of tasks that are, upon notification, in advanced stages of implementation and not provided for in the Contract, shall be negotiated between the Parties.

15.1.3 Where the suspension results from a breach or any reason attributable to the Contractor, the latter shall bear all the costs and expenses incurred by ENEL because of the suspension.

15.2. Withdrawal.

15.2.1. ENEL may withdraw from the Contract at any time, at no matter what stage is reached. The withdrawal shall be communicated in writing with acknowledgment of receipt and will be effective from the date ENEL communicates which activities are to be completed and which are to be stopped immediately. The activities duly carried out by the Contractor prior to the cancellation date will be paid by ENEL in accordance with the contractual prices. ENEL shall reimburse the Contractor, upon review of the related satisfactory evidence provided by the Contractor that have been interrupted and for those that have not been performed. To this end ENEL shall reimburse the lower amount between (i) the one equal to the expenses incurred by the Contractor in relation to those activities, for orders that have become irrevocable and (ii) the one equal to the real economic prejudice suffered by the Contractor.

15.2.2. The Contractor may withdraw from the performance of the Contract in accordance with the provisions of the law applicable to the Contract.

15.3. Termination.

15.3.1. ENEL may terminate the Contract in the cases contemplated by law and / or in all the cases provided in the Contract and/ or in the following cases, where there is a cause that impedes or significantly affects correct performance of the Contract:

a) the death of the Contractor, in the case of a natural person, or, for both Parties, a change in their capacity that prevents, hinders, or modifies the performance of the Contract substantially.

b) the dissolution, transformation, spin-off, merger, acquisition, share capital reduction or significant changes in the company purpose or the governing bodies of any of the Parties, in the event that said changes have a negative impact on the performance of the Contract, or in the event that said changes on the part of the Contractor contravene ENEL's ethical conduct standards.

c) the reduction of capacity or economic / financial solvency and/or creditor risk of the Contractor, availability of the assets and/or businesses of the Contractor in full or in part, as well as any suspension or threat to suspend activities, or any other type of legal difficulty, or that of any other nature affecting the normal fulfilment of the Contractor's performance of the Contract.

d) the interruption or unjustified suspension by the Contractor of the performance of the Contract, except where this is because of force majeure or any cause attributable to ENEL that is suitably evidenced.

e) where the total amount of the penalties eventually applied for delay during the execution of activities have reached the maximum specified in the Contract or the delay of Contractor is such to not fully satisfy the scope of contract established by ENEL.

f) impossibility by the Contractor to obtain certificates, authorisations, licences and/or the necessary approvals in time for the correct performance of the Contract in relation to its own products or activities, or any loss thereof while the Contract is in force, except where this results from force majeure or any other cause for which ENEL is liable and is duly evidenced.

g) impossibility by the Contractor to remedy breaches in the relevant Technical Specifications and/or in the event of repetition of errors or defects or breaches in relation to the instructions provided by ENEL.

h) the inability to perform or the breach by the Contractor and/or its subcontractors or sub suppliers of the contract purpose or any of the requirements in accordance with the Contract and the legislation in force

i) failure to comply with obligations relating to intellectual property, confidentiality, and the processing of personal data, in accordance with the Contract and the legislation applicable.

Patricia Álvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 9391

j) verification at any time, following signing of the Contract, of any omission or lack of veracity of any information or representation offered by the Contractor in relation to compliance with legal, economic, financial, technical, or contractual conditions.

k) incorrect performance of the Contract for reasons attributable to a subcontractor or sub supplier, or to any person designated by the Contractor and/or the non-payment of compensation for damages caused to any person or asset.

l) refusal by the Contractor to execute any activities under the Contract where there is a force majeure event or a cause attributable to ENEL that has been duly evidenced.

m) refusal by the Contractor where there is a force majeure event or a cause attributable to ENEL that has been duly evidenced, to resume the performance of activities under the Contract that ENEL (for any reason) has ordered to suspend, when ENEL itself has indicated resumption of the same.

n) performance by the Contractor of acts or omissions that are harmful to ENEL's image.

o) the actions, omissions, behaviours, or situations related to the Contractor that may pose a risk to ENEL's reputation and that lead to the deterioration of the trust on the part of ENEL as regards the honesty and integrity of the Contractor, and in its reliability for the performance of activities in accordance with the provisions of this Contract.

p) the loss of even one of the requirements established for the homologation (where required), in relation to the conclusion and performance of the Contract.

q) where ordered by any administrative or judicial authority.

r) any other breach by the Contractor that could considerably and adversely impede or affect the satisfactory performance of the Contract, or any other provided in the Contract as a cause of termination.

15.3.2. In the cases described above, ENEL may terminate the Contract immediately or provide the Contractor with a deadline to remedy the contractual breach by means of a written communication (which may be in electronic format, where contemplated in the Contract) addressed to the Contractor. Where the Contractor fails to remedy such breach within the deadline provided, the Contract shall be terminated automatically. In any case, ENEL may additionally claim damages for any loss or damage suffered.

15.3.3. In case of termination of the Contract for reasons attributable to the Contractor, ENEL shall have the right to acquire the materials that the Contractor has manufactured, either totally or partially, or delivered, paying the relevant prices, where provided in the Contract.

15.3.4. In the event of non-compliance by the Contractor, ENEL may -without prejudice to its right to apply penalties or to take legal action to its right to compensation for damages- carry out the following measures:

a) to suspend pending payments to the Contractor in order to comply with those contractual obligations it may itself have with third parties resulting from non-performance of the Contract by the Contractor.

b) enforce any economic guarantee provided by the Contractor.

16. FORCE MAJEURE.

16.1. None of the Parties shall be responsible for breach of any of the contractual obligations where the performance of the said obligations is delayed or hindered by a Force Majeure event, in accordance with article 1105 of the Spanish Civil Code [*Código Civil]* and the case law precedents applicable.

16.2. The Contractor may not invoke the following as a Force Majeure event:

a. Meteorological phenomena or conditions that may have been reasonably foreseeable and that have negative effects on the performance of the Contract that could have been total or partially avoided by the Contractor.

b. Physical conditions of the place of performance of the Contract that are known and accepted by the Contractor.

c. Delays or malfunctions that could have been foreseen, prevented or rectified beforehand when securing human or material means for the performance of the Contract.

d. Technical, economic, or financial difficulties of the Contractor or the subcontractors or sub suppliers.

e. Delays or contractual breaches of any subcontractor or sub suppliers of the Contractor, except where such delays or contractual breaches are a consequence of Force Majeure.

f. Strikes or labour conflicts in relation to the Contractor or its subcontractors or sub suppliers, except where such strikes or conflicts have a national scope or affect the industry.

Patricia Álvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 9391

16.3. The Party whose performance of the Contract is affected by what it considers to be Force Majeure events will notify this in writing to the other Party as soon as possible, and always within a maximum period of five (5) calendar days from the day on which the Party would have knowledge of the aforementioned facts. In said notification it shall:

1. identify the events and the circumstances in which they occurred.
2. detail the estimated duration of the situation.
3. describe the contractual obligations affected and the measures that it will adopt to reduce, where possible, the negative effects of the facts in the performance of the Contract.
4. attach the documents that prove that the causative events should be considered as a Force Majeure event.

16.4. The other Party will respond in writing, either accepting the cause or not in a reasoned manner, within a maximum period of ten (10) calendar days after receiving the aforementioned notification. The absence of a response from the notified Party within the referred deadline shall be understood as acceptance of the cause invoked.

16.5. In the event of Force Majeure, performance of the affected tasks will be suspended during the duration of said event, and no indemnity between the Parties or increase to the Contract price may be claimed by any of the Parties as a result thereof. Contractual obligations not affected by a Force Majeure event must continue to be performed according to the terms and contractual provisions in force before the occurrence of such event.

16.6. Following the termination of the Force Majeure event, the Parties shall agree upon, either the appropriate extension of the contractual terms, or the appropriate measures required to recover, either totally or partially, the time lost, with the aim of maintaining, where possible, the established deadlines. The Parties will adopt all reasonable measures at their disposal so that the performance of all the obligations under the Contract affected by Force Majeure may be resumed as best as possible and with the least delay, following termination of the said event.

16.7. Should the performance of the Contract be substantially affected by a Force Majeure event and suspended for longer than one hundred and eighty (180) calendar days, or where performance of the same is unfeasible, any of the Parties may apply for early termination of the Contract without indemnity consequences arising between the Parties.

17. LEGAL-LABOUR OBLIGATIONS.

17.1. General issues.

17.1.1. The Contractor undertakes to correctly comply with all labour, legal or conventional regulations, and occupational health and safety regulations which are applicable, pursuant to the Contract and the applicable legislation. It is considered essential that this obligation be observed by the Contractor for the purposes of the Contract, therefore any non-observance shall constitute just cause for termination of the Contract at the request of ENEL, without prejudice to any applicable damages in favour of ENEL.

17.1.2. As ENEL may be legally liable, either directly, jointly, and severally or secondarily, for certain breaches of the legislation on the part of the Contractor:

1) ENEL shall verify and check on the part of the Contractor that its legal obligations in this area are complied with.
2) The Contractor undertakes to provide ENEL, in the way and with the frequency determined by ENEL, with any supporting information and documentation that affirm the fulfilment of its legal obligations.

17.1.3. The aforementioned information and documentation shall be provided in the way and via the physical or electronic means determined at all times by ENEL, and priority shall be given to them being provided electronically. ENEL shall endeavour to make the most effective means possible available to the Contractor so that the aforementioned may comply with these obligations, either through internal or external systems and resources. ENEL reserves the right to entrust third parties with the verification and authorisation of observance of the documentary obligations regarding legal-labour matters and occupational risk prevention, as well as complementary obligations on the part of the Contractor. The Contractor shall be informed of all of the aforementioned appropriately and in detail; and, where changes are made, long enough in advance so that it may comply with the relevant obligations.

17.1.4. Failure of the Contractor to provide the documentation when determined by ENEL may, at the discretion of ENEL, prevent all or part of the Contract from being performed, both in the facilities of ENEL and in those of its clients. In this case, ENEL may terminate the Contract and/or request that the Contractor remedy any damages caused.

17.1.5. ENEL reserves the right to perform, with internal or external means, audits to check compliance on the part of the Contractor with labour and occupational health and safety obligations, for which ENEL may be liable directly, jointly, and severally or secondarily, in the case of breach by the Contractor. These audits may be carried out in both the facilities of ENEL and in those of the Contractor itself, and the Contractor shall be made aware of their performance at least seventy-two (72) hours in advance. ENEL may also carry out *in situ* inspections, in the site where the contracted activities are executed, in order to examine the fulfilment on the part of the Contractor of its obligations regarding occupational health and safety, as well as all measures and preventions established in the meetings for coordination of business activities. These inspections may be performed by ENEL, with internal or external means, at any time, with no requirements other than the aforementioned being made aware to the site or service manager of the Contractor at the same time. The Contractor undertakes to cooperate proactively and diligently, and to facilitate any activities that must be carried out by the

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 3391

persons designated by ENEL, as well to make any necessary information and documentation available to the aforementioned in order to affirm the points which are checked and audited.

17.1.6 The Contractor is liable for, and guarantees the authenticity of the documentation, and the truthfulness and accuracy of the information required, regarding that which is provided initially, or regularly, as well as any which may be required throughout the audits. Breach of this obligation on the part of the Contractor shall authorise ENEL to terminate the Contract and/or claim relevant damages from the Contractor

17.2. **Incompatibilities.**

17.2.1. The Contractor undertakes, except where there is previous and express authorisation by ENEL -for the purpose of Contract performance - to refrain from hiring the services of employed people or those that have left their employment in ENEL group companies because of retirement, early retirement, or any equivalent mechanism, either directly or through any entity that it may maintain a labour, commercial or ownership relationship, or through third parties.

17.2.2. In addition, no person that is employed, retired or whose employment contract has terminated or become suspended through early retirement or equivalent in relation to ENEL, may hold a position as director or majority shareholder of the Contractor unless expressly authorised by ENEL.

17.2.3 Breach of any of the aforementioned duties shall constitute a reasonable ground for ENEL to terminate the Contract and claim relevant damages from the Contractor.

17.3. **Occupational health and safety.**

17.3.1. Observance of the regulations.

The Contractor shall observe the regulations on occupational risk prevention and any other current legal or conventional regulations which include provisions related to the adoption of preventive measures in the work environment or which are capable of producing these measures in said environment.

17.3.2. Organisation of work.
The Contractor is responsible for the organisation of work as well the health and safety of its workers, in accordance with the work or service contracted to be carried out, as well as in any cases in which it must purchase materials and/or work equipment. The Contractor shall designate a manager from its organisation, of proven competence, in order to manage, supervise and coordinate with managers of other Contractors and subcontractors or sub suppliers of ENEL, where appropriate, and in any case with ENEL personnel who are responsible for work organisation and prevention matters.

17.3.3. Preventive organisation.
The form of preventive organisation shall be established by the Contractor, including Prevention Services, preventive resources, and health care pursuant to the legal provisions and the Technical Specifications, the coordination of activities is agreed upon or prudence is advised according to the risks derived from the work, in order to avoid occupational losses.

17.3.4. Contractor's Personnel.
The Contractor guarantees the security and protection of the workers at its service in all aspects related to the work. To this end and within the framework of its exclusive liability, the Contractor must adopt the necessary measures as regards risk assessment, preventive planning, training and information on risks, action in the case of emergency or regarding serious and imminent risk and monitoring the health of the personnel at its service, in addition to any other measures necessary.

17.3.5. Coordination of activities.

17.3.5.1. If the Contract were to entail work being carried out in buildings pertaining to ENEL or its clients, the Contractor shall draft a Prevention Plan for the aforementioned work. This Prevention Plan shall include general and specific risks, risk assessment, protective measures (both collective and individual), preventive planning for the work to be carried out and work procedures.

17.3.5.2. When several Contractors come together to execute these activities, each one of them shall cooperate in applying regulations on Occupational Risk Prevention, all assuming their obligations and being held liable for any breaches.

17.3.5.3. ENEL shall establish the means and measures regarding coordination of business activities that it deems advisable in order for the Contractor to receive the relevant information and instructions in relation to the existing risks and to the relevant protective and preventive measures, in addition to emergency measures to be implemented, in order to pass the aforementioned on to its respective workers.

17.3.5.4. Furthermore, the Contractor shall inform ENEL of any risks resulting from the activity to be carried out, which may affect internal or external workers, or third parties, as well as the protective measures to be taken.

17.3.5.5. Where the work contracted is carried out in buildings pertaining to ENEL's client, the Contractor shall provide ENEL with documentary evidence acknowledging that it fulfils any obligations stipulated in the legislation in force as regards the coordination of business activities with the client of ENEL. This requirement shall not be applicable in the event that the Contractor's work is carried out in ENEL's Client's private home, without prejudice to the fulfilment of the labour and occupational risk prevention regulations in relation to the workers of the Contractor who will execute this work.

17.3.6. Particularly dangerous activities.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

17.3.6.1. In the event that the work contracted by ENEL to the Contractor were to entail the performance of particularly dangerous activities, and the workers were exposed to any of the risks defined in ANNEX I of Royal Decree 39/1997 of 17 January approving the Regulation on Preventive Services [*Real Decreto. 39/1997 de 17 de enero por el que se aprueba el Reglamento de los Servicios de Prevención]*, or, where appropriate, in ANNEX II of Royal Decree 1627/1997 of 24 October, establishing minimum provisions for health and safety in construction Works [*Real Decreto 1627/1997 de 24 de octubre por el que se establecen disposiciones mínimas de seguridad y de salud en las obras de construcción]*,ENEL may ask the Contractor for any information on monitoring of the health of its workers which may be enforced by law, in order to ensure that the legislation regarding occupation risk prevention is observed.

17.3.6.2. Likewise, and pursuant to the provisions of article 32 bis of the Occupational Risk Prevention Act [Ley de Prevención de Riesgos Laborales], the Contractor undertakes to have the necessary preventive resources in order to monitor fulfilment of the preventive activities.

17.3.7. Communication of incidents and risks.

17.3.7.1. Whenever an incident occurs in the execution of its activities, even when there are no victims, the Contractor is under an inescapable obligation to immediately report this to the party responsible for the Contract at ENEL, completing any accident declaration forms received from ENEL, or otherwise received internally. Furthermore, the Contractor shall proceed to carry out an additional investigation, and it shall submit the relevant report to ENEL within no more than seventy-two (72) hours, which shall include the original causes of the accident and the preventive measures taken.

17.3.7.2. Whenever ENEL holds an inquiry to investigate the causes of an incident, the Contractor shall undertake to cooperate as much as possible, and quickly and diligently provide any information and paperwork for which it is requested.

17.3.7.3. Any observation related to occupational risk prevention made by the ENEL manager on site or in the facilities must be immediately dealt with by the personnel whom it concerns, and where this observation is brought about by the breach of regulations or provisions which have already provided, it may give rise to the enforcement of a sanction on Contractor, which must be proportional to the seriousness of the offence committed. All of the aforementioned is without prejudice to any actions that the Contractor, in exercising its disciplinary authority, may take in relation to its own workers, and any sanctions or responsibilities that may herein be imposed by the Government or by the Courts in accordance with the legislation in force.

17.3.7.4. In view of continuous improvement of the work and occupational health and safety conditions, the Contractor must have a suggestion process in place which allows its workers to file suggestions. The Contractor must send a copy of these suggestions to the party responsible for the Contract at ENEL. The Contractor shall decide on the actions to be taken as a result of this information, which shall also be subject to assessment and, where appropriate, approval in the meetings for coordination of activities as regards occupational risk prevention.

17.3.8. Training.

The Contractor guarantees and, where appropriate, shall prove the existence of appropriate theoretical and practical training on the risks inherent in the activity to be executed, as well as the training of its personnel on occupational risk prevention and first aid, reporting any actions carried out in this respect to the party responsible for the Contract at ENEL.

17.4. **Information and documentation that must be provided to ENEL by the Contractor.**

17.4.1. ENEL shall ask the Contractor for any information and documentation that it deems necessary in order to check that the Contractor correctly fulfils any legal obligations that may result in a liability for ENEL. The list of documents that shall be requested by ENEL in general terms detailed below is not exhaustive and may be changed by ENEL in the event that amendments are made to legislation or to ENEL policies in this regard, and the only requirement being that the aforementioned must be communicated to the Contractor one (1) month prior to it taking effect.

17.4.2. ENEL, bearing in mind the type of activity or risk associated with the work or service subject to the Contract, may agree that the documentation to be provided by the Contractor does not have to include everything detailed in this section or that it can be focused on specific aspects.

17.4.3. On the contrary, in certain cases in which the type of service rendered by the Contractor may be considered more dangerous or when there is specific legislation in place, ENEL may ask the Contractor to provide documentation in addition to that included in the subsections below.

17.4.4. Where the Contractor has recently provided certain documentation or information in any other tender or for another current contract entered into with ENEL, and this is valid and meets the requirements of the new tender or Contract, it shall not be necessary for the Contractor to provide this again, although the aforementioned must indicate the reference of the tender or Contract for which it has previously given this documentation or information.

17.4.5. Breach by the Contractor of the obligations to submit the documentation provided in this section 17 in the way and within the period stipulated shall constitute just cause for termination of the Contract at the request of ENEL, without prejudice to any applicable damages in favour of ENEL.

17.4.6 In general terms, and self-employed workers in charge of other workers.

A. DOCUMENTATION THAT MUST BE PROVIDED BY THE CONTRACTOR BEFORE THE CONTRACT IS SIGNED:

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
[illegible]391

1. Authorisation from the Contractor for ENEL to obtain the supporting certificate confirming that it is up to date with the payment of Social Security fees, issued by the General Treasury for Social Security (article 42 of the Workers' Statute), for a period which is at least equivalent to that of the Duration of the Contract.

2. Third party liability insurance with the cover established by ENEL, and receipt affirming that the relevant premium has been paid.

3. Supporting certificate from the Spanish Tax Agency affirming that the Contractor is up to date with the payment of taxes (article 43.1.f) of the General Tax Law).

4. Appointment of the Contractor's interlocutor with ENEL.

B. DOCUMENTATION THAT MUST BE PROVIDED BY THE CONTRACTOR BEFORE THE START OF THE PERFORMANCE OF THE CONTRACT:

1. List of the workers assigned to perform the Contract, indicating the following for each one of the aforementioned: full name, Tax Identification Number (NIF), Social Security number, work site/workplace in which services will be rendered, professional status or job position, where appropriate, whether the worker will be subject to particularly dangerous risks. This document shall be updated each time new workers assigned to perform the Contract start or existing ones leave.

2. Authorisation from the Contractor for ENEL to check, before the General Treasury for Social Security, the membership or registration in Social Security of each one of the workers employed by the Contractor to carry out the works or services related to the appropriate activity of ENEL or who continuously render services in the facilities of ENEL for a period which is at least equivalent to that of the Duration of the Contract.

3. Registered Workers' Report (report issued by the General Treasury for Social Security to workers who are registered under a Social Security code). Where, subsequent to the start of the performance of the Contract, new workers start (regardless of whether they have been hired recently or not), the Contractor shall provide a new Registered Workers' Report which has been duly updated. Where new workers have been hired, the Contractor may submit, instead of the Registered Workers' Report and at the discretion of the Contractor, a supporting document affirming the registration of each worker in the General Social Security System, model TA-2.

   The aforementioned documents shall be updated each time new workers assigned to perform the Contract start or existing ones leave.

   No worker may access or stay in the facilities of ENEL unless he/she is registered in the General Treasury for Social Security, and the Contractor is liable for any damages that may be suffered by ENEL as a result of the breach of this obligation on the part of the Contractor.

4. Specific Prevention Plan for the work or service rendered which includes, at least: general and specific risks, assessment of occupational risks, collective and individual protective measures, preventive planning for the work to be carried out, work procedures and designation of the prevention manager of the Contractor. This document shall also include, where appropriate, the designation of: preventive resource(s), authorised/qualified worker(s), scaffolding supervisor, mechanical load handling operation coordinator, load handling operation manager, and lifeline supervisor. Furthermore, it shall include authorisation for the use of work equipment (machinery and equipment) and any other designations which must be made by the Contractor in accordance with legal requirements or as a result of these having been defined in the specific terms and conditions of the Contract.

   Under no circumstances may the performance of the Contract begin until the meeting for coordination of business activities (article 24 of the Occupational Risk Prevention Act /*Ley de Prevención de Riesgos Laborales*) has taken place between ENEL and the Contractor, and the minutes of the aforementioned meeting have been signed by the representatives of both companies

5. Statement of compliance of the Contractor in which it represents and guarantees that:

   - It has and is in the possession of a valid statement of fitness for the specific work to be carried out for all workers appointed to perform the Contract.
   - It has and is in the possession of acknowledgement of receipt for all workers appointed to perform the Contract with regard to having received information on the occupational risks of the ENEL facilities in which the aforementioned will carry out their activity, as well as the risks and preventive measure inherent in their job position.
   - All workers appointed to perform the Contract have the specific theoretical and practical training for the job position that they will hold and that they are in the possession of individual supporting certificates, with the validity determined by legislation for each case, which must be updated at least every three (3) years.
   - It has and is in the possession of an acknowledgement of receipt for all workers assigned to perform the Contract affirming that they have received the appropriate Personal Protective Equipment (PPE) in accordance with the provisions of the specific Prevention Plan.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

- All workers assigned to perform the Contract have received the required training on occupational risk prevention pursuant to the provisions of article 19 of the Occupational Risk Prevention Act and to Royal Decree 39/1997 of 17 January *[Ley de Prevención de Riesgos Laborales y del Real Decreto 39/1997 de 17 de enero]* and that these workers are in the possession of the individual supporting certificates.
- The work equipment and collective protective equipment which will be used in the performance of the Contract meet the minimum provisions for health and safety to be used in accordance with Royal Decree 1215/1997 of 18 July [*Real Decreto 1215/1997 de 18 de julio*] or the aforementioned have the appropriate EC declaration of conformity.

The Contractor is under the obligation to have the supporting documentation for all points stipulated in the Statement of compliance duly archived, which may be examined and checked by ENEL at any time. Furthermore, when required to do so, the Contractor must make the aforementioned documentation available to ENEL within no more than forty-eight (48) hours.

C. DOCUMENTATION THAT MUST BE PROVIDED BY THE CONTRACTOR DURING THE PERFORMANCE OF THE CONTRACT:

1. Statement of compliance, every three months, confirming that it is up to date with its duty to pay all workers assigned to perform the Contract. The Contractor guarantees that it will fulfil this obligation, and it will also have the supporting documentation, which may be examined and checked by ENEL at any time. Furthermore, when required to do so, the Contractor must make the aforementioned documentation available to ENEL within no more than forty-eight (48) hours.
2. Every three months, Social Security contribution form, model TC1, settlement of contributions for all workers assigned to perform the Contract, in addition to a receipt of having paid this.
3. Every three months, Social Security contribution form, model TC2, payroll list of workers.
4. Yearly, supporting Certificate from the Spanish Tax Agency affirming that the Contractor is up to date with the payment of taxes (article 43.1.f) of the General Tax Law).
5. According to the frequency of the payment obligation for the premium, receipt affirming that it is up to date with the payment of third-party liability insurance.

17.4.7. Self-employed workers who are not in charge of other workers.

A. DOCUMENTATION THAT MUST BE PROVIDED BY THE CONTRACTOR BEFORE THE CONTRACT IS SIGNED:

1. Supporting document affirming that it has paid the fee of the Special Social Security System for Self-employed Workers [*Régimen Especial de Trabajadores Autónomos]* corresponding to the month immediately prior to submitting its offer. Alternatively, where appropriate, supporting document affirming registration in the Special Social Security System for Self-employed Workers in the month it submits its offer.
2. Third-party liability insurance with the cover established by ENEL and receipt affirming that the relevant premium has been paid.

B. DOCUMENTATION THAT MUST BE PROVIDED BY THE CONTRACTOR BEFORE THE START OF THE PERFORMANCE OF THE CONTRACT:

The Contractor is under an obligation to have duly filed the supporting documentation for all points provided in the Statement of compliance, which may be examined and checked by ENEL at any time. Furthermore, when required to do so, the Contractor must make the aforementioned documentation available to ENEL within no more than forty-eight (48) hours.

C. DOCUMENTATION THAT MUST BE PROVIDED BY THE CONTRACTOR DURING THE PERFORMANCE OF THE CONTRACT:

1. According to the frequency of the payment obligation for the premium, receipt affirming that it is up to date with the payment of third-party liability insurance.

17.4.8 Foreign workers.

In the event that all workers assigned to perform the Contract are foreign:

A. DOCUMENTATION THAT MUST BE PROVIDED BY THE CONTRACTOR BEFORE THE CONTRACT IS SIGNED:

1. Third-party liability and loss insurance with the cover established by ENEL and receipt acknowledging that the relevant premium has been paid.
2. Appointment of the Contractor's interlocutor with ENEL.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

B. DOCUMENTATION THAT MUST BE PROVIDED BY THE CONTRACTOR BEFORE THE START OF THE CONTRACT PERFORMANCE:

1. As regards workers who carry out their activity at Contractors located in the European Union, the European Economic Area or in Switzerland:

   a. Supporting document affirming registration in the Social Security system of the country of origin and payment of contributions, form A1, or any form that replaces it.

   b. European Health Insurance Card or equivalent, in accordance with the legislation of the country of origin.

2. As regards workers who carry out their activity at Contractors located in countries outside the European Union, the European Economic Area or Switzerland:

   a. Certificate of residence and work permit for non-EU nationals.

   b. Health care document for foreign relocated workers, in the event of an accident or illness (medical insurance or similar).

3. Likewise, the Contractor shall submit, with the appropriate scope and content, the following documents:

   a. Nominal list of the workers appointed to perform the Contract, indicating the following for each one of the aforementioned: full name, Tax Identification Number (NIF), Social Security number of the country of origin or equivalent, work site/workplace in which services will be provided, professional status or job position, where appropriate, whether the worker will be subject to particularly dangerous risks. This document shall be updated each time new workers assigned to perform the Contract start or existing ones leave.

   b. Specific Prevention Plan for the work or service rendered which includes, at least: general and specific risks, assessment of occupational risks, collective and individual protective measures, preventive planning for the work to be carried out, work procedures and appointment of the prevention manager of the Contractor. This document shall also include, where appropriate, the designation of: preventive resource(s), authorised/qualified worker(s), scaffolding supervisor, mechanical load handling operation coordinator, load handling operation manager, and lifeline supervisor. Furthermore, it shall include authorisation for the use of work equipment (machinery and equipment) and any other designations which must be made by the Contractor in accordance with legal requirements or as a result of these having been defined in the specific terms and conditions of the Contract.

   Under no circumstances may the performance of the Contract begin until the meeting for coordination of business activities (article 24 of the Occupational Risk Prevention Act) has taken place between ENEL and the Contractor, and the minutes of the aforementioned meeting have been signed by the representatives of both companies.

4. Statement of compliance of the Contractor in which it represents and guarantees that:

   - It has and is in the possession of a valid statement of fitness for the specific work to be carried out for all workers appointed to perform the Contract.
   - It has and is in the possession of an acknowledgement of receipt for all workers appointed to perform the Contract with regard to having received information on the occupational risks of the ENEL facilities in which the aforementioned will carry out their activity, as well as the risks and preventive measure inherent in their job position.
   - All workers assigned to perform the Contract have the specific theoretical and practical training for the job position that they will hold and that they are in the possession of individual supporting certificates, with the validity determined by legislation for each case, which must be updated at least every three (3) years.
   - It has and is in the possession of an acknowledgement of receipt for all workers assigned to perform the Contract affirming that they have received the appropriate Personal Protective Equipment (PPE) in accordance with the provisions of the specific Prevention Plan.
   - All workers assigned to perform the Contract have received the required training on occupational risk prevention pursuant to the provisions of article 19 of the Occupational Risk Prevention Act and to Royal Decree 39/1997 of 17 January and that the aforementioned are in the possession of the individual supporting certificates.
   - The work equipment and collective protective equipment which will be used in the performance of the Contract meet the minimum provisions for health and safety to be used in accordance with Royal Decree 1215/1997 of 18 July or the aforementioned have the appropriate EC declaration of conformity.

   The Contractor is under an obligation to have duly filed the supporting documentation for all points stipulated in the Statement of compliance, which may be examined and checked by ENEL at any time. Furthermore, when required to do so, the Contractor must make the aforementioned documentation available to ENEL within no more than forty-eight (48) hours.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8891

C. DOCUMENTATION THAT MUST BE PROVIDED BY THE CONTRACTOR DURING THE PERFORMANCE OF THE CONTRACT:

1. Every three months, Statement of Compliance affirming that it is up to date with its duty to pay all workers appointed to perform the Contract. The Contractor guarantees that it will fulfil this obligation, and it will also have the supporting documentation, which may be examined and checked by ENEL at any time. Furthermore, when required to do so, the Contractor must make the aforementioned documentation available to ENEL within no more than forty-eight (48) hours.

2. According to the frequency of the payment obligation for the premium, receipt acknowledging that it is up to date with the payment of third-party liability insurance.

In the event that the Contractor assigns both national and foreign workers to perform the Contract, the Contractor must provide all the documentation detailed in subsection 17.4.6., although, in relation to foreign workers, the provisions of previous subsection 17.4.8 shall be applicable.

17.4.9. Construction works.

Construction work is understood as any public or private work in which construction work or civil engineering is carried out, and a non-exhaustive list of this appears in ANNEX 1 of Royal Decree 1627/1997, of 24 October, establishing minimum provisions for health and safety in construction works *[Real Decreto 1627/1997, de 24 de octubre, por el que se establecen disposiciones mínimas de seguridad y salud en las obras de construcción]*. In cases of construction work Contracts, before the start of activity, the Contractor shall provide the following documentation in addition to that which is required pursuant to this section (17.4):

A. CONSTRUCTION WORKS IN WHICH ENEL TAKES ON THE FIGURE OF DEVELOPER:

1. Subcontracting book, provided by the Labour Authority, where part of the work is subcontracted.

2. Entry in the Register of Accredited Companies belonging to the Labour Authority.

3. Supporting document for the approval of the Specific Prevention Plan on the part of the Site Health and Safety Coordinator or Site Management, in cases of unplanned construction works; and of the Occupational Health and Safety Plan for planned construction works.

4. Supporting document for adherence to the Specific Prevention Plan on the part of subcontractors, where part of the work subject to the Contract is subcontracted by the Contractor.

B. CONSTRUCTION WORKS IN WHICH ENEL TAKES ON THE FIGURE OF CONTRACTOR:

1. Appointment of the Site Manager.

2. Subcontracting book, provided by the Labour Authority.

3. Entry in the Register of Accredited Companies belonging to the Labour Authority.

4. Supporting document for adherence to the Health and Safety Plan on the part of subcontractors, where part of the work subject to the Contract is subcontracted by the Contractor.

17.4.10 Mining.

17.4.10.1 Mining activities shall include, without limitation, those mining activities appearing in the General Regulation of Basic Safety Standards for Mining Activities: blasting services, extraction, load and transportation of materials, equipment and mining facility maintenance and mining restoration works.

17.4.10.2 For mining activities appearing in the General Regulation of Basic Safety Standards for Mining Activities the Contractor will provide, in addition to that which is appropriate according to the present section 17.4., the following documents:

A. ADDITIONAL DOCUMENTATION THAT THE CONTRACTOR MUST PROVIDE AFTER SIGNING THE CONTRACT AND BEFORE THE COMMENCEMENT OF PERFORMANCE OF THE WORKS OR SERVICE CONTRACTED:

1. Appointment of a Project and Site Manager. The scope of the said Management will be regulated by the ITC [acronym for Technical Supplementary Instructions in Spanish] 02.0.01 of the General Regulation of Basic Safety Standards for Mining Activities, and the requirement, or non-requirement, for the said designation by the Contractor will be provided in the Technical Specifications of the Contract.

2. Internal Regulations for Safety in the performance of the Contract. Where appropriate, the need for the Contractor to present the said Internal Safety Regulations will be specified in the Technical Specifications of the Contract.

3. Statement of Compliance from the Contractor in which he represents and guarantees:

- It has and is in the possession of the relevant aptitude Certificates for the workers that operate machinery, issued by the Supervising Mining Authorities of the appropriate Autonomous Community.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 3591

- should the said certificates not be in its possession due to workers being in training, the Statement of Compliance will certify that training has commenced and that the appropriate documentation has been lodged with the Supervising Mining Authority.
- It has and is in the possession, regarding the workers ascribed to the performance of the Contract, the relevant Preventive Training Certificates for the performance of their jobs in compliance with the General Regulation of Basic Safety Standards for Mining Activities (ITC 02.1.02), should the activities listed therein be conducted on a regular basis.
- that the machinery used for the performance of the Contract is duly registered with the Industrial Registry of the Supervising Mining Authority of the corresponding Autonomous Community.

The declarations made in the Statement of Compliance will be updated, once the performance of the Contract has started and for its Duration, as many times as it may be appropriate depending on the period of validity of the Certificates to which it refers. The Contractor must guarantee that it keeps due record of the documentation in support of all the declarations made in the Statement of Compliance; this may be subject to verification and confirmation by ENEL at any time. Likewise, should the Contractor be required to do so, it must make the said documentation available to ENEL in a maximum of forty-eight (48) hours.

17.5 **Supplementary information and documentation that the Contractor must provide ENEL with.**

17.5.1 ENEL needs to have at its disposal certain specific data regarding the activity of the Contractor and the circumstances of its performance, in some cases for merely statistical and information purposes only, to attend to requests of information resulting, in some cases, from its participation in certain Sustainability and Corporate Responsibility indexes and rankings; and in other cases, derived from legal requirements that concern ENEL as a principal employer before the Administration or the legal representatives of ENEL's workers. Including but not limited to:

a. number of hours of work conducted by the employees of the Contractor and by those of its subcontractors regarding the Contracts (totals, per Contract, per work centre and per employee).

b. number of employees of the Contractor and its subcontractors classified by gender (men/women) that perform their activity in the Contracts.

c. type of contract subscribed by the employees with the Contractor and with its subcontractor (for an indefinite term/temporary; full time/part time; when appropriate, if self-employed).

d. days worked by the Contractor's personnel and its subcontractors (estimation of the equivalent to full time days worked–FTE-) involved in Contracts that include: 1) works activities; 2) exploitation; and 3) maintenance in their purpose.

17.5.2 The Contractor has the obligation to provide, in a diligent and truthful manner, the information required to these effects in the form and with the regularity that ENEL determines. ENEL, on its end, undertakes to only request from the Contractor the information that may be necessary to the effects described in the first paragraph of this subsection as well as to request the same in a format and by the least burdensome means possible for the Contractor.

17.5.3. Additionally, after the execution of the Contract and before the commencement of its performance, ENEL may request the Contractor to provide a Statement of Compliance where it represents and guarantees that all the workers ascribed to the performance of the Contract have received training in environmental matters, have been informed of the environmental requirements applicable at ENEL, and have undertaken its environmental policy; and that the documentation in proof thereof lies in its possession.

17.5.4. The Contractor is obliged to keep due record, in a personal file for each of its employees, of the documentation in support of all the representations made in the Statement of Compliance, which may be subject to verification and confirmation by ENEL at any time. Likewise, should the Contractor be required to do so, it must make the said documentation available to ENEL in a maximum of forty-eight (48) hours.

17.6 **Subcontracting events**

17.6.1. Authorisation to Subcontract.

Prior express authorisation in writing from ENEL is an essential requirement for the Contractor to subcontract the performance of the Contract. Without this authorisation the subcontractor shall not be able to begin its activity in any case.

17.6.2. Information and documentation on labour law and health and safety to be provided in the event of subcontracting.

17.6.2.1. In the context of subcontracting, it is mandatory, for each of the different events, (salaried worker, self-employed and intra community or extra community worker), that the subcontractor provides the Contractor with identical information and documentation, with the same scope, term, and content as in the event of the Contractor providing information to ENEL, regulated in this present section 17. The Contractor is responsible for delivering the information and documentation regarding the subcontractors to ENEL.

Patricia Álvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

17.6.2.2. Should the subject of Contract not be legally deemed as ENEL's "own activity", the Contractor may substitute the required provision of information and documentation expected from the subcontractor, with a Statement of Compliance. ENEL shall define what it considers "own activity" for each case.

17.6.2.3. The Contractor is obliged to keep due record of the documentation in support of all the representations made in the Statement of Compliance, which may be subject to verification and confirmation by ENEL at any time. Likewise, should the Contractor be required to do so, it must make the said documentation available to ENEL in a maximum of forty-eight (48) hours.

17.7 Special events.

In the event that, a professional activity is carried by the workers of the Contractors and subcontractors or sub suppliers at facilities or properties owned by ENEL or its clients, even outside of works contracts or services contracts, and the said workers interact from time to time with managers or employees of ENEL and the workers of the Contractors and subcontractors, or sub suppliers are exposed to occupational risks inherent to the facilities owned by ENEL or its clients, the following measures shall be adopted:

1) For Contracts that strictly involve supply, meaning those of mere delivery of goods or materials by the Contractor or subcontractors or sub suppliers to ENEL: ENEL will inform whoever carries out the delivery, of the risks existing in the zone of delivery and the existing emergency measures.

2) For Contracts involving maintenance, inspection and repair of machinery, tools, work equipment or facilities owned by ENEL or where ENEL holds rights of usage, performed by the Contractor or the subcontractors: ENEL will inform, prior to the commencement of the works, of the occupational risks resulting from the activity in the work zone, of the prevention measures established and of the emergency measures.

3) Delivery or supply of goods or materials in ENEL's facilities (not resulting from a contract or provision of services arranged by ENEL) carried out by the employees of a third person or a third company that requires the use of mechanical means for the installation, assembly, or handling: ENEL will inform, prior to the commencement of the works, of the occupational risks resulting from the activity in the work zone, of the prevention measures established and of the emergency measures. Additionally, ENEL and the responsible party for the Contractor will have a corporate activity coordination meeting that will be duly documented, in which the Contractor shall be asked to provide information regarding the risks that its activity may generate, and the relevant company activity coordination measures shall be adopted in order to avoid occupational risks.

4) Contracts for the collection or removal of machinery, scrap metal or any other goods, materials, products, or waste carried out in the facilities of ENEL by third companies that are buyers as a result of its sale by ENEL.

For all the special events regulated in this section, the Contractor and its employees will consider the existence of the risks and measures informed by ENEL, they will adopt the suitable prevention measures and will comply with the indications and instructions given by ENEL regarding prevention matters.

17.8 Temporary Work Agencies.

When the contracting of the works is done through Temporary Work Agencies (TWA), the relationship with the TWA must be formalised in writing using the official form called "staffing services contract.".

A DOCUMENTATION TO BE PROVIDED BY THE CONTRACTOR:

It shall provide, together with the documentation referred to in 17.4.6., the following documentation listed below:

1. Certificate issued by the Labour and Social Security Provincial Directorate, confirming the administrative authorisation granted to the TWA to make workers hired by the TWA available to ENEL temporarily.

2. Certificate issued by the Labour and Social Security Provincial Directorate, confirming the financial guarantee required by Law 14/1994 for the TWA [*Ley 14/1994 para las ETT*].

17.9 Specific provisions regarding safety and occupational health matters for materials and equipment.

17.9.1. Safety Requirements.

1. The Contractor is obliged to comply with article 41 of the Occupational Risk Prevention Act [*Ley de Prevención de Riesgos Laborales*] regarding Safety requirements for machinery, equipment, products, and goods that it supplies to ENEL.

2. The Contractor will ensure that the machinery, equipment, and work goods supplied to ENEL, shall not represent a source of danger for the worker, when they are installed and used in the conditions, form and for the purposes recommended.

3. The Contractor will provide ENEL with information that indicates the appropriate use by the workers, the additional preventive measures that must be taken and the occupational risks that exist regarding the materials and equipment supplied, both for its regular use and in case of inappropriate handling or use.

17.9.2. Acquisition of Machinery.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 4141

1. In the event of acquisition of machinery, the Contractor will ensure ENEL the fulfilment of the requirements that may affect it, found in Directive 2006/42/CE on the approximation of the laws of the Member States relating to machinery.

2. The Instructions for the operation of machinery or equipment that the Contractor provides ENEL with must contain all the specifications that the Royal Decree 1644/2008 dated October 10th, amended by Royal Decree 494/2012, date March 9th [*Real Decreto 1644/2008 de 10 de octubre, modificado por el Real Decreto 494/2012, de 9 de marzo]*, establishes as necessary and, in particular, the instructions to conduct the said activities with an admissible level of risk: the placing into service, use, maintenance, installation, assembly, disassembly, adjustment, servicing (preservation and reparation), training instructions and equipment usage contraindications.

17.9.3. Acquisition of products and chemical substances.

1. The Contractor is obliged to provide ENEL with duly packaged and labelled chemical products and substances, so that its preservation and handling is safe, and the content is clearly identified as well as the health and safety risks that storage or use may entail. Products and substances must enclose the corresponding safety tab, prepared in accordance with the legislation in force and including the uses that ENEL anticipates for the said products and substances.

