1. SCOPE.

1.1 These General Conditions apply to contracts for professional services on Institutional, Regulatory Affairs, Business Development and Merger & Acquisition and consultancy services (hereinafter also "General Conditions") governed by Italian law and entered into by and between companies of the Enel Group (hereinafter also referred to as "ENEL") and a Supplier (hereinafter ENEL and Supplier also referred to as the "Parties").

These General Conditions shall apply, without prejudice to any other agreement in that regard, taking into account the criterion of prevalence set out in article 4 below – "Interpretation and hierarchy".

1.2 The Order Letter includes the Web page where these General Conditions are available and, for those who cannot access said Web page and upon request, we will send a copy in digital/paper format.

1.3 Any exception to these General Conditions proposed by the Supplier, shall be valid and effective only if made in writing and accepted by ENEL in writing and shall apply only to the contract for which it has been proposed, excluding the possibility that the exception can be extended to other ongoing contracts or that will be potentially entered later with the same Supplier.

2. DEFINITIONS.

2.1 The following definitions, amongst other, are used in this document:

- **Professional Services on Institutional, Regulatory Affairs, Business Development and Merger & Acquisition and consultancy services (hereinafter also "Contract"):** Contract for pecuniary interest, whose subject and other contractual requirements are indicated in the Order Letter, entered into between ENEL and the Supplier and composed of contractual documents that form its integral part, indicated below, which govern in writing the obligations of the Parties:

4. INTERPRETATION AND HIERARCHY.

4.1 In case of non-compliances or incompatibility between the documents of the contract, the prevalence is determined by the progressive order specified below:

1. **Order Letter;**
2. **Technical-economic documents** (Technical Specification, Consideration or Price List, any additional doc)
3. **General Conditions.**

5. SERVICE SUPPLIER'S OBLIGATIONS

5.1 General.

5.1.1 The Supplier under its exclusive responsibility, shall comply with the legislative provisions applicable to the Contract.

5.1.2 By entering into the Contract, the Supplier undertakes - throughout its term – to provide the services covered by it with its means, facilities and resources and with the best professional diligence and the available technologies and according to the conditions,

methods, terms and provisions contained in the same Contract, making use of qualified and suitable individuals for the completion of the activities in which they are employed.

5.1.3 Anything necessary to carry out the services covered by the Contract shall be completely at the expense of the Supplier.

5.1.4 In addition, the Supplier:

1. undertakes to inform immediately ENEL about any variation occurred in respect of the contents of the Statements made to ENEL for the purposes of the awarding of the Contract
2. declares to be aware that ENEL may, at any time, verify the truthfulness and the currency of the Statements made, and commits to provide, upon ENEL's request, further supporting documents.

If the relevant information should be found outdated and/or the documentation requested by ENEL should not be supplied, ENEL may, without prejudice to the right for compensation of damages, – at its sole discretion – refuse to grant or suspend or exclude the Supplier from ENEL's Qualification System or may immediately terminate, pursuant to sect. 1456 of the Italian Civil Code, the Contract(s) on the basis of the misstatements.

6. WORKING GROUP.

6.1 Without prejudice to the application of the provisions of article 5 above "SERVICE SUPPLIER'S OBLIGATIONS" the Supplier undertakes to dedicate a specific working group whose members are identified and selected for their specific skills and expertise in this field.

The members of the Working group can be replaced, prior consent of Enel, with other members having the same professional skills and characteristics.

Said working group shall perform the services in compliance with the contractual provisions.

7. TERM OF THE CONTRACT – CONTRACTUAL TERMS FOR PROVISION OF SERVICES.

7.1 The term of the Contract and possible contractual terms for provision of services are defined in the Order Letter.

8. ECONOMIC TERMS (CONTRACTUAL AMOUNT AND PRICES).

8.1 The consideration agreed for the provision of the services covered by the Contract is specified in the order letter.

8.2 The Supplier acknowledges the consideration as unchanged throughout the Contract and totally profitable for the activities covered by the Contract.

9. INVOICING.

9.1 General.

9.1.1 In 2020, Enel has joined the new optional fiscal system of "VAT Group" (see article 70-ter of Dpr n. 633 of 1972). This system provides for the establishment of a single and autonomous VAT taxable entity with a single "Group VAT number" for all the member companies. The establishment of Enel "VAT Group" will be effective from January 1st, 2021. The list of Enel companies included in the "VAT Group" to which is associated the same single "Group VAT number" is available on the Global Procurement web portal at the following link "<https://globalprocurement.enel.com/documents/enel-vat-group>". The application of such system implies the non-application of the VAT Split Payment Regime for Italian Enel companies members of the "VAT Group" from January 1st, 2021. In addition to the "Group VAT number", the same for all Enel member companies, the indication on the invoice of the Enel client company tax code of the becomes mandatory.

9.1.2 The considerations shall be invoiced by the Supplier according to the procedures and time limits set out in the Contract.

9.1.3 the submission of the invoices may be made through ENEL's electronic systems (the Procurement Portal where Enel operates as an intermediary for the E-Invoice Interchange System). The use of the Enel Portal for the submission of the invoices digitalizes the document management process for the administrative department of ENEL ensuring the application of the payment terms.

9.1.4 Furthermore, according to the technical specifications under Attachment A by the Revenue Agency Director of April 30th 2018, an intermediary is any third party, appointed by the supplier/provider to submit on its behalf the electronic invoices through the Interchange System (SDI, Sistema di Interscambio).

9.1.5 Thus, ENEL operates free of charge as an intermediary for the SDI exclusively and limited to the invoices received from its suppliers (documents and information that ENEL is already entitled to receive as customer), excluding those issued by the suppliers to subjects other than ENEL.

9.1.6 ENEL undertakes to submit all the invoices received to the SDI by virtue of the intermediary role assigned by the Supplier, separating this activity from the role of controller, generally played by the customer/recipient, of the services received. However, the submission of the invoices to the SDI does not automatically imply the recognition of the credit, which is subject to confirmation by ENEL as customer.

9.1.7 Enel does not carry out activities to the SDI other than those of intermediary (including issuer in the name and on behalf of the Supplier of invoice pursuant to sect. 21 of the VAT Presidential Decree, or the intermediary as specified in sect. 3 par. 3 of the Decree of the President of the Republic no. 322 of July 22nd 1998 - such as labour consultant, accountant, tax advisor, bookkeeper - representing the only subject who may be delegated to view and process the e-invoices or their electronic copies available in the reserved area of the Revenue Agency website).

9.1.8 Even if the Contract provides that the payment may be made with different currencies, each invoice shall be issued in a single currency.

9.1.9 The invoice shall be valid, and ENEL may accept it, only if the invoice specifies all the data required by the Contract and by the applicable regulations, and if the contractual activity has been properly performed. Invoices shall specify all the information provided for by the applicable tax regulations. In particular, the Budget Law 2018 (Law no. 205 of December 27th 2017) imposes the obligation to issue the e-invoice between private parties from January 1st 2019. The invoices shall be issued according to the technical specifications approved by Revenue Agency Director decree of April 30th 2018 and shall be sent by the SDI (Interchange System), except for the exempted small/flat/agrarian taxpayers and for the transactions with subjects located outside the country. Attachment 6 specifies the technical details required for the proper management of e-invoicing for Enel. If the invoice is issued in a way other than those provided (e.g. paper form), it shall be considered as not issued, as set out by the applicable law provisions.

9.1.10 Non-resident suppliers, may send invoices only in TIFF/PDF format, using the relevant channel available on the WEB EDI Portal.

9.1.11 Except if the Temporary Association of Companies or the ordinary Consortium have their own VAT number, each company of the Association or of the Consortium shall invoice the relevant amount for the services or works performed also for the purposes to comply with the obligations of financial traceability referred to in art. 11 below "TRACEABILITY OF FINANCIAL FLOWS". The invoices issued by each principal company to ENEL shall be accompanied by the approval of the agent company.

9.1.12 ENEL reserves the right to refuse to execute the payments if the Supplier does not properly perform the contractual obligations and/or if the Supplier does not comply with the statutory requirements, with particular reference to the relevant Bodies, the labour force used and any third party and does not comply with the provisions of art. 11 below "TRACEABILITY OF FINANCIAL FLOWS".