2. When the Contractor provides ENEL with chemical products that may present, depending on the characteristics of their composition and usage, risks for the workers, and in any case if the said products are legally classified as toxic, harmful, flammable, explosive, corrosive, carcinogenic, radioactive, etc., the Contractor shall inform ENEL of the risks that its use and application entails, as well as the preventive measures for its elimination or control.

3. Should these materials be considered dangerous by the legislation in force, the Contractor shall notify ENEL who its Safety Manager is in order to coordinate all the activities aimed to protect the health and safety of people.

4. The Contractor is obliged to inform ENEL, should it acquire material containing metallic dust, organic dust, asbestos, silica, or other substances that may originate especially hazardous risks to the workers or the facilities.

5. The Contractor guarantees the fulfilment of Royal Decree 664/1997 dated May 12, for the protection of workers against risks related to the exposure to biologic agents at work *[Real Decreto 664/1997 de 12 de mayo sobre la protección de los trabajadores contra los riesgos relacionados con la exposición a agentes biológicos durante el trabajo]*, to ENEL, when it provides formulas or substances that may entail the referred risks.

6. The Contractor guarantees the fulfilment of Royal Decree 665/1997 dated May 12 for the protection of the workers against the risks related to the exposure to carcinogenic agents at work [*Real Decreto 665/1997 de 12 de mayo sobre la protección de los trabajadores contra los riesgos relacionados con la exposición a agentes cancerígenos durante el trabajo*], to ENEL, should it provide ENEL with substances or formulas that are classified as cancerous agents or should it have to apply to ENEL the processes detailed in said Royal Decree, due to the acquisition of materials and/or equipment to be conducted.

17.9.4. Acquisition of facility permits, devices and instruments.

17.9.4.1. Where the Contractor supplies ENEL with facilities, devices, and instruments, it guarantees that they comply with the industrial Occupational Risk Prevention legislation, and it shall inform ENEL of the risks that its use and application entails as well as of the preventive measures for its elimination and control.

17.9.4.2. Should the Contractor acquire Personal (and collective) Protection Equipment (PPE's) the Contractor guarantees ENEL its effectiveness, so long as they are installed and used in the conditions and form prescribed therein. The Contractor shall inform ENEL of the type of risks to which they are aimed, the level of protection designated, the correct form of usage and maintenance and, in general, of all the specific obligations in the Royal Decree 773/1997 on base line dispositions on safety and security regarding the use of personal protection equipment by the workers [*Real Decreto 773/1997 sobre disposiciones mínimas de seguridad y salud relativas a la utilización por los trabajadores de equipos de protección individual].*

17.9.5. Other specific provisions

17.9.5.1. ENEL may require from the Contractor, depending on the characteristics of the subject of the Contract, the organisation, and preventive initiatives (Plans, Norms, Safety Protocols, etc.) and the coordination measures that may be legally enforceable and, where appropriate, any others that are deemed appropriate to guarantee safety in all phases of the delivery of materials and equipment. As a result thereof, ENEL may require the Contractor to comply with other specific dispositions for the Prevention of Occupational Risks that supplement or optimise the previous requirements.

17.9.5.2. Transportation of hazardous goods.

Should the Contractor, in the performance of his Contract, have to transport materials that are defined as hazardous by the legislation in force, it shall notify ENEL who its Safety Manager is, in order to coordinate the activities aimed at protecting the safety and health of people.

Patricia Alvarez Charnosa
Traductora/Intérprete Jurada de INGLÉS
Nº 9191

17.9.5.3. Reparations of equipment property of ENEL.

The Contractor undertakes to conduct the reparation of equipment in compliance with the safety requirements appearing in the guides for reparations and maintenance of the equipment that will be provided by ENEL.

18. ECONOMIC GUARANTEE.

18.1. General issues.

18.1.1. Where required by ENEL and prior to payment of the first invoice by the latter, the Contractor shall be required to constitute an economic guarantee available to ENEL by means of issuance of an abstract guarantee payable on first demand (in accordance with the template provided in Annex I), subject to Spanish law and enforceable in Spain, granted by a Spanish bank or Spanish branch of the entity where foreign (in both cases with recognised solvency), in the amount determined by ENEL at any time. Within the text of the Guarantee, the Bank must expressly waive benefits of order, excussion and division. The Guarantee shall constitute the economic guarantee of the Contract in order to satisfy the following duties among others:

- Fulfilment of all Contractor's duties resulting from the Contract, including penalties and indemnity that may be applicable, and reimbursements or refunds of any sort that may be legally or contractually due to ENEL by the Contractor.
- Penalties, sanctions or monetary items of any kind for which ENEL would need to pay following administrative, arbitral or court proceedings by reason of the acts or omissions by the Contractor or its subcontractors or sub suppliers including but not limited to, the total amount of any joint and several or subsidiary legal liability that may be imposed on ENEL for breach by the Contractor in relation to salary, Social Security and/or tax obligations or those existing in relation to safety and occupation risk prevention.
- Third-party claims against ENEL based on the Contractor's performance, including any claim from its employees, agents, advisers and subcontractors or sub suppliers.
- Defence costs incurred or that may be incurred by ENEL according to section 12 of these General Conditions.

18.1.2. In the cases where the Contractor fails to issue a guarantee within the deadlines provided, and without prejudice to any other action available, ENEL may decide either to terminate the Contract or suspend its performance until the issuance of a guarantee is accepted by ENEL, as well as to accept other guarantees that may be equivalent offered by the Contractor in accordance with the law.

18.1.3. The existence of a guarantee does not mean that the Contractor's liability under this Contract is limited to the amount or period of validity of the guarantee.

18.1.4. In case the issuer's creditworthiness deteriorates, the Contractor shall, upon request by ENEL and within sixty (60) days, provide a new guarantee issued by a bank approved by ENEL. In case of failure to provide the guarantee, ENEL may, in accordance with applicable law, withhold and suspend payments due to the Contractor.

18.1.5. If the Contract Price increases during its performance, Enel may request that the Contractor provides a supplementary or a replacement economic guarantee to cover the increased Contract Price.

18.1.6. Where the Contractor fails to comply with the supplementing or replacement of the guarantees as provided in clauses 18.1.4. and 18.1.5., ENEL reserves the right to terminate the contract, or, in accordance with applicable law, withhold and suspend payments to the Contractor until the due security amount is reached.

18.2. Types of Economic Guarantee.

18.2.1. Performance Guarantee.

18.2.1.1. When provided for in the Contract, and unless a different percentage is defined therein, the Contractor shall be obliged to lodge, prior to the execution of the Contract and at ENEL's disposal, an economic guarantee consisting in the delivery of an abstract endorsement in accordance with subclause 18.1.1. in the amount of at least ten per cent (10%) of the total amount of the Contract and its amendments, extensions and works at a price for administration, to respond for the accurate, timely and ordinary performance of the obligations that the Contractor has undertaken by virtue of the Contract, including the obligation of paying any amount owed to ENEL, such as penalties.

18.2.1.2. If nothing has been agreed upon in the Contract regarding the establishment of an economic guarantee over the term of the technical warranty, the guarantee for performance shall expire no earlier than thirty (30) calendar days after the expiration of the Warranty Period or of the Final Reception, or of the total end of the performance of the Contract, whatever takes place at a later time. If it is not executed, the guarantee will be returned to the Contractor once ENEL has conducted the appropriate verifications.

18.2.1.3. If nothing has been agreed upon in the Contract regarding the establishment of an economic guarantee over the term of the technical warranty, the guarantee for performance shall expire no sooner than thirty (30) natural days after the expiration of the Provisional Reception, or the end of the performance of the Contract prior to the commencement of the Warranty Period, whatever happens at a later time. If it is not executed the guarantee will be returned to the Contractor once ENEL has conducted the appropriate revisions.

Patricia Álvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

18.2.2. **Advance Payment Guarantee.**

18.2.2.1. In the event of advanced payment by ENEL to the Contractor, the Contractor must establish, prior to the advance payment from ENEL, an economic guarantee at ENEL's disposal consisting in the delivery of an abstract endorsement in accordance with the subclause 18.1.1. in an amount equivalent to one hundred per cent (100%) of the advance payment made.

18.2.2.2. The advance payment guarantee will be returned to the Contractor once the Contractor has correctly performed, according to what has been agreed upon in the Contract and the legislation applicable, one part of the Contract with a value of, according to the price, at least the equivalent to the advance payment.

18.2.3. **Warranty Guarantee.**

18.2.3.1. When provided for in the Contract, and unless a different percentage is defined therein, the Contractor shall be obliged to establish, once ENEL has returned or executed the Performance Guarantee, an economic guarantee at ENEL's disposal consisting in the delivery of an abstract endorsement in accordance with subclause 18.1.1 in the amount of at least five percent (5%) of the total amount of the Contract and its amendments, extensions, and works at price for administration, to respond for the Contractor's obligations during the Warranty Period.

18.2.3.2. The Warranty Guarantee expires no earlier than thirty (30) calendar days following the expiration of the Warranty Period or of the Final Reception, or of the total end of the performance of the Contract, whatever takes place later. If it is not executed, the guarantee will be returned to the Contractor once ENEL has conducted the relevant verifications.

19. INSURANCE.

19.1. **General issues.**

19.1.1. The Contractor assumes all responsibility for injury or damages caused to persons or property by the performance - including through subcontractors or sub suppliers or outside agents – of the activities specified in the Contract and it undertakes to incept suitable insurance at its own expense, in relation to the risk, and with insurance companies that are financially stable and of recognised good standing, for the entire duration of the Contract, covering:

a) losses or damages that may be caused to materials and equipment covered by the Contract during their processing, loading and transportation, up to the time and place of delivery to ENEL, with the Contractor's full liability for any damage caused to the materials or equipment. This obligation is also assumed by the Contractor with regard to materials and equipment provided by ENEL for the performance of the Contract, from the moment they are made available to the Contractor or its subcontractors or sub suppliers, until they are returned to ENEL.

b) civil liability for losses and detriment that may be caused by the Contractor's own personnel or that of its subcontractors or sub suppliers to the personnel or property of ENEL and/or of third parties arising from the performance of activities under Contract. In all circumstances, ENEL shall not be liable for any causes attributable to the Contractor.

19.1.2. Similarly, the Contractor undertakes to incept insurance for civil liability with suitable limits regarding compensation according to the risk, to cover claims for damage to property, personnel and/or for financial damage that can be caused to ENEL or third parties arising from the defects or malfunction of materials or equipment, attributable to the Contractor. In addition, the Contractor shall be liable for environmental damage or the imminent possibility that it may take place, as well as the costs related to prevention, reduction, and repair, in accordance with the conditions laid down in the legislation in force.

19.1.3. If the Contract provides for the storage of materials by the Contractor on ENEL's premises, the latter may request, and the Contractor shall be obliged to demand, in addition to the previously mentioned insurance, insurance for theft and other damage that can be caused to the stored materials, for the entire Contract term.

19.1.4. The limits of the insurance policy must cover damaging events subject to claims received within the period of performance of the Contract and/or after the Warranty Period.

19.1.5. The insurance policy shall provide for the total waiver of the insurer against ENEL with no exceptions whatsoever.

19.1.6 If the Contract is carried out in the form of materials stored by the Contractor within ENEL's premises, the Contractor shall also be obliged to incept insurance against theft and other damages that the stored material may suffer, for the entire period of performance of the Contract.

19.1.7 Where ENEL believes that the Contractor's insurance cover is not sufficient to cover the risk, both for the delivery of materials or equipment and the completion of works or services under the Contract, the Contractor agrees to review and change the insurance cover in accordance with the terms of the field of insurance.

19.1.8 All matters relating to insurance must comply with the Contract and the Spanish legislation applicable.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 4391

19.1.9. The existence, validity and efficiency of the insurance policies referred in this clause are an essential condition for ENEL and, therefore, where the Contractor is incapable at any time of proving it holds insurance coverage, ENEL may terminate the Contract, this is without prejudice to its duty to pay indemnity for the damage suffered by ENEL.

19.1.10 Where ENEL considers that the coverage under the policy incepted by the Contractor is insufficient to cover the risks, both regarding delivery of material and equipment and completion of the works and services under the Contract, the Contractor undertakes to review and modify insurance cover according to the Contract requirements.

19.1.11. Similarly, the Contractor undertakes to Contract, at its own expense and with financially stable insurance companies of recognised good standing, any other type of compulsory insurance that may be required by applicable law, for the entire duration of the Contract.

19.2. **Insurance regarding the Contracts entered into by ENEL, except ENEL GREEN POWER ESPAÑA S.L. and its subsidiaries or participated companies.**

19.2.1 Subject to the remaining conditions of the present clause and notwithstanding its liability under the Contract, and without it being limited by the present section, the Contractor will hire and keep in force at its expense and on its account at all times for the entire duration of the Contract, with insurance companies of renowned prestige and solvency, legally authorised to issue policies in Spain and with coverage terms and conditions to the satisfaction of ENEL, the insurance policies described below, with the understanding that their amounts shall never be inferior to those mandatory according to laws and regulations in force and that the maintenance of such insurance policies shall not alter any of the obligations regarding indemnity established in the Contract.

a) **General Liability Insurance,** to cover claims for material and/or personal damages and their consequences on third parties, from the date of commencement of the works until the expiration of the maintenance period established in the policy. The policy must include, among others, liability guarantees for accidental, crossed liability, professional, post product, accidental pollution and contamination, subsidiary for vehicles and employers' liability. The limit of indemnity per each and every loss shall not be inferior to THREE MILLION EUROS (€ 3,000,000), with a sublimit, per victim, no less than SEVEN HUNDRED THOUSAND EUROS (€ 700.000). In addition, the Contractor and its subcontractors or sub suppliers and representatives, shall appear in the policy as insured by ENEL and/or its subsidiaries intervening in the performance of the Contract without losing its third-party status.

b) **Construction and Assembly All-Risk Insurance (CAR),** to cover damages and loss suffered on work sites and works, permanent or temporary constructions as well as on materials, supplies, including supplementary works and consumables, spare parts and any other property that is part of the work site that is the object of the Contract, and that took place from the date of commencement of the works until its Provisional Reception by ENEL (including implementation with the relevant functioning trials) as well as the subsequent maintenance period determined in the policy. This insurance shall be subscribed as a fully comprehensive risk insurance for construction and faults in design.

c) **Employer´s liability Insurance / Workers Compensation or Equivalent:** for all the personnel of the Contractor or its subcontractors or sub suppliers as may be legally required during the Term of the Contract.

d) **Contractor ´s Material and Equipment Damage Insurance** to cover the damages suffered by equipment, machinery and tools utilised in the performance of the activities object of the Contract, whether they be owned, rented, transferred or under any other title.

e) **Environmental Liability Insurance** (Mandatory in Distribution Contracts and in demolitions or handling of fuels/carbons) to cover, as appropriate, the demandable environmental guarantees and liabilities according to the legislation in force. The limit of indemnity shall not be less than TWO MILLION EUROS (€ 2,000,000)

f) **Cargo/Transportation Insurance** (Optional if the subject of the Contract includes transportation by the Contractor) to cover, under all risk ICCA clauses, the damages and material losses suffered at any property that is part of the object of the Contract. The limit of indemnity shall not be less than the maximum value of the goods transported in one trip.

g) **Mandatory and Voluntary Vehicle Circulation and Machinery Liability Insurance** (Optional if the subject of the Contract includes transportation by the Contractor) according to the limits and conditions required by the legislation in force during the Term of the Contract.

h) **Any other mandatory insurance,** according to the legislation in force during Term of the Contract.

Should any other policy covering the same interests than the policies subscribed according to sections a), b) and c) above exist, the latter shall be considered as primary insurance, coming into effect first.

Regardless of the insurances described above, the Contractor may subscribe the supplementary policies that it deems necessary for the total coverage of its interests and responsibilities according to the Contract.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

19.2.2. Before initiating the works, the Contractor will provide ENEL with a signed copy of the certificates of the policies required in the previous subclause, and certified proof, issued by the insurance company, of the payment of the premium. This control shall remain in effect during the entire Term of the Contract. Failure in delivering the policies or the said certificate will enable ENEL to terminate the Contract on account of the Contractor.

19.2.3. The Contractor will demand that its subcontractors and sub suppliers contract and keep in full force and effect insurance policies, in accordance with the foregoing clauses, during the time that they render and/or provide their services and/or products/equipment to the Contractor, requesting them to exhibit the relevant insurance certificates proving the validity and effectiveness of the insurance required.

19.2.4. The Contractor shall not be able to request, -vis -à-vis its insurance company- the cancellation, modification or amendment of the insurance policies that it has contracted, without prior written consent from ENEL, which must appear in the said policies.

19.2.5. Any dispute that may occur in the payment of compensation, whether by reason of the insurance excess and/or deductible charges, in relation to any of the insurance policies that are contracted in accordance with this clause, must be borne by the Contractor for the proper performance of the Contract. If the claim were totally or partially attributable to ENEL, ENEL will reimburse the Contractor the amount of the excess that it had to pay in proportion to its liability.

19.2.6. Compliance with what has been expressed above shall not release nor limit the Contractor regarding its liabilities as per the other clauses of the Contract.

19.3. **Insurance associated to the Contracts entered into by ENEL GREEN POWER ESPAÑA, S.L. and its subsidiary or affiliate companies.**

19.3.1. The Contractor shall provide and maintain in full force, before the commencement of any activity and throughout the entire validity the Term of the Contract and performance of the works, the following insurance minimum insurance cover, underwritten with entities of acknowledged solvency with a minimum BBB rating:

a) **General Liability Insurance:** Coverage of commercial general liability insurance on a "loss occurrence" basis or "claims made" basis with a retroactive period of at least two (2) years, with a limit of indemnity per loss no less than THREE MILLION EUROS (€3,000,000) minimum per occurrence. The Contractor shall include its subcontractors and sub suppliers in its policy. The policy must cover personal and property damages that may occur within the Site or at the adjacent locations and that are directly connected with the Contract, including the guarantees related to workers union liability (with a sublimit per victim of SEVEN HUNDRED THOUSAND EUROS - €700,000 minimum-), crossed liability, accidental pollution and contamination liability, product and post-works liability, professionals on payroll, defence, finances as well as any other coverage in accordance with the activity performed.

b) **Employer´s liability Insurance / Workers Compensation or Equivalent:** : Coverage for the Term of the Contract for all on-staff personnel and of its subcontractors and sub suppliers where legally enforceable. The insurance must remain in force and fully valid for all the personnel involved (permanent, temporary, occasional workers, external workers) for the duration of the works or contracted services The said coverage cannot include any exclusion of work-related illnesses.

c) **Mandatory Motor Vehicle/Machinery/Tooling Insurance:** Mandatory liability coverage regarding the circulation of motor vehicles and machinery, with the limits and conditions required by the legislation in force during the Term of the Contract. Such insurance must cover all owned, leased, hired or borrowed vehicles or otherwise used by the Contractor in the performance of the works and shall cover any bodily injury or property damage within the legally established limits. The Contractor shall be equally responsible for the objects and goods that are stored in the said vehicles as well as for the value of the machinery, equipment and components employed in the execution of the works, in all cases releasing ENEL from being responsible in case of theft or loss of the said assets.

d) **Cargo/Transportation Insurance** (Optional if the object of the Contract includes transportation by the Contractor). Prior to any kind of shipments/transportation, the Contractor must subscribe a Transports insurance policy (load insurance and land transportation coverage) with an insured value ascending to the replacement-to-new value plus ten per cent (10%) on all materials, goods, and equipment during transit (beginning from the start of loading) until the arrival at the site (covering unloading activities), including processes of loading, trans loading and transhipment, or temporary storage. The insurance policy subscribed shall be an all-risks policy, covering losses such as war risk, strikes, riots, social disturbances, and extra/expediting expenses. The insurance policy shall include ENEL and the lenders (if present) as additional insured parties, if necessary. All transporters and drivers involved in the transportation must comply with the legislation in force, including legislation on transport licenses and road permits.

e) **Professional Liability Insurance** (Optional if the object of the Contract includes activities related to engineering, design, counsel, or professional activities of the Contractor): The Contractor must incept and maintain, at its expense, for a term that shall start no later than the effective date of the Contract and until two (2) years from the end of the works, Professional Liability Insurance against negligence, omissions, defects or defaults in design, default or breach by the Contractor, its engineers, consultants, subcontractors, sub suppliers or equivalent at any level, any consultant exercising its

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8891

professional activities in relation to the project and in general in relation to the Contract, including consequential loss with a limit for damages of no less than TEN MILLION EUROS (€10,000,000) per each and every loss.

f) **Any other insurance required by Law,** even if it has not been expressly mentioned in the previous paragraphs.

19.3.2. Other general aspects applicable.

- Cancellation or amendment of the policies: The Contractor shall not be able to amend the terms and conditions of the policies that entail an alteration that breaches the limits and conditions established above. The Contractor shall give ENEL at least a thirty-day (30) notice if any of its insurance companies has cancelled or amended any policy in a way that it may affect the interests of ENEL. If such circumstance should take place ENEL reserves the possibility of covering the said risk charging it to the Contractor.
- Additional insured parties: All liability insurances must include ENEL as an additional insured, without losing the condition of third party.
- Waiver to subrogation: The insurance policies of the Contractor must waive the right to subrogating against ENEL, its subsidiaries, affiliates, employees, and parent company (where not legally prohibited), except in cases of wilful intent or gross negligence therefrom.
- Liability for franchises: The Contractor shall be responsible for the payment to ENEL of any excess regarding any of the policies it has to take out. The Contractor will therefore be liable for any risk it decides to retain.
- Limits to liability: The liabilities in which the Contractor may incur during the performance of activities that constitute the subject of Contract shall not be limited in any case by the limit of the insurance taken out. Any uninsured or unrecovered amount from the insurance will be the charged to the Contractor, who will be liable for all the direct and indirect damages caused to ENEL in the performance of the activities covered by Contract, regardless of the insurance limit contracted.
- Loss notification: The Contractor shall notify, as soon as possible, but no later than seven (7) days since it became aware of the incident, any fact that may give rise to a claim under the insurance policies taken out.
- Evidence of Insurance: The Contractor shall provide ENEL with evidence regarding the validity of the coverage contracted, as well as of the payment thereof, where required. At least once a year it must deliver the Certificate of the policies incepted as evidence of its maintenance and suitability.
- Subcontractors and sub suppliers: The Contractor will make sure that the provisions of the present insurance clause are known by all its subcontractors and sub suppliers and that they have subscribed insurance policies in similar conditions to those described herein.
- Dilution of Limits Clause: When the Contractor provides an insurance policy that contains a limitation with an annual aggregate limit, and the pertinent Contract required a certain limit per loss, it undertakes to fully reimburse the said annual limit in case of loss or losses that collapses the said aggregate by more than fifty per cent (50 %).

20. INTELLECTUAL AND INDUSTRIAL PROPERTY.

20.1. The Contractor represents and guarantees that, during the development of the activities required to perform the Contract and in order to design, manufacture, distribute or sell any product or service supplied to ENEL, it has not breached and is not in breach of any third party intellectual or industrial property right, such as trademarks, patentable inventions, works protected by copyright, utility models, industrial design, and commercial secrets.

20.2. Where, for the contract performance, the Contractor needs to use intellectual or industrial rights covered by third party licenses, ENEL reserves its right to request the Contractor the relevant documentation. Once such application is made, the Contractor shall provide ENEL any additional information, clarification, explanation, confirmation, correspondence, manual and any other document or data with respect to the resources protected by the intellectual or industrial rights used for the Contract performance.

20.3. As regards the ENEL products, samples or Technical Specifications provided by ENEL to the Contractor to perform the Contract, the Contractor:

(i) may in no way copy, publish, distribute, reproduce, process, translate, modify, adapt, develop, disassemble, dismantle, or submit to reverse engineering (or submit to any operation for the purpose of extracting source codes in any way) - either in full or in part- none of those products, samples or Technical Specifications provided by ENEL.

(ii) may not undertake derivative works, objects, articles, products, samples, or Technical Specifications.

(iii) may not use such products, samples, Technical Specifications or intellectual or industrial information pertaining to ENEL for any purpose other than the performance of the Contract by the Contractor.

(iv) shall ensure that the rest of the parties that are or may be involved in the performance of the Contract by the Contractor also comply with the aforementioned prohibitions.

(v) shall refrain from disclosing the same and shall make sure its employees do not disclose to any third party without prior written consent from ENEL hence maintaining this confidential in accordance with the provisions set out in the "CONFIDENTIALITY" clause of these General Conditions.

20.4. The Contractor is responsible for obtaining the concessions, permits and authorisations required by the holders of patents, models, and relevant registered trademarks as well as for securing intellectual and industrial property rights. The Contractor

Marcia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 391

shall be responsible for payment of the relevant reasonable royalties, compensations, remunerations, charges and/or tariffs or fees due on this basis.

The Contractor represents and guarantees that there are no contracts, agreements, licences, permits, restrictions, requirements, patents, certificates, Contractor duties or any other circumstances to prevent or that could prevent ENEL from using, or in any way enjoying the industrial or intellectual property required for the performance of the Contract, as well as that of the product, service, supply, licence, document, object, article it is incorporated to, or may be included in.

20.5. In the case of supply Contracts, if, as a result of a dispute by the owners or concessionaires of the rights referred to in this clause, ENEL is obliged to modify the materials or equipment to be supplied by virtue of the Contract totally or partially, they must be modified as soon as possible at the Contractor's expense, without this resulting in a deterioration of the quality of the supply, operating characteristics, or guaranties. If the above occurs, a new process for the approval of prototypes shall be carried out, where this is prescribed for the type of supply in question and before the materials or equipment is supplied. The Contractor shall indemnify ENEL for any associated cost, including, among others, transport costs, costs of tests, certification, personalised authorisations, the reception of permits / authorisation or documents, as well as the purchase of any replacement or additional materials /articles, and any other cost and associated expense. All the amounts shall be paid to ENEL within thirty (30) calendar days following receipt of the relevant claim from ENEL.

20.6 If legal action is taken against ENEL by a third party for breach by the Contractor of the obligations referred to in the preceding sub-clause, the Contractor shall, at ENEL's request, be required to provide financial coverage (as provided in clause "ECONOMIC GUARANTEE") in regard to the value of the claims, within ten (10) calendar days. The Contractor shall release ENEL from any liability for breaches of industrial or intellectual property rights that may occur and undertakes to do everything necessary to hold ENEL harmless with regard to any claims or lawsuits against it, and also undertakes to compensate ENEL for all losses, expenses, or damage, whether direct or indirect, arising from court or out of court claims.

20.7. Any lawsuit or claim, whether judicial or extrajudicial, made against the Contractor by a third party relating to intellectual or industrial property rights, shall be immediately notified to ENEL.

20.8. ENEL shall own all of the documents, drawings, plans, computer software, as well as copies thereof, it provides to the Contractor for the performance of the Contract, as well as inventions, patents, utility models and other industrial property rights protected with copyright that are or will be necessary for the performance of the Contract based on documentation provided by ENEL to the Contractor. The Contractor shall use them solely for the performance of the Contract and must return them to ENEL, at all times taking suitable precautions in relation to the processing, use and transfer of data to ensure security and confidentiality, pursuant to the provisions of the "CONFIDENTIALITY" clause of these General Conditions.

20.9. The intellectual property rights and technology and methodology resulting from the works or services performed by the Contractor in the performance of the Contract, and the records that are developed belong to ENEL, without granting the Contractor any right to increase the price specified in the Contract.

20.10. The drawings, documents, plans, computer programs as well as copies thereof, and in general any results (and related industrial and intellectual property rights, including but not limited to patent applications, pending patents, database rights, copyrights, trademarks, trade and industrial secrets rights and any applications thereto on a worldwide basis, software designs and models, know-how) acquired by the Contractor during the performance of the Contract (the "Foreground IPRs") shall exclusively belong to ENEL, which will also automatically become the owner of any relevant work in progress, generated periodically during the performance of the Contract. Each Party recognises and agrees that each Party's Background IPRs shall remain exclusive property of such Party and the other Party shall have no right to claim in relation to any such right; such Background IPRs mean all present and future industrial and intellectual property rights, including but not limited to patent applications, pending patents, database rights, copyrights, trademarks, trade and industrial secret rights and any applications thereto on a worldwide basis, software designs and models, know-how, pertaining to each Party before the execution of this Contract or successively acquired in parallel projects outside of the scope of this Contract. Therefore, if the Contractor shall use its Background IPRs for the performance of this Contract, each Party must specify its relevant Background IPRs for the performance of the Contract in an ANNEX to the Contract before execution of the same. Therefore, if the Contractor wishes to use its Background IPRs for the performance of the Contract, any Background IPRs belonging to ENEL shall be limited to the add-ons (the "Add-Ons"), which are the additional parts (generated by the Contractor in performing the Contract on the basis of its Background IPRs) that do not, in any way, include or contain any of its Background IPRs. The Parties shall agree in writing the list of the issues constituting such Add-Ons previously and/or within 30 (thirty) days following the termination of the Contract.

20.11. The marketing methods and the manner in which technology covered by the Contract is distributed to third parties, as well as any benefits arising thereof, shall be regulated in the Contract.

20.12. In case of breach by the Contractor of the obligations related to industrial and intellectual property referred to in this clause, ENEL has the right to terminate the Contract, without prejudice to its right to every action and compensation for any damage it has suffered.

21. CONFIDENTIALITY.

21.1. All information that any of the Parties makes available (verbally, in writing, in electronic format or in any other way) for the purposes of, and/or during the performance of the Contract, as well as any other confidential information of which any of the Parties may have knowledge as a result of other contracts signed between the Parties or the latter with third parties, and/or the pre-contractual negotiations thereof, as well as all documents, information, and specific knowledge (regardless of how they have been compiled, obtained or developed in relation to the Contract) can be used only for the purpose of executing the Contract and they are confidential.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLES
Nº 8391

21.2. By way of example, the term "confidential" refers, but is not limited to all financial and economic documents, data and information cited, as well as business strategies, information about products and/or production procedures (design, study and development), means and production costs, sales information, development strategies and customer management, any type of data relating to clients, Contractors and their commercial and technical profile, documentation relating to technical and financial offers in public and private tenders, data in relation to plants, equipment, machine and products trials and/or functioning, business analysis, market studies, commercial and marketing plans, other statistic details that are relevant for the business, internal organisation, publicity ideas and new registered trademarks that have not yet been used in the market, prices, characteristics, concepts, prototypes and design of new products or services not yet launched to the market, etc. By way of example, it also applies to data and information of the economic, financial, and technical documents cited, but it is not limited to, inventions subject to patents, patents, licenses, source codes of any type of software, its principles and or related algorithms; discoveries, algorithms, and formulae; new procedures and forms of production; new methodology to test plants, equipment, machines and products, resulting from Research and Development (R&D). In addition, it applies to any other type of internal process, patents, licences, or any other information:

(i) expressly classified as "confidential", "strictly confidential", "secret" (o in any other similar form) by the disclosing Party or

(ii) that the Party receiving knew or should have known that it was confidential given the nature or processing performed by the disclosing Party,

(iii) that any of the Parties has provided the other Party in relation to the Contract performance, including the negotiations and the content and drafting of the Contract and all its Annexes.

21.3. Confidential information may not be disclosed without the prior written and express authorization of the Party that owns such information, except in those cases in which the receiving Party is legally required to transfer it or is ordered to do so by a competent authority, or where refusing to do so is illegal. Without prior written and express authorization from the Party that owns the confidential information, the other Party may not copy, reproduce, translate, modify, adapt, develop, dismantle, separate, perform reverse engineering operations or any operation intended to extract the source codes - fully or in part - from the confidential information provided.

21.4. Confidential information includes all information relating to a Party, made available to the other Party, before or during the performance of the Contract, either by the administrators, managers or employees of the Party that owns the information, or by the subcontractors, sub suppliers or subsidiaries of the Party that owns the information and its relevant administrators, managers, employees or subcontractors or sub suppliers (hereinafter, "Representatives of the Party that owns the information"). Confidential information also includes all information regarding the Representatives of the Party that owns the information, that the Party or its own representatives have been able to make available to the other Party before or during the performance of the Contract, to this effect:

- the term "subsidiary" refers to any company controlled by one of the Parties, or by one of the Parties along with other third parties, for as long as there is such control and during the period in which the information is disseminated.
- the term "control" refers to the direct or indirect capacity of control over the operation and strategy of the company, and to all cases in which any company of the group of companies of either Party owns more than fifty percent (50%) of share capital or shares with voting rights, either directly or indirectly.

21.5. The following will not be considered confidential:

- information that the Party which receives it can prove that it already had it legitimately prior to the start of the performance of the Contract.
- information that the Party which receives it can prove that it has received from third parties not subject to the confidentiality agreement or by law..

21.6. Each of the Parties:

- must restrict the disclosure of confidential information exclusively to the representatives that effectively need to have it based on their degree of participation in the performance of the Contract.
- bind its representatives and guarantee that they fully comply with the obligations contained in this clause.
- will be held responsible for any action or omission on the part of its representatives that leads to a breach of the obligation to maintain confidentiality.
- Shall refrain from using confidential information for purposes different to the Contract performance.

21.7. The Party receiving the confidential information is obliged to create and manage logical and physical data, using the best international techniques and practices available, to guarantee the protection of said data from unauthorized destruction, manipulation, access, or reproduction. Where the confidential information is classified as "strictly confidential" by ENEL, such techniques, and practices in relation to processing and storage of logical and physical data must be expressly agreed and authorised by ENEL. Once the Contract has expired, the receiving Party must return all the data, documents and information provided by the other Party or in its possession, for

Patricia Álvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8891

the purposes of carrying out the contractual activities, in addition to destroying all copies and files that it may have, unless it has received written permission to the contrary from the Party that provides the confidential information.

21.8. Both Parties guarantee that confidential information will not be disclosed during the performance of the Contract and for a period of five (5) years after it has expired, except where another deadline is agreed in the Contract or when it is required by law or by a competent Authority. Notwithstanding the foregoing, where the confidential information is classed as "strictly confidential" by ENEL, the confidentiality and non-use duties provided in this clause shall survive the termination of the Contract for any reason, unless the disclosing Party states otherwise, and shall be valid until the receiving Party is able to demonstrate that such "strictly confidential" information has turned into public information, or data that it easily accessible by people within the relevant circles that usually deal with this type of information for any cause different to that of disclosure by the receiving Party. Where necessary, the Party that is requested to disclose confidential information shall notify the other Party of such request -where legally possible- immediately, so that it may take the necessary actions to protect its rights. The Parties will only disclose the information required by law and must obtain a statement from whoever receives the information that said information will remain confidential.

21.9. If the information is classified by ENEL as "highly confidential", the following rules should apply:

- the password required to access IT systems must be personal or individual, kept secret and changed every sixty (60) days.
- access to information systems must be limited to software/tools specifically provided for the performance of the necessary activities; the use of network services or connections for purposes not related to the activities that must be carried out is prohibited.
- any transaction developed through ENEL's IT systems must not violate local laws applicable.
- the workstation used (permanent or temporary) cannot connect to internet services other than those provided or authorised by ENEL and must have the necessary antivirus installed. All necessary measures must be taken to prevent the spread of viruses, malicious software or any illicit software that may cause interruptions in the service or loss of data.
- all email accounts, file storage or communication platforms (including social networks) must be explicitly provided or authorised by ENEL.
- sensitive data must be stored, transferred, or cancelled by suitable coding software.
- the modification of the system configuration to avoid security checks is forbidden.

21.10. The Contractor is prohibited from disclosing by any means (for example but not limited to press articles, press releases, interviews) any information deemed confidential according to this clause. Both Parties will agree in writing regarding the content, the means of communication, the date of publication of the press articles and the news or communications of any kind in relation to the Contract or any matter or information related thereto.

21.11. If ENEL authorises the subcontracting, sub supplying or assignment of the Contract in writing, the Contractor must obtain a confidentiality agreement from the subcontractor, sub suppliers or assignee with the same conditions as those contained in this clause.

21.12. Both Parties acknowledge and agree that the compensation of the damages may not represent sufficient compensation for a confidentiality breach and that the Party that suffers the infringement shall have the right to seek other remedies or avoid any possible violation or damage from such violation according to the current legislation in force. In the event of breach of the confidentiality requirements, any of the Parties may also decide to terminate the Contract.

21.13. The above remedy will not be considered the only one available but will be in addition to all other rights and remedies available according to the applicable Law. In case of breach of the confidentiality obligations and without in any way prejudicing the above, and in case of violations referred to in this article, ENEL has the right to terminate the Contract as well as the right to take any action aimed at obtaining compensation for damage.

21.14. ENEL reserves the right to carry out periodic checks, with special attention to the security measures applied in cases where there is information considered and classified by ENEL as confidential.

21.15. At any time, if the Party that discloses confidential information so requires, the other Party shall return or destroy or request that its representatives return or destroy all copies of the confidential information written in its possession or that of its representatives. In addition, the Party receiving the information will do everything in its power (or will require its representatives to do so), to return or destroy any data stored in electronic format and will confirm the destruction of said data to the Party that provides the confidential information within a maximum period of fifteen (15) days following the request to do so, and shall additionally represent that it does not retain any document or material containing such confidential information or related to the same.

21.16. Each Party acknowledges and agrees that confidential information is and remains the exclusive property of the Party that discloses it and that of its representatives. Nothing in the Contract shall be understood - unless expressly stated in writing - as granting a license or similar in matters involving patents, copyrights, inventions, discoveries, or improvements made, conceived, or acquired, both before and after the performance of the Contract.

Lucía Alvarez Chamosa
Traductora-Intérprete Jurada de INGLÉS
Nº 8391

21.17. **Cyber Security.**

21.17.1 The Contractor may access ENEL's computer system only if authorised by ENEL. The Contractor is responsible for the activities performed on ENEL's systems using its digital identity, which must be safeguarded at all times. When performing such activities, the Contractor must comply with the following code of conduct:

a) authentication credentials must never be revealed or provided to anyone.

b) passwords shall not be inserted in emails or any other forms of electronic communication and shall not be provided over the phone to anyone.

c) passwords used to access ENEL's applications through the browser shall never be memorised using the "remember password" feature

d) In order to prevent the theft of Contractor credentials, the Contractor will verify than no one is observing them while entering the relevant credentials to access IT devices or systems.

e) the same password shall never be used to authenticate different systems.

f) access to information systems shall be limited to software/tools specifically provided for the performance of the necessary activities. The use of services or network connections for purposes unrelated to the activities to be performed is prohibited.

g) transactions carried out through ENEL's computer systems must not breach the Law.

h) the workstation employed (permanent or temporary) shall not be connected to Internet services other than those provided or authorised by ENEL and shall have the relevant antivirus installed. All necessary measures will be adopted in order to prevent the spread of viruses, malware or any illicit software that may cause interruptions in the service or data loss.

i) all email accounts, file storage or communication platforms (including social media) shall be expressly provided/authorised by ENEL.

j) sensitive data shall be stored, transferred, or cancelled using the relevant encryption software.

k) modifying the settings of the system to avoid security controls is prohibited.

l) in order to prevent the disclosure of information to unauthorised individuals, attention shall be paid to printed documents, removable hard drives, removable storage devices and video screens.

21.17.2 Should the performance of the Agreement require or imply- at any time during the period of its execution- that the Contractor be granted access and/or use of any application available at ENEL's systems and/or at the IT infrastructure ("ENEL Systems"), this clause shall be applicable to the Contractor in its entirety. At ENEL's request, at any given moment and for any given reason, the Contractor shall implement and be a part of ENEL's double factor authentication system (the "Multifactor Authentication System"), as a mandatory requirement to access and/or use any ENEL system. The Contractor undertakes that, in order to implement and be a part of the Multifactor Authentication System:

(i) a working smartphone or SIM card are required (for private or mixed use).

(ii) each smartphone used for the purposes of the Multifactor Authentication System must be exclusively associated to the personal identity of the employee, agent, subcontractor, provider, representative or other kind of personnel of the Contractor that may have access and/or that will be using ENEL's systems on behalf of the Contractor; and

(iii) the Contractor shall meet all the requirements listed above at its own risk, cost, and expense. ENEL does not undertake any charges (financial or of any other kind) for the supply of smartphones and shall not be liable before the Contractor or any third party for any damage, claim or loss, direct or indirect, that may arise or be related to the failure and/or malfunctioning or unlawful use of any smartphone that may be used for the Multifactor Authentication System by the employees, agents, subcontractors, sub suppliers, representatives, or other personnel.

22. PERSONAL DATA PROCESSING.

22.1. **Object of the data processing.**

This clause regulates the terms according to which the Contractor (hereinafter, the "Data Processor"), will process all personal data necessary for the performance of the Contract on behalf of ENEL (hereinafter, the "Data Controller"). The Contract will define what the processing specifically entails, specifying processing operations to be conducted (collection, structuring, storing, browsing, etc.). In addition, the Contract will identify the information necessary for the performance of the Contract that the Data Controller will provide to the Data Processor.

22.2. **Duties of the Data Processor.**

The Data Processor and all their employees undertake to:

a) Use personal data for the sole purposes of the Contract. In no case may the Data Processor use the data for other purposes that have not been expressly authorised by the Data Controller.

Patricia Alvarez Charriosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

b) Guarantee that the people in charge of the data processing, process Personal Data according to the instructions of the Data Controller. If the Data Processor believes that any of the instructions violate the provisions contained in Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (henceforth, "GDPR") or any Union or Member State data protection provision, the Data Processor shall immediately inform the Data Controller.

c) Keep a written record of all categories of the processing operations carried out on behalf of the Data Controller.