9.1.13 The Supplier may not grant any order for collection to third parties nor any form of payment authorisation.

10. PAYMENTS.

10.1 Before the issue of any invoice the Supplier shall require to the ENEL Unit managing the contract the approval for invoicing. Enel's approval shall be granted upon performance by Enel of any applicable statutory or contractual check for the assessment of the compliance of services with the contractual provisions.

10.2 Invoice payment, by bank transfer and with fixed value date for the payee, shall be made on the third last working day of the month in which falls the 60-days EOM term from the reception of the invoices, provided that invoices received by ENEL specify the details of the invoicing authorisation (payment authorisation). In the absence of the payment authorisation, available on the features of the Portal, the invoices shall alternatively always include:

- the purchase order number;
- the Unit where the service or supply has been performed.

10.3 If the invoice does not include the above mentioned details (invoicing authorisation, purchase order number or Enel Unit code), they shall not be accepted nor considered for the calculation of the date of receipt (for e-invoices not sent through the Enel Portal, please see the details of the Attachment for the identification of the fields to be used to enter the invoicing authorisation, purchase order or Enel Unit code).

10.4 If the contract is part of public investment projects or programs, ENEL will provide to Contractor the Unique Project Code (CUP) and / or the Tender Identification Code (CIG), where available. The supplier is obliged to put these codes in the invoice. If the

CUP and / or the CIG were provided by ENEL but were not indicated in the invoice as specified in Annex 6, ENEL will not be able to proceed with the payment of the invoice.

10.5 If the payment date, as described above, falls on Monday or Tuesday, the payment shall be postponed to Wednesday, if it is a working day; otherwise, the payment date shall not be modified.

10.6 In case of payments after the contractual term, if such delay is attributable to ENEL, the Supplier shall be entitled to interest for late payment, to the extent of the legal interest specified below:

1. For the first six months of the year which the delay refers to, the legal interests for late payment effective on January 1st of the relevant year shall apply;
2. For the second six-month period of the year which the delay refers to, the legal interests for late payment effective on July 1st of the relevant year shall apply;

10.7 For the application of the interest rate specified in points 1 and 2 above, reference shall be made to the interest rate published in the Official Journal of the Italian Republic, by the Ministry of Economy and Finance, in the fifth working day of each calendar half-year. Late payment interests apply, with no need for issuance of a formal notice of default, from the day after the payment date set out in the Contract.

10.8 If the creditor proves that any cost was suffered to collect the receivables, a lump sum of Euros 40 (forty/00) as compensation for damages shall be payable to the creditor, with no need for issuance of a formal notice of default. This shall not prejudice the right to prove greater damages, which may include the costs suffered to recover the receivables.

11. TRACEABILITY OF FINANCIAL FLOWS¹

11.1 The Supplier undertakes any obligation pursuant to sect.3, Italian law no. 136 of August 13th 2010 (Traceability of financial flows), as amended by the Decree-Law No. 187, of November 12th 2010, converted with Law No.217 of December 17th 2010.

11.2 In particular, to ensure the traceability of financial flows for the purposes to prevent criminal infiltration, the Supplier, subcontractors of the chain of companies, as well as beneficiaries of public funds, including European funds, interested for any reason in the Contract shall use one or more dedicated bank or post accounts opened with banks or the company Poste Italian Spa, even not exclusively - without prejudice to the provisions of paragraph 5 of the aforementioned sect.3, law no.136 of August 13th 2010

11.3 In addition, any financial transaction related to the Contract, as well as to the management of said funds shall be registered on dedicated current account and, without prejudice to the provisions of paragraph 3 of the aforementioned sect.3, law no.136 of August 13th 2010, shall be exclusively carried out through bank or post transfer or rather other suitable means of payment and collection to allow the full traceability of transactions.

11.4 The Supplier shall communicate, to the competent ENEL's Administrative Units, the details of the dedicated current account referred to above within seven days from the opening or, in case of existing current accounts, from their first use in financial transactions related to the Contract, as well as, within the same deadline, the personal details and tax code of people authorised to operate on said account.

11.5 Likewise, and in the same way, the subcontractor through the Supplier, shall communicate to the ENEL's Unit managing the Contract the data referred to above.

11.6 The Supplier or subcontractor who knows that its counterparty does not fulfil its obligations of financial traceability, shall inform ENEL and the Prefecture Territorial Government Office having territorial jurisdiction.