This shall contain:

a. The name and the contact details of the Data Processor and of the Data Controller on behalf of which the Processor operates and, as appropriate, of the Controller's or Processor's contact person and of the data protection officer (hereinafter, "Data Protection Officer").

b. The categories of processing operations carried out on behalf of the Data Controller.

c. Where appropriate, Personal Data transfers to a third country or international organisation, including the identification of said third country or international organisation and, in the case of transfers indicated in Article 49, Section 1, paragraph 2 of the GDPR, documentation on appropriate safeguards.

d. A general description of the technical and organisational security measures referred to in article 32 GDPR.

d) Not disclose Personal Data to third parties unless with express authorization from the Data Controller, when legally acceptable. The Data Processor may disclose data to other Data Processors working for the same controller, pursuant to the Data Controller's instructions. In this case, the Data Controller shall identify, in writing and in advance, the Personal Data to be disclosed, and the security measures applicable.

e) Not to subcontract with any third party (henceforth, "Data Sub processors" or "Sub processors"), without prior written authorisation from the Data Controller. Should it be necessary for the Data Processor to subcontract or execute an sub supplying agreement in favour of third parties for the supply of specific services and/or supplies that should fall within the scope of the Contract, the Processor must communicate such circumstance previously and in writing to the Data Controller, specifying the services and/or supplies, and processing that will be subcontracted or sub supplied, and clearly and unequivocally identifying the subcontracting and sub supplying company, as well as their contact information. The Sub processor, who will also be considered Data Processor, shall be equally obliged to fulfil the obligations set forth in the current clause for the Processor, as well as the instructions that the Controller may dictate. The initial Processor will regulate the new relationship so that the new Processor be bound by the same conditions (instructions, obligations, security measures, etc.) and meet the same formal requirements as the Processor regarding the adequate processing of personal data and the rights of people affected being guaranteed. In case of default by the Sub processor, the initial Processor shall continue acting as Controller before the Data Controller regarding the fulfilment of obligations. The Data Processor declares that the Sub processors shall process personal data within the European Space or in countries with an appropriate level of protection, according to the dispositions of the applicable Commission decision in force on the date of signature of the Contract. Should the level of protection not be appropriate, the Processor and the Sub processor undertake to sign the Standard Contractual Clauses that the European Commission has adopted at the time of the signature. Should the Processor have enough reasons to designate several Sub processors, different to those listed in the annex attached to this document, it shall update the list and communicate such update to the Data Controller in advance (ANNEX II).

f) Provide the Data Controller, on an annual basis, with the list of the places where the data processed relating to the Contract are being processed and stored.

g) Maintain the duty of secrecy regarding the Personal Data accessed under this Contract, even after its termination.

h) Guarantee that individuals authorized to process Personal Data expressly undertake in writing to respect confidentiality and to comply with the relevant security measures, of which they must be duly informed.

i) Keep documentation accrediting compliance with the obligation set forth above available for the Data Controller.

j) Guarantee that the individuals authorized to process Personal Data have the necessary Personal Data protection training.

k) To assist the Data Controller in the replies to the exercise of the following rights: (i) access, rectification, erasure, and objection, (ii) restriction of the processing, (iii) data portability, (iv) not to be subject to automated individual decision making (including profiling). To these effects, when people affected exercise the said rights before the Data Processor, it must communicate this to the address ENDESAprotecciondedatospersonales@enel.com. Such communication must be conducted immediately and, in any case, no later than the business day following the reception of the request, together with, where appropriate, any other information that may be relevant in order to handle the request.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

l) The Data Processor must provide information on the data processing operations that will be carried out at the time of collecting the Personal Data. The Data Processor must agree upon the wording and format of the information provided with the Data Controller before they start collecting data.

m) Notification via email of Data security breaches. The Data Processor will notify the Data Controller, without undue delay and in any case before forty-eight hours (48), of any breach they are aware of regarding the Personal Data they hold, together with all relevant information to document and report the incident. The following minimum information shall be provided:

a. Description of the nature of the Personal Data security breach including, when possible, the categories and approximate number of data subjects affected, and the categories and approximate number of Personal Data records affected.

b. The name and contact details of the Data Protection Officer or another point of contact to obtain more information.

c. Description of the possible consequences of the Personal Data security breach.

d. Description of the measures adopted or proposed to remedy the Personal Data security breach including, if appropriate, the measures adopted to mitigate possible negative effects.

If information cannot be provided simultaneously, the information will be gradually provided without undue delay.

n) When appropriate, support the Data Controller in conducting data protection impact assessments.

o) As long as the Controller deems it appropriate, make all the information necessary to comply with prior consultation obligations set forth in article 36 GDPR available, taking into account the nature of the processing activity as well as the information available to the Controller.

p) Allow the Controller to conduct controls or periodic inspections so as to verify the fulfilment of the obligations set forth in the Contract, as well as the performance of audits or inspections conducted by the Data Controller or, where appropriate, another auditor authorised by the Controller.

q) Implement and fulfil the necessary security measures according to the provisions set forth in article 32 GDPR, and all other preventive measures resulting from experience and recognised as best practices, which may be deemed appropriate to prevent illegal or prohibited data processing, or processing that is not in accordance with the previously defined purpose. The Data Processor will effectively guarantee an adequate level of cooperation when implementing such security measures, notifying without undue delay any data breach, when conducting impact evaluations for the purpose of guaranteeing data confidentiality and security and minimising risks of destruction or accidental loss.

r) Designate a Data Protection Officer, in accordance with article 37 GDPR, as well as for those cases where it is requested by the Controller given the existence of a certain processing that may generate a high-risk regarding peoples' fundamental rights and communicate its identity as well as its contact information to the Controller.

s) The Data Processor must erase and return to the Data Controller the carriers where personal data may appear once the rendering of services is finalised. The return must entail the complete erasure of data existing in computer equipment used by the Processor (except when such data must be kept on record imperatively according to European or national applicable regulations) and is obliged to prove such circumstance before the Controller.

22.3. **Compensation and liability**

Any person who has suffered material or non-material damage as a result of an infringement of the GDPR shall have the right to receive compensation from the Data Controller or Data Processor for the damage suffered. Without prejudice to the Data Processor's compensation liabilities as defined in this Contract, pursuant to the article 82 GDPR, the Data Processor shall be liable, in any case, for any damage caused by data processing, in case of Contract infringement or failure to perform Data Controller's legitimate instructions. In case the Data Processor or its employees infringe any data processing obligation identified in this Contract or in the GDPR, the Data Controller shall claim any further compensation proportionally to the damage suffered. The Data Controller shall not be liable if it is proved that he is not responsible for the damage. Where the Data Controller or the Data Processor have paid full compensation for the damage suffered, they shall be entitled to claim back from other parties involved in the same processing.

22.4. **Duration.**

The provisions contained in this clause will be in force for the period necessary to perform the activities entrusted to the Data Processor, and it will automatically expire upon termination of the Contract.

22.5. **System Administrators.**

In view that the Data Processor's employees and/or its Sub processors' employees can be authorised to perform the activities of the "System Administrators", the Data Processor shall communicate to the Data Controller, upon its request, the list of its employees

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

and/or the Sub processors' employees authorised and appointed as "System Administrators" and of anybody potentially able to process Personal Data belonging to the Data Controller. The Data Processor undertakes to maintain the logs recording log-in, log-out and attempts to log-in by its employees and/or by employees of its Sub processor, where authorised, who have been appointed as "System Administrators" and who in that role have potentially been able to modify the Personal Data controlled by the Data Controller for a period of six (6) months with the undertaking to deliver them to the Data Controller in the format indicated by Data Controller and no later than three (3) days following receipt of a written request.

22.6. **Processing of Personal Data of Representatives and Professionals.**

The Parties inform each other that the personal data regarding those parties intervening, representatives and professionals contained in the Contract will be processed by each Party as Data Controller, in order to execute the management of the Contract. In this regard, the Parties oblige themselves to strictly comply with all legal provisions, whichever its range, in relation to the applicable data protection legislation.

The data shall be held while the contractual relationship is maintained, and once this ends, they shall be held throughout the duration of the statute of limitation regarding potential liabilities that could result.

The parties intervening, representatives and professionals of the Parties may exercise their rights of access, rectification, opposition, cancellation, limitation of processing and portability of their data, in the cases and within the scope established by the applicable regulation at any time, by writing to the address provided in the heading of the Contract for each of the Parties. In addition, they may exercise their right to file a claim before the relevant supervisory authority (*la Agencia Española de Protección de Datos*).

22.7. **Processing of Personal Data of the Workers of the Contractor providing works or services for ENEL.**

Any personal data provided by the Contractor to ENEL in order to allow the performance of this Contract, shall have the legal meaning of transfer of data and only that information which is strictly necessary for the performance of the referred provision shall be exclusively applied or used to ensure performance of the purpose of this Contract. In this regard, ENEL obliges itself to comply with all legal requirements, whatever its range, with regard to the applicable data protection legislation.

ENEL undertakes to delete all personal data provided by the Contractor upon completion of the Contract performance.

23. ENVIRONMENTAL PROTECTION.

23.1. **Materials and/or equipment.**

23.1.1. The Contractor undertakes to adopt the relevant measures to guarantee strict compliance of the duties it is responsible for according to environmental, energy efficiency and indoor environmental quality legislation in force at state, autonomous, provincial and local level in relation to correct use of the energy and correct packaging and labelling of the products supplied (date of packaging, manufacture, expiry of the product, etc.) as well as the possibility of return of the packaging of the chemical products in those cases where such products are considered as a dangerous substance according to the regulations applicable, without prejudice of any other legal development that may result in future regarding the issue, and hence the damage that may have been caused as a result of any breach in applicable law must be restored taking into consideration the activity and the place where it must be carried out.

23.1.2. The Contractor undertakes to make sure that the elements used in its materials and equipment are not carcinogenic or chemically unstable.

23.1.3. The Contractor undertakes to carry out the management of the empty packaging where it has supplied substances and chemical preparations, in compliance with the legislation in force on the matter and commits to withdraw them upon ENEL's request and where the latter makes them available for such purpose. Therefore, it undertakes full liability for compliance of the relevant regulation concerning transport. In addition, the Contractor is obliged to withdraw all packaging used for transport within the terms and deadlines provided in the Contract, or where not provided therein, in subsequent deliveries it shall withdraw packaging of former shipments where requested to do so by ENEL.

23.1. **Works and/or services.**

23.2.1. The Contractor must ensure and verify that its personnel understand, comprehend, and comply with all the requirements and regulations applicable to the Contract in relation to environmental protection, energy efficiency and indoor environmental quality based on the work to be carried out and the place where this is performed.

23.2.2. The Contractor shall guarantee, and certify where necessary, that the personnel in charge of performing the Contract holds or receives suitable theoretical and practical training to this effect and in this regard, especially in that which is necessary to guarantee correct environmental and energetic compliance and to reduce the risk of an incident holding environmental repercussions as well as affecting indoor environmental quality. Training shall include those duties that result for the latter that result from the Systems of Environmental, Energetic and Indoor Environmental Quality Management, where this is implemented or pending to be implemented as is common in ENEL's different businesses.

23.2.3. The Contractor shall provide its personnel with the necessary tools for the Contract to be performed through respect to the environment, considering an efficient use of energy and in compliance with indoor environmental quality. In addition, the Contractor

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

undertakes to comply with all the legal requirements applicable, as well as those resulting from Systems of Environmental, Energetic and Indoor Environmental Quality Management, where it has been implemented on the premises subject of Contract.

23.2.4. The Contractor shall be liable for any environmental, energetic, or indoor environmental quality incident caused as a result of the performance of the Contract. ENEL reserves its right to impose on the Contractor any actions and costs that result from the breach of its duties regarding environmental protection, energy efficiency and indoor environmental quality. The Contractor shall implement the necessary measures to guarantee strict compliance with all the regulations applicable to the Contract performance and shall restore the damage produced as a result of any breach of the same.

23.2.5. The Contractor must incept an Environmental Liability Insurance Policy with the coverage required in order to address the liabilities resulting from the Environmental Liability Act *[Ley de Responsabilidad Medioambiental]* and any other law through which the Environmental Authorities may claim remedy and/or compensation for the damage that could be caused to natural resources.

24. SUPPLIER PERFORMANCE MANAGEMENT.

24.1. ENEL monitors and evaluates Contractor performance through a specific process of Supplier Performance Management. The main aspects evaluated during the referred process are the following:

a) quality of the performance.
b) compliance with the schedule.
c) compliance with health, safety, and environmental regulations.
d) respect to human rights.
e) cooperation and innovative proposals during the performance of the Contract.

24.2 Based on the foregoing points listed, ENEL shall assign the Contractor a rating. Where such rating is positive, the Contractor will be granted access to the incentive actions provided in the "ad hoc" regulation. Where such rating is negative, ENEL shall apply the remedies provided in the Contract for breach of contractual duties.

25. VALUE ENGINEERING Y GAIN SHARING.

25.1. This section shall only be applicable to those Contracts that are not subject to a legislation that prohibits or restricts the use of this mechanism.

25.2. "Value Engineering" means the systematic application of techniques recognised to identify functions, products, services, designs, techniques, alternatives, and performance improvements that have the effect of maintaining or improving the quality and/or the value of the work or the total cost of the entire project and other applicable facts while the Price is reduced without compromising security, quality, and environmental compliance of the scope of the Contract. Value Engineering results from the fact that such practices and designs are or are not a deviation of the Technical Specifications, which results in a deviation and/or modification of the Contract. Value Engineering shall not include the standard optimisation taken during the design process that ENEL and the Contractor would normally carry out.

25.3. The Contractor may provide ENEL, Value Engineering proposals. The Value Engineering proposals must have the aim of reducing the Price by means of direct adjustments that are quantifiable to the scope of the Contract.

The Contractor's proposals to ENEL shall be assessed and approved by ENEL.

The Value Engineering proposals shall include:

a) recommended changes to the scope of the Contract (a detailed description, allocation of Parties responsibilities, etc.).

b) the anticipated savings and/or improvements in the scope of the Contract financial or otherwise) that will be achieved by any of the Parties.

c) estimated costs to be incurred by any of the Parties.

d) any other impact on the Contract provisions.

25.4. ENEL shall make all reasonable commercial and technical efforts to revise and reply to such Value Engineering proposals within fifteen (15) days following reception. Where a Value Engineering proposal is accepted, the proposing Party must promptly draft an "ad hoc" implementation plan.

25.5. No Value Engineering proposal shall be implemented until ENEL has issued formal acceptance in writing.

25.6. The monetary value of the Value Engineering shall be called "Gain Sharing". The Contractor must provide a Gain Sharing distribution proposal between ENEL and the Contractor. Where this proposal is accepted, the Contractor may be entitled to receive the Gain Sharing part according to what is agreed by the Parties.

25.7. Following approval of the Value Engineering proposal, the Contractor must present an application to Change Order.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

26. GOVERNANCE.

26.1. **Contract Governance structure.**

26.1.1. Where provided for in the Contract, the Parties may set up a committee (so-called "Review Group") to supervise the progress of the performance of the Contract purpose. The Review Group is made up of an equal number of representatives of the Parties. Each Party may periodically change its representatives in the Review Group at its sole discretion, notifying the other Party of the change.

26.1.2. Additional representatives of both Parties, with appropriate technical skills, experience and knowledge, or external consultants, may from time to time - by mutual agreement of the Parties - be invited to attend the meetings of the audit team, without prejudice to the obligation for all third parties to sign and comply with confidentiality obligations.

26.1.3. The audit team is chaired by a representative of ENEL.

26.2. **Decision process.**

All decisions of the review team must be unanimous. If the Review Group fails, after making good faith efforts, to reach an agreement, this matter must be referred to the representatives of ENEL and the Contractor indicated for this purpose in the Contract. These representatives will meet promptly and negotiate in good faith to resolve this issue.

26.3. **Responsibility.**

26.3.1. The responsibilities of the Review Group include:

a) to encourage and facilitate ongoing cooperation and communication between the Parties.

b) supervise and coordinate the transfer of information.

c) periodically evaluate the performance of the Contract.

d) to discuss in good faith all potential improvements that can be adopted during the performance phase.

26.3.2. Unless otherwise provided in the Contract, the Review Group shall meet at least once a year at ENEL or other places agreed by the Parties. Alternatively, the Review Group may meet by teleconference, videoconferencing or using any other similar communication equipment

26.3.3. The Chairman of the Review Group is responsible for sending the agenda, reasonably in advance of all meetings, and preparing of the final minutes of each meeting.

26.3.4. Any expenses for attending meetings shall be borne by each Party.

27. KPI.

27.1. The Contractor must perform the Contract satisfying the levels of service, where expressly provided in the Contract.

27.2. The Parties shall monitor and verify the achievement of service levels in the manner and within the terms set forth in the previous "GOVERNANCE" clause of these General Conditions.

28. GLOBAL COMPACT.

28.1 Each Party acknowledges the content of the so-called "Ten Principles" of the Global Compact of the United Nations and represents that it manages its business activities and operations in order to comply with such fundamental responsibilities in the fields of human rights, employment, environment, and fight against corruption.

28.2 In particular, the Contractor undertakes to take the principles of the Global Compact as its own and to fully comply with the latter as well as the regulations, and guarantees that all activities directly or indirectly performed through subcontractors or sub suppliers, third parties hired by the Contractor and all the supply chain comply with the following principles of Global Compact:

a) HUMAN RIGHTS.

One: Any business must support and respect the protection of internationally recognised human rights in conducting their business activities.

Two: Any business must ensure that they do not take part in human rights violations.

b) WORK.

Three: Any business must support freedom of affiliation and the effective recognition of the right to collective bargaining.

Four: Any business must support the elimination of all forms of forced labour carried out under duress.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

Five: Any business must support the elimination of child labour.

Six: Any business must support the elimination of discriminatory practices in employment and education.

c) ENVIRONMENT.

Seven: Any business must conduct their affairs in a preventive manner to avoid potential damage to the environment.

Eight: Any business must support initiatives to promote greater environmental responsibility.

Nine: Any business must encourage the development and dissemination of technologies that respect the environment.

d) CORRUPTION.

Ten: Any business must work against corruption in all its forms, including extortion and bribery

28.3 The Contractor undertakes to inform ENEL of any situation which may result in failure to fulfil these principles, also in relation to its subcontractors, sub suppliers, third parties hired by the Contractor and all of its supply chain, that could involve breach of such principles, as well as the plan to remedy such situations.

28.4 For the duration of the Contract, the Contractor agrees to allow ENEL to verify the degree of compliance with the requirements of this clause by means of inspections, audits and/or documentation requests. In such cases, the Contractor has the duty to grant ENEL access to its premises promptly and provide the documentation requested, and do its best so that its subcontractors, sub suppliers, third parties hired by the Contractor and all within the supply chain act accordingly.

28.5 ENEL may terminate the Contract, for reasons attributable to the Contractor, where it reasonably acknowledges and holds evidence that the Contractor and/or any of its subcontractors, sub suppliers, third parties hired by the Contractor and all the supply chain have breached any of the abovementioned principles. The Contractor must indemnify and hold ENEL harmless for any related loss, damage, cost, or expense.

29. CODE OF ETHICS.

29.1 General details.

29.1.1. The ENEL Group, when conducting its business and managing its relationships complies with the principles contained in its own Code of Ethics, in the Zero Tolerance plan against corruption and in the Human Rights Policy. The Contractor, when conducting its own business and managing its relationships with third parties, refers to equivalent principles. These principles, as well as the rest of the Code of Ethical Standards shall be available in the following address www.endesa.com.

29.1.2. The Contractor acknowledges the commitments made in accordance with ENEL's Code of Ethics and it declares that it abides by equivalent commitments, in the management of its businesses and relations with third parties, and guarantees that its subcontractors, sub suppliers, third parties hired by the Contractor and its chain of supply will act accordingly.

29.1.3. The Contractor shall comply with the Conventions of the International Labour Organisation (ILO), and with the legal duties regarding the prevention of child labour and protection of women; equal opportunities; the prohibition of discrimination; abuse and harassment; freedom of association and representation; forced labour; environmental security and protection; health and safety conditions, and guarantees that its subcontractors, sub suppliers, third parties hired by the Contractor and its chain of supply will act accordingly.

29.1.4. In addition, the Contractor will comply with the regulations in force in the field of wages, pensions and social security contributions, insurance, taxes, etc., as regards all the contracted workers in relation to the performance of the Contract and guarantees that its subcontractors, sub suppliers, third parties hired by the Contractor and its chain of supply do likewise. In the event of dispute between any of the regulations in force and the Conventions of the ILO, the most restrictive regulations shall prevail.

29.1.5 Each of the Parties undertakes to avoid any form of corruption. Therefore, ENEL prohibits, and the Contractor undertakes to refrain from making use of any type of payment promise, offer or request that is unlawful, either in cash or through any other consideration, for the purpose of favouring its relationship with the interested parties. This prohibition shall extend to all its employees and directors. The Contractor guarantees that its subcontractors, sub suppliers, third parties hired by the Contractor and its chain of supply will also do accordingly.

29.1.6 ENEL reserves its right to perform any supervisory and follow-up activity by means of inspections, audits and/or documentation requests, focused on complying with the abovementioned duties as regards to both the Contractor as well as any of its subcontractors, sub suppliers, third parties hired by the Contractor and its supply chain. In such cases, the Contractor has the duty to grant ENEL access to its premises and to promptly provide the documentation requested, as well as to do its best so that its subcontractors, sub suppliers, third parties hired by the Contractor and its chain of supply act accordingly.

29.1.7 In case of breach of one of these duties, ENEL reserves the right to terminate the Contract and to request compensation for damages from the Contractor and indemnify and hold harmless from any related damage, loss or expense.

29.2. Conflict of interest.

Patricia Álvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

29.2.1. During the performance of the Contract, the Contractor undertakes to have exclusive regard for the interests of ENEL, ensuring that there are no situations that might lead to the occurrence of any conflict of interest in relation to the activities to be performed.

29.2.2. For the entire duration of the Contract, the Contractor undertakes to behave in a way aimed at avoiding conflicts of interest. Whenever this might result in a situation which could generate any conflict of interest – subject to ENEL's right to terminate the relationship – the Contractor undertakes to promptly give written notice to ENEL and to comply with the reasonable instructions of the latter, which will be dictated upon consultation and assessment of the requirements justifiably represented by the Contractor.

29.2.3. The Contractor (if a natural person) with the acceptance of the Contract, declares

a. That he/she does not carry out, within the companies of the ENEL Group, Senior Management functions (director, senior manager with strategic responsibilities), duties corresponding to an employee of the ENEL Group or in the capacity as auditor of the ENEL Group.

b. That he/she does not have, within the companies of the ENEL Group any family members, relatives up to second degree, non-legally separated spouse, cohabitating partner, or spouse or children of its partner, which are related to it by consanguinity or affinity.

c. That both the Contractor and his/her relevant family members (non-separated spouse or first-degree relatives), have not held or hold, in the last (24) months, positions at Public Administrations, or Entities that manage public services that have had a direct relation with activities carried out by any of the companies of the ENEL Group (granting of concessions, control activities, etc.).

29.2.4.The Contractor (if a legal entity -where a corporate person, public entity, publicly listed company, banking institution and companies thereby controlled, are not obliged by this declaration -) with the acceptance of the Contract, declares that, as a result of having knowledge of its corporate structure, no person who takes part it its governing bodies, management, or control (including trust companies):

a. Is a member of Senior Management of the Governing Bodies or the Auditing Committee, or a manager with responsibilities in the ENEL Group companies, nor a family member up to second degree, spouse, partner, child of spouse or partner, or a dependent person (by kinship or marriage) of the said members.

b. Is an employee of any of the ENEL Group companies, nor a family member up to second degree, spouse, partner, child of spouse or partner, or a dependent person (by kinship or marriage) of the said employee.

c. Has occupied or occupies -both the person itself as well as its family members (non-separated spouse or first-degree relatives)- in the last (24) months, posts in Public Administrations o Entities that manage public services that have had a direct relation with activities conducted by any of the companies of the ENEL Group (granting of concessions, control activities, etc.)

29.2.5. The Contractor, whether a corporation or a natural person, undertakes to communicate to ENEL any change that may take place in the future and while it has the active condition of Contractor, with respect to the information represented prior to the execution of the Contract.

29.3 Integrity clause.

29.3.1 By signing the Contract, the Contractor declares:

a) It is aware of the commitments made to ENEL S.p.A. and to the companies it directly or indirectly controls (hereinafter "ENEL"), contained in the Code of Ethics, the Zero Tolerance Plan against Corruption and in the Human Rights Policy, to respect the equivalent principles in the conduct of their business and in the management of their relations with third parties;

b) it is not subject to criminal prosecution for tax offences, offences against the public administration, offences against property, offences against personal liberty, public order, or environmental offences.

c) it is not subject to a criminal investigation in relation to any fact or matter, or to unlawful conduct constituting tax offences, offences against the public administration, offences against property, offences against personal liberty, public order, or environmental offences;

d) it is aware and authorises that, for the purposes of assessing its professional conduct in accordance with paragraphs b) and c), ENEL may autonomously acquire further information, at any time, considering the necessary existence of duties of loyalty of the Contractor.

29.3.2. The Contractor agrees to immediately notify and provide all relevant information to ENEL:

a. in the event it becomes aware of being subject to a criminal proceeding as referred to in paragraph b) of the preceding paragraph;

b. in the event it becomes aware of being subject to criminal investigation as referred to in point c) of the preceding paragraph.

Patricia Alvarez Charnosa
Traductora/Intérprete Jurada de INGLES
Nº 8301

ENEL reserves its right to analyse at its sole discretion the abovementioned information, for the purposes of evaluating the Contractor's professional conduct.

29.4. **Health and Safety**

29.4.1 ENEL shall not allow the performance of any work that compromises the health and safety and/or the protection of the environment. For this reason and as provided in the "Stop Work Policy", any situation of risk of unsafe behaviour shall determine the suspension of work and the restoration of the conditions regarding health, safety and/or protection of the environment.

29.4.2 ENEL solidly and constantly undertakes to promote and consolidate a culture of protection of health, safety, and environment. Such commitment is detailed in the "Declaration of Commitment to Health and Safety", "Stop Work Policy" and the "Environmental Policy" that can be found in the following links:

http://globalprocurement.enel.com, in the sections "Other useful documents" and

https://globalprocurement.enel.com/documents/health-and-safety-documents and

https://corporate.enel.it/en/company/policy-environmental-enel.

30.4.3. The Contractor acknowledges ENEL's commitment with the promotion and consolidation of a culture of protection of health, safety, and environment, and undertakes to comply with the same principles and with the provisions of the HSE Terms, where applicable and guarantees that its subcontractors, sub suppliers, third parties hired by the Contractor and its chain of supply will also comply with the same.

29.5. **Contractor Code of Ethics.**

Alternatively, where the Contractor has its own Code of Ethics and antibribery policies, and those in relation to human rights, ENEL may acknowledge such documents, at its full discretion, provided that they relate to principles that are considered similar to those established in analogous ENEL documents.

30. INTERNATIONAL SANCTIONS AND DECISIONS REGARDING EXPORTS CONTROL.

30.1 Each of the Parties declares and guarantees to the other that, after due investigation, to the best of their knowledge and on the date of effect of the Agreement, neither of them, nor any of their managers, or the members of its governing body, or shareholders that hold at least five per cent (5%) stake in any of the Parties or in any company owned by any of the Parties, whether it be owner of at least fifty per cent (50%) or controls in any other way, or is under the common control of an ultimate parent company, are:

(i) subject to sanctions, or

(i) take part in any activity or have taken part previously in any activity that may result in exposure to sanctions. "Sanctions" shall be understood as all applicable economic or financial sanctions or imposed commercial seizure based on laws, regulations, executive orders, restrictive measures, or other related regulations imposed or publicly notified by

a) the United Nations.

b) the European Union.

c) the Government of the United States, including those administered by the Office of Foreign Assets Control of the United States Department of Treasury.

d) Her Royal Majesty's Treasury of the United Kingdom; or

e) the Republic of Italy.

30.2. Each Party shall fully comply with all legal requirements regarding sanctions in relation with the performance of the Agreement.

30.3. Each Party undertakes to retain and enforce the policies and procedures set forth to prevent the application of any sanction, and to immediately communicate in writing to the other Party the initiation of any proceedings that may result in the imposition of a sanction and, in any case, the application of any sanction during the term of the Contract.

30.4. Moreover, the Contractor declares that, to its knowledge, after due investigation, the subcontractor, sub suppliers, third parties contracted by the Contractor and all its supply chain are not subject to any sanction, and it will immediately notify ENEL, in writing, in accordance to the "COMMUNICATIONS" clause of the current General Conditions, of any circumstances that it becomes aware of regarding the application of any sanction, during the Term of the Contract, against its subcontractors, sub suppliers, third parties contracted by the Contractor and all its supply chain.

30.5. ENEL will be entitled to terminate the Contract, giving a seven (7) calendar-day notice, if the Contractor or any of its subcontractors, sub suppliers, third parties hired by the Contractor and operators within all its supply chain are subject to a sanction during

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 1491

the term of the Contract, or where the Contractor makes misleading statements by virtue of this clause. Only in this last instance shall the Contractor compensate and hold ENEL harmless for any relevant damage, loss, cost, or expense.

In the abovementioned termination scenarios, the Parties may negotiate in good faith in order to mitigate possible any loss or damage as much as regarding the sanctions or consequences thereof, during the termination notice period. In absence of the said understanding during the course of seven (7) calendar days from the termination notice, the Contract shall be automatically terminated, notwithstanding any other resource that may apply legally or by virtue of the Contract.

31. GOVERNING LAW.

The Contract and all the issues that may arise between the Parties in relation or connection to the same shall be governed and interpreted exclusively according to Spanish Law which the Contractor and ENEL expressly submit to.

32. JURISDICTION AND DISPUTE RESOLUTION.

The parties expressly waive any other jurisdiction to which they may be otherwise entitled, and agree to submit any controversy, issue, incident, or dispute which may arise between them as regards the Contract interpretation, performance and compliance that cannot be settled by amicable means between ENEL and the Contractor, to the courts and tribunals of (Metropolitan) Madrid.

1. ÁMBITO DE APLICACIÓN.

1.1. Las presentes Condiciones Generales de Contratación (en adelante, "Condiciones Generales"), se aplican a los contratos regidos por la legislación española que se celebren entre las sociedades del Grupo ENEL (en adelante, "ENEL") y el Proveedor (en adelante conjuntamente, "Partes").

1.2. ENEL fomenta un modelo de negocio sostenible y sitúa la sostenibilidad medioambiental, social y económica, junto con la innovación, en el centro de su cultura corporativa, implementando un sistema de desarrollo basado en compartir la creación de valor, tanto dentro como fuera de la empresa. ENEL persigue la consecución de los Objetivos de Desarrollo Sostenible de las Naciones Unidas (ODS), es miembro "Participante" del Pacto Mundial de Naciones Unidas desde 2004 y, en 2020, fue confirmada como empresa LEAD, gracias a su adhesión a los diez (10) principios fundamentales en materia de derechos humanos, estándares laborales, protección del medio ambiente y lucha contra la corrupción.

ENEL se compromete a impulsar la sostenibilidad social, económica y medioambiental, también a través de las relaciones contractuales con sus proveedores. El Proveedor declara conocer los principios de ENEL sobre desarrollo sostenible, que están disponibles en el siguiente enlace [https://www.enel.com/company/our-commitment/sdg-onu], y compartir los mismos fines.

1.3. Cualquier excepción a estas Condiciones Generales propuesta por el Proveedor será válida únicamente si se solicita por escrito y es aceptada expresamente por ENEL, y únicamente será aplicable al Contrato para el que haya sido propuesta, sin que en ningún caso pueda hacerse extensiva a otros contratos vigentes ni a ningún otro contrato que pueda ser suscrito posteriormente con el mismo Proveedor.

2. DEFINICIONES.

- **Acta de Recepción Definitiva:** Documento que confirma la recepción final y la aceptación por ENEL de los materiales y los equipos adquiridos, o de las obras o servicios, y la finalización del Periodo de Garantía.
- **Acta de Recepción Provisional**: Documento que refleja:

  1) el resultado satisfactorio de la inspección y/o pruebas en relación con un equipo o material adquirido por ENEL, objeto del Contrato. Este documento asimismo recoge las modificaciones necesarias o las correcciones de las deficiencias encontradas durante la inspección y/o pruebas, y/o

  2) el resultado satisfactorio del examen del progreso de las obras, la ejecución exacta o la corrección completa del servicio objeto del Contrato y el cumplimiento de los estándares técnicos y las cláusulas contractuales relativas a las distintas fases de las actividades estipuladas en dicho Contrato. Este documento asimismo recoge las modificaciones necesarias o las correcciones de las deficiencias encontradas.

- **Acuerdo Marco:** Modalidad de Contrato celebrado entre ENEL y el Proveedor que tiene por objeto establecer las condiciones técnicas y económicas y de cualquier otra índole, que deberán regir los contratos subsiguientes derivados del Acuerdo Marco, que se pudieran suscribir durante la vigencia de este, para el suministro de materiales y/o equipos o para la prestación de servicios, similares o repetitivos, en análogas condiciones y precios. La formalización de un Acuerdo Marco no implica para ENEL, salvo que se contemple de otra forma en el Acuerdo, la obligación de formalizar posteriormente ningún contrato subsiguiente.
- **Autorización de Envío:** Documento que emite ENEL, por el que se faculta al Proveedor para que proceda al envío total o parcial del equipo o material objeto del Contrato.
- **Aviso de Expedición:** Documento que emite el Proveedor una vez cumplimentados todos los trámites convenidos, por el que se informa a ENEL de que se ha procedido al envío total o parcial del equipo o material objeto del Contrato.
- **Calidad Concertada:** Compromiso establecido entre ENEL y el Proveedor según el cual, éste garantiza unos niveles de calidad convenidos entre ambas Partes.
- **Carta de Intención:** Acuerdo que contiene compromisos previos y generales que pueden llegar a formalizarse, o no, en un Contrato. Su finalidad es facilitar el inicio de la ejecución del Contrato por el Proveedor, una vez acordadas por las Partes las obligaciones esenciales, y no condicionar la totalidad de las actuaciones contractuales a la negociación de los aspectos de detalle pendientes. La emisión de este documento implica el sometimiento de las Partes a las presentes Condiciones Generales.
- **Contrato:** Conjunto de documentos, enumerados a continuación, que regulan por escrito las obligaciones y derechos de las Partes, en relación con la adquisición de bienes, materiales o equipos, la ejecución de obras o la prestación de un servicio:

  1. **Cuerpo principal del Contrato:** Documento que contiene los datos de identificación de las Partes, especifica el objeto y la Duración del Contrato, y contiene las estipulaciones básicas y específicas de naturaleza económica, administrativa y legal. Asimismo, enumera y referencia todos los documentos de los que se compone el Contrato en su conjunto.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

2. **Documentación técnico-económica de ENEL**:

   - Especificaciones Técnicas: Documento que contiene los requisitos técnicos relativos al Contrato;
   - Lista de Remuneración o de Precios: Documento que contiene la remuneración económica que se deberá pagar al Proveedor, que se puede agrupar por categorías;
   - Otros documentos: Otros documentos relacionados con la ejecución del Contrato (descripción de los trabajos e intervenciones, impresiones de diseño gráfico y descriptivo, calendario, etc.).

3. **Condiciones Generales: El presente documento.**

4. **Condiciones de Salud, Seguridad y Medioambiente (HSE Terms):** Documento que rige las obligaciones de las Partes en materia de seguridad, salud y medio ambiente, en la ejecución del Contrato. Las Condiciones de Salud, Seguridad y Medioambiente están disponibles en la página web de compras globales de ENEL.

- **Duración del Contrato:** Período de vigencia del Contrato, establecido en el mismo.

- **Filial:** En relación con cualquier persona jurídica, cualquier otra persona jurídica, que: (a) controle directa o indirectamente, o esté controlada por, o esté bajo control común con dicha persona jurídica; o (b) posee directa o indirectamente o posee el cincuenta por ciento (50%) o más de cualquier clase de acciones con derecho a voto u otras participaciones en el capital social de dicha persona jurídica; o (c) tiene el cincuenta por ciento (50%) o más de cualquier clase de acciones con derecho a voto u otras participaciones en el capital que sea directa o indirectamente de propiedad beneficiaria o en poder de dicha persona jurídica, o (d) tenga una participación de sociedad general en dicha persona jurídica o dicha persona jurídica tiene un interés social general en la otra persona jurídica. A efectos de esta definición, la palabra "control" significa posesión, directa o indirectamente, del poder de dirigir o causar la dirección de la administración o políticas de una persona jurídica, ya sea a través de la propiedad de valores con derecho a voto o de otra manera.

- **Firma electrónica:** Sistema de firma digital que, cuando sea aplicable y de conformidad con la legislación vigente, permite verificar la identidad de las Partes con el mismo valor que una firma manuscrita, que da validez a las comunicaciones generadas por el signatario, y que verifica el origen y la integridad de un documento electrónico o un conjunto de estos.

- **Garantía económica:** Documentación que el Proveedor proporciona a ENEL para garantizar económicamente el cumplimento exacto de todas las obligaciones contractuales y cualesquiera otras obligaciones.

- **Grupo ENEL, o ENEL:** ENDESA, S.A. y/o todas o algunas de sus filiales, así como ENEL S.p.A y/o todas o algunas de sus filiales.

- **Impuestos:** Cualquier tributo o cualquier carga en general determinada por la Autoridad competente o las leyes de aplicación a un Contrato que ha de pagarse de acuerdo con las regulaciones vigentes.

- **Oferta:** Propuesta hecha por un oferente en respuesta a una petición de oferta emitida por ENEL, que será vinculante para el oferente durante el plazo estipulado en la misma pero que no será vinculante para ENEL hasta que se formalice el correspondiente Contrato, no generando ninguna obligación o responsabilidad para ENEL de acuerdo con estas Condiciones Generales.

- **Periodo de Garantía:** Periodo de tiempo durante el cual el Proveedor garantiza el funcionamiento correcto de los materiales o equipos suministrados, y que éstos estén libres de defectos y en perfecto estado de uso, así como la correcta ejecución de los servicios prestados.

- **Plan de Control de Calidad:** Documento emitido por el Proveedor que especifica los procesos, procedimientos y recursos asociados, que se aplicarán para cumplir con los requisitos del Contrato.

- **Portal de compras global:** Portal web de ENEL al que los Proveedores pueden acceder para operar on-line con ENEL.

- **Prácticas industriales prudentes:** En relación con la prestación de servicios/suministros/obras, aquellas prácticas, métodos, especificaciones y normas de seguridad, rendimiento, fiabilidad, eficiencia y economía que son reconocidas internacionalmente por los miembros de la industria, aplicables como buenas y apropiadas, y aquellas otras prácticas, métodos o actos que, en el ejercicio de un juicio razonable por parte de quienes tienen una experiencia razonable en la industria aplicable, a la luz de los hechos conocidos en el momento en que se toma una decisión, se espera que logren el resultado previsto a un coste razonable y en consonancia con la Ley, la fiabilidad y la seguridad. Estas prácticas industriales prudentes no pretenden limitarse a las mejores prácticas, métodos o actos con exclusión de todos los demás, sino que constituyen un espectro de buenas y adecuadas prácticas, métodos y actos.

- **Programa de Puntos de Inspección:** Documento emitido por el Proveedor y aprobado por ENEL, en el que quedan reflejadas las diferentes inspecciones, pruebas, ensayos o exámenes a realizar para cumplir con los requisitos del Contrato.

Patricia Álvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

- **Proveedor:** Persona física o jurídica (incluso asociaciones de empresarios, cualquiera que sea su forma jurídica) que firma con ENEL un Contrato.
- **Recepción en Origen:** Procedimiento en el que las pruebas o ensayos preceptivos para la recepción del material se efectúan en presencia de los técnicos de ENEL o la persona o entidad autorizada por ella, y en las instalaciones del Proveedor, de su subcontratista o subsuministrador, o de cualquier otra entidad acordada entre ambas Partes.
- **Recepción por Protocolo:** Revisión de los protocolos de ensayo preceptivos, realizados previamente por el Proveedor, mediante la que los técnicos de ENEL o la persona o entidad autorizada por ella, aprueban el envío del material en cuestión o, por el contrario, deciden la comprobación de resultados de dichos protocolos por el método de Recepción en Origen.
- **Sistema de Aseguramiento de la Calidad:** Sistema que establece aquellos recursos, acciones, actividades y requisitos que el Proveedor ha de cumplir para desarrollar con eficacia y corrección la gestión de calidad en la ejecución del objeto del Contrato.
- **Subcontratista**: Persona física o jurídica (incluso asociaciones de empresarios, cualquiera que sea su forma jurídica) que firma con el Proveedor o con otro subcontratista, un Acuerdo Marco, o un Contrato de obras o de prestación de servicios para ejecutar parte de la obra o servicios contratados por ENEL con el Proveedor.
- **Subsuministrador**: Persona física o jurídica (incluso asociaciones de empresarios, cualquiera que sea su forma jurídica) que firma con el Proveedor o con un subcontratista o con otro subsuministrador un Acuerdo Marco, o un Contrato de suministro de bienes, equipos o materiales para ejecutar parte de la obra o servicios contratados por ENEL con el Proveedor.

3. IDIOMA.

La versión auténtica de estas Condiciones Generales está redactada en español.

4. FORMALIZACIÓN y NATURALEZA JURÍDICA DEL CONTRATO.

4.1. El Contrato se formaliza entre las Partes con la firma. Al firmar el Contrato, que también puede llevarse a cabo mediante firma electrónica, el Proveedor declara la aceptación total e incondicional de éste.

4.2. El Contrato no se renovará automáticamente ni se prorrogará tácitamente.

4.3. En el caso de Contratos o Acuerdos Marco que ENEL pueda celebrar con el Proveedor en beneficio de dos o más sociedades del Grupo ENEL, los Contratos derivados se formalizarán individualmente entre las sociedades del Grupo ENEL que reciban el servicio o suministro, y el Proveedor o sus filiales o compañías asociadas o establecimientos permanentes ubicados en el mismo país que la sociedad del Grupo ENEL.

4.4. El Contrato tiene naturaleza jurídica mercantil, por lo que la relación entre las Partes tiene carácter exclusivamente mercantil, y se regirá por sus propias cláusulas y, en lo que en ellas no esté previsto, por el Código de Comercio, leyes especiales y usos mercantiles.

4.5. Las relaciones entre las Partes del Contrato son las propias de dos entes jurídicos independientes el uno del otro, y frente a terceros. Salvo que se regule de otra forma expresamente en el Contrato, ninguna de las Partes ni sus empleados actuarán o podrán interpretarse que actúan, como representante, agente o mandatario de la otra Parte, ni sus actos y/u omisiones podrán dar lugar a vínculo alguno que obligue a la otra Parte frente a terceros. Asimismo, ni el perfeccionamiento ni el cumplimiento del Contrato podrán interpretarse como una relación de asociación, sociedad o entidad civil o mercantil, joint venture, consorcio u otra relación de riesgo y ventura compartidos por las Partes del Contrato.

5. INTERPRETACIÓN Y JERARQUÍA.

5.1. En caso de conflicto o incompatibilidad entre los documentos contractuales, el orden de prioridad y prevalencia se determinará de esta forma:

1º Cuerpo principal del Contrato;

2º Documentación técnico-económica de ENEL;

3º HSE Terms;

4º Condiciones Generales.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
[illegible]391

5.2. Si existiera discrepancia entre los documentos contractuales y la legislación imperativa aplicable al Contrato, dicha legislación imperativa tendrá prioridad.

5.3. No se considerará que ninguna de las Partes haya renunciado a algún derecho, potestad o privilegio otorgado por el Contrato, a menos que dicha renuncia se haga de forma expresa por escrito y sea comunicada a la otra Parte. La renuncia a un derecho, potestad o privilegio no implicará una renuncia a otros eventuales derechos, potestades o privilegios futuros, aunque sean de la misma naturaleza. En consecuencia, el no ejercicio temporal o el retraso en el ejercicio por cualquiera de las Partes de cualesquiera acciones en defensa de sus derechos no implicará la renuncia definitiva de dicha Parte a tales acciones o al ejercicio de acciones judiciales o extrajudiciales que pudieran corresponderle, dentro del periodo de prescripción legalmente establecido.

5.4. En el caso de que cualquier disposición del Contrato se considere no valida, dicha invalidez no afectara al resto de las disposiciones que puedan ejecutarse sin la disposición anulada. Las Partes, teniendo en cuenta el espíritu del Contrato y de mutuo acuerdo, intentarán modificar la disposición invalidada de forma que respete el objetivo de la disposición en cuestión de la mejor manera posible.

6. COMUNICACIONES.

6.1. Todas las comunicaciones entre las Partes se realizarán por escrito, enviándose a la dirección y en la forma establecidas en el Contrato. Las Partes se comprometen a notificarse mutuamente de forma inmediata cualquier cambio de dirección. En ausencia de dicha notificación, la comunicación se considerará correctamente efectuada si se realiza en la dirección y en la forma mencionadas en el Contrato.