11.7 The Supplier undertakes also to include in the contracts with its subcontractors a similar clause with which each of them undertakes all the obligations of traceability of financial flows referred to in the aforementioned sect.3, law no.136 of August 13th 2010.

11.8 In case of violation, by the Supplier, of only one of the obligations provided for by sect.3, law no.136 of August 13th 2010 or this article, the Contract shall be deemed legally terminated, pursuant to and in accordance with sect.1456 of the Italian Civil Code.

11.9 In case, besides the CIG (Tender Identification Code), it is envisaged the compulsory issue of the Individual Project Code (CUP), ENEL shall communicate said code to the Supplier that shall indicate it in each relevant transaction pursuant to art. 10.1.14.

12. TAXES/LEVIES.

12.1 ENEL, upon payment of the consideration for services received, shall apply on the Supplier's payments possible withholdings due as taxes, duties and contributions (with tax effect) in accordance with the applicable law in the country of residence of the Supplier and/or any other law applicable to the Contract.

12.2 The Parties mutually undertake to perform any obligation, handle any administrative formality and deliver any document required to settle the payment of taxes, including deductions and other legal obligations applicable to the Supplier, according to the procedures laid down by the applicable law provisions.

¹ The clause shall exclusively apply to Contracts awarded pursuant to the applicable public procurement law (Public procurement code).

Likewise, the Parties undertake to cooperate in order to be granted exemptions or other tax benefits applicable to the Contract. If, due to lack of diligence or any other cause attributable to the Supplier, ENEL should lose its right to a tax benefit, ENEL may deduct the amount of the relevant tax benefit from the amount due to the Supplier.

All the taxes, duties (therein included registration tax and stamp duty), tax rights and charges applicable to the subject of the Contract shall be borne by the Supplier.

If any treaty to avoid double taxation has been entered into between the country of residence of the Supplier and the country of residence of the relevant ENEL Group company, and if the Supplier requests the application of the provisions of such treaty, the Supplier shall submit to ENEL its tax residence certificate (or any other certificate/statement required for the application of the provisions against double taxation) certifying the tax residence for the purposes of the provisions of the treaty in question; in order to allow the identification of the type of income subject to the treaty for the avoidance of double taxation, the Supplier shall take into account the interpretation given in the country where the ENEL Group company has its head office. Normally this certificate is valid for one year, except if the laws of the country where the ENEL Group company has its head office set out a shorter period. However, upon expiry of each certificate, the Supplier shall submit a valid certificate.

13. ASSIGNMENT OF THE CREDIT.

13.3 For the purposes of the Contract, assignment of credits means the assignment of all the credits arising from the Contract to a single assignee meeting the requirements set out in paragraph 13.1. 13.4 The payments related to the credits assigned may occur in favour of the assignee exclusively on a bank account in the name of the latter. The assignment shall be notified by the assignor or the assignee according to the provisions of point 13.2; if the assignment is made by the assignee, it shall include as an attachment the assignment agreement signed by both assignor and assignee.

13.5 It is understood that ENEL reserves the right to refrain from paying the assigned credit to an assignee that is not a Bank or a Financial Intermediary enrolled in one of the relevant Registers and lists as per Legislative Decree no. 385 of September 1st 1993 and if the notification was not given to the relevant ENEL company according to the provisions of points 13.2, 13.3 and 13.4 above. Regulations for the use of ENEL IT systems

Access to the IT systems owned by the Enel Group and their related use must be made in compliance with the security rules listed hereinbelow:

- credentials for log-in to Enel IT systems are personal and must be used only as such. The related password must be kept strictly secret and changed at least every 60 days;
- access to the IT system must be limited to the components instrumental to perform the activities envisaged in the assignment, even if the security measures taken do not prevent access to other components. Use of network services and connection of equipment other than that required to perform the duties is not permitted;
- operations carried out with Enel IT systems must not be in breach of the laws of the State and international regulations;
- the workstation used to perform the duties (fixed and/or portable) must not be used for any connection to the Internet other than that which may be made available by Enel;
- portable PCs may be connected to the Enel data network only if updated antivirus software is installed on them. In particular, all possible countermeasures must be taken to prevent the spread of viruses, worms, hoaxes, trojan horses and any other illegal software that may cause interruption of the IT service;
- no texts and/or images created/transmitted by Enel IT systems may include offensive and/or indecorous contents;
- any e-mail address provided for use may not be used to start "spamming" actions or to perpetuate chain letters.