6.2. ENEL se reserva el derecho a utilizar procedimientos electrónicos para intercambiar documentos relativos al Contrato. Salvo que esté prohibido expresamente en el Contrato, se podrán utilizar medios electrónicos, siempre y cuando permitan realizar un seguimiento de cualquier comunicación.

6.3. El Proveedor cumplirá y dará efecto inmediato a todas las comunicaciones que reciba de ENEL, sin necesidad de otras formalidades.

7. CONDICIONES ECONÓMICAS.

7.1 Precios.

7.1.1 El precio del Contrato es la exclusiva y total contraprestación acordada para la adquisición de materiales y/o equipos y la realización de obras o servicios, y toma en consideración el valor total del Contrato. Incluye todo lo necesario para la ejecución exacta del Contrato y todo lo que el Proveedor deba suministrar o realizar, incluyendo todos los costes o gastos que puedan resultar necesarios, sin perjuicio de los conceptos que se hayan excluido de forma expresa en el Contrato, y los impuestos legalmente establecidos.

El Proveedor investigará todas las condiciones y circunstancias que afectan o que pudieran afectar el precio del Contrato (incluyendo pero no limitándose a la naturaleza y características del trabajo a ser desarrollado, la ubicación y las condiciones ambientales, condiciones sísmicas y del clima que prevalecen en el sitio de ejecución del Contrato, la presencia de otros proveedores, subcontratistas y subsuministradores u otras instalaciones en el citado sitio, las condiciones del suelo y del subsuelo, las condiciones topográficas, los usos locales, legislación y reglamentación, ubicaciones existentes e instalaciones -si las hubiera-, las condiciones generales de trabajo en el sitio donde se realizarán los servicios y/o obras y en otros lugares, rutas de acceso, condiciones de superficie, derechos y permisos etc.). El Proveedor determinará la suficiencia del precio del Contrato de conformidad con dichas condiciones y circunstancias, liberando a ENEL de cualquier reclamación de aumento en el precio del Contrato relativo a dichas condiciones y circunstancias.

7.1.2. El precio total del Contrato incluye como mínimo, la valoración agregada de lo siguiente:

- Mano de obra directa e indirecta.
- Maquinaria y el personal asociado a su utilización.
- Amortización de maquinaria.
- Materiales fungibles y no fungibles.
- Aportación y uso de todas las herramientas propias de la especialidad del Proveedor.
- Equipo necesario para la protección, seguridad y la correcta ejecución de los trabajos, así como los costes y medios para el cumplimiento de sus obligaciones en materia de control, formación e información de riesgos laborales.

Patricia Álvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

- Construcción, aportación, mantenimiento, desmantelamiento o demolición de todas las instalaciones provisionales y edificios auxiliares que el Proveedor precise para oficinas, almacenes, talleres, vestuarios, servicios higiénicos, vigilancia, etc., y de las realizadas en cumplimiento de la Normativa de Prevención de Riesgos Laborales.
- Transporte hasta / y desde el lugar del trabajo, del personal, material y cualesquiera otros medios.
- Instalación y autorización de servicios y suministros.
- Gastos de mantenimiento.
- Gastos generales y beneficio industrial.
- Dietas y gastos de manutención del personal del Proveedor y del de todos sus agentes, representantes, dependientes, autónomos y subcontratistas o subsuministradores.
- Impuestos, tasas y arbitrios que legalmente correspondan al Proveedor como sujeto pasivo, salvo que sean recuperables por ENEL.
- Gastos que origine al Proveedor la programación, reconocimientos y ensayos, control de materiales, control de ejecución, pruebas, recepciones y otros análisis.
- Realización completa del objeto del Contrato con arreglo a las leyes y normativa aplicables, a las Especificaciones Técnicas y a los restantes documentos contractuales.
- Costes de formalización y mantenimiento de la garantía económica, seguros u otras garantías, en su caso.

7.1.3 Los precios se desglosarán especificando por un lado el precio de los servicios, por otro el precio de los materiales, y por otro los impuestos que correspondan según la legislación aplicable.

7.1.4 El Proveedor asumirá cualquier coste adicional por los fletes, portes y otros gastos originados por el incumplimiento de las condiciones de entrega y envío establecidas en el Contrato y en las presentes Condiciones Generales.

7.1.5 ENEL no pagará materiales, equipos o trabajos no incluidos en el Contrato si su entrega o ejecución no ha sido previamente ofertada por el Proveedor, por escrito y con indicación expresa de su precio, y aceptada, también por escrito, por un representante de ENEL, debidamente facultado.

7.1.6 El Proveedor asume las ampliaciones, modificaciones y reducciones del alcance del Contrato, a los precios convenidos, siempre que las mismas no representen, en conjunto, un aumento o disminución de más del veinte por ciento (20%) del importe del Contrato. El nuevo plazo de entrega, en su caso, se establecerá de común acuerdo entre ambas Partes, a propuesta razonada del Proveedor.

7.1.7 Si las ampliaciones, modificaciones o reducciones que ENEL proponga, motivadas por una razón justificada, representaran en conjunto un aumento o disminución de más del veinte por ciento (20%) del importe del Contrato, el Proveedor podrá aceptarlas o rechazarlas, pero en este último caso, ENEL tendrá derecho a resolver el Contrato.

7.1.8 En los casos en que haya de ejecutarse un alcance adicional no previsto inicialmente en el cuadro de precios del Contrato, el precio correspondiente a dicho alcance se determinará entre ENEL y el Proveedor, a propuesta de éste debidamente justificada, basándose en la descomposición de costes de otras unidades análogas para las que exista fijado un precio unitario.

7.1.9 La negociación del precio del alcance adicional será independiente de la realización de dicho alcance, estando obligado el Proveedor a ejecutarlo inmediatamente después de haber recibido la petición de ENEL.

7.1.10 A petición previa y expresa de ENEL, el Proveedor incluirá en su oferta baremos de precios unitarios para el caso de que ENEL considere necesario, durante la ejecución del Contrato, la realización por el Proveedor de unidades de obra, servicios o suministros adicionales, no previstos inicialmente en el alcance del Contrato (precios por administración). Dichos precios, una vez acordados por las Partes e incorporados al Contrato, incluirán iguales conceptos que los definidos en la cláusula 7.1.2. y se aplicarán cuando no sea posible fijar un precio del alcance adicional o en los casos en que ENEL lo estime necesario.

7.2 Modificación de precios.

Los precios son fijos e invariables. Cualquier modificación de precio solo podrá realizarse si así lo dispone el Contrato o si lo requiere la legislación aplicable.

7.3 Facturación.

7.3.1. Antes de emitir una factura, el Proveedor requerirá la conformidad expresa de ENEL en relación con los servicios, suministros u obras prestados, entregados o ejecutados por el Proveedor. Tal conformidad de ENEL no se denegará ni retrasará injustificadamente.

7.3.2. Las facturas deberán ser válidas y ENEL las aceptará solo si contienen toda la información requerida por el Contrato y la normativa aplicable, y si las actividades o suministros cubiertos por el Contrato se han completado correctamente. Las facturas que

Patricia Alvarez Charmosa
Traductora/Intérprete Jurada de INGLES
Nº 8391

no contengan el número de Contrato pertinente no se aceptarán y no se tendrán en cuenta para el cálculo de la fecha de recepción. Con independencia de que, para el pago, se hayan establecido en el Contrato diferentes divisas, cada factura sólo podrá emitirse en una única moneda.

7.3.3. En caso de que el Contrato permita facturar en una moneda diferente a la establecida principalmente en el mismo, el tipo de cambio utilizado para convertir el importe de la factura será el correspondiente al día de pago de la misma.

7.3.4. ENEL podrá devolver al Proveedor las facturas que:

1. Carezcan de información o de algún dato requerido por el Contrato o la legislación vigente;
2. Contengan conceptos no autorizados por ENEL;
3. Se emitan por importes expresados en una moneda distinta a la definida en el Contrato.

En caso de devolución de una factura, ENEL especificará los motivos. La devolución de una factura dejará sin efecto la fecha original de recepción.

7.3.5 Será necesario separar, dentro de la misma factura, los siguientes conceptos:

a) Eventuales alcances contratados con precios según lo regulado en el apartado 7.1.10. como complemento a lo pactado inicialmente en el Contrato.

b) Incrementos por aplicación de fórmulas de revisión de precios previstas en el Contrato. En este caso, será necesario aportar los justificantes de los valores de los índices aplicados y el detalle de la aplicación de la correspondiente fórmula de revisión.

7.3.6. En caso de extravío de la factura, el Proveedor podrá emitir un duplicado siempre que éste sea a su vez original y se haga constar en él la mención "Duplicado por extravío del original".

7.3.7. La fecha de la factura no podrá ser anterior a la de la prestación de los servicios, o a la de la recepción de los materiales o equipos, o a la prevista en el Contrato.

7.3.8. Todas las facturas y, en su caso, su documentación soporte, se deberán tramitar o enviar a través de una de las siguientes vías indicadas a continuación:

- FACTURACIÓN AUTOMÁTICA:
Vía preferente de facturación con el Grupo ENEL que se tramita a través del aplicativo DRAPE, accesible mediante el portal de proveedores Webuy: https://webuy-gp.enel.com/esop/guest/login.do

- FACTURA EN FORMATO PDF. NO MODIFICABLE:
Subida de archivo a través del aplicativo de facturación DRAPE, accesible mediante el portal de proveedores Webuy: https://webuy-gp.enel.com/esop/guest/login.do

- FACTURA EN PAPEL, VÍA CORREO ORDINARIO:
ENDESA
Centro de Servicios Administrativos Iberia
Ribera del Loira, 60
28042 MADRID – ESPAÑA

7.3.9. En el caso al que se hace referencia en la subcláusula 4.3., si el Proveedor recurre a sus filiales o compañías asociadas o establecimientos permanentes en el país en el que estén establecidas las sociedades del Grupo ENEL, la ejecución del objeto del Contrato, así como la facturación consiguiente, debe proporcionarse por parte de las filiales, las compañías asociadas o los establecimientos permanentes ubicados en el mismo país en el que se encuentren establecidas las sociedades del Grupo ENEL

7.4. **Condiciones de pago.**

7.4.1. Previo examen y conformidad de ENEL sobre el cumplimiento por parte del Proveedor de todas las condiciones contractuales, las facturas recibidas se abonarán en el plazo indicado en el Contrato, de conformidad con la legislación vigente.

7.4.2 Las Partes acuerdan que, en caso de mora en el pago por parte de ENEL por motivos exclusivamente imputables a ésta, abonará al Proveedor, a requerimiento escrito y razonado de éste, una cantidad adicional en concepto de interés de demora del tres por ciento (3%) del importe adeudado.

7.4.3 Todos los pagos que se efectúen antes de la Recepción Provisional o entrega, de acuerdo con lo estipulado en el Contrato, tendrán la consideración de pagos a cuenta del precio final.

7.4.4 Salvo excepciones previamente aprobadas por ENEL, los pagos se efectuarán al Proveedor por transferencia bancaria.

7.4.5. El Proveedor se compromete a comunicar todos los datos de su cuenta bancaria a ENEL. El Proveedor tiene la obligación de informar inmediatamente a ENEL de cualquier cambio en sus datos fiscales y generales tales como NIF, dirección,

Patricia Álvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 17391

denominación social, cambios de forma social, etc.) o cambios de titularidad o en el accionariado de la compañía. La falta de comunicación de dichos cambios puede dar como resultado la suspensión por parte de ENEL de los pagos de las facturas que contengan datos no actualizados.

7.4.6. El pago del precio facturado no significará que ENEL considere que el Proveedor haya realizado correctamente el Contrato o que renuncia a los derechos y acciones contra este último, reservándose expresamente el derecho de ejercerlos, sin perjuicio de los pagos que efectúe.

7.4.7. ENEL tendrá derecho a compensar las cantidades pendientes de pago al Proveedor, en la cuantía que éste, a su vez, adeude a ENEL o a cualquiera de las sociedades del Grupo ENEL.

7.4.8. En el caso de que ENEL constate que por parte del Proveedor se está produciendo algún incumplimiento de sus obligaciones que pueda generar responsabilidad solidaria, subsidiaria u otra acción directa frente a ENEL, con independencia de que se proceda o no a la resolución del Contrato, y tan pronto tenga conocimiento de tales circunstancias, ENEL podrá proceder a retener todos los pagos que por cualquier concepto se hallen pendientes de realizar al Proveedor en cuantía suficiente para cubrir dichas responsabilidades, pudiendo incluso pagar dichas obligaciones por cuenta del mismo si la ley lo permite. Este derecho de retención y pago por cuenta del Proveedor se extenderá a todos los daños y perjuicios derivados del incumplimiento o garantía del Contrato, o a cualquier supuesto del que pudiera derivarse una responsabilidad para ENEL.

8. IMPUESTOS.

8.1. Los precios establecidos en el Contrato no incluyen impuestos, tasas y contribuciones. Los impuestos, tasas y contribuciones resultantes de la contratación, aplicables en cualesquiera de las jurisdicciones donde residan el Proveedor y ENEL, serán abonados, retenidos o descontados del precio por cada uno de ellos conforme a lo que disponga la normativa aplicable.

8.2. Las Partes se obligan mutuamente a cumplimentar todos los requisitos y trámites y a entregar toda la documentación que sean necesarios para la correcta liquidación de los impuestos y pagos de las facturas, incluso a practicar las retenciones y obligaciones similares que sean debidas de acuerdo con la normativa vigente, siguiendo en todo momento las pautas marcadas por la misma. Así mismo, las Partes se obligan a cooperar en la obtención de aquellas exenciones y demás beneficios fiscales que resulten aplicables a la ejecución del objeto del Contrato. Cuando por falta de diligencia o por cualquier otra causa imputable al Proveedor, ENEL pierda la oportunidad de disfrutar de algún beneficio fiscal, podrá descontar del precio convenido el importe de aquel beneficio previa acreditación por cualquier medio de prueba admitido en Derecho.

8.3. El Proveedor entregará a ENEL el certificado previsto en el artículo 43.1.f) de la Ley General Tributaria donde se indicará que está al corriente de pagos. El certificado se entregará antes de la firma del Contrato y siempre antes de la fecha del primer pago. En los Contratos de duración superior a un (1) año el certificado se entregará no solo con la firma del Contrato sino también posteriormente, con periodicidad anual. En caso de no haberse entregado el certificado o cuando el certificado señale deudas pendientes, el pago al Proveedor se suspenderá por parte de ENEL hasta que se entregue por el Proveedor un certificado en el que se indique que está al corriente de pagos.

8.4. En caso de que ENEL tenga obligación de practicar algún tipo de retención en el pago al Proveedor, y si el Proveedor así lo requiere, con posterioridad ENEL le entregará el correspondiente certificado de retenciones en el que se detallará los importes pagados y retenidos.

8.5. Si el Proveedor es residente en España, revisará junto a ENEL si las condiciones del Contrato implican un tratamiento diferencial a los efectos de que se pueda aplicar la inversión de sujeto pasivo en los impuestos indirectos que resulten de aplicación conforme a lo que se establezca en la normativa vigente en el momento del devengo de las operaciones, lo que implicará que el Proveedor emita sus facturas sin los impuestos indirectos.

8.6. Si el Proveedor no es residente en España, en el caso de que exista un Convenio vigente para evitar la doble imposición firmado entre el país de residencia del Proveedor y España, y el Proveedor invoque la aplicación de alguna disposición del mismo, éste deberá entregar a ENEL el correspondiente certificado de residencia que acredite que es residente fiscal en su país a efectos de lo previsto en el Convenio en cuestión, y se atenderá a la calificación de la renta otorgada por España. Dicho certificado debe ser entregado junto con la primera factura emitida y/o tan pronto como lo solicite ENEL. En el caso de que el certificado caduque permaneciendo el Contrato en vigor, el Proveedor deberá entregar a ENEL un nuevo certificado para posibilitar seguir aplicando el Convenio.

8.7. En caso de que se envíen materiales o equipos desde el extranjero en Contratos ejecutados en la modalidad DDP (Incoterms CCI 2020), los impuestos se pagarán como se muestra a continuación:

a) El Proveedor abonará todos los impuestos y cargos aplicables a los bienes en el país de origen y los aplicables en países de tránsito de dichos bienes hasta la entrega final, así como los impuestos cobrados en el país de destino que sean pagaderos en relación con los beneficios financieros obtenidos por la venta de dichos bienes.

b) El Proveedor, además, pagará los aranceles y los impuestos a la importación o equivalentes en el país de destino, así como otros gastos oficiales de despacho en aduana de los materiales y/o equipos que importe, salvo pacto en contrario con ENEL.

8.8. Los impuestos sobre materiales o equipos nacionales serán abonados por ENEL o por el Proveedor, de conformidad con lo previsto en la legislación vigente.

9. EJECUCIÓN.

Patricia Álvarez Chamosa
Traductora/Intérprete Jurada de INGLES
Nº 8391

9.1. **Introducción.**

9.1.1. El Proveedor, si así lo requiere el Contrato, estará obligado a nombrar y mantener, a lo largo del cumplimiento de las actividades recogidas en el Contrato, uno o más representantes con total potestad para discutir asuntos técnicos y económicos, con referencia particular a la seguridad y salud laboral, obligaciones jurídico-laborales y respeto del medio ambiente.

9.1.2. ENEL se reserva el derecho, durante la ejecución del Contrato, de recusar dicho(s) representante(s) con causa justificada. En tal caso, el Proveedor estará obligado a sustituir a los representantes en un plazo de diez (10) días laborables, salvo indicación en contrario en el Contrato.

9.1.3. ENEL se compromete a proporcionar, si así lo requiere el Proveedor, todos los datos necesarios para la ejecución de las actividades recogidas por el Contrato. Si los datos proporcionados por ENEL no resultan suficientes o son incompletos, el Proveedor se compromete a requerir la información faltante con antelación suficiente.

9.1.4. ENEL tiene el derecho de comprobar y verificar el cumplimiento exacto por parte del Proveedor de todas las obligaciones a las que se ha comprometido por Contrato y todas las instrucciones emitidas por ENEL, así como el cumplimiento correcto y adecuado por parte del Proveedor de todas las actividades necesarias para la ejecución del Contrato de forma adecuada y de conformidad con los términos y condiciones estipulados en el Contrato.

9.1.5. Sin perjuicio de su derecho a resolver el Contrato, en caso de que ENEL, tras las citadas verificaciones e inspecciones, determine de cualquier forma y a su criterio que se ha cometido algún incumplimiento (que podrá incluir errores o inexactitudes) en la exacta ejecución del objeto del Contrato, el Proveedor deberá subsanar las deficiencias corriendo por su cuenta todos los gastos, sin que ello afecte en modo alguno a los plazos establecidos contractualmente, reservándose ENEL la facultad de reclamar adicionalmente al Proveedor el importe de los daños y perjuicios que haya podido sufrir ENEL.

9.1.6. ENEL se reserva el derecho de solicitar al Proveedor, en cualquier momento, la anticipación de la totalidad o parte de la ejecución del Contrato y el derecho de evaluar un posible reconocimiento de una bonificación económica. ENEL puede solicitar dicha anticipación mediante una petición específica por escrito y el Proveedor comunicará, siempre por escrito, si acepta expresamente el nuevo plazo solicitado por ENEL. Se entiende que la solicitud de anticipación de ENEL no produce un reconocimiento automático de la bonificación económica, incluso si el Proveedor la acepta específicamente. El reconocimiento de la bonificación económica, en la medida indicada en el Contrato, estará sujeto a la aceptación específica de ENEL y sujeto a que la mencionada anticipación sea realizada por el Proveedor en pleno cumplimiento de todas sus obligaciones legales y contractuales, especialmente en los lugares de trabajo, la seguridad y la salud. ENEL no podrá reconocer ninguna bonificación si se han aplicado penalizaciones al Proveedor durante la ejecución del Contrato.

9.2. **Inspecciones, pruebas y ensayos.**

9.2.1. ENEL podrá inspeccionar los materiales y equipos objeto del Contrato en cualquier momento de su fabricación, así como la ejecución de las obras o servicios contratados, incluidos los materiales que el Proveedor emplee en su realización. Dicha inspección la podrá realizar mediante su propio personal o mediante las personas o entidades que para ello designe, tanto en las obras, oficinas, fábricas, talleres o almacenes del Proveedor como en los de sus subcontratistas o subsuministradores, a cuyo fin los inspectores de ENEL tendrán libre acceso a las mencionadas instalaciones y el Proveedor deberá facilitar cuanto sea necesario. ENEL y / o las personas o entidades que para ello designe, deberá cumplir con las políticas de la instalación pertinentes. El Proveedor está autorizado a restringir el acceso de ENEL a su propiedad intelectual y / o información confidencial, expresamente clasificada como tal en el Contrato, siempre que el Proveedor conceda a ENEL acceso a toda la información necesaria para realizar correctamente las inspecciones, ensayos o pruebas.

9.2.2. Cuando se establezcan inspecciones, ensayos o pruebas en el Contrato, sin perjuicio del derecho de ENEL a las inspecciones, el Proveedor está obligado a realizar, por sus propios medios, todas las pruebas e inspecciones acordadas que resulte necesario realizar de conformidad con los estándares aplicables y los reglamentos administrativos o los que sean de aplicación general. El Proveedor comunicará por escrito a ENEL la fecha en la que se realizarán, con un periodo mínimo de aviso de diez (10) días. De forma similar, el Proveedor comunicará los resultados de las pruebas o ensayos realizados y los recogerá en los certificados o protocolos pertinentes para ENEL, aunque hayan sido realizados en presencia de los inspectores o representantes de ENEL.

9.2.3. El Proveedor no podrá iniciar ni detener ninguna fase de fabricación, construcción o montaje, ni tampoco enviar materiales antes de que las inspecciones y las pruebas se hayan completado satisfactoriamente, cuando se requiera inspecciones y pruebas preventivas o antes de obtener la autorización expresa por escrito de ENEL, o a menos que hayan transcurrido diez (10) días desde la notificación de la inspección y ensayos por parte del Proveedor sin que ENEL haya dado indicaciones en sentido contrario.

9.2.4. ENEL puede realizar pruebas o inspecciones además de las estipuladas en el Contrato, si lo considera necesario. Si estas pruebas muestran un resultado positivo, los costes adicionales en los que pueda incurrir correrán a cargo de ENEL. En caso negativo, los costes correrán a cargo del Proveedor.

9.2.5. La realización de inspecciones, pruebas o ensayos con resultado positivo no supone que el objeto del Contrato se haya ejecutado en todo con lo convenido, ni que haya de ser recibido de conformidad por ENEL, ni exonera al Proveedor de la responsabilidad que le corresponde.

9.2.6. La falta de reclamación por parte de ENEL sobre la ejecución del Contrato, incluso después de las actividades de verificación y control mencionadas anteriormente, no supondrá una limitación a la responsabilidad del Proveedor si éste no cumple con las obligaciones contractuales, aunque dicho incumplimiento se determine con posterioridad.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 5391

9.2.7. Si los resultados de las inspecciones, pruebas o ensayos realizados muestran que se ha producido cualquier incumplimiento de las disposiciones del Contrato, ENEL podrá requerir la sustitución o restauración de los materiales, de los equipos o de los trabajos, a cargo del Proveedor y sin coste para ENEL. En caso de que ENEL requiera la sustitución de los materiales, éstos deben estar identificados con claridad y el Proveedor no podrá utilizarlos en el cumplimiento de las actividades contractuales.

9.2.8. La duración y condiciones de realización de las inspecciones, pruebas y ensayos que se realicen no podrán en ningún caso ser invocadas por el Proveedor como causa y justificación de retraso en la fecha de entrega especificada en el Contrato, salvo en el caso en que ENEL sea único responsable sin causa justificada de la demora en la realización de los mismos y dicha demora no esté amparada por las disposiciones del Contrato.

9.2.9. Sin perjuicio de lo anterior, en los Contratos en que así se recoja, las pruebas o ensayos se efectuarán ajustándose en todo al Programa de Puntos de Inspección elaborado por el Proveedor y aprobado por ENEL.

9.2.10. Como alternativa al acceso físico a las obras, oficinas, fábricas, talleres o almacenes, a solicitud de ENEL, el Proveedor y sus subcontratistas o subsuministradores permitirán y facilitarán la realización de inspecciones o pruebas remotas. El Proveedor o sus subcontratistas o subsuministradores pondrán a disposición de ENEL el sistema de conexión (por ejemplo, videoconferencia, gafas inteligentes, cámara web, etc.) y permitirán la transmisión de video de las inspecciones / pruebas, la revisión de la documentación y la interacción entre los participantes locales y remotos.

9.3. **Control de Calidad.**

9.3.1. El Control de Calidad comprende el conjunto de acciones, actividades y técnicas necesarias para proveer a ENEL de confianza suficiente de que el material, el equipo, la obra o el servicio objeto del Contrato cumplirán satisfactoriamente las condiciones requeridas por ENEL y, en su caso, por las leyes y normas técnicas correspondientes.

9.3.2. El Proveedor será el único responsable del Control de Calidad, independientemente de los controles y pruebas que efectúe o exija ENEL por sus propios medios o por los de un tercero, los cuales, en el caso de efectuarse, no alterarán la plena responsabilidad que exclusivamente incumbe al Proveedor.

9.3.3. Antes de iniciar el proceso de fabricación, o la realización de la obra o servicio contratado, el Proveedor presentará, a requerimiento de ENEL, para su aprobación, un Plan de Control de Calidad (según ISO 10.005 o equivalente) que incluirá el Programa de Puntos de Inspección, así como la relación de las operaciones y procedimientos aplicables. Una vez presentado el Plan de Control de Calidad mencionado, ENEL podrá formular objeciones al mismo durante un plazo de quince (15) días hábiles, siempre por motivos justificados, y el Proveedor se obliga a modificarlo con la debida diligencia, realizando las correcciones necesarias de acuerdo con las objeciones indicadas por ENEL.

9.3.4. Durante la ejecución del Contrato, el Proveedor dará la más estricta y rigurosa observancia a lo establecido en su Sistema de Aseguramiento de la Calidad y en el Plan de Control de Calidad aprobados por ENEL, quien se reserva el derecho a efectuar las auditorias necesarias para comprobar su cumplimiento. Al concluir la ejecución del Contrato, el Proveedor entregará a ENEL, para su aprobación, un informe final de Control de Calidad, cuyo contenido deberá ajustarse a lo establecido en el Contrato y en el Plan de Control de Calidad aprobado.

9.3.5. ENEL podrá exigir al Proveedor que deposite ante un Notario, a disposición de ENEL en aquellos casos en los que se pretenda la descatalogación, la documentación técnica necesaria para la fabricación de los materiales y equipos objeto del Contrato.

9.3.6. El cumplimiento de estas condiciones de Control de Calidad no exime al Proveedor, en ningún caso, de su responsabilidad por la incorrecta ejecución del Contrato.

9.4. **Condiciones de entrega y recepción.**

9.4.1. <u>Generalidades.</u>

9.4.1.1. Las entregas, incluidas las parciales, se deben realizar en las fechas o plazos especificados en el Contrato.

9.4.1.2. Si en el Contrato no se señala una fecha de terminación determinada y se establece solamente el plazo de ejecución o entrega, éste comenzará a contar a partir de la fecha establecida en el Contrato o en la Carta de Intención, caso de existir.

9.4.1.3. La anticipación de la fecha de finalización o una reducción en los plazos de ejecución o entrega solo serán posibles si ENEL lo aprueba de forma expresa. En el caso de que ésta lo autorice, no implicará el adelanto en el pago de la totalidad o de parte del precio.

9.4.1.4. Las fechas de finalización no pueden retrasarse, ni tampoco ampliarse los plazos de ejecución o entrega, excepto por motivos atribuibles a ENEL o por fuerza mayor.

9.4.1.5. El Proveedor se obliga a poner, a su exclusivo cargo, todos los medios que razonablemente estén a su alcance para recuperar, en cuanto sea posible, cualquier retraso en las fechas o plazos previstos, incluso cuando el retraso esté justificado.

9.4.1.6. En ninguna circunstancia, incluso en caso de que la solución de disputas esté pendiente, el Proveedor puede suspender o retrasar voluntariamente la ejecución del Contrato. En caso de incumplimiento de dicha obligación, ENEL se reserva el derecho a resolver el Contrato, sin perjuicio de su pleno derecho a la indemnización de los daños eventualmente sufridos.

9.4.2. <u>Materiales y/o equipos.</u>

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
[illegible]391

9.4.2.1. Con cada entrega, el Proveedor debe acompañar toda la documentación técnica final y los protocolos de ensayos establecidos en las Especificaciones, en el Cuerpo Principal del Contrato y en el resto de sus Anexos y, en su caso, en las normas técnicas correspondientes. El Proveedor deberá certificar además, en caso de que le sea requerido por ENEL, que el diseño, las materias primas, materiales y las marcas y tipos de los componentes empleados en la ejecución del Contrato son idénticos a los que dieron lugar a la homologación.

9.4.2.2. Para efectuar la entrega, el Proveedor remitirá a ENEL, a la atención de la persona de contacto que figure en el Contrato, con la debida antelación, el Aviso de Expedición indicando, en el mismo al menos los siguientes datos:

- Número de referencia del Contrato.
- Número de bultos enviados, con indicación del contenido de estos.
- Indicación expresa, en caso de que se trate de la última entrega.
- Datos del medio de transporte utilizado y de la empresa que lo efectúa, con los datos y el teléfono de la persona de contacto de dicha empresa.
- Fecha y lugar de puesta a disposición de ENEL del equipo o de los materiales.

9.4.2.3. El Proveedor comunicará a ENEL de forma inmediata cualquier circunstancia que altere las condiciones de entrega pactadas y/o previamente notificadas.

9.4.2.4. En materiales o equipos sujetos a Control de Calidad, y salvo pacto en contra, el Proveedor no procederá al envío de estos hasta tener en su poder la Autorización de Envío posterior a la Recepción por Protocolo o a la Recepción en Origen, emitida por ENEL. Se exceptúan los suministros acogidos a un régimen de Calidad Concertada. Si el Proveedor procediera al envío sin haber observado los citados requisitos, todos los gastos generados por el mismo correrán por su cuenta.

9.4.2.5. Salvo que se estipule lo contrario en el Contrato, la entrega de materiales y equipos se efectuará en la modalidad DDP (Incoterms CCI 2020) en el punto de destino establecido en el Contrato. Los términos se interpretarán, en cuanto se refiere a entrega, propiedad, seguros, etc., de acuerdo con el Incoterm, excepto en lo que se oponga a lo establecido en las cláusulas específicas del Contrato.

9.4.2.6. Sin perjuicio de que se considere correctamente cumplida por el Proveedor la fecha de entrega establecida en el Contrato, ENEL se reserva el derecho de aplazar cualquier envío o expedición de materiales o equipos. El precio pactado en el Contrato incluye los gastos de almacenamiento y seguro por parte del Proveedor, observando usos de buena práctica industrial, durante el mes siguiente a la fecha de entrega establecida en el Contrato. Si el aplazamiento del envío o expedición hubiera de prolongarse por plazo superior al mencionado mes, se establecerán de mutuo acuerdo entre las Partes las compensaciones que procedan, en su caso, por los ulteriores gastos de almacenamiento y seguro.

9.4.2.7. Cuando en los materiales o equipos no sean exigibles pruebas o ensayos y reconocimientos finales, la entrega efectiva por el Proveedor de los materiales y equipos, con la conformidad de ENEL y de acuerdo con lo que se establezca en el Contrato, supone la transmisión de la propiedad a ENEL así como los riesgos inherentes a la titularidad y posesión, incluidos los riesgos de perdida y daño, y el inicio del Período de Garantía, todo ello sin perjuicio de la responsabilidad subsistente del Proveedor por evicción, vicios ocultos o por cualquier otra responsabilidad que le fuera exigible según la legislación aplicable.

9.4.2.8. Posteriormente, la finalización del Período de Garantía con la conformidad de ENEL y de acuerdo con lo que se establezca en el Contrato, supone la aceptación definitiva por parte de ENEL de los materiales o equipos adquiridos, sin perjuicio también de la responsabilidad subsistente del Proveedor por evicción, vicios ocultos, o por cualquier otra responsabilidad que le fuera exigible según la legislación aplicable.

9.4.2.9. Cuando en los materiales y equipos sean exigibles pruebas o ensayos y reconocimientos finales, y una vez sean recibidos por ENEL, cumplidas todas las condiciones o actividades establecidas en las presentes Condiciones Generales y en el Contrato, se efectuará Recepción Provisional y posteriormente Recepción Definitiva en los términos regulados en el siguiente apartado 9.4.3 con la salvedad de que los plazos contemplados en los apartados 9.4.3.1.1 y 9.4.3.2.1 se reducirán a ocho (8) días naturales.

9.4.2.10. Cuando los materiales y equipos requieran montaje en una instalación para comprobar su aptitud y funcionamiento, su Recepción Provisional o Definitiva se entenderá efectuada junto con la Recepción Provisional o Definitiva de la instalación.

9.4.3. Obras y/o servicios.

9.4.3.1. Recepción Provisional.

9.4.3.1.1. Con suficiente antelación el Proveedor comunicará a ENEL la fecha en que finalizará totalmente la ejecución de la obra o servicio objeto del Contrato, a fin de que se fije de mutuo acuerdo la fecha (día y hora) en que se ha de efectuar la Recepción Provisional, sin que esta fecha pueda ser posterior al plazo de treinta (30) días naturales a contar desde la finalización de la ejecución de la obra o servicio.

9.4.3.1.2. En el día fijado para efectuar la Recepción Provisional se procederá por parte del representante de ENEL, en presencia del representante del Proveedor, a examinar el estado de la obra o servicio contratado y a comprobar el cumplimiento de la legislación aplicable, las normas técnicas y las obligaciones recogidas en el Contrato.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

9.4.3.1.3. La Recepción Provisional se realizará una vez hayan sido llevadas a cabo a satisfacción de ENEL las pruebas específicas y una vez se haya comprobado la correcta ejecución de la obra o servicio objeto del Contrato. En ese caso, ENEL redactará el Acta de Recepción Provisional, que deberá ser firmado por ambas Partes. La suscripción de dicho Acta supone la entrega y puesta a disposición de ENEL de las obras o servicios contratados y la transmisión de la propiedad, así como de los riesgos inherentes a la titularidad y posesión, incluidos los riesgos de pérdida y daño, y el inicio del Período de Garantía, todo ello sin perjuicio de la responsabilidad subsistente del Proveedor por evicción, vicios ocultos o por cualquier otra responsabilidad que le fuera exigible según la legislación aplicable.

9.4.3.1.4. En el supuesto de que el examen de la obra o servicio contratado no fuera satisfactorio a criterio de ENEL, o de que no se hubieran superado las pruebas establecidas, ENEL redactará un Acta de Reconocimiento de las obras o servicios, en la que dejará constancia de los defectos detectados y del plazo máximo en que éstos deberán ser subsanados por el Proveedor a su propio y exclusivo cargo. Si éste desea manifestar su disconformidad en algún aspecto técnico o económico, lo hará constar así razonadamente en el propio Acta.

9.4.3.1.5. Transcurrido el plazo fijado, se llevará a cabo el examen y las pruebas que correspondan. Si resultasen satisfactorias a criterio de ENEL, se suscribirá el Acta de Recepción Provisional. En caso contrario, se redactará un nuevo Acta de Reconocimiento, con indicación de los defectos detectados y ENEL podrá optar entre resolver el Contrato por incumplimiento del Proveedor o concederle un nuevo plazo para la subsanación de los defectos a su propio y exclusivo cargo, en ambos casos sin perjuicio de la facultad de ENEL de proceder a la reclamación de daños y perjuicios y/o de ejecutar la garantía económica que haya podido prestar el Proveedor.

9.4.3.1.6. Los plazos extraordinarios que ENEL conceda al Proveedor para subsanar deficiencias detectadas al efectuar la Recepción Provisional no constituyen prórroga ni ampliación de los plazos contractuales y, en consecuencia, el Proveedor será responsable de las penalizaciones e indemnizaciones de daños y perjuicios en que incurra por dicho motivo.

9.4.3.2. Recepción Definitiva.

9.4.3.2.1. Con suficiente antelación el Proveedor comunicará a ENEL la fecha de finalización del Período de Garantía, a fin de que se fije de mutuo acuerdo la fecha (día y hora) en que se ha de efectuar la Recepción Definitiva, sin que esta fecha pueda ser posterior al plazo de treinta (30) días naturales a contar desde la recepción de la citada comunicación por parte de ENEL, ni anterior a la fecha de finalización del Período de Garantía.

9.4.3.2.2. En el día fijado para llevar a cabo la Recepción Definitiva se procederá por parte del representante de ENEL, en presencia del representante del Proveedor, a examinar el estado de la obra o servicio contratado y a comprobar el cumplimiento de la legislación aplicable, las normas técnicas y las obligaciones recogidas en el Contrato.

9.4.3.2.3. ENEL manifestará su conformidad suscribiendo el correspondiente Acta de Recepción Definitiva, que deberá ser firmada por ambas Partes, y donde se hará constar el total cumplimiento de las obligaciones del Proveedor. La suscripción de dicho Acta supone la aceptación definitiva por parte de ENEL de las obras o servicios contratados, sin perjuicio de la responsabilidad subsistente del Proveedor por evicción, vicios ocultos o por cualquier otra responsabilidad que le fuera exigible según la legislación aplicable.

9.4.3.2.4. Si ENEL observase defectos menores, podrá también suscribir el Acta de Recepción Definitiva, señalando en él dichos defectos, el plazo máximo para corregirlos por parte del Proveedor a su propio y exclusivo cargo, las condiciones de la garantía económica para asegurar la efectividad de la subsanación y el plazo para llevarla a cabo por parte del Proveedor. Si éste desea manifestar su disconformidad en algún aspecto técnico o económico, lo hará constar así razonadamente en el propio Acta.

9.4.3.2.5. Transcurrido el plazo fijado sin haber sido subsanados los defectos, ENEL podrá resolver el Contrato por incumplimiento del Proveedor o concederle un nuevo plazo para la subsanación de los defectos a su propio y exclusivo cargo, en ambos casos sin perjuicio de la facultad de ENEL de proceder a la reclamación de daños y perjuicios y/o de ejecutar la garantía económica que haya podido prestar el Proveedor.

9.4.3.2.6. En caso de que el Proveedor, pese a haber sido citado, no asistiese al acto de Recepción Definitiva, el Acta redactada por ENEL surtirá los mismos efectos que si la hubiese suscrito también el Proveedor.

9.5. **Transmisión de la propiedad y el riesgo.**

9.5.1. Materiales y/o equipos.

9.5.1.1. Salvo que se estipule de otro modo en el Contrato, los materiales y/o equipos, debidamente embalados de conformidad con el Contrato, se considerarán para todos los efectos y propósitos propiedad de ENEL en el momento de su recepción por este último en el lugar y en las condiciones acordadas y/o en los almacenes, oficinas y/o plantas de ENEL. Si así está estipulado, la descarga se llevará a cabo bajo la responsabilidad del Proveedor, corriendo éste con los gastos derivados de la misma.

9.5.1.2. Sin perjuicio de lo anterior, el Proveedor autoriza a ENEL a tomar posesión de los materiales y/o equipos, en todo o en parte, desde que entren en una obra o instalación propiedad de ENEL y a hacer el uso que de ello precise, incluso realizar en ellos o con ellos obras, montajes u otros trabajos e incorporarlos a la obra o instalación de ENEL, salvo que expresamente se limite dicha autorización a ENEL por motivos justificados. En caso de autorizarse, ENEL podrá utilizar o incorporar dichos materiales y/o equipos a sus procesos de explotación, haciendo suyo el resultado de dicho proceso.

9.5.1.3. Hasta la transmisión de los riesgos a ENEL, el Proveedor dispondrá de seguro en vigor con cobertura adecuada de los materiales y equipos, incluso si ya estuvieran en posesión y uso de ENEL.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

9.5.2. Obras y/o servicios.

9.5.2.1. Salvo que se estipule de otro modo en el Contrato, los resultados de las obras y/o servicios objeto del Contrato serán propiedad de ENEL desde la firma del Acta de Recepción Provisional.

9.5.2.2. ENEL, sin perjuicio de los derechos que legalmente correspondan al Estado, o a terceros, se reserva la posesión y propiedad de los hallazgos de toda clase que se encuentren en las excavaciones y demoliciones practicadas en sus terrenos, así como las sustancias minerales utilizables. En dicho caso, el Proveedor deberá emplear todas las precauciones necesarias o aquellas indicadas por ENEL. ENEL abonará al Proveedor el exceso de actividades y/o los gastos especiales que estos trabajos ocasionen, aplicándose una extensión del plazo de ejecución, si fuese necesario.

9.5.2.3. Sin perjuicio de las estipulaciones contenidas en los apartados precedentes, ENEL se reserva el derecho a exigir en cualquier momento al Proveedor, el cual estará obligado a cumplir dicha exigencia, salvo que haya un motivo justificado para no hacerlo a criterio de ENEL, que transfiera la titularidad de las obras, instalaciones, materiales y equipamiento incluidos o existentes en el lugar de las obras. En este caso, el Proveedor podrá seguir desarrollando sus actividades y seguirá siendo responsable de los riesgos de instalación hasta que se firme el Acta de Recepción Definitiva.

9.5.2.4. Hasta la transmisión de los riesgos a ENEL, el Proveedor dispondrá de seguro en vigor con cobertura adecuada de los resultados de las obras y o servicios objeto del Contrato, incluso si ya estuvieran en posesión y uso de ENEL.

9.5.3. Vicios y defectos.

El Proveedor será responsable de los vicios aparentes u ocultos, averías, desperfectos o defectos surgidos o constatados durante la ejecución del Contrato o durante el Período de Garantía, y hasta el fin del plazo señalado por la legislación vigente, aparte de las responsabilidades legales o de otra índole que puedan derivarse. En caso de defectos en serie, el Proveedor deberá sustituir o volver a realizar todo lo que proceda, sin necesidad de esperar a que el defecto se manifieste en todos los servicios o suministros.

10. SUBCONTRATACIÓN Y SUBSUMINISTRO.

10.1. El Proveedor no podrá subcontratar ni suscribir acuerdos de subsuministro sobre todo o parte de la ejecución del Contrato, sin la previa y expresa autorización de ENEL.

10.2. El Proveedor podrá subcontratar hasta un porcentaje del cuarenta y nueve por ciento (49%) del importe total del Contrato, salvo que se establezca un porcentaje distinto en el Contrato.

10.3. Solo se permite un nivel de subcontratación, excepto en los casos donde la ley aplicable lo permita. Los requisitos y limitaciones de niveles de subcontratación se regirán por lo dispuesto en el Contrato y en la legislación española

10.4. El Proveedor proporcionará oportunamente a ENEL una lista de posibles subcontratistas y subsuministradores, y la planificación de activación de los mismos; dicha lista y la planificación pertinente de activación podrán actualizarse sucesivamente. El Proveedor no podrá celebrar ningún subcontrato ni subsuministro con ninguna persona física o jurídica no incluida en dicha lista, y no aprobada previamente por ENEL por escrito. La solicitud de aprobación se enviará a ENEL al menos treinta (30) días naturales antes de la fecha estimada de comienzo del trabajo del subcontratista o del subsuministro. La solicitud de aprobación deberá contener detalles sobre:

(i) información del subcontratista o subsuministrador,

(ii) fecha de inicio / finalización del desempeño del subcontratista o subsuministrador y

(iii) parte del alcance del Contrato que se solicita subcontratar (tipo, volumen, países) o ejecutar mediante subsuministro.

10.5. Como requisito para ser aprobado por ENEL, el Proveedor requerirá que el subcontratista o subsuministrador se registre regularmente en el Portal de Contratación Global de ENEL

10.6. En ningún caso podrá deducirse relación contractual entre los subcontratistas o subsuministradores del Proveedor y ENEL, siendo siempre responsable el Proveedor de todas las actividades de dichos subcontratistas o subsuministradores, y del cumplimento de sus obligaciones contractuales, legales y fiscales, así como de los daños y perjuicios causados a ENEL por cualquiera de sus subcontratistas o subsuministradores, de sus agentes, asesores y trabajadores.

10.7. ENEL no será responsable ante ningún subcontratista, ni ante el personal de éste, por ninguna reclamación derivada directa o indirectamente del Contrato, salvo lo dispuesto en el art. 42.3 de la Ley sobre Infracciones y Sanciones en el Orden Social en relación con el art. 24.3 de la Ley de Prevención de Riesgos Laborales, por lo que el Proveedor se compromete y se obliga frente a ENEL a llevar a cabo cuanto esté a su alcance para evitar la formulación y/o tramitación de dichas reclamaciones.

10.8. El Proveedor deberá obtener y presentar a ENEL, la renuncia expresa y escrita del subcontratista o subsuministrador a la acción directa que regula el artículo 1.597 del Código Civil. La no obtención y presentación a ENEL por parte del Proveedor de dicha renuncia facultará a ENEL a resolver el Contrato por incumplimiento, sin perjuicio de cualquier otra acción legal que pudiera proceder.

10.9. El Proveedor responderá frente a ENEL y le mantendrá indemne de y frente a cualquier acción, judicial o extrajudicial, o procedimiento dirigidos contra ENEL por cualquier subcontratista, o por el personal de éste salvo lo dispuesto en el art. 42.3 de la Ley sobre Infracciones y Sanciones en el Orden Social en relación con el art. 24.3 de la Ley de Prevención de Riesgos Laborales. Esta

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 7391

indemnidad ha de entenderse como independiente y sin perjuicio de la aplicación por parte de la Administración o de los Tribunales de otras sanciones o responsabilidades por los mismos hechos, en cumplimiento de la legislación vigente.

10.10. La mencionada indemnidad alcanzará tanto al importe que ENEL deba abonar, como a los gastos o costes de cualquier naturaleza en que ENEL incurra como consecuencia de dicha reclamación. En concreto, en caso de producirse una reclamación judicial o extrajudicial frente a ENEL, ya sea en virtud del artículo 1.597 del Código Civil, o procedente de los trabajadores del Proveedor o de sus subcontratistas, agentes o asesores, ENEL estará facultada para retener el importe correspondiente, con cargo a cualesquiera cantidades adeudadas por ENEL o con cargo a las garantías económicas aportadas por el Proveedor que obren en poder de ENEL, con el objeto de cubrir el principal reclamado, más cuantas cantidades prudencialmente se presupuesten para intereses, gastos y costas. El incumplimiento por el Proveedor de lo establecido en este apartado se considerará como incumplimiento grave, y facultará a ENEL a resolver el Contrato por incumplimiento del Proveedor, sin perjuicio de cualquier otra acción legal que pudiera asistir a ENEL.

10.11. El Proveedor se obliga a obtener previamente por escrito del subcontratista y del subsuministrador la aceptación expresa de las obligaciones que frente a ENEL se deriven para él de todas las condiciones contractuales, jurídicas, laborales, de confidencialidad y de seguridad, siendo imprescindible la presentación a ENEL de la documentación acreditativa correspondiente.

10.12. ENEL podrá en todo momento inspeccionar y vigilar los trabajos o fabricaciones del subcontratista o subsuministrador, y el cumplimiento de sus obligaciones, en relación con la ejecución del Contrato. El subcontratista o subsuministrador queda obligado a facilitar a ENEL toda la colaboración que para ello pueda ser necesaria (documentación, informes, libre acceso a sus fábricas, talleres o instalaciones, etc.).

10.13. ENEL se reserva el derecho de rechazar de forma razonada a aquellos subcontratistas o subsuministradores durante la ejecución del Contrato no juzgara oportuno mantener.

11. CESIÓN.

11.1. Cesión de derechos de cobro u obligaciones de pago.

11.1.1. ENEL podrá, con el único requisito de notificarlo al Proveedor, ceder sus derechos de cobro u obligaciones de pago, derivados del Contrato, a favor de cualquier sociedad del Grupo ENEL.

11.1.2. El Proveedor no podrá ceder sus derechos de cobro u obligaciones de pago, derivados del Contrato, a favor de cualquier persona física o jurídica, sin el previo y expreso consentimiento de ENEL.

11.2. Cesión del Contrato.

11.2.1. ENEL podrá, con el único requisito de notificarlo al Proveedor, ceder sus derechos y obligaciones derivados del Contrato a favor de cualquier sociedad del Grupo ENEL. En el caso de que la cesión por parte de ENEL se produzca a favor de cualquier otra persona física o jurídica ajena al Grupo ENEL, ENEL deberá obtener la previa y expresa autorización por parte del Proveedor.

11.2.2. El Proveedor no podrá ceder sus derechos y obligaciones derivados del Contrato, a favor de cualquier persona física o jurídica, sin el previo y expreso consentimiento de ENEL. La petición a ENEL de consentimiento incluirá la aceptación expresa, por parte del cesionario propuesto, de las obligaciones que frente a ENEL se deriven para aquél de todas las condiciones contractuales (jurídicas, laborales, de confidencialidad, de seguridad, etc.), siendo imprescindible la presentación a ENEL de la documentación acreditativa correspondiente.

12. OBLIGACIONES Y RESPONSABILIDADES DEL PROVEEDOR.

12.1. El Proveedor es totalmente responsable de todo lo necesario para la ejecución del Contrato y en cualquier caso de todo lo indicado como su responsabilidad en el Contrato, y en particular, de lo siguiente:

- realizar las inspecciones, pruebas y exámenes requeridos por el Contrato y los reglamentos aplicables al mismo, así como todos los costes derivados de éste;
- gestionar y obtener visas, autorizaciones y licencias necesarias para la realización del Contrato, a excepción de las que sean legalmente responsabilidad de ENEL;
- organizar a su personal, empleado en varias áreas en la ejecución de las actividades contractuales, estando siempre la responsabilidad del Proveedor claramente identificada y separada de la de ENEL;
- designar una persona en la propia organización del Proveedor para actuar como interlocutor de ENEL durante la ejecución del Contrato;
- los trabajos requeridos para ejecutar el Contrato con todos sus costes asociados.

12.2 El Proveedor ejecutará el Contrato de acuerdo con las disposiciones de éste, las Prácticas industriales prudentes, las leyes y los reglamentos requeridos por las Autoridades competentes. El Proveedor llevará a cabo estrictos controles de calidad y solo designará personal calificado para ejecutar el Contrato.

Patricia Álvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

12.3 El Proveedor cooperará con ENEL y terceros designados por ENEL, y hará todos los esfuerzos comercialmente razonables para programar, coordinar y ejecutar el Contrato a fin de no retrasar o afectar negativamente su ejecución y finalización oportunas. El Proveedor cooperará con dichos terceros en la misma medida en que el Proveedor está obligado a cooperar con ENEL en virtud del Contrato.

12.4. El Proveedor será responsable del correcto cumplimiento de las obligaciones legales y fiscales, así como de las responsabilidades contractuales con sus proveedores y subcontratistas o subsuministradores.

12.5. Si el Proveedor está formado por dos o más entidades, cada una de ellas estará obligada a cumplir conjuntamente los requisitos y la ejecución del Contrato, de conformidad con lo pactado y con la legislación vigente.

12.6. El Proveedor está obligado a evitar cualquier situación que pudiera dar lugar a conflictos de interés y, por tanto, deberá tomar todas las medidas necesarias para la prevención e identificación, así como informar inmediatamente a ENEL de cualquier conducta pueda generar un conflicto de interés.

12.7. El Proveedor está obligado a abonar de inmediato la totalidad de los gastos que ENEL soporte (incluidos honorarios de letrados y derechos de procurador, provisiones de fondos sobre ambos, certificados, habilitaciones, tasas, suplidos, avales o seguros de caución o depósitos legales para recurrir o que sean requeridos o necesarios de cualquier forma, etc.) por causa de su defensa jurídica frente a actos administrativos, reclamaciones extra o prejudiciales y acciones judiciales de cualquier tipo e instancia que contra ENEL se dirijan, incluyendo las acciones que dirijan contra ENEL los trabajadores del Proveedor o sus subcontratistas o subsuministradores o cesionarios, y los dependientes, subcontratistas o subsuministradores y autónomos de ambos, las reclamaciones de terceros y cualquiera otra reclamación que pudiera plantearse derivada directa o indirectamente de la ejecución del Contrato por parte del Proveedor. La obligación de pago de gastos de representación y defensa que asume el Proveedor no condiciona de ningún modo la elección de profesionales por parte de ENEL, ni supone el previo sometimiento al Proveedor de los mecanismos y medios de defensa que ENEL entienda procedente desarrollar en su propio interés.

12.8. El Proveedor se compromete a notificar oportunamente a ENEL el inicio de procedimientos para su disolución, transformación, fusión, escisión, aumento o reducción de capital o, en todo caso, de otras operaciones extraordinarias, incluyendo la venta y / o compra de participaciones mayoritarias y / o de las ramas de la empresa, así como cambios significativos en sus órganos de gobierno. Sin perjuicio del cumplimiento de las obligaciones de confidencialidad del Proveedor, la notificación antes mencionada se realizará con una anticipación razonable o, en todo caso, a más tardar cinco (5) días hábiles a partir de los hechos antes mencionados.

12.9. En caso de que el Proveedor sea extranjero, y antes de comenzar las obras, el Proveedor deberá garantizar que el "personal clave" (como el capataz, el supervisor o el jefe de obra) sean capaces de entender y comunicarse en el idioma español o en el establecido en el Contrato, de forma verbal y escrita.

13. PERÍODO DE GARANTÍA.

13.1. El Proveedor garantiza:

a) la idoneidad, propiedad exclusiva y/o disponibilidad legítima de los materiales y/o equipos, así como que éstos están libres de cargas y gravámenes;

b) que los materiales y equipos:

- cumplen las leyes, especificaciones, normas y prescripciones del Contrato;
- están libres de defectos visibles u ocultos;
- son adecuados para el uso previsto;
- tienen el nivel de calidad requerido;
- no estén usados;

c) que las obras cumplen con todos los requisitos contractuales y resultan idóneos para el uso previsto.

13.2. La garantía no cubrirá defectos o fallos

- provocados por un uso incorrecto por parte de ENEL, salvo en los casos en los que dicho uso incorrecto se derive de errores o información confusa en los manuales o instrucciones facilitados por el Proveedor.
- debidos al desgaste normal, incluido el desgaste debido al entorno, la operación o el uso.
- debidos a la modificación del equipo que no esté de acuerdo con el Contrato o las instrucciones o recomendaciones del Proveedor.

13.3. La garantía se aplica a los defectos de diseño, construcción y defectos ocultos y otros especificados en el Contrato. De conformidad con la garantía, el Proveedor está obligado a realizar, en el plazo más breve posible y a su propia costa, cualquier

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

reparación o sustitución necesaria, entre las que se incluyen la retirada y el transporte de las partes defectuosas. En particular, el Proveedor se compromete a:

a) sustituir, lo antes posible o según lo regulado en el Contrato, los materiales y equipos que no cumplan con las disposiciones o los requisitos, y los que sean inadecuados o de calidad deficiente. Dichos materiales y equipos permanecerán almacenados en las instalaciones de ENEL hasta que se sustituyan, sin perjuicio del derecho de ENEL a utilizar los materiales rechazados hasta que se retiren;

b) arreglar, reparar o sustituir los equipos que presenten defectos de diseño, materiales, fabricación o funcionamiento;

c) sustituir todos los materiales y equipos suministrados en caso de que haya defectos en serie, justificando así la solución adoptada para evitar que estos defectos se produzcan en el resto de los materiales o equipos que se necesite suministrar. Se considera que existe un defecto en serie cuando el porcentaje de materiales y equipos defectuosos cubiertos por el Contrato supere el porcentaje establecido en el Contrato, o si esto no se especifica, cuando el porcentaje supere el diez por ciento (10%) del total;

d) devolver los equipos / emplazamientos facilitados por ENEL en el mismo estado en que se entregaron.;

e) indemnizar a ENEL por las reclamaciones de terceros.

13.4. Las obligaciones anteriormente mencionadas y todos los gastos que se deriven por varios motivos de la ejecución de la garantía correrán únicamente a cargo del Proveedor.

13.5. ENEL siempre tendrá potestad para tomar decisiones, lo que se comunicará convenientemente al Proveedor, en relación con la corrección y el ajuste o la repetición de la ejecución, construcción o montaje de cualquier material que se considere defectuoso. ENEL podrá ordenar al Proveedor, por motivos justificados, ajustes, correcciones, reparaciones o sustituciones temporales cuyo coste correrá a cargo del Proveedor, hasta la llegada de nuevas partes, nuevas construcciones o montajes, según sea requerido.

13.6. En todo caso, las medidas a las que se hace referencia en la subcláusula anterior. serán realizadas por el Proveedor tan pronto como sea posible, de forma que ENEL se vea afectado por ellas lo menos posible y sin que provoque retrasos en la finalización de las obras o detenga o ralentice el funcionamiento de las instalaciones o, en caso de no ser posible, que minimice el retraso o el tiempo en que las instalaciones estén total o parcialmente no disponibles.

13.7. Si el Proveedor no cumple con las obligaciones recogidas en esta cláusula, ENEL las realizará por su cuenta, o mediante terceros, a costa del Proveedor. Asimismo, el Proveedor estará obligado a indemnizar a ENEL por cualquier daño o pérdida que haya sufrido, según lo estipulado en el Contrato.

13.8. El Periodo de Garantía se interrumpirá en la fecha en que la decisión de ENEL, ya sea en virtud de lo dispuesto en el apartado 13.5 como de lo dispuesto en el apartado 13.7, se comunique de forma válida al Proveedor, y se extenderá por el tiempo necesario para realizar reparaciones, sustituciones o nuevos montajes u obras que se deban realizar.

13.9. Las piezas de repuesto estarán sujetos también a la garantía anteriormente mencionada.

13.10 El Período de Garantía de los materiales y equipos, así como de las obras o servicios contratados se extiende durante el tiempo que se estipule en el Contrato, y en su defecto, durante un (1) año a partir de la fecha del Acta de Recepción Provisional. Si no se suscribiera el Acta, el año se contará desde la conformidad de ENEL a la entrega del material, o en defecto de dicha conformidad, desde la comunicación de la finalización de la obra o del servicio contratado y entrega a ENEL de la documentación por parte del Proveedor para la tramitación de la autorización administrativa para poner en servicio la instalación, en su caso.

13.11. Si al vencer el Período de Garantía no hubieren transcurrido seis (6) meses al menos desde la entrada en servicio de la instalación principal de ENEL a la que se destine o de la que forme parte el objeto del Contrato, el Período de Garantía quedará automáticamente prorrogado hasta transcurridos dichos seis (6) meses, salvo que los materiales o equipos aportados por el Proveedor hayan sufrido una reparación o sustitución, en cuyo caso, serán garantizados por tiempo igual al Período de Garantía inicial. En ningún caso implicará mayores costes para ENEL.

13.12. Vencido el Período de Garantía y efectuada la Recepción Definitiva, ENEL podrá proceder para su exclusivo provecho, directamente por sí o por medio de terceros, a modificar o alterar libremente los materiales y equipos objeto del Contrato o las construcciones realizadas o instalaciones montadas, incluso cuando estén amparadas por licencias, patentes u otras formas de propiedad industrial a favor del Proveedor, preservando en todo caso la confidencialidad debida.

13.13. La expiración del periodo de garantía o la aceptación final de los materiales / obras recogidos en el Contrato, no exime al Proveedor de su responsabilidad por los defectos visibles u ocultos, u otras responsabilidades de aplicación por ley o en virtud del Contrato.

14. PENALIZACIONES.

14.1. Sin perjuicio de lo establecido en las presentes Condiciones Generales sobre la resolución del Contrato por causa imputable al Proveedor, los incumplimientos por parte de éste en las fechas de entrega o en los plazos de ejecución tanto parciales como finales, así como cualesquiera otros incumplimientos expresamente previstos en el Contrato o en estas Condiciones Generales, conllevará la aplicación por ENEL de una penalización que en ningún caso tendrá carácter indemnizatorio por lo que en ningún caso constituirá el único remedio del que dispondrá ENEL para resarcirse de los daños y perjuicios causados por el incumplimiento del Proveedor que ha dado lugar a la penalización.

Patricia Álvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 3391

14.2. En el caso de que no se hubiese establecido otra distinta en el Contrato, la penalización por retraso, sin necesidad de denuncia de la mora, será de un uno y medio por ciento (1,5%) del importe total del Contrato por cada semana natural de retraso, durante las cuatro (4) primeras semanas, y del cuatro por ciento (4%) del importe total del Contrato por cada semana natural de retraso a partir de la quinta semana.

14.3. Si durante el Periodo de Garantía ENEL se viera privada total o parcialmente de la disposición o utilización de los materiales o equipos contratados, o de la obra realizada o instalación montada, por causa de defecto, desperfecto o avería que se haya producido o advertido en ellos, no imputables a ENEL, o por causa de deficiencias en la ejecución o en los trabajos que hayan de realizarse para subsanarlas, el Proveedor será sancionado con la penalización que se haya establecido al efecto en el Contrato y si no se hubiere establecido, con la del cero con una décima por ciento (0,1%) del importe total del Contrato por cada día natural de no disposición o utilización.

14.4. La suma de las penalizaciones no podrá exceder del quince por ciento (15%) del importe total del Contrato, incluidos en su caso revisiones, ampliaciones y trabajos con precio por administración. En caso de superarse dicho límite, ENEL aplicará la penalización y tendrá derecho bien a resolver el Contrato, o bien a continuar exigiendo su cumplimiento al Proveedor, en ambos casos con la indemnización de daños y perjuicios correspondiente con arreglo a la legislación aplicable.

14.5. El cobro de las penalizaciones no privará a ENEL de la facultad de repercutir adicionalmente al Proveedor el importe de todos los daños, perjuicios, gastos y sobrecostes que venga obligado a soportar y /o venga obligado a pagar a terceros como consecuencia directa del retraso o incumplimiento del Proveedor.

14.6. La aplicación de las penalizaciones previstas no exime al Proveedor del correcto cumplimiento del Contrato en toda su extensión. En consecuencia, el Proveedor viene obligado a eliminar las deficiencias técnicas advertidas, a pagar las penalizaciones que correspondan, a recuperar a su costa los plazos perdidos, y a sustituir los materiales y equipos, o rehacer o repetir, según proceda, los trabajos o servicios objeto del Contrato, a requerimiento de ENEL.

14.7. El hecho de que ENEL no aplique una o más penalizaciones en relación con un incumplimiento de un Contrato no implica una renuncia por parte de ENEL a aplicar cualquier otra penalización o penalizaciones similares que se originen a posteriori a partir de la misma causa.

14.8. El procedimiento para el cobro por parte de ENEL de cualquier penalización derivada del Contrato se desarrollará conforme a lo que se describe a continuación:

a) ENEL comunicará por escrito razonado al Proveedor la penalización que proceda abonar, detallando el importe de esta. El Proveedor tendrá un plazo no superior a quince (15) días naturales desde la fecha de la comunicación para manifestar por escrito cuanto en su descargo crea oportuno.

b) Transcurrido dicho plazo, y en el caso de que ENEL no aceptase los argumentos del Proveedor, ENEL podrá optar, indistintamente y a su solo criterio, entre:

b.1.) requerir al Proveedor, quien se obliga a atender el mencionado requerimiento, para que descuente en su/s siguiente/s factura/s a ENEL, el importe correspondiente a la penalización aplicada, o bien

b.2.) facturar en nombre del Proveedor el importe correspondiente a la penalización aplicada, para lo cual el Proveedor autoriza expresamente a ENEL desde este mismo momento:

- a facturar en nombre del propio Proveedor el importe de la mencionada penalización conforme determina la normativa fiscal vigente, y
- a compensar monetariamente el importe de la penalización con el importe de la/s siguiente/s factura/s emitida/s por el Proveedor por la ejecución del Contrato.

En caso de que el cobro por parte de ENEL de la penalización no sea posible utilizando los mecanismos detallados en los subapartados b.1.) y b.2.) anteriores, ENEL se reserva el derecho a ejecutar, por la cuantía correspondiente, la garantía económica que tuviere constituida, o a efectuar el cobro por cualquier otro medio contemplado en el Contrato, en las leyes o en las presentes Condiciones Generales, y todo ello sin perjuicio de la indemnización por daños y perjuicios que a favor de ENEL pudiera proceder.

c) Si fuera ejecutada por ENEL la garantía económica, el Proveedor vendrá obligado a restituirla por el mismo importe que el anterior a la ejecución, conforme a lo establecido en el apartado 18 de estas Condiciones Generales. En tanto no se produzca dicha restitución ENEL suspenderá la devolución del remanente que hubiera resultado, en su caso, entre el importe total de la garantía económica ejecutada y el importe de la penalización aplicada. En el caso de que el importe de la garantía económica no sea suficiente para cubrir el importe de las penalizaciones, ENEL compensará, por el mecanismo establecido en el anterior subapartado b.2.), los pagos pendientes al Proveedor que sean necesarios para cubrir el importe total de las penalizaciones, y todo ello sin perjuicio de la restitución de la garantía por parte del Proveedor, conforme a lo indicado anteriormente.

15. SUSPENSIÓN, DESISTIMIENTO Y RESOLUCIÓN.

15.1. Suspensión.

15.1.1. Si, por cualquier motivo, ENEL considera necesario o se viera obligado a suspender la totalidad o parte de la ejecución del Contrato, se lo notificará por escrito al Proveedor, explicando el motivo y proporcionando una estimación de la duración de

Patricia Álvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

dicha suspensión. La suspensión se hará efectiva a partir de la fecha indicada en la notificación. El Proveedor deberá, desde esa fecha, cesar las actividades y almacenará y mantendrá los materiales y equipos, sin perjuicio de todas las demás obligaciones que se deriven de la legislación vigente y/o estén establecidas en el Contrato.

15.1.2. ENEL comunicará la reanudación de las actividades con antelación, por escrito, al Proveedor y dicha comunicación tendrá lugar antes de la fecha especificada en el mismo. El tiempo restante para la finalización de la parte suspendida de la ejecución del objeto del Contrato comenzará a correr desde dicha fecha. El Proveedor tendrá derecho a recibir el pago, conforme a lo definido en el Contrato, por el trabajo o la entrega ya realizada. El pago de la parte del trabajo o entrega que se halle en avanzado estado en el momento de la notificación, y no previstas en el Contrato, se negociará entre las Partes.

15.1.3 Si la suspensión está motivada por incumplimiento o motivo imputable al Proveedor, éste correrá con todos los costes y gastos incurridos por ENEL debido a la suspensión.

15.2. **Desistimiento.**

15.2.1. ENEL podrá desistir del Contrato en cualquier momento e independientemente del progreso de este. El desistimiento se comunicará por escrito con acuse de recibo y será efectivo desde la fecha de la comunicación de ENEL. de las actividades que se deben completar y las que deben cesar inmediatamente. Las actividades realizadas por el Proveedor de forma regular hasta la fecha de cancelación se compensarán por ENEL de conformidad con los precios contractuales. ENEL deberá reembolsar al Proveedor, tras la revisión de las pruebas satisfactorias proporcionadas por el Proveedor relativas a lo que se ha interrumpido y a lo que no se ha realizado. Con este fin ENEL deberá reembolsar la cantidad más baja entre (i) la equivalente a los gastos en que haya incurrido el Proveedor en relación con esas actividades, para pedidos irrevocables que se han efectuado y (ii) la equivalente al perjuicio económico real sufrido por el Proveedor, debidamente acreditado.

15.2.2. El Proveedor puede desistir de la ejecución del Contrato de acuerdo con las disposiciones de la ley aplicable al Contrato.

15.3. **Resolución.**

15.3.1. ENEL puede resolver el Contrato en los casos contemplados por la ley y/o en los casos estipulados en el Contrato y/o en los casos siguientes, donde exista una causa que impida o afecte negativamente de forma significativa a la correcta ejecución del Contrato:

a) fallecimiento del Proveedor, si se trata de una persona física, o, para ambas Partes, un cambio en su capacidad que impida, dificulte o modifique la ejecución del Contrato de forma sustancial.

b) disolución, transformación, escisión, fusión, absorción, reducción de capital, cambio esencial del objeto social o cambios significativos en el control o en los órganos directivos del Proveedor, en caso de que dichos cambios tengan un impacto negativo en la ejecución del Contrato o contravengan la Normativa de conducta ética de ENEL.

c) disminución de la capacidad o solvencia económica o financiera y/o del riesgo crediticio del Proveedor, disposición de todo o parte de los activos y/o negocios del Proveedor, así como el cese o amenaza de cese de su actividad u otro tipo de dificultad legal, o de cualquier otro tipo, que afecte negativamente a la ejecución del Contrato por parte del Proveedor.

d) interrupción o suspensión por parte del Proveedor de la ejecución del Contrato, excepto si se produce por fuerza mayor o por causa imputable a ENEL debidamente acreditada.

e) alcanzar el Proveedor en su desempeño en el Contrato el importe máximo de las penalizaciones contempladas en el mismo, o en caso de que la demora o cualquier otro incumplimiento del Proveedor sea tal que frustra la correcta ejecución del alcance del Contrato.

f) imposibilidad del Proveedor de obtener a tiempo y de forma completa los certificados, autorizaciones, licencias y/o aprobaciones necesarias para la correcta ejecución del Contrato en relación con sus propios productos o actividades o cualquier pérdida de los mismos mientras el Contrato esté vigente, excepto si se produce por fuerza mayor o por causa imputable a ENEL debidamente acreditada.

g) incapacidad del Proveedor de poner remedio a los incumplimientos de las Especificaciones Técnicas correspondientes y/o en caso de repetición de errores o de defectos o incumplimientos en relación con las instrucciones proporcionadas por ENEL.

h) incapacidad de realizar o incumplimiento por parte del Proveedor y/o sus subcontratistas o subsuministradores, del objeto del Contrato o de cualquiera de los requisitos o preceptos de la legislación aplicable al Contrato.

i) incumplimiento de las obligaciones relacionadas con la propiedad intelectual, confidencialidad y el tratamiento de los datos personales, de conformidad con el Contrato y la legislación aplicable.

j) la comprobación en cualquier momento, tras la firma del Contrato, de cualquier omisión o falta de veracidad de cualquier información o declaración ofrecida por el Proveedor en relación con el cumplimiento de las condiciones legales, económicas, financieras, técnicas o contractuales.

k) ejecución incorrecta del objeto del Contrato por motivos atribuibles a un subcontratista o subsuministrador, o a cualquier persona designada por el Proveedor, y/o el impago de indemnización por daños provocados a cualquier persona o bien.

l) negativa del Proveedor a comenzar la ejecución del Contrato excepto si se produce por fuerza mayor o por causa imputable a ENEL debidamente acreditada.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

m) la negativa del Proveedor, excepto si se produce por fuerza mayor o por causa imputable a ENEL debidamente acreditada, a reanudar la ejecución del Contrato que ENEL (por cualquier motivo) haya ordenado suspender, cuando la propia ENEL haya indicado su reanudación.

n) la realización por parte del Proveedor de actos u omisiones que sean dañinos para la imagen de ENEL.

o) acciones, omisiones, conductas o situaciones relativas al Proveedor que puedan suponer un riesgo para la reputación de ENEL y que den lugar al deterioro de la confianza de ENEL en la honorabilidad e integridad del Proveedor, y en su fiabilidad para la ejecución de actividades de conformidad con lo previsto en el Contrato.

p) pérdida de siquiera uno de los requisitos establecidos para la homologación (si fueran exigibles), en relación con la conclusión y complimiento del Contrato.

q) cuando lo ordene cualquier Autoridad administrativa o judicial.

r) cualquier otro incumplimiento por parte del Proveedor que pueda impedir o afectar de forma considerable y adversa la ejecución satisfactoria del Contrato, o cualquier otro motivo que se especifique en el Contrato como un motivo de resolución.

15.3.2. En los casos descritos anteriormente, ENEL podrá, mediante una comunicación por escrito (o en formato electrónico, cuando esté contemplado en el Contrato), resolver el Contrato inmediatamente o conceder al Proveedor un periodo de subsanación para remediar el incumplimiento contractual. Si el Proveedor no subsana dicho incumplimiento dentro del periodo concedido, el Contrato quedará automáticamente resuelto. En todo caso ENEL podrá adicionalmente reclamar una indemnización por cualquier pérdida o daño sufrido.

15.3.3. En caso de resolución del Contrato por motivos atribuibles al Proveedor, ENEL tendrá derecho a adquirir los materiales que el Proveedor ya haya fabricado, total o parcialmente, o entregado, pagando los precios pertinentes, cuando estén contemplados en el Contrato.

15.3.4. En el caso de incumplimiento por parte del Proveedor, ENEL puede, sin perjuicio del derecho a aplicar penalizaciones o a llevar a cabo acciones legales en relación con su derecho a indemnización por daños, llevar a cabo las siguientes medidas:

a) suspender los pagos pendientes al Proveedor para cumplir con las obligaciones contractuales con terceras partes que se deriven de la no ejecución del Contrato por parte del Proveedor.

b) ejecutar cualquier garantía económica proporcionada por el Proveedor.

16. FUERZA MAYOR.

16.1. Ninguna de las Partes será responsable del incumplimiento de cualquiera de sus obligaciones contractuales si la ejecución de tales obligaciones se retrasase o se impidiese por causa de Fuerza Mayor, según lo definido en el artículo 1105 del Código Civil español y en la Jurisprudencia aplicable.

16.2. No podrá invocarse por el Proveedor como causa de Fuerza Mayor:

a. Condiciones o fenómenos meteorológicos que hayan podido ser previstos razonablemente y cuyos efectos negativos para la ejecución del Contrato podrían haber sido evitados total o parcialmente por el Proveedor.

b. Condiciones físicas del lugar de ejecución del Contrato, que son conocidas suficientemente y aceptadas por el Proveedor.

c. Demoras o fallos que hayan podido ser previstos, evitados o subsanados de forma anticipada, en la obtención de medios materiales o humanos para la ejecución del Contrato.

d. Dificultades técnicas, económicas o financieras del Proveedor o de sus subcontratistas o subsuministradores.

e. Retrasos o incumplimientos contractuales de cualquier subcontratista o subsuministrador del Proveedor, salvo que dichos retrasos o incumplimientos contractuales sean a su vez consecuencia de una causa de Fuerza Mayor.

f. Huelgas o conflictos laborales del Proveedor o de sus subcontratistas o subsuministradores, salvo que dichas huelgas o conflictos tengan carácter nacional o sectorial.

16.3. La Parte cuya ejecución del Contrato se viera afectada por hechos que considere causa de Fuerza Mayor lo notificará por escrito a la otra Parte tan pronto como sea posible, y siempre en un plazo máximo de cinco (5) días naturales a partir del día en que la Parte hubiera tenido conocimiento de los citados hechos. En dicha notificación:

1. Identificará los hechos causantes y las circunstancias en que se han producido.
2. Detallará el plazo estimado de duración de la situación.
3. Relacionará las obligaciones contractuales afectadas y las medidas que va a adoptar para reducir, si es posible, los efectos negativos de los hechos en la ejecución del Contrato.

Patricia Álvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

4. Adjuntará los documentos que acrediten que los hechos causantes se deben considerar como causa de Fuerza Mayor.

16.4. La otra Parte responderá por escrito aceptando o no la causa de forma razonada, en un plazo máximo de diez (10) días naturales tras la recepción de la notificación antes mencionada. La ausencia de respuesta de la Parte notificada en el plazo señalado se entenderá como aceptación de la causa invocada.

16.5. El cumplimiento de las obligaciones afectadas por causa de Fuerza Mayor se suspenderá durante el período de duración de dicha causa, sin que puedan derivarse consecuencias indemnizatorias entre las Partes ni aumento de precio del Contrato. Las obligaciones contractuales no afectadas por causa de Fuerza Mayor deberán seguir ejecutándose según los plazos y términos contractuales vigentes antes de la ocurrencia de la citada causa.

16.6. Tras el cese de la causa de Fuerza Mayor, las Partes acordarán bien la extensión que se deba producir en los plazos contractuales, o bien las medidas necesarias que puedan adoptarse para recuperar, en todo o en parte, el tiempo perdido con el fin de mantener si es posible, dichos plazos. Las Partes tomarán todas las medidas razonables a su alcance para que la ejecución de todas las obligaciones del Contrato afectadas por causa de Fuerza Mayor se reemprendan en las mejores condiciones y con los menores retrasos, tras el cese de la citada causa.

16.7. Si debido a las condiciones de fuerza mayor, la ejecución del Contrato se ve afectada sustancialmente y se suspende durante más de ciento ochenta (180) días naturales, o se puede demostrar que es imposible su ejecución, cualquiera de las Partes puede solicitar la resolución del Contrato, sin consecuencias compensatorias entre las Partes.

17. OBLIGACIONES JURÍDICO-LABORALES.

17.1. **Aspectos de carácter general.**

17.1.1. El Proveedor se obliga a cumplir de forma correcta y en toda su extensión la normativa laboral, legal o convencional, y de seguridad y salud laboral que le resulte de aplicación, de conformidad con el Contrato y con la legislación aplicable. La observancia de esta obligación por parte del Proveedor se considera esencial para el buen fin del Contrato por lo que la inobservancia constituirá justa causa de resolución del Contrato a instancias de ENEL, sin perjuicio de la indemnización de daños o perjuicios a favor de ENEL que proceda.

17.1.2. Dado que ENEL puede resultar legalmente responsable, con carácter directo, solidario o subsidiario, de determinados incumplimientos de la legislación por parte del Proveedor:

1) ENEL verificará y comprobará el cumplimiento por parte del Proveedor de sus obligaciones legales en este ámbito.

2) El Proveedor se compromete a poner a disposición de ENEL, en la forma y con la periodicidad que ésta determine, la información y documentación que acredite el cumplimiento de sus obligaciones legales.

17.1.3. La referida información y documentación será facilitada de la manera y a través del soporte, físico o electrónico, que en cada momento ENEL determine, dándose prioridad a la aportación a través de medios telemáticos. ENEL procurará poner a disposición del Proveedor los medios más eficaces posibles para que pueda dar cumplimiento a estas obligaciones, ya sea a través de sistemas y recursos propios o ajenos. ENEL se reserva el derecho a encomendar a terceras empresas la verificación y acreditación del cumplimiento de las obligaciones documentales en materia jurídico-laboral, de prevención de riesgos laborales y complementarias por parte del Proveedor. De todo ello, el Proveedor será informado de manera adecuada y detallada; y, en el caso de realizarse cambios, con la antelación suficiente para que pueda proceder a su cumplimiento.

17.1.4. La falta de aportación por parte del Proveedor, en el momento establecido por ENEL, de la documentación puede ser, a criterio de ENEL, impeditiva para la ejecución del Contrato, total o parcialmente, tanto en las instalaciones de ENEL como en las de sus clientes. En el caso de que sea así, ENEL podrá resolver el Contrato y/o exigir al Proveedor la reparación de los daños y perjuicios causados.

17.1.5. ENEL se reserva el derecho a realizar, con medios propios o ajenos, auditorías de comprobación del cumplimiento por parte del Proveedor de las obligaciones laborales y de seguridad y salud laboral de las que ENEL pudiera resultar responsable de manera directa, solidaria o subsidiaria en caso de incumplimiento por parte del Proveedor. Estas auditorías podrán realizarse tanto en las instalaciones de ENEL como en las del propio Proveedor, y su realización se comunicará al Proveedor con una antelación de, al menos, setenta y dos (72) horas. ENEL también podrá realizar inspecciones *in situ*, en el lugar de ejecución de las actividades contratadas, para examinar el cumplimiento por parte del Proveedor de sus obligaciones en materia de seguridad y salud laboral, así como de todas las medidas y prevenciones establecidas en las reuniones de coordinación de actividades empresariales. Estas inspecciones se podrán realizar por ENEL, con medios propios o ajenos, en cualquier momento, sin más requisito que su comunicación en el mismo acto al responsable de la obra o servicio del Proveedor. El Proveedor se compromete a colaborar de manera proactiva y diligente, y a facilitar las actividades que han de realizar las personas designadas por ENEL, así como a poner a su disposición cuanta información y documentación sean necesarias para acreditar los extremos sometidos a comprobación y auditoría.

17.1.6 El Proveedor es responsable de y garantiza la autenticidad de la documentación, y la veracidad y exactitud de la información requerida, tanto la de aportación inicial, como la periódica, así como la que pueda ser solicitada en el transcurso de las auditorias. El incumplimiento de esta obligación por parte del Proveedor facultará a ENEL a resolver el Contrato y/o a exigir al Proveedor la indemnización de daños y perjuicios que proceda.

17.2. **Incompatibilidades.**

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
[illegible]3391

17.2.1. El Proveedor se compromete, salvo autorización previa y expresa de ENEL a no utilizar en la ejecución del Contrato los servicios de personas en activo o que hayan causado baja por jubilación, prejubilación o mecanismo equivalente en las sociedades del Grupo ENEL, bien directamente, bien a través de alguna entidad con la que mantuviera relación laboral, mercantil o de propiedad, o bien a través de terceras personas.

17.2.2. Tampoco podrá ostentar la condición de administrador o accionista mayoritario del Proveedor ninguna persona en situación de activo, jubilado, o con contrato laboral extinguido o suspendido por prejubilación o mecanismo equivalente en relación con ENEL, salvo autorización expresa de ENEL.

17.2.3 El incumplimiento de cualquiera de estas obligaciones constituirá para ENEL justa causa de resolución del Contrato y/o de exigir al Proveedor la indemnización de daños y perjuicios que proceda.

17.3. **Seguridad y salud laboral.**

17.3.1. Cumplimiento de la normativa.

El Proveedor cumplirá la normativa sobre prevención de riesgos laborales y cuantas otras normas, legales vigentes o convencionales, contengan prescripciones relativas a la adopción de medidas preventivas en el ámbito laboral o susceptibles de producirlas en dicho ámbito.

17.3.2. Organización del trabajo.

Es obligación del Proveedor la organización del trabajo y de la seguridad y salud de sus trabajadores, que requiera la realización de la obra o servicio contratado, así como en aquellos supuestos en los que tenga que adquirir materiales y/o equipos de trabajo. El Proveedor designará un responsable de su organización, de acreditada competencia, a efectos de su dirección, supervisión y coordinación con responsables de otros proveedores y subcontratistas o subsuministradores de ENEL, si procede, y en cualquier caso con personal de ENEL con responsabilidad en materia de organización del trabajo y prevención.

17.3.3. Organización preventiva.

Se establecerá por el Proveedor la modalidad de organización preventiva, incluidos los Servicios de Prevención, recursos preventivos y asistencia sanitaria que exijan las disposiciones legales y las Especificaciones Técnicas, se acuerde en la coordinación de actividades o aconseje la prudencia en función de los riesgos derivados del trabajo, a fin de evitar siniestros laborales.

17.3.4. Personal del Proveedor.

El Proveedor garantiza la seguridad y protección de los trabajadores a su servicio en todos los aspectos relacionados con el trabajo. A tal efecto y en el marco de su exclusiva responsabilidad, debe adoptar las medidas necesarias en materia de evaluación de riesgos, planificación preventiva, formación e información sobre riesgos, actuación en caso de emergencia o de riesgo grave e inminente, y de vigilancia de la salud del personal a su servicio y cuantas otras medidas fueran necesarias.

17.3.5. Coordinación de actividades.

17.3.5.1. En el supuesto de que el Contrato conlleve la realización de trabajos en dependencias de ENEL o de sus clientes, el Proveedor redactará un Plan de Prevención relativo a los citados trabajos. El referido Plan de Prevención contemplará los riesgos generales y específicos, la evaluación de riesgos, las medidas de protección (tanto colectivas como individuales), la planificación preventiva de los trabajos a realizar y los procedimientos de trabajo.

17.3.5.2. Cuando concurran varios proveedores en la realización de estas actividades, cada uno de ellos cooperará en la aplicación de la normativa sobre Prevención de Riesgos Laborales, asumiendo sus obligaciones y respondiendo de sus incumplimientos.

17.3.5.3. ENEL establecerá los medios y medidas de coordinación de actividades empresariales que estime convenientes para que el Proveedor reciba la información y las instrucciones adecuadas en relación con los riesgos existentes y con las medidas de protección y prevención correspondientes, así como sobre las medidas de emergencia a aplicar, para su traslado a sus respectivos trabajadores.

17.3.5.4. Asimismo, el Proveedor informará a ENEL de los riesgos derivados de la actividad a realizar que puedan afectar a trabajadores propios o ajenos, o a terceros, así como de las medidas de protección a adoptar.

17.3.5.5. Cuando los trabajos contratados se realicen en las dependencias del cliente de ENEL, el Proveedor acreditará documentalmente a ENEL el cumplimiento de las obligaciones que la legislación vigente establece en lo que se refiere a la coordinación de actividades empresariales con el cliente de ENEL. Este requisito no se aplicará en el caso de que los trabajos del Proveedor se lleven a cabo en la vivienda particular del cliente de ENEL, sin perjuicio del cumplimiento de la normativa laboral y de prevención de riesgo laborales en relación con los trabajadores del Proveedor que van a realizar esos trabajos.

17.3.6. Actividades de especial peligrosidad.

17.3.6.1. En caso de que la ejecución contratada por ENEL al Proveedor conlleve la realización de actividades de especial peligrosidad, con exposición de los trabajadores a alguno de los riesgos definidos en el Anexo I del Real Decreto. 39/1997 de 17 de enero por el que se aprueba el Reglamento de los Servicios de Prevención, o en su caso en el Anexo II del Real Decreto 1627/1997 de 24 de octubre por el que se establecen disposiciones mínimas de seguridad y de salud en las obras de construcción, ENEL podrá solicitar al

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

Proveedor cuantos datos sobre vigilancia de la salud de sus trabajadores sean legalmente exigibles, para asegurar el cumplimiento de la legislación en materia de prevención de riesgos laborales.

17.3.6.2. Así mismo, y en cumplimiento de lo establecido en el artículo 32 bis de la Ley de Prevención de Riesgos Laborales, el Proveedor se obliga a disponer de los recursos preventivos necesarios para la vigilancia del cumplimiento de las actividades preventivas.

17.3.7. Comunicación de incidentes y riesgos.

17.3.7.1. Siempre que se produzca un incidente en sus actividades, incluso cuando no se produzcan víctimas, el Proveedor tiene la obligación ineludible de dar cuenta del mismo, de forma inmediata, al responsable de ENEL para el Contrato, cumplimentando los impresos de declaración de accidentes que le facilite ENEL o los suyos propios, en caso contrario. Además, el Proveedor procederá a realizar una investigación complementaria, cuyo informe entregará a ENEL en un plazo inferior a setenta y dos (72) horas, en el que se reflejen las causas originarias del accidente y las medidas preventivas adoptadas.

17.3.7.2. Cuando ENEL abra un expediente para investigar las causas de un incidente, el Proveedor estará obligado a prestar la máxima colaboración, facilitando de forma rápida y diligente cuantos datos y gestiones le sean solicitados.

17.3.7.3. Toda observación relacionada con la prevención de riesgos laborales hecha por el responsable de ENEL en obra o en la instalación deberá ser atendida inmediatamente por el personal a quien vaya dirigida, y cuando aquélla estuviese motivada por la inobservancia de normas o prescripciones ya establecidas, podrá dar lugar a una sanción al Proveedor, que habrá de ser proporcional a la gravedad de la falta cometida. Todo ello sin perjuicio de las acciones que el Proveedor, en ejercicio de su facultad disciplinaria, pudiera adoptar con relación a sus propios trabajadores, y de las sanciones o responsabilidades que por los mismos hechos puedan ser de aplicación por la Administración o por los Tribunales en aplicación de la legislación vigente.

17.3.7.4. Con vistas a la mejora permanente de las condiciones de trabajo y seguridad y salud laboral, el Proveedor debe tener implantado un procedimiento de sugerencias que permita a sus trabajadores efectuarlas. El Proveedor deberá remitir al responsable de ENEL para el Contrato una copia de las mismas. El Proveedor decidirá las acciones a tomar como consecuencia de esas informaciones que serán también sometidas a valoración y, en su caso, aceptación en las reuniones de coordinación de actividades en materia de prevención de riesgos laborales.

17.3.8. Formación.

El Proveedor garantiza y, en su caso, acreditará la existencia de una adecuada formación teórico-práctica sobre los riesgos inherentes a la actividad a desarrollar y el adiestramiento de su personal en materia de prevención de riesgos laborales y primeros auxilios, dando cuenta de las acciones llevadas a cabo en este sentido al responsable de ENEL para el Contrato.

17.4. **Información y documentación que el Proveedor debe aportar a ENEL.**

17.4.1. ENEL solicitará al Proveedor la información y documentación que considere necesaria para comprobar el correcto cumplimiento por parte de éste de aquellas obligaciones legales de las que pudiera derivarse alguna responsabilidad para ENEL. La relación de documentos que ENEL exigirá con carácter general y que se detalla a continuación no tiene carácter exhaustivo y puede ser modificada por ENEL en el caso de producirse modificaciones legislativas o en las políticas de ENEL sobre esta materia, con el único requisito de su comunicación al Proveedor con un (1) mes de antelación a su efectividad.

17.4.2. ENEL, teniendo en cuenta el tipo de actividad o de riesgo asociado a la obra o servicio objeto del Contrato, puede acordar que la documentación a aportar por el Proveedor no sea toda la que se detalla en este apartado o se centre en aspectos concretos.

17.4.3. Por el contrario, en determinados supuestos en que el tipo de servicio prestado por el Proveedor pueda considerarse de mayor peligrosidad o cuando exista legislación específica, ENEL podrá solicitar al Proveedor la aportación de documentación adicional a la que se contempla en los subapartados siguientes.

17.4.4. Cuando el Proveedor haya aportado recientemente determinada documentación o información en alguna otra licitación o para otro contrato vigente concertado con ENEL, y aquélla se encuentre en vigor y cumpla con lo requerido en la nueva licitación o Contrato, no será necesario que la facilite de nuevo, si bien el Proveedor deberá indicar la referencia de la licitación o Contrato para el que previamente la ha aportado.

17.4.5. El incumplimiento de las obligaciones de entregar en forma y plazo por parte del Proveedor la documentación que se regulan en este apartado 17 constituirá justa causa de resolución del Contrato a instancias de ENEL, sin perjuicio de la indemnización de daños o perjuicios a favor de ENEL que proceda.

17.4.6 Con carácter general, y Trabajadores autónomos con trabajadores a su cargo.

A. DOCUMENTACIÓN QUE DEBERÁ APORTAR EL PROVEEDOR ANTES DE LA FIRMA DEL CONTRATO:

1. Autorización del Proveedor a ENEL para la obtención de la certificación acreditativa de estar al corriente en el pago de las cuotas de la Seguridad Social, emitida por la Tesorería General de la Seguridad Social (artículo 42 Estatuto de los Trabajadores), por un período mínimo equivalente al de la Duración del Contrato.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

2. Seguro de responsabilidad civil y daños a terceros con la cobertura que establezca ENEL, y recibo acreditativo del pago de la correspondiente prima.

3. Certificación de la Agencia Tributaria que acredite que el Proveedor se encuentra al corriente en el pago de tributos (artículo 43.1.f) de la Ley General Tributaria).

4. Designación del interlocutor del Proveedor con ENEL.

B. DOCUMENTACIÓN QUE DEBERÁ APORTAR EL PROVEEDOR ANTES DEL INICIO DE LA EJECUCIÓN DEL CONTRATO:

1. Relación de los trabajadores adscritos a la ejecución del Contrato, con indicación para cada uno de ellos de: nombre y apellidos, NIF, nº de afiliación a la Seguridad Social, lugar/centro de trabajo en el que va a prestar servicios, categoría profesional o puesto de trabajo, en su caso, si el trabajador estará sometido a riesgos de especial peligrosidad. Este documento se actualizará cada vez que se produzca una incorporación o baja de los trabajadores adscritos a la ejecución del Contrato.

2. Autorización del Proveedor a ENEL ante la Tesorería General de la Seguridad Social para la comprobación de la afiliación o alta en la Seguridad Social de cada uno de los trabajadores que el Proveedor ocupe para la realización de las obras o servicios correspondientes a la propia actividad de ENEL o que presten servicios de forma continuada en las instalaciones de ENEL, por un período mínimo equivalente al de la Duración del Contrato.

3. Informe ITA (informe emitido por la Tesorería General de la Seguridad Social de los trabajadores en situación de alta en un código de cotización). Cuando, con posterioridad al inicio de la ejecución del Contrato, se produzcan incorporaciones de nuevos trabajadores (sean o no de nueva contratación), el Proveedor aportará nuevo Informe ITA debidamente actualizado. En el caso de nuevas contrataciones, podrá presentar, alternativamente al Informe ITA y a elección del Proveedor, documento acreditativo de alta en el Régimen General de la Seguridad Social de cada trabajador, modelo TA-2.

   Los referidos documentos se actualizarán cada vez que se produzca una incorporación o baja de los trabajadores adscritos a la ejecución del Contrato.

   Ningún trabajador podrá acceder ni permanecer en las instalaciones de ENEL si no figura en estado de alta en la Tesorería General de la Seguridad Social, siendo responsable el Proveedor de todos aquellos daños y perjuicios que pudiera sufrir ENEL derivados del incumplimiento de esta obligación por parte del Proveedor.

4. Plan específico de Prevención de la obra o servicio contratados que incluya, al menos: riesgos generales y específicos, evaluación de los riesgos laborales, medidas de protección colectivas e individuales, planificación preventiva de los trabajos a realizar, procedimientos de trabajo, y designación del responsable en materia de prevención del Proveedor. Adicionalmente este documento incluirá, cuando proceda, la designación de: recurso/s preventivo/s, trabajador/es autorizado/s-cualificado/s, supervisor de andamios, coordinador de operaciones de manejo mecánico de cargas, jefe de operaciones de manejo de cargas, y supervisor de líneas de vida. También incluirá la autorización para el uso de equipos de trabajo (maquinaria y equipos) y cualesquiera otras designaciones que sea preciso realizar por el Proveedor por exigencias legales o porque hayan sido definidas en las condiciones específicas del Contrato.

   En ningún caso se podrá iniciar la ejecución del Contrato sin que previamente se haya mantenido entre ENEL y el Proveedor la reunión de coordinación de actividades empresariales (artículo 24 de la Ley de Prevención de Riesgos Laborales) y se haya firmado por los representantes de ambas empresas el acta de la misma.

5. Declaración responsable del Proveedor en la que declare y garantice:

   - que dispone y obra en su poder certificación vigente de aptitud médica para el concreto trabajo a desarrollar de todos los trabajadores adscritos a la ejecución del Contrato,
   - que dispone y obra en su poder acuse de recibo de todos los trabajadores adscritos a la ejecución del Contrato de haber recibido información sobre los riesgos laborales de la instalación de ENEL en la que va a realizar su actividad, así como de los riesgos y medidas de prevención inherentes a su puesto de trabajo,
   - que todos los trabajadores adscritos a la ejecución del Contrato disponen de la formación teórico-práctica específica del puesto de trabajo que van a desarrollar y que obran en su poder las certificaciones individuales acreditativas de ello, con la vigencia que determine para cada supuesto la legislación y actualizable, al menos, cada tres (3) años,
   - que dispone y obra su poder acuse de recibo de todos los trabajadores adscritos a la ejecución del Contrato acreditativo de que han recibo los Equipos de Protección Individual (EPI´s), correspondientes conforme a lo previsto en el Plan específico de Prevención,
   - que todos los trabajadores adscritos a la ejecución del Contrato han recibido la formación exigible en materia de prevención de riesgos laborales conforme a las exigencias del artículo 19 de la Ley de Prevención de Riesgos Laborales y del Real Decreto 39/1997 de 17 de enero y que obran en su poder las certificaciones individuales acreditativas de ello,

Patricia Álvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 4391

- que los equipos de trabajo y equipos de protección colectiva que se vayan a utilizar en la ejecución del Contrato cumplen con las disposiciones mínimas de seguridad y salud para su utilización conforme a lo dispuesto en el Real Decreto 1215/1997 de 18 de julio o bien que disponen de la correspondiente declaración de conformidad sello CE.

El Proveedor tiene la obligación de tener debidamente archivada la documentación acreditativa de todos los extremos manifestados a través de Declaración responsable; lo cual podrá ser objeto de examen y comprobación por parte de ENEL en cualquier momento. Igualmente, caso de ser requerido para ello, el Proveedor ha de poner la referida documentación a disposición de ENEL en un plazo máximo de cuarenta y ocho (48) horas.

C. DOCUMENTACIÓN QUE DEBERÁ APORTAR EL PROVEEDOR DURANTE LA EJECUCIÓN DEL CONTRATO:

1. Trimestralmente, Declaración responsable de hallarse al corriente de pago de las obligaciones salariales con todos los trabajadores adscritos a la ejecución del Contrato. El Proveedor garantiza el cumplimiento de esta obligación, así como disponer de la documentación acreditativa de ello; lo cual podrá ser objeto de examen y comprobación por parte de ENEL en cualquier momento. Igualmente, caso de ser requerido para ello, el Proveedor ha de poner la referida documentación a disposición de ENEL en un plazo máximo de cuarenta y ocho (48) horas.
2. Trimestralmente, Boletín de cotización de la Seguridad Social, modelo TC1, liquidación de cotizaciones de todos los trabajadores adscritos a la ejecución del Contrato; así como justificante de su abono.
3. Trimestralmente, Boletín de cotización a la Seguridad Social, modelo TC2, relación nominal de trabajadores.
4. Anualmente, Certificación de la Agencia Tributaria que acredite que el Proveedor se encuentra al corriente en el pago de tributos (artículo 43.1.f) de la Ley General Tributaria).
5. Según la periodicidad de la obligación del pago de la prima, recibo acreditativo de estar al corriente en el pago del Seguro de responsabilidad civil y daños a terceros.

17.4.7. Trabajadores autónomos sin trabajadores a su cargo.

A. DOCUMENTACIÓN QUE DEBERÁ APORTAR EL PROVEEDOR ANTES DE LA FIRMA DEL CONTRATO:

1. Documento acreditativo de haber pagado la cuota del Régimen Especial de Trabajadores Autónomos de la Seguridad Social del mes inmediatamente anterior a la presentación de su oferta. Alternativamente, cuando sea el caso, documento acreditativo de alta en el Régimen Especial de Trabajadores Autónomos de la Seguridad Social en el mes de presentación de la oferta.
2. Seguro de responsabilidad civil y daños a terceros con la cobertura que establezca ENEL y recibo acreditativo del pago de la correspondiente prima.

B. DOCUMENTACIÓN QUE DEBERÁ APORTAR EL PROVEEDOR ANTES DEL INICIO DE LA EJECUCIÓN DEL CONTRATO:

El Proveedor tiene la obligación de tener debidamente archivada la documentación acreditativa de todos los extremos manifestados a través de Declaración responsable; lo cual podrá ser objeto de examen y comprobación por parte de ENEL en cualquier momento. Igualmente, caso de ser requerido para ello, el Proveedor ha de poner la referida documentación a disposición de ENEL en un plazo máximo de cuarenta y ocho (48) horas.

C. DOCUMENTACIÓN QUE DEBERÁ APORTAR EL PROVEEDOR DURANTE LA EJECUCIÓN DEL CONTRATO:

1. Según la periodicidad de la obligación del pago de la prima, recibo acreditativo de estar al corriente en el pago del Seguro de responsabilidad civil y daños a terceros.

17.4.8 Trabajadores extranjeros.

En el caso de que todos los trabajadores adscritos a la ejecución del Contrato sean extranjeros:

A. DOCUMENTACIÓN QUE DEBERÁ APORTAR EL PROVEEDOR ANTES DE LA FIRMA DEL CONTRATO:

1. Seguro de responsabilidad civil y daños a terceros con la cobertura que establezca ENEL y recibo acreditativo del pago de la correspondiente prima.
2. Designación del interlocutor del Proveedor con ENEL.

B. DOCUMENTACIÓN QUE DEBERÁ APORTAR EL PROVEEDOR ANTES DEL INICIO DE LA EJECUCIÓN DEL CONTRATO:

1. En el caso de trabajadores que realicen su actividad en Proveedores radicados en países de la Unión Europea, del Espacio Económico Europeo o en Suiza:

Traducida Alvarez Chamosa
Traductora/Intérprete Jurada de INGLES
Nº 1391

a. Documento acreditativo de alta en la Seguridad Social del país de origen y pago de cotizaciones, formulario A1, o el que le sustituya.

b. Tarjeta sanitaria europea o equivalente a esta, según la legislación del país de origen.

2. En el caso de trabajadores que realicen su actividad en Proveedores radicados en países no pertenecientes a la Unión Europea, al Espacio Económico Europeo o Suiza:

a. Certificado de residencia y permiso de trabajo de trabajadores no pertenecientes a la Unión Europea.

b. Documento sanitario de asistencia al trabajador extranjero desplazado, en caso de accidente o enfermedad (seguro médico o similar).

3. Asimismo, el Proveedor presentará, con el alcance y contenido que corresponda, los siguientes documentos:

a. Relación nominal de los trabajadores adscritos a la ejecución del Contrato, con indicación para cada uno de ellos de: nombre y apellidos, NIF, nº de afiliación a la Seguridad Social del país de origen o equivalente, lugar/centro de trabajo en el que va a prestar servicios, categoría profesional o puesto de trabajo, en su caso, si el trabajador estará sometido a riesgos de especial peligrosidad. Este documento se actualizará cada vez que se produzca una incorporación o baja de los trabajadores adscritos a la ejecución del Contrato.

b. Plan específico de Prevención de la obra o servicio contratados que incluya, al menos: riesgos generales y específicos, evaluación de los riesgos laborales, medidas de protección colectivas e individuales, planificación preventiva de los trabajos a realizar, procedimientos de trabajo, y designación del responsable en materia de prevención del Proveedor. Adicionalmente este documento incluirá, cuando proceda, la designación de: recurso/s preventivo/s, trabajador/es autorizado/s-cualificado/s, supervisor de andamios, coordinador de operaciones de manejo mecánico de cargas, jefe de operaciones de manejo de cargas, y supervisor de líneas de vida. También incluirá la autorización para el uso de equipos de trabajo (maquinaria y equipos) y cualesquiera otras designaciones que sea preciso realizar por el Proveedor por exigencias legales o porque hayan sido definidas en las condiciones específicas del Contrato.

En ningún caso se podrá iniciar la ejecución del Contrato sin que previamente se haya mantenido entre ENEL y el Proveedor la reunión de coordinación de actividades empresariales (artículo 24 de la Ley de Prevención de Riesgos Laborales) y se haya firmado por los representantes de ambas empresas el acta de la misma.

4. Declaración responsable del Proveedor en la que declare y garantice:

- que dispone y obra en su poder certificación vigente de aptitud médica para el concreto trabajo a desarrollar de todos los trabajadores adscritos a la ejecución del Contrato,
- que dispone y obra en su poder acuse de recibo de todos los trabajadores adscritos a la ejecución del Contrato de haber recibido información sobre los riesgos laborales de la instalación de ENEL en la que va a realizar su actividad; así como de los riesgos y medidas de prevención inherentes a su puesto de trabajo,
- que todos los trabajadores adscritos a la ejecución del Contrato disponen de la formación teórico-práctica específica del puesto de trabajo que van a desarrollar y que obran en su poder las certificaciones individuales acreditativas de ello, con la vigencia que determine para cada supuesto la legislación y actualizable, al menos, cada tres (3) años,
- que dispone y obra su poder acuse de recibo de todos los trabajadores adscritos a la ejecución del Contrato acreditativo de que han recibo los Equipos de Protección Individual (EPI´s), correspondientes conforme a lo previsto en el Plan específico de Prevención,
- que todos los trabajadores adscritos a la ejecución del Contrato han recibido la formación exigible en materia de prevención de riesgos laborales conforme a las exigencias del artículo 19 de la Ley de Prevención de Riesgos Laborales y Real Decreto 39/1997 de 17 de enero y que obran en su poder las certificaciones individuales acreditativas de ello,
- que los equipos de trabajo y equipos de protección colectiva que se vayan a utilizar en la ejecución del Contrato cumplen con las disposiciones mínimas de seguridad y salud para su utilización conforme a lo dispuesto en el Real Decreto 1215/1997 de 18 de julio o bien que disponen de la correspondiente declaración de conformidad sello CE.

El Proveedor tiene la obligación de tener debidamente archivada la documentación acreditativa de todos los extremos manifestados a través de Declaración responsable, lo cual podrá ser objeto de examen y comprobación por parte de ENEL en cualquier momento. Igualmente, caso de ser requerido para ello, el Proveedor ha de poner la referida documentación a disposición de ENEL en un plazo máximo de cuarenta y ocho (48) horas.

C. <u>DOCUMENTACIÓN QUE DEBERÁ APORTAR EL PROVEEDOR DURANTE LA EJECUCIÓN DEL CONTRATO</u>:

1. Trimestralmente, Declaración responsable de hallarse al corriente de pago de las obligaciones salariales con todos los trabajadores adscritos a la ejecución del Contrato. El Proveedor garantiza el cumplimiento de esta obligación, así como disponer de la documentación acreditativa de ello, lo cual podrá ser objeto de examen y

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

comprobación por parte de ENEL en cualquier momento. Igualmente, caso de ser requerido para ello, el Proveedor ha de poner la referida documentación a disposición de ENEL en un plazo máximo de cuarenta y ocho (48) horas.

2. Según la periodicidad de la obligación del pago de la prima, recibo acreditativo de estar al corriente en el pago del Seguro de responsabilidad civil y daños a terceros.

En el caso de que el Proveedor adscriba a la ejecución del Contrato conjuntamente trabajadores nacionales y extranjeros, el Proveedor habrá de aportar toda la documentación detallada en el subapartado 17.4.6., si bien, en relación con los trabajadores extranjeros, será de aplicación lo dispuesto en el anterior subapartado 17.4.8.

17.4.9. Obras de construcción.

Se entiende por obra de construcción cualquier obra pública o privada en la que se efectúen trabajos de construcción o ingeniería civil cuya relación no exhaustiva figura en el anexo 1 del Real Decreto 1627/1997, de 24 de octubre, por el que se establecen disposiciones mínimas de seguridad y salud en las obras de construcción. En los casos de Contratos de obra de construcción, el Proveedor aportará antes del inicio de la actividad, adicionalmente a la que proceda según lo previsto en este apartado 17.4., la siguiente documentación:

A. OBRAS DE CONSTRUCCIÓN EN LAS QUE ENEL ADOPTA LA FIGURA DE PROMOTOR:

1. Libro de Subcontratación, habilitado por la Autoridad Laboral, en el caso de que se subcontraten parte de los trabajos.
2. Inscripción en el Registro de Empresas Acreditadas dependiente de la Autoridad Laboral.
3. Documento acreditativo de la aprobación del Plan Específico de Prevención por parte del Coordinador de Seguridad y Salud en Obra o de la Dirección Facultativa, en los casos de obras de construcción sin proyecto; y del Plan de Seguridad y Salud Laboral, en el caso de obras de construcción con proyecto.
4. Documento acreditativo de la adhesión al Plan Específico de Prevención por parte de los subcontratistas, en el caso de que se subcontraten por el Proveedor parte de los trabajos objeto del Contrato.

B. OBRAS DE CONSTRUCCIÓN EN LAS QUE ENEL ADOPTA LA FIGURA DE CONTRATISTA:

1. Nombramiento del Jefe de Obra.
2. Libro de Subcontratación, habilitado por la Autoridad Laboral.
3. Inscripción en el Registro de Empresas Acreditadas dependiente de la Autoridad Laboral.
4. Documento acreditativo de adhesión al Plan Seguridad y Salud por parte de los subcontratistas, en el caso de que se subcontraten por el Proveedor parte de los trabajos objeto del Contrato.

17.4.10 Minería.

17.4.10.1 Con carácter enunciativo y no limitativo se entiende por actividades de minería aquellas incluidas en el Reglamento General de Normas Básicas de Seguridad Minera: servicios de voladura, arranque, carga y transporte de materiales, mantenimiento de maquinaria e instalaciones mineras y trabajos de restauración minera.

17.4.10.2 En el caso de actividades mineras incluidas en el Reglamento General de Normas Básicas de Seguridad Minera, el Proveedor aportará, adicionalmente a la que proceda según lo previsto en este apartado 17.4., la siguiente documentación:

A. DOCUMENTACIÓN ADICIONAL QUE DEBE APORTAR EL PROVEEDOR TRAS LA FIRMA DEL CONTRATO Y ANTES DEL INICIO DE LA EJECUCIÓN DE LA OBRA O SERVICIO CONTRATADO:

1. Designación del Director Facultativo. El alcance de dicha Dirección facultativa será la regulada por la ITC 02.0.01 del Reglamento General de Normas Básicas de Seguridad Minera y la necesidad, o no, de dicha designación por parte del Proveedor se concretará en las Especificaciones Técnicas del Contrato.
2. Disposiciones internas de Seguridad de la ejecución del Contrato. Cuando proceda, la necesidad de presentar por parte del Proveedor las referidas Disposiciones Internas de Seguridad se concretará en las Especificaciones Técnicas del Contrato.
3. Declaración responsable del Proveedor a través de la que manifieste y garantice:
   - que dispone y obra en su poder Certificación de aptitud de los trabajadores para el manejo de maquinaria, expedido por la Jefatura de Minas de la correspondiente Comunidad Autónoma.
   - en el caso de no disponer de dichos certificados por estar realizando los trabajadores el período de formación, la Declaración responsable certificará haberse iniciado el período de formación y haberse aportado la documentación reglamentaria a la Jefatura de Minas.

Patricia Álvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 9321

- que dispone y obra en su poder, en relación con los trabajadores adscritos a la ejecución del Contrato, Certificación de Formación Preventiva para el desempeño del puesto de trabajo según dispone el Reglamento General de Normas Básicas de Seguridad Minera (ITC 02.1.02), para el caso de que se vayan a realizar de forma habitual actividades recogidas en la citada ITC.
- que la maquinaria utilizada en la ejecución del Contrato está debidamente inscrita en el Registro Industrial de la Jefatura de Minas de la correspondiente Comunidad Autónoma.

Las manifestaciones de la Declaración responsable se actualizarán, una vez iniciada la ejecución del Contrato y durante la Duración de este, cuantas veces resulte procedente en función del período de vigencia de las Certificaciones a las que hace referencia. El Proveedor ha de garantizar que tiene debidamente archivada la documentación acreditativa de todos los extremos manifestados a través de Declaración responsable; lo cual podrá ser objeto de verificación y comprobación por parte de ENEL en cualquier momento. Igualmente, caso de ser requerido para ello, el Proveedor ha de poner la referida documentación a disposición de ENEL en un plazo máximo de cuarenta y ocho (48) horas.

17.5 **Información y documentación complementaria que el Proveedor debe aportar a ENEL.**

17.5.1 ENEL necesita disponer de determinados datos de la actividad del Proveedor y de las circunstancias de su ejecución, en algunos casos con un alcance meramente informativo y estadístico, para dar respuesta a requerimientos de información derivados, en unos casos, de su participación en determinados índices y rankings en materia de Sostenibilidad y Responsabilidad Corporativa; y en otros casos, derivados de exigencias legales que incumben a ENEL como empresario principal frente a la Administración o a los representantes legales de los trabajadores de ENEL. Con carácter enunciativo y no limitativo:

a. número de horas de trabajo realizadas por los empleados del Proveedor y por los de sus subcontratistas en los Contratos (totales, por Contrato, por centro de trabajo y por empleado);

b. número de trabajadores del Proveedor y sus subcontratistas clasificados por género (hombres/mujeres) que realizan su actividad en los Contratos;

c. tipología de contratación de los trabajadores con el Proveedor y con sus subcontratistas (por tiempo indefinido/de carácter temporal; a tiempo completo/a tiempo parcial; en su caso, por cuenta propia);

d. días trabajados por el personal del Proveedor y sus subcontratistas (estimación del equivalente a los días trabajados a tiempo completo –FTE-) involucrados en Contratos que incluyan en su objeto: 1) actividades de construcción; 2) explotación; y 3) mantenimiento.

17.5.2 El Proveedor tiene la obligación de facilitar, de manera diligente y veraz, la información requerida a estos efectos en la forma y periodicidad que ENEL determine. ENEL, por su parte, se compromete a requerir al Proveedor tan sólo la información tenga un carácter ciertamente necesario a los efectos expuestos en el primer párrafo de este subapartado, así como a recabarla en un formato y por el medio menos oneroso posible para el Proveedor.

17.5.3. Adicionalmente, tras la firma del Contrato y antes del inicio de la ejecución de este, ENEL podrá solicitar al Proveedor que aporte Declaración responsable que manifieste y garantice que todos los trabajadores adscritos a la ejecución del Contrato han recibido formación en materia de medio ambiente, han sido informados de los requisitos medioambientales aplicables en ENEL y han asumido su política medioambiental; y que obra en su poder la documentación acreditativa de todo ello.

17.5.4. El Proveedor tiene la obligación de tener debidamente archivada, en expediente personal de cada uno de sus trabajadores, la documentación acreditativa de todos los extremos manifestados a través de esta Declaración responsable, lo cual podrá ser objeto de examen y comprobación por parte de ENEL en cualquier momento. Igualmente, caso de ser requerido para ello, el Proveedor ha de poner la referida documentación a disposición de ENEL en un plazo máximo de cuarenta y ocho (48) horas.

17.6 **Supuestos de subcontratación.**

17.6.1. Autorización para la subcontratación.

Es requisito imprescindible para que el Proveedor pueda subcontratar la ejecución del Contrato, la previa autorización expresa y escrita por parte de ENEL. Sin esta autorización el subcontratista no podrá iniciar su actividad en ningún caso.

17.6.2. Información y documentación jurídico-laboral y de seguridad y salud a aportar en el caso de subcontratación.

17.6.2.1. En el caso de subcontratación, es obligatorio, para cada uno de los distintos supuestos (trabajador por cuenta ajena, trabajador autónomo y trabajador intracomunitario o extracomunitario), la aportación por el subcontratista al Proveedor de idéntica información y documentación, con el mismo alcance plazo y contenido que en el caso de la aportación de información del Proveedor a ENEL, regulada en el presente apartado 17. El responsable de trasladar a ENEL la información y documentación respecto a los subcontratistas es el Proveedor.

17.6.2.2. En el caso de que el objeto del Contrato no tenga la consideración legal de "propia actividad" de ENEL, el Proveedor podrá sustituir la aportación de la información y documentación exigible referida al subcontratista por una Declaración responsable. La concreción de qué no se considera "propia actividad" de ENEL será establecido por ENEL en cada caso.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

17.6.2.3. El Proveedor tiene la obligación de tener debidamente archivada la documentación acreditativa de todos los extremos manifestados a través de Declaración responsable; lo cual podrá ser objeto de examen y comprobación por parte de ENEL en cualquier momento. Igualmente, caso de ser requerido para ello, el Proveedor ha de poner la referida documentación a disposición de ENEL en un plazo máximo de cuarenta y ocho (48) horas.

17.7 Supuestos especiales.

En los supuestos en que, aun no tratándose de Contratos de obra o de prestación de servicios, se realiza actividad laboral de trabajadores de Proveedores y subcontratistas o subsuministradores en instalaciones o propiedades de ENEL o de sus clientes, dichos trabajadores llevan a cabo cierto tipo de interactuación con responsables y trabajadores de ENEL o de sus clientes y, hay exposición por parte de los trabajadores de Proveedores y subcontratistas o subsuministradores a riesgos laborales propios de las instalaciones de ENEL o sus clientes, se adoptarán las siguientes medidas:

1) Contratos de estricto suministro, entendiendo por tales los de mera entrega a ENEL de bienes o materiales por parte del Proveedor o subcontratistas o subsuministradores: ENEL informará a quién realice la entrega de los riesgos existentes en la zona de entrega y de las medidas de emergencia existentes.

2) Contratos de mantenimiento, revisión o reparación de máquinas-herramientas, equipos de trabajo o instalaciones cuya propiedad o derecho de uso corresponda a ENEL, realizadas por el Proveedor o subcontratistas y subsuministradores: ENEL informará, con carácter previo al inicio de los trabajos, de los riesgos laborales, derivados de la actividad en la zona de trabajo, de las medidas de prevención establecidas y de las medidas de emergencia.

3) Entrega o suministro de bienes o materiales en instalaciones de ENEL (no derivada de un contrato o prestación de servicios concertado por ENEL) realizada por empleados de una tercera empresa que requiera uso de medios mecánicos para el montaje, ensamblaje o manipulación: ENEL informará, con carácter previo al inicio de los trabajos, de los riesgos laborales, derivados de la actividad en la zona de trabajo, de las medidas de prevención establecidas y de las medidas de emergencia. Adicionalmente, ENEL y el responsable del Proveedor mantendrán una reunión de coordinación de actividades empresariales, que se documentará oportunamente, en la que se recabará al Proveedor información de los riesgos que pueda generar su actividad y se adoptarán las oportunas medidas de coordinación de actividades empresariales en evitación de riesgos laborales.

4) Contratos para la recogida o retirada de maquinaria, chatarra o cualquier otro tipo de bienes, materiales, productos o residuos realizada en instalaciones de ENEL por empleados de terceras empresas compradoras como consecuencia de la venta de los mismos por ENEL.

En todos los supuestos especiales regulados en este apartado, el Proveedor y sus empleados tendrán en cuenta la existencia de los riesgos y medidas informadas por ENEL, adoptarán las medidas de prevención adecuadas y cumplirán las indicaciones e instrucciones que en materia preventiva les haya cursado ENEL.

17.8 Empresas de Trabajo Temporal.

Cuando la contratación de los trabajos se ejecute con Empresas de Trabajo Temporal (ETT), la vinculación con la ETT deberá formalizarse por escrito a través del modelo oficial del denominado "contrato de puesta a disposición".

A DOCUMENTACIÓN QUE DEBERÁ APORTAR EL PROVEEDOR:

Deberá aportar, junto con la documentación recogida en el apartado 17.4.6., la que se detalla a continuación:

1. Certificado expedido por la Dirección Provincial de Trabajo y Seguridad Social, acreditando la autorización administrativa concedida a la ETT para poner a disposición de ENEL, con carácter temporal, trabajadores contratados por la ETT.

2. Certificado expedido por la Dirección Provincial de Trabajo y Seguridad Social, acreditando la garantía financiera exigida por la Ley 14/1994 para las ETT.

17.9 Disposiciones particulares en materia de seguridad y salud laboral para materiales y equipos.

17.9.1. Condiciones de Seguridad.

1. El Proveedor está obligado al cumplimiento de lo prescrito en el artículo 41 de la Ley de Prevención de Riesgos Laborales relativo a las condiciones de Seguridad de la maquinaria, equipos, productos y útiles que suministre a ENEL.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

2. El Proveedor asegurará que la maquinaria, equipos y útiles de trabajo suministrados a ENEL, no constituirán una fuente de peligro para el trabajador, siempre que sean instalados y utilizados en las condiciones, forma y para los fines recomendados.

3. El Proveedor facilitará a ENEL la información que indique la forma correcta de su utilización por los trabajadores, las medidas preventivas adicionales que deben tomarse y los riesgos laborales que conlleven los materiales y equipos suministrados, tanto en su uso normal, como en su manipulación o empleo inadecuado.

17.9.2. Adquisición de maquinaria.

1. En caso de adquisición de maquinaria, el Proveedor asegurará a ENEL el cumplimiento de los requisitos que afecten a la misma, contenidos en la Directiva 2006/42/CE relativa a la aproximación de los Estados miembros sobre máquinas.

2. En el Manual de Instrucciones de empleo de la maquinaria o equipos que el Proveedor suministre a ENEL, figurarán todas las especificaciones que el Real Decreto 1644/2008 de 10 de octubre, modificado por el Real Decreto 494/2012, de 9 de marzo, establece como necesarias y en particular, las instrucciones para que puedan efectuarse con un nivel de riesgo admisible: la puesta en servicio, la utilización, la manutención, la instalación, el montaje, el desmontaje, el reglaje, el mantenimiento (conservación y reparación), las instrucciones de aprendizaje y las contraindicaciones de empleo del equipo.

17.9.3. Adquisición de productos y sustancias químicas.

1. El Proveedor está obligado a suministrar a ENEL los productos y sustancias químicas correctamente envasados y etiquetados, de forma que se permita su conservación y manipulación en condiciones de seguridad y se identifique claramente el contenido y los riesgos para la seguridad y salud de los trabajadores que su almacenamiento o utilización comporten. Los productos y sustancias deberán acompañarse de la ficha de seguridad correspondiente preparada de acuerdo con la legislación vigente e incluyendo los usos que ENEL prevé para dichos productos y sustancias.

2. Cuando el Proveedor suministre a ENEL productos químicos que puedan presentar, en función de sus características de composición y empleo, riesgos para los trabajadores, y en todo caso si dichos productos están reglamentariamente clasificados como tóxicos, nocivos, inflamables, explosivos, corrosivos, cancerígenos, radiactivos, etc., el Proveedor informará a ENEL de los riesgos que conlleva su uso y aplicación, así como sobre las medidas preventivas para su eliminación o control.

3. Cuando estos materiales sean considerados peligrosos, de acuerdo con la legislación vigente, el Proveedor comunicará a ENEL quién es su Consejero de Seguridad, con el objeto de coordinar las actividades dirigidas a proteger la seguridad y salud de las personas.

4. El Proveedor está obligado a informar a ENEL, en caso de adquisición de material que contenga polvos metálicos, polvos orgánicos, amianto, sílice u otras sustancias que puedan originar riesgos de especial peligrosidad a los trabajadores o a las instalaciones.

5. El Proveedor garantiza a ENEL el cumplimiento del Real Decreto 664/1997 de 12 de mayo sobre la protección de los trabajadores contra los riesgos relacionados con la exposición a agentes biológicos durante el trabajo, cuando suministre preparados o sustancias que puedan implicar dichos riesgos.

6. El Proveedor garantiza a ENEL el cumplimiento del Real Decreto 665/1997 de 12 de mayo sobre la protección de los trabajadores contra los riesgos relacionados con la exposición a agentes cancerígenos durante el trabajo, en el caso de que suministre a ENEL sustancias o preparados clasificados como agentes cancerígenos o que deba aplicar en ENEL los procesos detallados en dicho Real Decreto, en virtud de la adquisición de materiales y/o equipos a efectuar.

17.9.4. Adquisición de instalaciones, aparatos e instrumentos.

17.9.4.1. Cuando el Proveedor suministre a ENEL instalaciones, aparatos e instrumentos, garantiza que los mismos están conformes con la legislación industrial y de Prevención de Riesgos Laborales e informará a ENEL de los riesgos que conlleva su uso y aplicación, así como sobre las medidas preventivas para su eliminación o control.

17.9.4.2. En el caso de adquisición de Equipos de Protección Individual (EPI's) y colectiva, el Proveedor garantiza a ENEL la efectividad de estos, siempre que sean instalados y usados en las condiciones y en la forma recomendada para ellos. El Proveedor informará a ENEL el tipo de riesgos a que van dirigidos, el nivel de protección frente a los mismos y la forma correcta de su uso y mantenimiento y en general, de todas las obligaciones específicas en el Real Decreto 773/1997 sobre disposiciones mínimas de seguridad y salud relativas a la utilización por los trabajadores de equipos de protección individual.

17.9.5. Otras disposiciones particulares.

17.9.5.1. ENEL podrá exigir al Proveedor, en función de las características del objeto del Contrato, la organización y los planteamientos preventivos (Planes, Normas, Procedimientos de Seguridad, etc.) y las medidas de coordinación que sean exigibles

Patricia Alvarez Charmosa
Traductora/Intérprete Jurada de INGLES
Nº 6391

legalmente y, en su caso, aquellas otras que se estimen convenientes para garantizar la seguridad en todas las fases de la entrega de materiales y equipos. Como consecuencia de lo anterior, ENEL podrá exigir al Proveedor el cumplimiento de otras disposiciones particulares para la Prevención de Riesgos Laborales, que complementen u optimen los anteriores requisitos.

17.9.5.2. Transporte de mercancías peligrosas.

Cuando el Proveedor, en ejecución del Contrato, deba transportar materiales que sean considerados peligrosos, según la legislación vigente, deberá comunicar a ENEL quién es su Consejero de Seguridad, con el objeto de coordinar las actividades dirigidas a proteger la seguridad y salud de las personas.

17.9.5.3. Reparaciones de equipo propiedad de ENEL.

El Proveedor se compromete a realizar la reparación del equipo cumpliendo los requisitos de seguridad recogidos en los manuales de reparación y mantenimiento del equipo que le proporcionará ENEL.

18. GARANTÍA ECONÓMICA.

18.1. Generalidades.

18.1.1. En caso de que ENEL así lo requiera, el Proveedor estará obligado a constituir una garantía económica a disposición de ENEL mediante la entrega de un aval abstracto, irrevocable, incondicional y a primer requerimiento (según modelo que figura en Anexo I), sometido a la legislación española y ejecutable en España, otorgado por un Banco español o por la sucursal española de la entidad si fuera extranjera, en ambos casos de reconocida solvencia, por el importe establecido en cada momento por parte de ENEL. En el texto del aval, el Banco ha de renunciar expresamente a los beneficios de orden, excusión y división. El aval constituirá la garantía económica del Proveedor, para responder, entre otras obligaciones:

- Del cumplimiento de todas las obligaciones del Proveedor derivadas del Contrato, incluyendo las penalizaciones e indemnizaciones que le sean exigibles, y los reembolsos o devoluciones de cualquier tipo que proceda contractual o legalmente efectuar a ENEL por parte del Proveedor.
- De las multas, sanciones o conceptos dinerarios de cualquier índole cuyo pago por ENEL se imponga o pudiera imponerse por vía administrativa, arbitral o judicial con motivo de la actuación u omisión del Proveedor o de sus subcontratistas o subsuministradores incluyendo, sin carácter limitativo, el total importe de cualquier responsabilidad legal solidaria o subsidiaria que recaiga o pueda recaer sobre ENEL por incumplimiento de obligaciones del Proveedor de carácter salarial, de Seguridad Social y/o tributarias, o de las existentes en materia de seguridad y prevención de riesgos laborales.
- De las reclamaciones de terceros contra ENEL con motivo de la actuación del Proveedor, incluyendo cualquier reclamación de sus empleados, agentes, asesores, y subcontratistas o subsuministradores.
- De los gastos de defensa jurídica incurridos o en que pueda incurrir ENEL según lo dispuesto en el apartado 12 de las presentes Condiciones Generales.

18.1.2. En los casos en que el Proveedor no presentara la garantía en los plazos indicados, y sin perjuicio de cualesquiera otras acciones que le competan, ENEL podrá optar por resolver el Contrato o suspender su ejecución hasta la presentación de una garantía que sea aceptada por ENEL, así como aceptar otras garantías equivalentes ofrecidas por el Proveedor de acuerdo con la ley.

18.1.3. La existencia de una garantía no significa que la responsabilidad del Proveedor en virtud del Contrato se limite al importe o al período de validez de la garantía

18.1.4. En el caso de que se deteriore la solvencia crediticia del emisor de la garantía, el Proveedor deberá proporcionar en el plazo de sesenta (60) días, a petición de ENEL, la sustitución de la garantía emitida por una institución financiera aprobada por ENEL. En el caso de no proporcionar la garantía, ENEL puede, de acuerdo con la ley aplicable, suspender los pagos adeudados al Proveedor.

18.1.5. Si el precio del Contrato aumenta durante su ejecución, ENEL puede solicitar que el Proveedor proporcione una garantía económica suplementaria o sustitutiva para cubrir el incremento del precio del Contrato.

18.1.6. En el caso de que el Proveedor no cumpla con el suplemento o sustitución de las garantías según lo dispuesto en las subcláusulas 18.1.4. y 18.1.5., ENEL se reserva el derecho de resolver el Contrato o, de acuerdo con la ley aplicable, suspender los pagos al Proveedor hasta que se alcance la cantidad de la garantía debida.

18.2. Tipos de garantía económica.

18.2.1. **Garantía de cumplimiento (Performance Guarantee).**

18.2.1.1. En caso de estar previsto en el Contrato y salvo que en el mismo se defina un porcentaje diferente, el Proveedor estará obligado a constituir, antes de la firma del Contrato, una garantía económica a disposición de ENEL mediante la entrega de un aval abstracto según lo regulado en la subcláusula 18.1.1. por un importe de un mínimo del diez por ciento (10%) del importe total del Contrato y sus revisiones, ampliaciones y trabajos con precio por administración, para responder de la ejecución exacta, puntual y regular

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
[illegible]

por parte del Proveedor de sus obligaciones en virtud del Contrato, incluida la obligación de pagar cualquier importe adeudado a ENEL, como penalizaciones

18.2.1.2. En caso de no haberse pactado en el Contrato la constitución de una garantía económica sobre el período de garantía técnica, la garantía de cumplimiento expirará no antes de treinta (30) días naturales después del vencimiento del Periodo de Garantía o de la Recepción Definitiva, o de la total finalización de la ejecución del Contrato, lo que ocurra más tarde. Si no es ejecutada, la garantía se devolverá al Proveedor una vez efectuadas por ENEL las comprobaciones que proceda.

18.2.1.3. En caso de haberse pactado en el Contrato la constitución de una garantía económica sobre el período de garantía técnica, la garantía de cumplimiento expirará no antes de treinta (30) días naturales después del vencimiento de la Recepción Provisional, o de la finalización de la ejecución del Contrato previa al inicio del Período de Garantía, lo que ocurra más tarde. Si no es ejecutada, la garantía se devolverá al Proveedor una vez efectuadas por ENEL las comprobaciones que proceda.

18.2.2. **Garantía de pago a cuenta (Advance Payment Guarantee).**

18.2.2.1. En caso de pago a cuenta por parte de ENEL al Proveedor, el Proveedor deberá constituir, con carácter previo al pago a cuenta por parte de ENEL una garantía económica a disposición de ENEL mediante la entrega de un aval abstracto según lo regulado en la subcláusula 18.1.1. por un importe equivalente al cien por cien (100%) del pago a cuenta efectuado.

18.2.2.2. La garantía de pago a cuenta se devolverá al Proveedor después de que el Proveedor haya ejecutado correctamente, según lo contemplado en el Contrato y en la legislación aplicable, una parte del Contrato que tenga un valor, de acuerdo con el precio, como mínimo equivalente al pago a cuenta.

18.2.3. **Garantía sobre el período de garantía técnica (Warranty Guarantee).**

18.2.3.1. En caso de estar previsto en el Contrato y salvo que en el mismo se defina un porcentaje diferente, el Proveedor estará obligado a constituir, una vez devuelta por ENEL o ejecutada la Garantía de cumplimiento, una garantía económica a disposición de ENEL mediante la entrega de un aval abstracto según lo regulado en la subcláusula 18.1.1. por un importe mínimo del cinco por ciento (5%) del importe total del Contrato y sus revisiones, ampliaciones y trabajos con precio por administración, para responder de las obligaciones del Proveedor durante el Período de Garantía.

18.2.3.2. La garantía sobre el período de garantía técnica expirará no antes de treinta (30) días naturales después del vencimiento del Periodo de Garantía o de la Recepción Definitiva, o de la total finalización de la ejecución del Contrato, lo que ocurra más tarde. Si no es ejecutada, la garantía se devolverá al Proveedor una vez efectuadas por ENEL las comprobaciones que proceda.

19. SEGUROS.

19.1. Principios generales.

19.1.1. El Proveedor asume toda la responsabilidad por las lesiones o daños provocados a personas o propiedades en la realización — incluidas las realizadas a través de subcontratistas o subsuministradores o agentes externos — de las actividades especificadas en el Contrato y se compromete a suscribir un seguro adecuado por su propia cuenta, en relación con el riesgo y con compañías de seguros con una situación financiera estable y de reconocido prestigio, durante la entera Duración del Contrato, para:

a) pérdidas o daños que se puedan provocar a materiales y equipos cubiertos por el Contrato durante su procesamiento, carga y transporte, hasta el momento y lugar de entrega a ENEL, con toda la responsabilidad por parte del Proveedor por cualquier daño causado a los materiales o equipos. Asimismo, esta obligación es asumida por el Proveedor en relación con los materiales y equipos proporcionados por ENEL para la ejecución del Contrato, desde el momento en que se ponen a disposición del Proveedor o sus subcontratistas o subsuministradores, hasta que se devuelven a ENEL.

b) responsabilidad civil por pérdidas y perjuicios que el personal del Proveedor o el de sus subcontratistas o subsuministradores puedan provocar al personal o las propiedades de ENEL y/o a terceras partes derivados de la ejecución de las actividades del Contrato. En todas las circunstancias, ENEL no será responsable de las causas atribuibles al Proveedor.

19.1.2. De igual manera, el Proveedor se compromete a suscribir un seguro de responsabilidad civil con los límites adecuados sobre compensación en relación con los riesgos, para cubrir reclamaciones por daños a la propiedad, el personal y por daños financieros que se puedan provocar a ENEL o a terceras partes derivados de los defectos o el mal funcionamiento de materiales o equipos atribuibles al Proveedor. Además, el Proveedor será responsable por el daño medioambiental o la posibilidad inminente de que se pueda producir, así como los costes relacionados con la prevención, reducción y reparación, de conformidad con las condiciones estipuladas en la legislación vigente.

19.1.3. Si el Contrato contempla el almacenaje de materiales por parte del Proveedor en las instalaciones de ENEL, este último puede requerir, y el Proveedor estará obligado a suscribir, además del seguro anteriormente mencionado, un seguro por robo y otros daños que se puedan provocar a los materiales almacenados, durante toda la Duración del Contrato.

19.1.4. Los límites de la póliza de seguros deben cubrir los incidentes dañinos objeto de las reclamaciones recibidas dentro del plazo de ejecución del Contrato y/o tras el periodo de garantía.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8491

19.1.5. La póliza de seguros contemplará la total renuncia del asegurador contra ENEL sin ninguna excepción.

19.1.6 Si el Contrato se realiza en la modalidad de materiales en consigna del Proveedor en las instalaciones de ENEL, el Proveedor vendrá obligado a contratar además un seguro de robo y otros daños que pueda sufrir el material depositado, para todo el periodo de cumplimiento del Contrato.

19.1.7 Si a criterio de ENEL, las coberturas de seguro presentadas por el Proveedor no fueran suficientes para cubrir la exposición al riesgo, tanto de la entrega de materiales o equipos como de la realización de la obra o servicio objeto del Contrato, el Proveedor se compromete a revisar y modificar las mismas conforme sea preciso y de acuerdo con las condiciones del mercado asegurador.

19.1.8 En todo caso en materia de seguros se observará lo dispuesto en el Contrato y en la legislación española aplicable.

19.1.9. La existencia, validez y efectividad de las pólizas de seguros mencionadas en esta cláusula es una condición esencial para ENEL y, por tanto, si el Proveedor no es capaz de probar en todo momento que tiene cobertura de seguros, ENEL podrá resolver el Contrato, sin perjuicio de la obligación de pagar indemnización por los daños sufridos por ENEL.

19.1.10 Si ENEL cree que la cobertura de la póliza del Proveedor no resulta suficiente para cubrir los riegos, tanto para la entrega de materiales o equipos y la finalización de las obras o servicios del Contrato, el Proveedor acuerda revisar y modificar la cobertura del seguro de conformidad con los requisitos del Contrato.

19.1.11. De igual manera, el Proveedor se compromete a contratar, por su propia cuenta y con compañías de seguros con una situación financiera estable y de reconocido prestigio, cualquier otro tipo de seguro obligatorio que sea requerido por la legislación vigente, durante toda la Duración del Contrato.

19.2. **Seguros relativos a los Contratos suscritos por ENEL, salvo ENEL GREEN POWER ESPAÑA S.L. y sus empresas filiales o participadas.**

19.2.1 Sujeto a las demás condiciones de esta cláusula y sin perjuicio de su responsabilidad bajo el Contrato, y sin que este apartado limite la misma, el Proveedor contratará y mantendrá vigente por su cuenta y a su cargo en todo momento durante todo el plazo de Duración del Contrato con aseguradoras de reconocido prestigio y solvencia, legalmente autorizadas a emitir pólizas en España y en términos y condiciones de cobertura a satisfacción de ENEL los seguros descritos a continuación, entendiéndose que los montos de los mismos nunca serán inferiores a los obligatorios según las leyes y normas vigentes y que el mantenimiento de tales seguros no variará ninguna de las obligaciones de indemnización establecidas por el Contrato:

a) **Seguro de Responsabilidad Civil General,** para cubrir las reclamaciones por daños materiales y/o personales y sus consecuencias, ocasionados a terceros, desde la fecha de inicio de los trabajos hasta la expiración del período de mantenimiento fijado en póliza. La póliza deberá incluir, entre otras, las garantías de responsabilidad civil por polución y contaminación accidental, cruzada, profesional, post-producto, subsidiaria de automóviles y responsabilidad civil patronal. El límite de indemnización por siniestro no podrá ser inferior a TRES MILLONES DE EUROS (3.000.000 €), con un sublímite por víctima no inferior a SETECIENTOS MIL EUROS (700.000 €). Además del Proveedor y sus subcontratistas o subsuministradores y representantes, en la póliza figurará como asegurado ENEL y/o sus compañías filiales intervinientes en la ejecución del Contrato sin perder su condición de tercero.

d) **Seguro de Todo Riesgo de Construcción y Montaje** para cubrir los daños y pérdidas que sufran las obras y trabajos, construcciones permanentes o temporales así como los materiales y suministros, incluyendo los trabajos complementarios, y los consumibles, repuestos y cualquier otra propiedad que forme parte de la obra objeto del Contrato, ocurridos desde la fecha de inicio de los trabajos hasta su Recepción Provisional por ENEL (incluyendo el período de puesta en marcha con las respectivas pruebas de funcionamiento) más el periodo de mantenimiento posterior que se determine en la póliza. El seguro se contratará bajo póliza Todo Riesgo de Construcción/Montaje en base al valor total de reposición a nuevo de la obra e incluirá, entre otras, cobertura de riesgos de la naturaleza, político-sociales, sabotaje, terrorismo y error de diseño.

c) **Seguro de Accidentes de Trabajo o Seguridad Social** para todo el personal propio del Proveedor o de sus subcontratistas o subsuministradores conforme sea legalmente exigible durante la Duración del Contrato.

d) **Seguro de Daños Materiales** para cubrir los daños que sufran los equipos, maquinaria y herramientas utilizadas en la ejecución de las actividades objeto del Contrato, ya sean en propiedad, alquiladas, cedidas o en cualquier otro título.

e) **Seguro de Responsabilidad Medioambiental** (Obligatorio en Contratos del negocio de Distribución y en caso de demoliciones o manejo de combustibles/carbones) para cubrir, conforme proceda, las garantías y responsabilidades exigibles en materia medioambiental, de acuerdo con la legislación en vigor. El límite de indemnización no podrá ser inferior a DOS MILLONES DE EUROS (2.000.000 €)

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8351

f) **Seguro de Transportes** (Opcional si el objeto del Contrato incluye transporte por parte del Proveedor) para cubrir, bajo cláusulas de todo riesgo ICCA, los daños y pérdidas materiales que sufra cualquier propiedad que forme parte del objeto del Contrato. El límite de indemnización no podrá ser inferior al valor máximo de la mercancía transportada en un viaje.

g) **Seguro de Responsabilidad Civil Obligatorio y Voluntario de Circulación de Vehículos y Maquinaria** (Opcional si el objeto del Contrato incluye transporte por parte del Proveedor) conforme los límites y condiciones exigidos por la legislación en vigor durante la Duración del Contrato.

h) **Cualquier otro seguro de contratación obligatoria,** conforme la legislación en vigor durante la Duración del Contrato.

En caso de existir cualquier otra póliza que cubra los mismos intereses que las pólizas contratadas conforme los apartados a), b) y c) anteriores, estas últimas tendrán el carácter de seguro primario, actuando en primera instancia.

Con independencia de los seguros anteriores, el Proveedor podrá suscribir las pólizas complementarias que estime necesario para la total cobertura de sus intereses y responsabilidades según el Contrato.

19.2.2. Antes de iniciar los trabajos, el Proveedor proporcionará a ENEL copia firmada de los certificados de las pólizas requeridas en la subcláusula anterior, y constancia fehaciente, emitida por la aseguradora, del pago de la prima. Este control seguirá vigente durante toda la Duración del Contrato. La falta de entrega de las pólizas o del certificado anterior facultará a ENEL para resolver el Contrato por causa imputable al Proveedor.

19.2.3. El Proveedor requerirá a sus subcontratistas y subsuministradores la contratación y mantenimiento de los seguros conforme las cláusulas anteriores, durante el tiempo que estos presten y/o provean sus servicios y/o productos/equipos al Proveedor, solicitándoles la presentación de los correspondientes certificados de seguro que evidencien la validez y efectividad de los seguros exigidos.

19.2.4. El Proveedor no podrá solicitar ante su aseguradora, la anulación, modificación o enmienda de las pólizas que contrate, sin el previo consentimiento por escrito de ENEL, lo que deberá constar en dichas pólizas.

19.2.5. Cualquier diferencia que surja en el pago de las indemnizaciones, ya sea por franquicias y/o descubiertos en cualquiera de los seguros que se contraten, deberá ser soportada por el Proveedor, a fin de llevar a buen término la ejecución del Contrato. En caso de que el siniestro fuese total o parcialmente imputable a ENEL, ésta reintegrará al Proveedor el monto de la franquicia que éste hubiese pagado en forma proporcional a su responsabilidad.

19.2.6. El cumplimiento de lo indicado en las cláusulas anteriores no eximirá ni limitará al Proveedor de sus responsabilidades de acuerdo con las demás cláusulas del Contrato.

19.3. **Seguros relativos a los Contratos suscritos por ENEL GREEN POWER ESPAÑA, S.L. y sus empresas filiales o participadas.**

19.3.1. El Proveedor deberá proporcionar y mantener en vigor con plena validez, antes del comienzo de cualquier actividad y durante toda la Duración del Contrato y ejecución de los trabajos, las siguientes coberturas de seguro mínimas, suscritas con entidades de reconocida solvencia y rating mínimo de BBB:

a) **Seguro de Responsabilidad Civil:** Cobertura de Responsabilidad Civil con un ámbito temporal "claims made" o "loss ocurrence" de al menos dos (2) años, con un límite mínimo de indemnización de TRES MILLONES DE EUROS (3.000.000 €) por evento. El Proveedor incluirá en su póliza a sus subcontratistas y subsuministradores. La póliza debe cubrir daños materiales y personales que puedan ocurrir en el emplazamiento o en las localizaciones adyacentes y que tengan conexión directa con el Contrato, incluyendo las garantías de responsabilidad civil patronal (con un sublímite por víctima no inferior a SETECIENTOS MIL EUROS -700.000 €-), cruzada, polución y contaminación accidental, producto y post-trabajos, profesionales en plantilla, defensa y fianzas, así como cualquier otra cobertura adecuada a la actividad a desarrollar.

b) **Seguro de Accidentes de Trabajo y Seguridad Social**: Cobertura durante la Duración del Contrato para todo el personal propio y de sus subcontratistas y subsuministradores conforme sea legalmente exigible. El seguro deberá mantenerse en vigor y con plena validez para todo el personal involucrado (permanente, temporal, trabajadores ocasionales, externos) mientras duren los trabajos o servicios contratados. Dicha cobertura no podrá incluir ninguna exclusión de enfermedad ocupacional.

c) **Seguro obligatorio de automóviles/maquinaria/utillaje:** Cobertura de responsabilidad civil de carácter obligatorio de circulación de vehículos a motor y maquinaria, conforme los límites y condiciones exigidos por la legislación en vigor durante la Duración del Contrato. Dicho seguro deberá cubrir los vehículos propiedad del Proveedor, alquilados, prestados o de cualquier otro tipo que sean empleados en la ejecución de los trabajos y dar cobertura frente a cualquier daño personal o material con los límites establecidos en la legislación en vigor. El Proveedor será igualmente responsable de los objetos y los bienes almacenados en dichos vehículos, así como del valor de la maquinaria, equipos y componentes empleados en la ejecución de los trabajos, liberando en cualquier caso de responsabilidad a ENEL en caso de robo o pérdida en dichos activos.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 4391

e) **Seguro de Transportes** (Opcional si el objeto del Contrato incluye transporte por parte del Proveedor): Con anterioridad a cualquier tipo de embarque/transporte, el Proveedor debe contratar una póliza de seguro de Transporte (seguro de carga y cobertura de transporte vía terrestre) con un valor asegurado que ascenderá al valor de reposición a nuevo más un diez por ciento (10 %) sobre todos los materiales, bienes y equipos durante el tránsito (iniciándose en el proceso de carga) hasta la llegada al emplazamiento (cubriendo la descarga), incluyendo los procesos de carga, trasbordos o almacenamientos temporales. La póliza contratada debe ser de Todo Riesgo, cubriendo los riesgos por guerra, huelgas, motines, disturbios sociales y gastos adicionales/expedición. La póliza deberá incluir a ENEL y a los financiadores (si los hubiera) como asegurados adicionales, si fuera necesario. Todos los transportistas y conductores involucrados en el transporte deberán cumplir con la legislación en vigor, incluyendo lo relativo a licencias de transporte y permisos de circulación.

f) **Seguro de responsabilidad civil profesional** (Opcional si el objeto del Contrato incluye actividades relacionadas con el diseño y la ingeniería, consultoría, asesoría o actividades profesionales por parte del Proveedor): El Proveedor deberá contratar y mantener a su costa, durante un periodo que comience no más tarde del inicio del Contrato hasta dos (2) años desde el fin de los trabajos, un seguro de Responsabilidad Profesional frente a negligencia, omisiones, defectos o errores de diseño, errores o incumplimientos por parte del Proveedor, sus ingenieros, consultores, subcontratistas, subsuministradores o equivalentes de cualquier nivel, cualquier consultor en el ejercicio de sus actividades profesionales relacionadas con el proyecto y en general en conexión con el Contrato incluyendo daño consecuencial, con un límite de indemnización no inferior a DIEZ MILLONES DE EUROS (10.000.000 €) por evento.

f) **Cualquier otro seguro exigido por la Ley,** aunque no sea mencionado expresamente en los párrafos anteriores.

19.3.2. Otros aspectos generales aplicables.

- Cancelación o modificación de las pólizas: El Proveedor no podrá realizar modificaciones en las condiciones de las pólizas que supongan una alteración que incumpla con los límites y condiciones anteriormente establecidos. El Proveedor notificará a ENEL con al menos treinta (30) días de antelación si alguna de sus aseguradoras ha cancelado o alterado alguna póliza de tal forma que pueda afectar a los intereses de ENEL. Si concurriese tal circunstancia ENEL se reserva la posibilidad de cubrir dicho riesgo repercutiendo su coste al Proveedor.
- Asegurado adicional: Todos los seguros de responsabilidad civil deberán incluir a ENEL como asegurado adicional, sin perder la condición de tercero.
- Renuncia a la subrogación: Las pólizas de seguro del Proveedor deberán renunciar al derecho de subrogación contra ENEL, sus subsidiarias, filiales, empleados y empresa matriz (cuando no esté prohibido por ley), excepto en aquellos casos dónde hubiese dolo o negligencia grave por parte de los mismos.
- Responsabilidad sobre las franquicias: El Proveedor será responsable del pago a ENEL de cualquier franquicia relativa a cualquiera de las pólizas que tenga que contratar. El Proveedor será por tanto responsable de cualquier riesgo que decida retener.
- Límite de responsabilidad: Las responsabilidades en que pudiese incurrir el Proveedor en el desempeño de las actividades objeto del Contrato no se verán limitadas en ningún caso por el límite de seguro contratado. Cualquier importe no asegurado o no recuperado del seguro será imputable al Proveedor, siendo este responsable de todos los daños directos e indirectos causados a ENEL en la ejecución de los trabajos objeto del Contrato, con independencia del límite de seguro contratado.
- Notificación de siniestros: El Proveedor notificará tan pronto como le sea posible, pero no más tarde de siete (7) días desde que conoció el incidente, cualquier hecho que pueda dar lugar a una reclamación bajo las pólizas de seguros contratadas.
- Aportación de evidencias de los seguros contratados: El Proveedor aportará a ENEL evidencias de la vigencia de las coberturas contratadas, así como del pago de las mismas cuando le sea requerido. Al menos una vez al año deberá entregar Certificado de las pólizas contratadas para evidenciar el mantenimiento y adecuación de las mismas.
- Subcontratistas y subsuministradores: El Proveedor se asegurará de que el contenido de la presente cláusula de seguros es conocido por todos sus subcontratistas y subsuministradores, y que éstos tienen contratadas pólizas de seguros en condiciones similares a las aquí descritas.
- Dilución de límites: Cuando el Proveedor aporte un seguro que contiene una limitación con agregado anual disponiendo el Contrato pertinente una exigencia de límite por siniestro, se compromete a restituir íntegramente el mencionado límite anual en caso de siniestro o siniestros que colapse dicho agregado en más de un cincuenta por ciento (50 %).

20. PROPIEDAD INDUSTRIAL E INTELECTUAL.

20.1. El Proveedor declara y garantiza que, en el desempeño de sus actividades para ejecutar el Contrato y para diseñar, fabricar, vender, distribuir o comercializar cualquier producto o servicio suministrado a ENEL, no ha infringido, no está infringiendo y no infringirá ningún derecho de propiedad industrial o intelectual de terceros, tales como derechos sobre marcas, invenciones patentables, obras protegidas por derechos de autor, modelos de utilidad, diseños industriales y secretos comerciales.

20.2. En caso de que para la ejecución del Contrato el Proveedor necesite utilizar derechos de propiedad industrial o intelectual amparados por licencias de terceros, ENEL se reserva el derecho de solicitar al Proveedor la documentación pertinente. Realizada dicha solicitud, el Proveedor proporcionará a ENEL cualquier información adicional, aclaración, explicación, confirmación,

Patricia Álvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8.391

correspondencia, manual y otros documentos o datos con respecto a los recursos protegidos por los derechos de propiedad industrial o intelectual utilizados para ejecutar el Contrato.

20.3. En cuanto a los productos, muestras o Especificaciones Técnicas de ENEL que son entregadas por ENEL al Proveedor para ejecutar el Contrato, el Proveedor:

(i) no podrá de ninguna forma copiar, publicar, distribuir, reproducir, procesar, traducir, modificar, adaptar, desarrollar, descompilar, desmantelar, ni someter a operaciones de ingeniería inversa (ni, en todo caso, someter a operaciones con objeto de extraer los códigos fuente) — total o parcialmente — ninguno de estos productos, muestras o Especificaciones Técnicas de ENEL;

(ii) no podrá realizar trabajos, objetos, artículos, productos, muestras o especificaciones técnicas derivados;

(iii) no utilizará dichos productos, muestras, Especificaciones Técnicas o información de propiedad industrial o intelectual de ENEL para ningún fin que no sea la debida ejecución del Contrato por parte del Proveedor;

(iv) se asegurará de que las demás partes involucradas y que puedan estar involucradas en la ejecución del Contrato por parte del Proveedor también cumplan con las prohibiciones antes mencionadas;

(v) no divulgará y hará que sus empleados no lo divulguen a ningún tercero sin el consentimiento previo por escrito de ENEL y lo mantendrá confidencial de conformidad con lo dispuesto en la cláusula "CONFIDENCIALIDAD" de estas Condiciones Generales.

20.4. El Proveedor es responsable de conseguir, procurar y obtener con tiempo suficiente las concesiones, los permisos y las autorizaciones requeridas por los titulares de las patentes, los modelos y las marcas registradas relacionadas, así como los derechos de propiedad industrial o intelectual. El Proveedor será responsable de pagar las regalías, compensaciones, remuneraciones, cargos y/o tarifas adeudadas correspondientes.

El Proveedor declara y garantiza que no existen contratos, acuerdos, licencias, permisos, restricciones, requisitos, patentes, certificados, obligaciones del Proveedor u otras circunstancias que impidan o puedan impedir que ENEL utilice o de cualquier otra forma disfrute de la propiedad industrial o intelectual necesaria para la ejecución del Contrato, así como del producto, servicio, suministro, licencia, documento, objeto, artículo al que está incorporado o en el que está incluido.

20.5. Si, como resultado de una disputa por parte de los propietarios o los concesionarios de los derechos mencionados en esta cláusula, ENEL está obligada a modificar total o parcialmente los materiales o equipos que se deben suministrar en virtud del Contrato, se deben modificar tan pronto como sea posible a costa del Proveedor, sin que esto dé como resultado un deterioro de la calidad del suministro, las características operativas o las garantías. Si ocurre esto, se llevará a cabo un nuevo proceso para la aprobación de prototipos, donde esto se prescriba para el tipo de suministro en cuestión y antes de suministrar los materiales o equipos. El Proveedor indemnizará a ENEL por cualquier coste asociado, incluidos, entre otros, los costes de transporte, los costes de las pruebas, de la certificación, de las autorizaciones personalizadas, de la recepción de permisos / autorizaciones o documentos, así como de la adquisición de cualquier reemplazo o materiales / artículos adicionales, y cualquier otros coste y gasto asociado. Todos los importes serán abonados a ENEL dentro de los treinta (30) días naturales siguientes a la recepción de la respectiva demanda de ENEL.

20.6 Si se llevan a cabo acciones legales contra ENEL por parte de un tercero por incumplimiento por parte del Proveedor de las obligaciones mencionadas en la subcláusula precedente, al Proveedor, a instancias de ENEL, se le requerirá que proporcione cobertura económica (según lo indicado en la cláusula "GARANTÍA ECONÓMICA") en relación con el valor de las reclamaciones, en un plazo de diez (10) días naturales. El Proveedor exonerará a ENEL de cualquier responsabilidad relativa a infracciones de los derechos de propiedad industrial o intelectual que puedan producirse, y se compromete a hacer todo lo necesario para mantener a ENEL libre de daño en relación con cualquier reclamación o demanda contra ella, y también se compromete a indemnizar a ENEL por todas las pérdidas, gastos o daños que, de forma directa o indirecta, se deriven de reclamaciones judiciales o extrajudiciales.

20.7. Cualquier demanda o reclamación, sea judicial o extrajudicial, realizada contra el Proveedor por un tercero en relación con los derechos de propiedad industrial o intelectual, será comunicada de forma inmediata a ENEL.

20.8. ENEL será propietaria de todos los documentos, dibujos, planos, programas informáticos, así como las copias de éstos, que le facilite al Proveedor para la ejecución del Contrato, así como de los derechos sobre invenciones, patentes, obras protegidas por derechos de autor, modelos de utilidad y otros derechos de propiedad industrial o intelectual que resulten necesarios o lo vayan a ser para la ejecución del Contrato, basándose en la documentación facilitada por ENEL al Proveedor. El Proveedor los usará solo a efectos de la ejecución del Contrato y deberá devolverlos a ENEL, tomando en todo momento las precauciones adecuadas en relación con el procesamiento, uso y transferencia de datos para garantizar la seguridad y confidencialidad, según lo regulado en la cláusula "CONFIDENCIALIDAD" de estas Condiciones Generales.

20.9. Los derechos de propiedad industrial o intelectual, la tecnología y metodología que resulten de las obras o servicios realizados por el Proveedor en la ejecución del Contrato, y los registros que se creen pertenecen a ENEL, sin otorgar al Proveedor ningún derecho de aumentar el precio especificado en el Contrato.

20.10. Los dibujos, documentos, planos, programas informáticos y las copias de éstos, y en general cualquier resultado (y derechos de propiedad industrial o intelectual relacionados, entre los que se incluyen, pero no limitados a ellos, las aplicaciones de patentes, las patentes pendientes, los derechos sobre bases de datos, los derechos de autor, las marcas registradas, los derechos sobre secretos industriales y comerciales y cualquier aplicación de éstos a nivel mundial, los diseños de software y modelos, el know how) adquiridos por el Proveedor durante la ejecución del Contrato ("los DPI adquiridos") pertenecerán de forma exclusiva a ENEL,

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8301

quien se convertirá también de forma automática en el propietario de cualquier trabajo de importancia en progreso, generado periódicamente durante la ejecución del Contrato. Cada Parte reconoce y acuerda que los DPI previos propiedad de las Partes ("los DPI previos") permanecerán de forma exclusiva como propios de cada Parte y la otra Parte no tendrá derecho de reclamación alguna sobre ellos. La existencia de dichos DPI previos significa que todos los derechos de propiedad industrial o intelectual presentes y futuros, entre los que se incluyen, pero no limitados a ellos, las aplicaciones de patentes, las patentes pendientes, los derechos sobre bases de datos, los derechos de autor, las marcas registradas, los derechos sobre secretos industriales y comerciales y cualquier aplicación de éstos a nivel mundial, los diseños de software y modelos, el know how, pertenecen a cada Parte antes de la firma del Contrato o son adquiridos gradualmente en proyectos paralelos fuera del ámbito del Contrato. Antes de firmar el Contrato, cada Parte deberá especificar en un anexo al Contrato los DPI previos de dicha Parte que sean relevantes para la ejecución del Contrato. Por tanto, si el Proveedor desea utilizar estos DPI previos para la ejecución del Contrato, cualquier DPI adquirido perteneciente a ENEL estará limitado a los Extras ("los "Extras"), que son las partes adicionales (generadas por el Proveedor en la ejecución del Contrato sobre la base de sus DPI previos) que, en cualquier caso, no incluyen o contienen ninguno de sus DPI previos. Las Partes acordarán por escrito la lista de elementos que constituyen dichos Extras con anterioridad y en un plazo de 30 (treinta) días tras la terminación del Contrato.

20.11. Los métodos de marketing y la forma en que la tecnología cubierta por el Contrato se distribuye a terceros, así como los beneficios derivados de éstos, se regularán en el Contrato.

20.12. En caso de incumplimiento por parte del Proveedor de las obligaciones relacionadas con la propiedad industrial e intelectual citadas en esta cláusula, ENEL tiene el derecho a resolver el Contrato, sin perjuicio del derecho a emprender cualquier acción y a reclamar indemnización por cualquier daño que haya sufrido.

21. CONFIDENCIALIDAD.

21.1. Toda la información que cualquiera de las Partes pone a disposición (verbalmente, por escrito, en formato electrónico o de cualquier otra forma) a los efectos de y/o durante la ejecución del Contrato, así como cualquier otra información confidencial de la que cualquiera de las Partes pueda tener conocimiento como resultado de otros contratos firmados entre las Partes y/o por cualquiera de las Partes con un tercero, y/o de las negociaciones precontractuales de los mismos, al igual que todos los documentos, la información, los conocimientos específicos (independientemente de cómo se han recopilado, obtenido o desarrollado en relación con el Contrato) solo se pueden utilizar a efectos de ejecutar el propio Contrato y son confidenciales.

21.2. El término "confidencial" se refiere pero no se limita a, documentos económicos y financieros, datos e información referida, entre otros, a estrategias comerciales, información sobre productos y/o procesos de producción (diseño, estudio y desarrollo), medios y costes de producción, información comercial, estrategias de desarrollo y gestión de clientes, cualquier tipo de datos sobre clientes, proveedores y su perfil técnico o comercial, documentación sobre ofertas técnicas y económicas en licitaciones públicas y privadas, datos sobre pruebas y/o funcionamiento de plantas, equipos, máquinas y productos, análisis de negocios, estudios de mercado, planes comerciales y de marketing otros datos estadísticos que son relevantes para el negocio, procedimientos de organización interna, ideas de publicidad y nuevas marcas registradas aún no utilizadas en el mercado, precios, características, conceptos, prototipos y diseños de nuevos productos o servicios aún no lanzados al mercado, etc. También se aplica a datos e información de los documentos económicos, financieros y técnicos referidos por ejemplo, pero no limitados a, invenciones patentables, patentes, solicitudes de patentes, licencias, código fuente de cualquier tipo de software, sus principios y los algoritmos relacionados; descubrimientos, algoritmos y fórmulas; nuevos procesos y métodos de producción; nuevas metodologías para probar plantas, equipos, máquinas y productos, resultados de las actividades de investigación y desarrollo (I+D). Además, se aplica a cualquier tipo de procesos internos, patentes, licencias o cualquier otra información:

(i) expresamente calificado como "confidencial", "estrictamente confidencial", "secreto" (o de cualquier otra manera similar) por la Parte reveladora o

(ii) que la Parte receptora sabía o debería haber sabido que eran confidenciales debido a su naturaleza o al tratamiento realizado por la Parte reveladora,

(iii) que cualquiera de las Partes haya proporcionado a la otra Parte en relación con la ejecución del Contrato, incluido las negociaciones y el contenido y redacción del Contrato y de todos sus anexos.

21.3. La información confidencial no se puede divulgar sin la autorización previa, por escrito y expresa de la Parte que posee tal información, excepto en aquellos casos en que la Parte receptora esté legalmente obligada a transmitirla o sea ordenado por una Autoridad competente, o cuando negarse a hacerlo resulte ilegal. Sin la autorización previa, por escrito y expresa de la Parte que posee la información confidencial, la otra Parte no podrá copiar, reproducir, traducir, modificar, adaptar, desarrollar, desmontar, separar, realizar operaciones de ingeniería inversa o cualquier otra operación destinada a extraer los códigos fuente, total o parcialmente, de la información confidencial proporcionada.

21.4. La información confidencial incluye toda la información relacionada con una Parte, puesta a disposición de la otra Parte, antes o durante la ejecución del Contrato, ya sea por los administradores, gerentes o empleados de la Parte que posee la información, o por los subcontratistas, subsuministradores o filiales de la Parte que posee la información y sus correspondientes administradores, gerentes, empleados, subcontratistas y subsuministradores (en lo sucesivo, "Representantes de la Parte que posee la información"). La información confidencial también incluye toda la información relacionada con los Representantes de la Parte que posee la información, que la Parte o sus propios representantes han podido poner a disposición de la otra Parte antes o durante la ejecución del Contrato. A estos efectos:

Patricia Álvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

- el término "filial" hace referencia a cualquier sociedad controlada por una de las Partes o por una de las Partes junto con otras terceras partes, durante tanto tiempo como exista dicho control y durante el periodo en el que se difunda la información
- el término "control" hace referencia a la capacidad directa o indirecta de control sobre la operación y estrategia de la sociedad y todos los casos en los que cualquier sociedad del grupo de empresas de cualquiera de las Partes, posea más del cincuenta por ciento (50%) del capital accionarial o de las acciones con derecho a voto, sea de forma directa o indirecta.

21.5. No se considerará confidencial:

- la información que la Parte que la recibe puede probar que ya la tenía legítimamente antes o al comienzo de la ejecución del Contrato;
- la información que la Parte que la recibe puede probar que la recibió de terceros no sujetos al acuerdo de confidencialidad por ley o por contrato.

21.6. Cada Parte:

- debe restringir la divulgación de información confidencial exclusivamente a los representantes que efectivamente necesitan tenerla debido a su grado de implicación en la ejecución del Contrato;
- obligará a sus representantes y garantizará que cumplen plenamente las obligaciones contenidas en esta cláusula;
- será considerada responsable de cualquier acción u omisión por parte de sus representantes que conduzca al incumplimiento de la obligación de mantener la confidencialidad.
- no utilizará la información confidencial para fines distintos a la ejecución de la ejecución del Contrato.

21.7. La Parte receptora de la información confidencial está obligada a crear y gestionar datos lógicos y físicos, utilizando las mejores técnicas y prácticas internacionales disponibles, para garantizar la protección de dichos datos frente a la destrucción, manipulación, acceso o reproducción no autorizados. En el caso de información confidencial calificada como "estrictamente confidencial" por ENEL, dichas técnicas y prácticas de manejo y almacenamiento de datos lógicos y físicos deberán ser acordadas y autorizadas expresamente por ENEL. Una vez que el Contrato haya expirado, la Parte receptora de la información confidencial devolverá todos los datos, documentos e información suministrada por la otra Parte o en su poder, a los efectos de realizar las actividades contractuales, además de destruir todas las copias y archivos que pueda tener, a menos que haya recibido el permiso por escrito en contrario por la Parte proveedora de la información confidencial.

21.8. Ambas Partes garantizan que no se divulgará información confidencial durante la ejecución del Contrato y por un periodo de cinco (5) años después de que haya expirado, excepto cuando otro plazo se acuerde en el Contrato o cuando sea requerido por ley o por una Autoridad competente. No obstante lo anterior, en el caso de información confidencial calificada como "estrictamente confidencial" por ENEL, las obligaciones de confidencialidad y no uso establecidas en esta cláusula sobrevivirán a la terminación del Contrato por cualquier motivo, salvo que la Parte reveladora disponga lo contrario, y serán válidas hasta que la Parte receptora sea capaz de demostrar que dicha información "estrictamente confidencial" se ha vuelto generalmente conocida o fácilmente accesible para las personas dentro de los círculos que normalmente tratan con el tipo de información en cuestión para cualquier tipo de causas diferentes a la divulgación de la Parte receptora. Cuando resulte necesario, la Parte a la que se le pida que divulgue la información confidencial por parte de una Autoridad pública, notificará a la otra Parte dicho requerimiento, cuando sea legalmente posible, de forma inmediata, para que pueda emprender las acciones necesarias para proteger sus derechos. Las Partes solo divulgarán la información requerida por ley y deben obtener una declaración de quien reciba la información de que dicha información permanecerá confidencial.

21.9. Si la información es clasificada por ENEL como "altamente confidencial" se deberán aplicar las siguientes normas:

- la contraseña necesaria para acceder a los sistemas de TI debe ser personal o individual, mantenerse en secreto y cambiarse cada sesenta (60) días;
- el acceso a los sistemas de TI debe restringirse al software/herramientas facilitadas de forma específica para desarrollar las actividades requeridas; la utilización de servicios de red o conexiones a efectos no relacionados con las actividades que se deben realizar está prohibida;
- cualquier transacción desarrollada mediante los sistemas de TI de ENEL no debe violar las leyes locales vigentes;
- la estación de trabajo utilizada (permanente o temporal) no puede conectarse a los servicios de internet distintos de los proporcionados o autorizados por ENEL y deben tener el antivirus necesario instalado. Se deben tomar todas las medidas necesarias para evitar la propagación de virus, software malintencionado o cualquier forma ilícita de software que pueda provocar interrupciones en el servicio o la pérdida de datos;
- todas las cuentas de correo electrónico, guardado de archivos o plataformas de comunicación (incluyendo las redes sociales) deben ser suministradas o autorizadas de forma explícita por ENEL;
- se deben almacenar, transmitir o cancelar los datos sensibles mediante un software de codificación apropiado;

Patricia Álvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

- está prohibido modificar la configuración del sistema para evitar los chequeos de seguridad.

21.10. Queda prohibido que el Proveedor revele cualquier información considerada confidencial según lo estipulado en esta cláusula, por cualquier medio (por ejemplo, pero no limitado a artículos en medios de comunicación, notas de prensa, entrevistas, etc.). Ambas Partes acordarán por escrito lo relativo al contenido, los medios de comunicación, la fecha de publicación de los artículos de prensa y las noticias o comunicaciones de cualquier tipo en relación con el Contrato o cualquier asunto o información relacionada con ello.

21.11. Si ENEL autoriza el subcontrato, el subsuministro o cesión del Contrato por escrito, el Proveedor debe obtener del subcontratista, subsuministrador o cesionario un acuerdo de confidencialidad con las mismas condiciones que las contenidas en esta cláusula.

21.12. Ambas Partes reconocen y acuerdan que la compensación de daños puede no representar una indemnización suficiente por la infracción de la confidencialidad y que la Parte que sufre la infracción tendrá el derecho de intentar obtener otras reparaciones o evitar cualquier posible violación o daño procedente de tal violación de acuerdo con la legislación vigente. En caso de incumplimiento de los requisitos de confidencialidad, cualquiera de las Partes puede decidir resolver el Contrato.

21.13. El remedio anterior no se considerará el único disponible, pero se añadirá a todos los demás derechos y remedios disponibles de acuerdo con la ley aplicable. En caso de violación de las obligaciones de confidencialidad y sin perjuicio alguno de lo anterior, y en caso de violaciones a que se refiere esta cláusula, ENEL tiene el derecho de resolver el Contrato, así como el derecho de adoptar cualquier acción destinada a obtener una indemnización por daños.

21.14. ENEL se reserva el derecho a realizar comprobaciones periódicas, con especial atención a las medidas de seguridad aplicadas en los casos en que exista información considerada y clasificada por ENEL como confidencial y/o estrictamente confidencial.

21.15. En todo momento, si así lo requiere la Parte reveladora de información confidencial, la otra Parte devolverá o destruirá o pedirá que sus representantes devuelvan o destruyan, todas las copias de la información confidencial escrita en su poder o en el de sus representantes. Además, la Parte receptora de la información hará todo lo que esté en su mano o requerirá a sus representantes que lo hagan para devolver o destruir cualquier dato asociado almacenado en formato electrónico y confirmará por escrito la destrucción de dichos datos a la Parte reveladora de la información confidencial en un plazo máximo de quince (15) días desde el requerimiento, declarando asimismo que no retiene ningún documento ni ningún otro material que contenga o esté relacionado con información confidencial.

21.16. Cada Parte reconoce y acuerda que la información confidencial pertenece y se mantiene en propiedad exclusiva de la Parte reveladora y sus representantes. Nada en el Contrato debe interpretarse, salvo que esté indicado de forma expresa por escrito, como la concesión de una licencia o similar en materia de patentes, derechos de autor, invenciones, secretos comerciales, marcas, descubrimientos o mejoras realizadas, concebidas o adquiridas, tanto antes como después de la ejecución del Contrato.

21.17. **Cyber Security.**

21.17.1 El Proveedor puede acceder al sistema informático de ENEL solo si está autorizado por ENEL. El Proveedor es responsable de las actividades realizadas en los sistemas de ENEL mediante el uso de su identidad digital, que debe ser salvaguardada en todo momento. Al realizar tales actividades, el Proveedor deberá cumplir con las siguientes reglas de conducta:

a) nunca se revelarán ni proporcionarán las credenciales de autenticación a nadie;

b) no se insertarán contraseñas en mensajes de correo electrónico u otras formas de comunicación electrónica, ni se revelarán por teléfono a nadie;

c) nunca se memorizarán contraseñas para acceder a las aplicaciones de ENEL a través del navegador, mediante la función "recordar contraseña";

d) se verificará que nadie esté observando cuando el Proveedor introduzca las credenciales para acceder a los dispositivos o sistemas de TI, a fin de evitar el robo de las credenciales del Proveedor;

e) nunca se utilizará la misma contraseña para la autenticación en diferentes sistemas;

f) el acceso a los sistemas de información se limitará a software / herramientas proporcionados específicamente para la realización de las actividades necesarias. Está prohibido el uso de servicios o conexiones de red para fines no relacionados con las actividades que se llevarán a cabo;

g) cualquier transacción desarrollada a través de los sistemas informáticos de ENEL no deberá violar la Ley;

h) la estación de trabajo utilizada (permanente o temporal) no deberá conectarse a servicios de Internet distintos a los proporcionados o autorizados por ENEL y deberá tener instalado el antivirus necesario. Se tomarán todas las medidas necesarias para evitar la propagación de virus, software malicioso o cualquier software ilícito que pueda causar interrupciones en el servicio o pérdida de datos;

i) todas las cuentas de correo electrónico, almacenamiento de archivos o plataformas de comunicación (incluidas las redes sociales) serán proporcionadas o autorizadas explícitamente por ENEL;

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLES
Nº 8391

j) los datos sensibles se almacenarán, transmitirán o cancelarán mediante un software de codificación adecuado;

k) está prohibido modificar la configuración del sistema para evitar controles de seguridad;

l) para evitar la divulgación de información a personas no autorizadas, se prestará atención a los documentos impresos, discos duros extraíbles, dispositivos de almacenamiento extraíbles y pantallas de video.

21.17.2 Si en cualquier momento durante la vigencia del Contrato, la ejecución de este requiere o implica que el Proveedor obtenga acceso a y/o utilice cualquier aplicación disponible en los sistemas de ENEL y/o en la infraestructura de TI de ENEL ("Sistemas de ENEL"), toda esta cláusula será de aplicación al Proveedor. A petición de ENEL, en cualquier momento y por cualquier motivo, el Proveedor deberá tomar parte en e implementar el sistema de autenticación de doble factor de ENEL (el "Sistema de Autenticación Multifactor"), como requisito obligatorio para acceder y/o utilizar cualquier sistema de ENEL. El Proveedor se compromete a, para tomar parte e implementar el Sistema de Autenticación Multifactor:

(i) se requiere un smartphone y una tarjeta SIM que funcione (personal o de uso mixto);

(ii) cada smartphone utilizado para los fines del Sistema de Autenticación Multifactor debe estar asociado exclusivamente a la identidad personal del empleado, agente, subcontratista, subsuministrador representante u otro personal del Proveedor que tenga acceso y/o que vaya a usar los sistemas de ENEL en nombre del Proveedor; y

(iii) el Proveedor deberá satisfacer todos los requisitos anteriores a su propio riesgo, coste y gastos. ENEL no asume ningún cargo (financiero o de otro tipo) por el suministro del smartphone y no será responsable frente al Proveedor o frente a cualquier tercero por cualquier daño, reclamación o pérdida, directa o indirecta, que surja o esté relacionada con el fallo y/o el funcionamiento defectuoso o el uso ilegal de cualquier smartphone que se utilice para el Sistema de Autenticación Multifactor por parte de los empleados, agentes, subcontratistas, subsuministradores, representantes u otro personal.

22. TRATAMIENTO DE DATOS DE CARÁCTER PERSONAL.

22.1. Objeto del tratamiento de datos.

La presente cláusula regula las condiciones en que el Proveedor (en adelante, "Encargado del Tratamiento"), tratará en nombre de ENEL (en adelante, "Responsable del Tratamiento") todos los datos personales necesarios para la ejecución del Contrato. En el Contrato se detallará en qué consistirá concretamente el tratamiento, especificando las operaciones de procesamiento que se llevarán a cabo (recopilación, estructuración, almacenamiento, consulta, etc.). En el Contrato asimismo se identificará la información que el Responsable del Tratamiento proporciona al Encargado del Tratamiento, necesaria para la ejecución del Contrato.

22.2. Obligaciones del Encargado de Tratamiento.

El Encargado de Tratamiento y todo su personal, se comprometen a:

a) Utilizar los datos personales sólo para la finalidad objeto del Contrato. En ningún caso podrá el Encargado del Tratamiento utilizar los datos para otros fines que no hayan sido expresamente autorizados por el Responsable del Tratamiento.

b) Garantizar que las personas encargadas del tratamiento, lo hacen de acuerdo con las instrucciones del Responsable del Tratamiento. Si el Encargado del Tratamiento considera que alguna de esas instrucciones viola lo dispuesto en el Reglamento Europeo 2016/679/EU, de 27 de abril de 2016, relativo a la protección de las personas físicas en lo que respecta al tratamiento de datos personales y a la libre circulación de estos datos (en adelante, "RGPD") o la normativa en materia de protección de datos de alguno de los Estados Miembros de la Unión Europea, el Encargado del Tratamiento deberá informar inmediatamente al Responsable del Tratamiento.

c) Llevar, por escrito, un registro de todas las categorías de actividades de tratamiento efectuadas por cuenta del Responsable, que contenga:

   a. El nombre y los datos de contacto del Encargado y del Responsable por cuenta del cual actúe el Encargado y, en su caso, del representante del Responsable o del Encargado y del delegado de protección de datos (en adelante, "Delegado de Protección de Datos").

   b. Las categorías de tratamientos efectuados por cuenta del Responsable.

   c. En su caso, las transferencias de datos personales a un tercer país u organización internacional, incluida la identificación de dicho tercer país u organización internacional y, en el caso de las transferencias indicadas en el artículo 49 apartado 1, párrafo 2 del RGPD, la documentación de garantías adecuadas.

   d. Una descripción general de las medidas técnicas y organizativas de seguridad mencionadas en el artículo 32 RGPD.

d) No comunicar datos a terceros salvo expresa autorización del Responsable del Tratamiento y en los supuestos legalmente admisibles. El Encargado podrá dar acceso a los datos a otros Encargados siguiendo las instrucciones del Responsable de Tratamiento. En este caso el Responsable identificará, de forma previa y por escrito, los datos a los que podrá accederse y las medidas de seguridad aplicables.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 889

e) No subcontratar con ningún tercero (en adelante, "Subencargados del Tratamiento" o "Subencargados"), sin la previa autorización escrita del Responsable del Tratamiento. Si fuera necesario que el Encargado del Tratamiento subcontratase o firmara un acuerdo de subsuministro a favor de terceros de determinados servicios y/o suministros que estuvieran dentro del alcance del Contrato, el Encargado deberá previamente comunicar este hecho por escrito al Responsable del Tratamiento, indicando los servicios y/o suministros, y tratamientos que se pretenden subcontratar o subsuministrar, e identificando de forma clara e inequívoca la empresa subcontratista o subsuministradora y sus datos de contacto. El Subencargado, que también tendrá la condición de Encargado del Tratamiento, está obligado igualmente a cumplir las obligaciones establecidas en esta cláusula para el Encargado y las instrucciones que dicte el Responsable. Corresponde al Encargado inicial regular la nueva relación de forma que el nuevo Encargado quede sujeto a las mismas condiciones (instrucciones, obligaciones, medidas de seguridad, etc.) y con los mismos requisitos formales que él, en lo referente al adecuado tratamiento de los datos personales y a la garantía de los derechos de las personas afectadas. En el caso de incumplimiento por parte del Subencargado, el Encargado inicial seguirá siendo plenamente responsable ante el Responsable del Tratamiento en lo referente al cumplimiento de las obligaciones. El Encargado de Tratamiento declara que los Subencargados tratarán los datos personales dentro del Espacio Europeo o en países con un nivel de protección adecuado, en virtud de lo dispuesto en la decisión de la Comisión que sea de aplicación a la fecha de la firma del Contrato. En caso de que el nivel de protección no sea el adecuado, el Encargado y el Subencargado se comprometerán a firmar las Cláusulas Contractuales Tipo que, a la fecha de la firma del Contrato, haya adoptado de la Comisión de la Unión Europea. En caso de que el Encargado tenga razones suficientes para nombrar a varios Subencargados, distintos a los recogidos en la lista que se adjunta a este documento, deberá actualizar la lista y comunicarlo al Responsable del Tratamiento con antelación (Anexo II).

f) Facilitar al Responsable del Tratamiento, de forma anual, una lista de los lugares donde están siendo tratados y almacenados los datos personales que son objeto del tratamiento en virtud del Contrato.

g) Mantener el deber de secreto respecto a los datos de carácter personal a los que haya tenido acceso en virtud del Contrato, incluso después de que finalice su ejecución.

h) Garantizar que las personas autorizadas para tratar datos personales se comprometan, de forma expresa y por escrito, a respetar la confidencialidad y a cumplir las medidas de seguridad correspondientes, de las que hay que informarles convenientemente.

i) Mantener a disposición del Responsable la documentación acreditativa del cumplimiento de la obligación establecida en el apartado anterior.

j) Garantizar la formación necesaria en materia de protección de datos personales de las personas autorizadas para tratar datos personales.

k) Asistir al Responsable del Tratamiento en la respuesta al ejercicio de los derechos de: (i) acceso, rectificación, supresión y oposición, (ii) limitación del tratamiento, (iii) portabilidad de datos, (iv) a no ser objeto de decisiones individualizadas automatizadas (incluida la elaboración de perfiles). A estos efectos, cuando las personas afectadas ejerzan dichos derechos ante el Encargado del Tratamiento, éste debe comunicarlo por correo electrónico a la dirección ENDESAprotecciondedatospersonales@enel.com. La comunicación debe hacerse de forma inmediata y en ningún caso más allá del día laborable siguiente al de la recepción de la solicitud, juntamente, en su caso, con otras informaciones que puedan ser relevantes para resolver la solicitud.

l) El Encargado del Tratamiento, en el momento de la recogida de los datos, debe facilitar la información relativa a los tratamientos de datos que se van a realizar. La redacción y el formato en que se facilitará la información se debe consensuar con el Responsable antes del inicio de la recogida de los datos.

m) Notificación de brechas de seguridad. El Encargado del Tratamiento notificará al Responsable del Tratamiento, sin dilación indebida y en cualquier caso antes del plazo máximo de cuarenta y ocho (48) horas, vía e-mail, las violaciones de la seguridad de los datos personales a su cargo de las que tenga conocimiento, junto con toda la información relevante para la documentación y comunicación de la incidencia. La comunicación contendrá, como mínimo, la información siguiente:

   a. Descripción de la naturaleza de la violación de la seguridad de los datos personales, inclusive, cuando sea posible, las categorías y el número aproximado de interesados afectados, y las categorías y el número aproximado de registros de datos personales afectados.

   b. Nombre y datos de contacto del delegado de protección de datos o de otro punto de contacto en el que pueda obtenerse más información.

   c. Descripción de las posibles consecuencias de la violación de la seguridad de los datos personales.

   d. Descripción de las medidas adoptadas o propuestas para poner remedio a la violación de la seguridad de los datos personales, incluyendo, si procede, las medidas adoptadas para mitigar los posibles efectos negativos.

Si no es posible facilitar la información de forma simultánea, ésta se facilitará de manera gradual y sin dilación indebida.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

n) Dar apoyo al Responsable del Tratamiento en la realización de las evaluaciones de impacto relativas a la protección de datos, cuando proceda.

o) Siempre que el Responsable lo considere oportuno, poner a su disposición toda la información necesaria para cumplir con las obligaciones de consulta previa prevista en el artículo 36 RGPD, teniendo en cuenta la naturaleza de la actividad de tratamiento e información disponible ante el Responsable.

p) Permitir al Responsable la realización de controles o inspecciones periódicas con el objeto de verificar el cumplimiento de las obligaciones establecidas en el Contrato, así como la realización de las auditorías o las inspecciones que realicen el Responsable del Tratamiento u, en su caso, otro auditor autorizado por él.

q) Implantar y cumplir las medidas de seguridad necesarias de conformidad con lo establecido en el artículo 32 RGPD, y todas las demás medidas preventivas resultantes de la experiencia y reconocidas como mejores prácticas, que se consideren apropiadas para evitar el tratamiento de datos ilegal o prohibido, o el tratamiento que no esté en consonancia con la finalidad previamente definida. El Encargado de Tratamiento garantizará, de forma efectiva, un nivel adecuado de cooperación para aplicar estas medidas de seguridad, para notificar sin dilaciones indebidas cualquier violación de datos, para llevar a cabo las evaluaciones de impacto, con el objetivo de garantizar la confidencialidad y seguridad de los datos y minimizar los riesgos de destrucción o pérdida accidental.

r) Designar un Delegado de Protección de Datos, de conformidad con lo previsto en el artículo 37 RGPD, así como para aquellos casos en que sea solicitado por el Responsable por concurrir un tratamiento que genere un alto riesgo para los derechos fundamentales de las personas, y comunicar su identidad, así como sus datos de contacto al Responsable.

s) El Encargado de Tratamiento deberá borrar y devolver al Responsable del Tratamiento los soportes donde consten los datos personales, una vez cumplida la prestación. La devolución deberá comportar el borrado total de los datos existentes en los equipos informáticos utilizados por el Encargado (excepto cuando éstos deban ser mantenidos por imperativo de la normativa europea o nacional aplicable), debiendo probar dicho extremo ante el Responsable.

22.3. **Compensación y responsabilidad.**

Cualquier persona que haya sufrido daños materiales o inmateriales como consecuencia de una infracción del RGPD, tendrá derecho a recibir del Responsable del Tratamiento o del Encargado de Tratamiento una indemnización por los daños sufridos. Sin perjuicio de la responsabilidad e indemnización que deba asumir el Encargado de Tratamiento según se estipule en el Contrato, el Encargado de Tratamiento, de conformidad con el artículo 82 RGPD, será responsable, en cualquier caso, de cualquier daño causado en el tratamiento de los datos, como consecuencia del incumplimiento del Contrato o de las instrucciones dadas por el Responsable. En caso de que el Encargado de Tratamiento o sus empleados infrinjan cualquier obligación relativa al tratamiento de los datos identificada en el Contrato o en el RGPD, el Responsable podrá reclamar ante el Encargado una compensación adicional proporcional al daño causado. El Responsable del Tratamiento quedará exento de cualquier responsabilidad si se demuestra que no es responsable de los daños causados. En el caso de que el Responsable o el Encargado hayan pagado una compensación total por los daños causados, tendrán derecho a reclamar a la otra parte la cantidad correspondiente proporcional al daño causado por ésta.

22.4. **Duración.**

Todo lo dispuesto en esta cláusula estará vigor durante el periodo necesario para llevar a cabo las actividades encomendadas al Encargado de Tratamiento y caducará automáticamente a la terminación del Contrato.

22.5. **Administradores del Sistema.**

Dado que los empleados del Encargado del Tratamiento y/o empleados del Subencargado podrán ser autorizados para realizar las actividades de "Administradores del Sistema", el Encargado deberá comunicar al Responsable, a petición de éste, la lista de sus empleados y/o de los empleados del Subencargado autorizados y designados como Administradores del Sistema, así como de cualquier otra persona que pueda tratar datos personales pertenecientes al Responsable del Tratamiento. El Encargado del Tratamiento se compromete a mantener los registros, controlando el inicio y cierre de sesión y el intento de inicio de sesión por sus empleados y/o empleados del Subencargado, si están autorizados y que hayan sido designados como Administradores del Sistema y que, bajo dicho rol, hayan sido capaces de modificar los datos personales pertenecientes al Responsable del Tratamiento por un período de seis (6) meses con el compromiso de entregarlos al Responsable en el formato indicado por éste a más tardar tres (3) días después de la recepción de una solicitud por escrito.

22.6. **Tratamiento de los datos personales de los representantes y profesionales.**

Las Partes se informan mutuamente de que los datos personales de los intervinientes, representantes y profesionales que figuren en el Contrato serán tratados por cada Parte en calidad de Responsable del Tratamiento, con la finalidad de llevar a cabo la gestión del Contrato. En este sentido, las Partes se obligan a observar estrictamente todas las disposiciones legales, cualquiera que sea su rango, referente a la protección de datos de carácter personal.

Los datos se conservarán mientras se mantenga la relación contractual y, una vez finalizada ésta, se mantendrán durante el plazo de prescripción de las posibles responsabilidades que pudieran surgir derivadas de la misma.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 0391

Los intervinientes, representantes y profesionales de las Partes podrán ejercer sus derechos de acceso, rectificación, oposición, cancelación, limitación del tratamiento y portabilidad de sus datos, en los casos y con el alcance que establezca la normativa aplicable en cada momento, dirigiéndose a la dirección indicada en el encabezamiento del Contrato para cada una de las Partes. Asimismo, podrán ejercer el derecho a presentar una reclamación ante la Autoridad de control (Agencia Española de Protección de Datos).

22.7. **Tratamiento de los datos personales de los trabajadores del Proveedor que preste servicios o ejecute obras para ENEL.**

Cualquier dato personal proporcionado por el Proveedor a ENEL para permitir la ejecución del Contrato, tendrá el significado legal de cesión de datos, y solo se comunicarán los datos estrictamente necesarios para el cumplimiento de la mencionada prestación y éstos se utilizarán única y exclusivamente para garantizar el cumplimiento del objeto del Contrato. En este sentido, ENEL deberá cumplir estrictamente con todas las disposiciones legales, cualquiera que sea su rango, referentes a la protección de datos de carácter personal.

ENEL se compromete a eliminar todos los datos personales proporcionados por el Proveedor una vez finalizada la ejecución del Contrato.

23. PROTECCION AMBIENTAL.

23.1. Materiales y/o equipos.

23.1.1. El Proveedor se compromete a adoptar las medidas oportunas para garantizar el estricto cumplimiento de las obligaciones que le correspondan por la aplicación de toda la legislación ambiental, de eficiencia energética y de calidad ambiental en interiores, Estatal, Autonómica, Provincial y Local que le sea de aplicación, especialmente en lo referente al correcto uso de la energía y al correcto envasado y etiquetado de los productos suministrados (fecha de envasado, de fabricación, de caducidad del producto, etc.), así como en la retornabilidad de los envases de productos químicos, en aquellos casos en los que dichos productos estén considerados como preparado peligroso según la legislación vigente, sin perjuicio de cualquier otro desarrollo legal que, en el futuro, se produzca sobre el particular, debiendo restaurar el daño que haya producido como consecuencia de cualquier incumplimiento de la normativa vigente que le sea aplicable teniendo en cuenta la actividad y el lugar en la que va a desarrollarse.

23.1.2. El Proveedor se compromete a que los elementos utilizables en sus materiales y equipos no sean cancerígenos ni inestables químicamente.

23.1.3. El Proveedor se compromete a realizar la gestión de los envases vacíos en los que haya suministrado las sustancias y preparados químicos, cumpliendo con lo estipulado en la legislación en vigor en la materia, comprometiéndose en cualquier caso a retirarlos cuando ENEL se lo solicite y los ponga a su disposición con tal fin, responsabilizándose totalmente del cumplimiento de la normativa preceptiva para el transporte. También vendrá obligado el Proveedor a la retirada de los embalajes utilizados para el transporte en las condiciones y plazos que se establezcan en el Contrato, o en el caso de no estar indicado, en las sucesivas entregas retirará embalajes de envíos anteriores cuando ENEL así lo requiera.

23.1. Obras y/o servicios.

23.2.1. El Proveedor deberá conocer y verificar que su personal conoce, comprende y ejecuta todos los requisitos y normativa de aplicación según el trabajo a desarrollar y el lugar en el que éste se desarrolle, en relación con la protección ambiental, la eficiencia energética y la calidad ambiental en interiores que le sean de aplicación, para ejecutar el Contrato.

23.2.2. El Proveedor garantizará, y en su caso acreditará, que el personal que va a ejecutar el Contrato posee o recibe la adecuada formación teórico-práctica para ello y, especialmente la necesaria para garantizar su correcto comportamiento ambiental y energético y reducir el riesgo de un incidente con repercusiones ambientales y de calidad ambiental en interiores. La formación incluirá las obligaciones que para ellos se deriven de los documentos de los Sistemas de Gestión Ambiental, Energético y/o de Calidad Ambiental en Interiores, en caso de que exista uno implantado o en implantación, como es común en los diferentes negocios de ENEL.

23.2.3. El Proveedor dotará a su personal de los medios necesarios para que la ejecución del Contrato pueda realizarse respetando el medio ambiente, considerando un uso eficiente de la energía y atendiendo la calidad ambiental en interiores. Asimismo, el Proveedor se obliga a cumplir todos los requisitos legales que le sean de aplicación, así como los derivados de los Sistemas de Gestión Ambiental, Energético y/o de Calidad Ambiental en Interiores, en caso de que se haya implantado alguno en la instalación objeto del Contrato.

23.2.4. El Proveedor responderá de cualquier incidente ambiental, energético y de calidad ambiental en interiores por él causado, como consecuencia de la ejecución del Contrato, reservándose ENEL el derecho de hacer recaer sobre el Proveedor las acciones y los gastos que se originen por el incumplimiento de sus obligaciones en materia ambiental, energética y de calidad ambiental en interiores. El Proveedor adoptará las medidas oportunas para garantizar el estricto cumplimiento de toda la legislación vigente que sea de aplicación a la ejecución del Contrato y restaurará el daño que haya producido como consecuencia de cualquier incumplimiento de la misma.

23.2.5. El Proveedor deberá dotarse de un Seguro de Responsabilidad Medioambiental con las coberturas necesarias para hacer frente a las responsabilidades derivadas de la Ley de Responsabilidad Medioambiental y de cualquier otra norma mediante la que la Autoridad Ambiental pueda exigir la reparación y/o compensación de los daños que eventualmente puedan causarse sobre los recursos naturales.

Patricia Álvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 8391

24. SUPPLIER PERFORMANCE MANAGEMENT.

24.1. ENEL monitoriza y evalúa el desempeño de los Proveedores a través de un proceso de Supplier Performance Management específico. Los principales aspectos evaluados durante el citado proceso son los siguientes:

a) calidad de la ejecución;
b) cumplimiento del cronograma;
c) cumplimiento de las normas de salud, seguridad y medio ambiente;
d) respeto de los derechos humanos;
e) cooperación y soluciones innovadoras propuestas durante la ejecución del Contrato.

24.2 Sobre la base de los aspectos enumerados anteriormente, ENEL asignará una puntuación al Proveedor. En caso de una puntuación positiva, el Proveedor podrá tener acceso a las acciones de incentivo indicadas en el reglamento "ad hoc". En caso de una puntuación negativa, ENEL aplicará las reparaciones previstas en el Contrato por incumplimientos de las obligaciones contractuales.

25. VALUE ENGINEERING Y GAIN SHARING.

25.1. Este apartado solo es aplicable a los Contratos que no están sujetos a legislación que prohíbe o restringe el uso de este mecanismo.

25.2. "Value Engineering" significa la aplicación sistemática de técnicas reconocidas para identificar funciones, productos, servicios, diseños, técnicas, alternativas o mejoras de desempeño que tienen el efecto de mantener o mejorar la calidad y / o el valor del trabajo o el coste total de todo el proyecto y otros factores aplicables mientras se reduce el precio sin sacrificar la seguridad, la calidad y el cumplimiento ambiental del alcance del Contrato. Value Engineering es el resultado de que tales prácticas o diseños son o no una desviación de las Especificaciones Técnicas, lo que resulta en una desviación y / o modificación del Contrato. Value Engineering no incluirá la optimización estándar tomada durante el proceso de diseño que ENEL y el Proveedor normalmente realizarían.

25.3. El Proveedor podrá presentar a ENEL, propuestas de Value Engineering. Las propuestas de Value Engineering tendrán como objetivo la reducción del precio mediante ajustes directos y cuantificables al alcance del Contrato.

Las propuestas del Proveedor a ENEL serán revisadas y aprobadas por ENEL.

Las propuestas Value Engineering incluirán:

a) cambios propuestos al alcance del Contrato (descripción detallada, atribución de responsabilidades entre las Partes, etc.);

b) los ahorros y / o mejoras anticipados en el alcance del Contrato (financiero o de otro tipo) que logrará cualquiera de las Partes;

c) costos estimados en que incurrirá cualquiera de las Partes;

d) cualquier otro impacto sobre las disposiciones del Contrato.

25.4. ENEL, hará todos los esfuerzos comercial y técnicamente razonables para revisar y responder a dichas propuestas de Value Engineering dentro de los quince (15) días posteriores a su recepción. Si se aprueba una propuesta de Value Engineering, la Parte proponente elaborará oportunamente un plan de implementación "ad hoc".

25.5. No se implementará ninguna propuesta de Value Engineering a menos que ENEL haya emitido una aceptación formal por escrito.

25.6. El valor monetario de Value Engineering se denominará "Gain Sharing". El Proveedor deberá presentar una propuesta de distribución de Gain Sharing entre ENEL y el Proveedor. Si se aprueba la propuesta, el Proveedor puede tener derecho a recibir la parte de Gain Sharing según lo acordado por las Partes.

25.7. Tras la aprobación de una propuesta de Value Engineering, el Proveedor deberá presentar una solicitud de Orden de Cambio.

26. GOBERNANZA.

26.1. Estructura de Gobernanza del Contrato.

26.1.1. Cuando esté previsto en el Contrato, las Partes pueden establecer un comité ("Grupo de Revisión") para supervisar el progreso de la ejecución del Contrato. El Grupo de Revisión está compuesto por un número igual de representantes de las Partes. Cada Parte puede cambiar periódicamente a sus representantes en el Grupo de Revisión a su entera discreción, notificando el cambio a la otra Parte.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 83311

26.1.2. Por mutuo acuerdo de las Partes, se podrá invitar a representantes adicionales de ambas Partes, con capacidades técnicas, experiencia y conocimientos adecuados, o consultores externos, a asistir a las reuniones del equipo de auditoría, sin perjuicio de la obligación de todos los terceros de firmar y cumplir las obligaciones de confidencialidad.

26.1.3. El equipo auditor está presidido por un representante de ENEL.

26.2. **Proceso de decisión.**

Todas las decisiones del Grupo de Revisión deben ser unánimes. Si el Grupo de Revisión no consigue, después de hacer esfuerzos de buena fe, llegar a un acuerdo, el asunto debe ser remitido a los representantes de ENEL y del Proveedor indicados para este propósito en el Contrato. Estos representantes se reunirán con prontitud y negociarán de buena fe para solucionar este problema.

26.3. **Responsabilidad.**

26.3.1. Las responsabilidades del Grupo de Revisión incluyen:

a) alentar y facilitar la cooperación y comunicación continuas entre las Partes;

b) supervisar y coordinar la transferencia de información;

c) evaluar de forma periódica la ejecución del Contrato;

d) discutir de buena fe todas las mejoras potenciales que pueden adoptarse durante la fase de ejecución.

26.3.2. A menos que se disponga lo contrario en el Contrato, el Grupo de Revisión se reunirá al menos una vez al año en ENEL u otros lugares acordados por las Partes. Alternativamente, el Grupo de Revisión puede reunirse por teleconferencia, videoconferencia u otro equipo de comunicación similar.

26.3.3. El presidente del Grupo de Revisión es responsable de enviar la agenda, razonablemente antes de todas las reuniones, y de la preparación de las actas finales de cada reunión.

26.3.4. Cualquier gasto por asistir a las reuniones correrá a cargo de cada Parte.

27. KPI.

27.1. El Proveedor debe ejecutar el Contrato cumpliendo los niveles de servicio, cuando esté expresamente previsto en el Contrato.

27.2. Las Partes supervisarán y verificarán el logro de los niveles de servicio en la forma y dentro de los términos establecidos en la cláusula "GOBERNANZA" de estas Condiciones Generales.

28. PACTO MUNDIAL.

28.1Cada una de las Partes reconoce el contenido de los denominados "Diez Principios" del Pacto Mundial de las Naciones Unidas, y declara gestionar sus actividades y operaciones empresariales para cumplir con dichas responsabilidades fundamentales en materia de derechos humanos, trabajo, medio ambiente y lucha contra la corrupción.

28.2 En particular, el Proveedor se compromete a asumir como propios y a cumplir plenamente con los principios del Pacto Mundial y con la ley, garantizando que todas las actividades realizadas, ya sea directamente o por sus subcontratistas, subsuministradores, terceros contratados por el Proveedor y toda su cadena de suministro, cumplen con los siguientes principios del Pacto Mundial:

a) DERECHOS HUMANOS.

Uno: Todas las empresas deben apoyar y respetar la protección de los derechos humanos reconocidos internacionalmente en la realización de sus actividades empresariales.

Dos: Todas las empresas deben garantizar que no participan en violaciones de los derechos humanos.

b) TRABAJO.

Tres: Todas las empresas deben apoyar la libertad de afiliación y el reconocimiento efectivo del derecho a la negociación colectiva.

Cuatro: Todas las empresas deben apoyar la eliminación de todas las formas de trabajos forzados realizados bajo coacción.

Cinco: Todas las empresas deben apoyar la eliminación del trabajo infantil.

Seis: Todas las empresas deben apoyar la eliminación de prácticas discriminatorias en el empleo y la educación.

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº [illegible]/11

c) MEDIO AMBIENTE.

Siete: Todas las empresas deben realizar sus negocios de forma preventiva para evitar un daño potencial al medio ambiente.

Ocho: Todas las empresas deben apoyar iniciativas destinadas a promover una mayor responsabilidad medioambiental.

Nueve: Todas las empresas deben favorecer el desarrollo y difusión de tecnologías que respeten el medio ambiente.

d) CORRUPCIÓN.

Diez: Todas las empresas deben trabajar contra la corrupción en todas sus formas, incluyendo la extorsión y el soborno.

28.3 El Proveedor se compromete a informar a ENEL de cualquier situación, también referida a sus subcontratistas, subsuministradores, terceros contratados por el Proveedor y toda su cadena de suministro, que pueda suponer un incumplimiento de dichos principios, así como del plan para remediar dichas situaciones.

28.4 Durante la Duración del Contrato, el Proveedor se compromete a permitir que ENEL verifique el grado de cumplimiento de los requisitos de esta cláusula mediante inspecciones, auditorías y/o solicitudes de documentación. En tales casos, el Proveedor tiene la obligación de conceder acceso a ENEL a sus instalaciones y de proporcionar con prontitud la documentación solicitada, y emplear sus mejores esfuerzos para conseguir que sus subcontratistas, subsuministradores, terceros contratados por el Proveedor y toda su cadena de suministro hagan lo mismo.

28.5 ENEL puede resolver el Contrato, por motivos atribuibles al Proveedor, en los casos en que tenga el conocimiento suficiente y justificable de que el Proveedor y/o cualquiera de sus subcontratistas, subsuministradores, terceros contratados por el Proveedor y toda su cadena de suministro han violado cualquiera de los principios mencionados anteriormente. El Proveedor deberá indemnizar y mantener indemne a ENEL por cualquier daño, pérdida, coste o gasto relacionado.

29. NORMATIVA DE CONDUCTA ÉTICA.

29.1 Generalidades.

29.1.1. El Grupo ENEL, en la gestión de sus actividades empresariales y de las relaciones con terceros se ajusta a lo establecido en su propio Código Ético, el Plan de Tolerancia Cero contra la corrupción y la Política de Derechos Humanos". El Proveedor, en la gestión de sus negocios y de las relaciones con terceros se compromete a cumplir dichos principios u otros equivalentes. Estos principios, así como el resto de Normativa de Conducta Ética, están disponibles en la dirección www.endesa.com.

29.1.2. El Proveedor reconoce los compromisos del Código Ético de ENEL y, en la gestión de sus negocios y de las relaciones con terceros declara referirse a compromisos equivalentes, y garantiza que sus subcontratistas, subsuministradores, terceros contratados por el Proveedor y toda su cadena de suministro hagan lo mismo.

29.1.3. El Proveedor cumplirá con los Convenios de la Organización Internacional del Trabajo (OIT), y con las obligaciones legales sobre la prevención del trabajo infantil y la protección de las mujeres; la igualdad de oportunidades; la prohibición de la discriminación; el abuso y el acoso; la libertad de asociación y representación; el trabajo forzado; la seguridad y la protección del medio ambiente; las condiciones de salud e higiene, y garantiza que sus subcontratistas, subsuministradores, terceros contratados por el Proveedor y toda su cadena de suministro hagan lo mismo.

29.1.4. El Proveedor además cumplirá con la legislación vigente en materia de salarios, pensiones y contribuciones a la seguridad social, seguros, impuestos, etc., en relación con todos los trabajadores empleados en la ejecución del Contrato y garantiza que sus subcontratistas, subsuministradores, terceros contratados por el Proveedor y toda su cadena de suministro hagan lo mismo. En caso de conflicto entre los reglamentos vigentes y los Convenios de la OIT, prevalecerán las normas más restrictivas.

29.1.5 Cada una de las Partes se compromete a evitar cualquier forma de corrupción. Por tanto, ENEL prohíbe y el Proveedor se compromete a no hacer uso de ningún tipo de promesa, oferta o solicitud de pago ilícito, en efectivo o mediante otro beneficio, con el fin de favorecer sus relaciones con partes interesadas. Esta prohibición se extiende a todos sus empleados y directivos. El Proveedor garantiza que sus subcontratistas, subsuministradores, terceros contratados por el Proveedor y toda su cadena de suministro hagan lo mismo.

29.1.6 ENEL se reserva el derecho de llevar a cabo cualquier actividad de control y seguimiento mediante inspecciones, auditorías y/o solicitudes de documentación, orientadas a verificar si se han cumplido los deberes antes mencionados, tanto por parte del Proveedor como por parte de cualquiera de sus subcontratistas, subsuministradores, terceros contratados por el Proveedor y toda su cadena de suministro. En tales casos, el Proveedor tiene la obligación de permitir el acceso a ENEL a sus instalaciones y de proporcionar rápidamente la documentación solicitada, así como de hacer todo lo posible para que sus subcontratistas, subsuministradores, terceros contratados por el Proveedor y toda su cadena de suministro hagan lo mismo.

29.1.7 En caso de incumplimiento de uno de estos deberes, ENEL se reserva el derecho de resolver el Contrato y el Proveedor deberá indemnizar y eximir a ENEL de cualquier daño, pérdida, coste o gasto relacionado.

29.2. Conflicto de interés.

Patricia Alvarez Chamosa

Nº 8381

29.2.1. Durante la ejecución del Contrato, el Proveedor está obligado a considerar de forma exclusiva los intereses de ENEL, garantizando que no se produzcan situaciones que puedan llevar a la existencia de un conflicto de intereses en relación con las actividades que se deben ejecutar.

29.2.2. Durante toda la Duración del Contrato, el Proveedor se compromete a comportarse de forma que se eviten los conflictos de intereses. Si se produce una situación que pueda generar un conflicto de intereses, sin perjuicio del derecho de ENEL a resolver el Contrato, el Proveedor se compromete a informar inmediatamente a ENEL por escrito y a cumplir con las instrucciones razonables de ésta, las cuales se dictarán tras consultar y evaluar las necesidades especificadas por el Proveedor

29.2.3. El Proveedor (si es una persona física), con la aceptación del Contrato, declara:

a. Que no ejerce, dentro de las sociedades del Grupo ENEL, funciones de Alta Dirección (director, gerente sénior con responsabilidades estratégicas), de empleado de sociedades del Grupo ENEL o de auditor de cuentas del Grupo ENEL;

b. Que no tiene, dentro de las sociedades del Grupo ENEL, familiares, parientes hasta el segundo grado, cónyuge no separado legalmente, conviviente, esposo o hijos de su pareja, que estén vinculados a él por consanguinidad o afinidad;

c. Que no ha ostentado u ostenta, tanto el Proveedor como sus respectivos familiares (cónyuge no separado o parientes de primer grado), en los últimos veinticuatro (24) meses, cargos en la Administración Pública o en Entidades encargadas de servicios públicos que hayan tenido relación directa con actividades realizadas por cualquiera de las sociedades del Grupo ENEL (otorgamiento de concesiones, actividades de control, etc.).

29.2.4. El Proveedor (si es una persona jurídica - los organismos públicos, las empresas que cotizan en bolsa de valores, las instituciones bancarias y las empresas controladas por ellos no están obligados por esta declaración-), con la aceptación del Contrato, declara que, como resultado del conocimiento de su estructura societaria, ninguna persona perteneciente a sus órganos de gobierno, de gestión o de control (incluidas las sociedades fiduciarias):

a. Es miembro de la Alta Dirección o de los Órganos de Administración o del Comité de Auditoría, ni ejecutivo con responsabilidad clave de las sociedades del Grupo ENEL, ni es familiar hasta el segundo grado, cónyuge, pareja, hijo de un cónyuge o pareja, o persona dependiente (por parentesco o matrimonio) de los citados miembros.

b. Es empleado de alguna de las sociedades del Grupo ENEL, ni es familiar hasta el segundo grado, cónyuge, pareja, hijo de un cónyuge o pareja, o persona dependiente (por parentesco o matrimonio) del citado empleado.

c. Ha ostentado u ostenta, tanto la propia persona como sus respectivos familiares (cónyuge no separado o parientes de primer grado), en los últimos veinticuatro (24) meses, cargos en la Administración Pública o en Entidades encargadas de servicios públicos que hayan tenido relación directa con actividades realizadas por cualquiera de las sociedades del Grupo ENEL (otorgamiento de concesiones, actividades de control, etc.).

29.2.5. El Proveedor, sea persona física o jurídica, se obliga a comunicar a ENEL cualquier cambio que pudiera producirse posteriormente y mientras tenga la condición activa de Proveedor, respecto a la información declarada antes de la firma del Contrato.

29.3 Cláusula de honorabilidad.

29.3.1 Con la firma del Contrato, el Proveedor declara:

a) ser consciente de los compromisos adquiridos ante ENEL S.p.A. y ante las sociedades que controla directa o indirectamente (en adelante "ENEL"), contenidos en el Código Ético, el Plan de Tolerancia Cero contra la Corrupción y en la Política de Derechos Humanos, de respetar los principios equivalentes en la conducción de sus negocios y en la gestión de las relaciones con terceros;

b) no estar sujeto a proceso penal por delitos fiscales, delitos contra de la Administración pública, delitos contra la propiedad, delitos contra la libertad personal, el orden público, o delitos ambientales;

c) no estar sometido a investigación penal en relación con ningún hecho o materia, o con una conducta ilícita que constituya delitos fiscales, delitos contra la Administración pública, delitos contra la propiedad, delitos contra la libertad personal, el orden público, o delitos ambientales;

d) ser consciente y autorizar que, para los fines de evaluación de su conducta profesional de conformidad con los apartados b) y c), ENEL puede adquirir de manera autónoma más información, en cualquier momento, teniendo en cuenta la necesaria existencia de deberes de lealtad del Proveedor.

29.3.2. El Proveedor se compromete a informar inmediatamente y proporcionar toda la documentación pertinente a ENEL:

a. en el caso de conocimiento de estar sujeto a proceso penal según se hace referencia en el punto b) del anterior apartado;

b. en el caso de conocimiento de estar sometido a investigación penal según se hace referencia en el punto c) del anterior apartado.

ENEL se reserva el derecho de analizar a su discreción la información antes mencionada, para los fines de evaluación de la conducta profesional del Proveedor.

29.4. **Salud y Seguridad.**

29.4.1 ENEL no permite realizar ningún trabajo que comprometa la salud y la seguridad y/o la protección del medio ambiente. Por ello, tal y como se establece en la "Stop Work Policy", cualquier situación de riesgo o comportamiento inseguro determinará la suspensión del trabajo y el restablecimiento de las condiciones de salud, seguridad y/o protección del medio ambiente.

29.4.2 ENEL se compromete firme y constantemente a promover y consolidar una cultura de protección de la salud, la seguridad y el medio ambiente. Dicho compromiso se detalla en la "Declaration of Commitment to Health and Safety", "Stop Work Policy"y la "Environmental Policy" que se pueden encontrar en las siguientes direcciones:

http://globalprocurement.enel.com, en el apartado "Otros documentos útiles" y

https://globalprocurement.enel.com/documents/health-and-safety-documents y

https://corporate.enel.it/en/company/policy-environmental-enel.

29.4.3. El Proveedor reconoce el compromiso de ENEL en la promoción y consolidación de una cultura de protección de la salud, la seguridad y el medio ambiente, y se compromete a cumplir con los mismos principios y con las disposiciones de los HSE Terms, cuando sean aplicables así como a garantizar que sus subcontratistas, subsuministradores, terceros contratados por el Proveedor y toda su cadena de suministro cumplan con los mismos.

29.5. **Código Ético del Proveedor.**

Alternativamente, si el Proveedor tiene su propio Código Ético y sus propias políticas contra la corrupción y sobre el respeto de los derechos humanos, ENEL puede reconocer, a su entera discreción, dichos documentos siempre que se refieran a principios considerados similares a los establecidos en los homólogos documentos de ENEL.

30 SANCIONES INTERNACIONALES Y DECISIONES SOBRE CONTROL DE EXPORTACIONES.

30.1 Cada una de las Partes declara y garantiza a la otra que, en la fecha de entrada en vigor del Contrato, ninguna de ellas, según su mejor conocimiento, tras la debida investigación, ni ninguno de sus directivos, ni los miembros de su órgano de gobierno, ni los accionistas que posean al menos un cinco por ciento (5%) de participación en cualquiera de las Partes o en cualquier empresa de la que cualquiera de las Partes sea propietaria en al menos un cincuenta por ciento (50%) o que controle de otro modo, o que esté bajo el control común de la empresa matriz final, están:

(i) sujetos a sanciones, o
(ii) participan en cualquier actividad o han participado previamente en cualquier actividad que pueda crear exposición a sanciones. Por "sanciones" se entiende todas las sanciones económicas o financieras aplicables o los embargos comerciales impuestos o aplicados sobre la base de leyes, reglamentos, órdenes ejecutivas, medidas restrictivas u otras normas conexas impuestas o notificadas públicamente por
    a) las Naciones Unidas;
    b) la Unión Europea;
    c) el gobierno de Estados Unidos, incluidas los administrados por la Oficina de Control de Activos Extranjeros del Departamento del Tesoro de Estados Unidos;
    d) el Tesoro de Su Majestad del Reino Unido; o
    e) la República de Italia.

30.2. Cada Parte cumplirá plenamente con todos los requisitos legales relativos a las sanciones en relación con su ejecución del Contrato.

30.3. Cada una de las Partes se compromete a mantener en vigor y a hacer cumplir las políticas y los procedimientos destinados a evitar la aplicación de cualquier sanción, y a comunicar rápidamente por escrito a la otra Parte la apertura de cualquier procedimiento que pueda conducir a la imposición de una sanción y, en cualquier caso, la aplicación de cualquier sanción durante toda la Duración del Contrato.

30.4. Además, el Proveedor declara que según su mejor conocimiento, tras la debida investigación, sus subcontratistas, subsuministradores, terceros contratados por el Proveedor y toda su cadena de suministro no están sujetos a ninguna sanción, y comunicará inmediatamente por escrito, de conformidad con la cláusula "COMUNICACIONES" de estas Condiciones Generales, a ENEL cualquier circunstancia de la que tenga conocimiento relativa a la aplicación de cualquier sanción, a lo largo de la Duración del Contrato, contra sus subcontratistas, subsuministradores, terceros contratados por el Proveedor y toda su cadena de suministro.

30.5. ENEL podrá resolver el Contrato, previo aviso por escrito de siete (7) días naturales, en caso de que el Proveedor o cualquiera de sus subcontratistas, subsuministradores, terceros contratados por el Proveedor y operadores pertenecientes a toda su cadena de suministro sean objeto de una sanción durante la vigencia del Contrato, o si el Proveedor proporciona declaraciones engañosas en virtud de esta cláusula. Sólo en este último caso, el Proveedor indemnizará y mantendrá indemne a ENEL por cualquier daño, pérdida, coste o gasto relacionado.

En dichos casos de resolución, las Partes podrán negociar de buena fe para mitigar en lo posible cualquier pérdida o daño en relación con las sanciones o derivado de las mismas, dentro del periodo de notificación de la resolución. A falta de dicho acuerdo,

Patricia Alvarez Chamosa
Traductora/Intérprete Jurada de INGLÉS
Nº 9391

en el plazo de siete (7) días naturales a partir de la notificación de resolución, el Contrato quedará automáticamente resuelto, sin perjuicio de cualquier otro recurso que pudiera corresponder en virtud de la Ley o del Contrato.

31. LEY APLICABLE.

El Contrato y todas las cuestiones que puedan surgir entre las Partes en relación o conexión con él, se regirán e interpretarán exclusivamente de acuerdo con la Ley española, a la que el Proveedor y ENEL se someten expresamente.

32. JURISDICCIÓN Y SOLUCIÓN DE CONFLICTOS.

Las Partes, con renuncia a cualquier otro fuero que pudiera corresponderles, se someten expresamente a la jurisdicción y competencia de los Juzgados y Tribunales de Madrid (Capital) para la solución de cualquier controversia, cuestión, incidencia o litigio que pudiera suscitarse en la interpretación, ejecución y cumplimiento del Contrato, y que no pudiera solucionarse de forma amistosa entre ENEL y el Proveedor.