In relation to the foregoing rules, Enel reserves the right to prevent distorted use of its IT infrastructures, without prejudice to the provisions of the applicable laws. Enel also reserves the possibility of reporting any possible breach that constitutes a crime to the competent Judicial Authorities.

ATTACHMENT 6: E-invoicing obligation

In order to avoid the impossibility by the Companies of the Enel Group based in Italy to process invoices sent through channels not provided for by the new law, all the suppliers shall verify, before issuing the invoice, if they fall within the aforementioned obligation.

Some key fields to be filled in the e-invoice (XML trace) are indicated below to minimize the difficulties in processing them in the Enel's management systems, in order to ensure the payment within contractual terms.

- Transmission data
- Failed Delivery Notification
- Purchase order
- Stamp duty
- VAT chargeability
- CIG/CUP
- Transport Document
- Reception Data
- Attachments

The indications supplied may be subject to integration/modification after update by the Revenue Agency or to integrate information or data that should be necessary for Enel in the process of registration of invoices.

Transmission data

The transmission of invoices or notes of variation to Enel Companies shall occur by using the Transmission Format – reference XML trace [1.1.3] – provided for the invoicing between private parties or B2B (FPR12) which provides for a 7-digit Recipient Code “0000000”

Example of correct completion

<FormatoTrasmissione>FPR12</FormatoTrasmissione>	[Transmission Format]
<CodiceDestinatario>0000000</CodiceDestinatario>	[Recipient Code]

The Enel Companies do not supply any Certified e-mail address and recipient code. The Enel companies have made use of the pre-registration service available in the website of the Revenue Agency. To deliver the e-invoices suffice to correctly indicate the Recipient Code 0000000 and the VAT Number of the Enel Customer Company.

The SDI (Interchange System) will send the document to the online address communicated with the “registration service” to the detriment of the address, if different, whether reported or not in the e-invoice.

Therefore, the VAT Number and the recipient code must be correctly indicated.

It is important to correctly indicate the VAT number in the correct position of the XML trace [1.4.1.1]

Correct example referred to one of the Companies of the Enel Group (Enel Company Sole S.r.l)

<CessionarioCommittente>	[Buyer/Orderer (customer)]

<Anagrafica>	[identity data of the seller's/provider's tax representative]
<Denominazione>Enel Sole S.r.l</Denominazione>	[Company name]

Failed Delivery Notification

In case, for technical reasons not attributable to the SDI, the delivery was not possible (e.g., full or inactive certified e-mail address or rather inactive online channel), the SDI makes available for the buyer/orderer (customer) the e-invoice in its reserved area of the website of the Revenue Agency, notifying said information to the sender. The seller/provider (supplier) shall promptly inform the Companies of the Enel Group, through **e-mail address**, that the original of the e-invoice is available in the reserved area of the website of the Revenue Agency. The suppliers are kindly invited to produce the communication indicating **copy of the failed delivery notification** and IT or analogue copy of the e-invoice, for the purposes to allow us to process the invoice in due time for the payment.

Purchase order

The order ID, if provided by the Enel Companies, as well as provided for by the Contract, shall be included in the invoice and finds its position in DatiOrdineAcquisto [2.1.2] [Purchase order information] in the section IdDocumento [2.1.2.2] [Document ID]. If it was entered in other fields, e.g. “DatiContratto o altro campo descrittivo” [Contract information or other descriptive field], the element will not be recognised by our systems.

The purchase order ID of Enel Companies is always a 10-digit alphanumeric code. Therefore, we ask to pay attention to the correct completion of the specific block:

Correct example of completion: the order was entered in the correct block

<DatiOrdineAcquisto>	[Purchase order information]
<RiferimentoNumeroLinea>1</RiferimentoNumeroLinea>	[row of the invoice to which the transport document refers]
<IdDocumento>4500001164</IdDocumento>	[document number]

<NumItem>00010</NumItem> [identification of the single item on the document]
 <DatiOrdineAcquisto> [Purchase order information]

Example of wrong completion: the purchase order was entered in the contract block

<DatiContratto> [block containing the information relative to the contract]
 <RiferimentoNumeroLinea>1</RiferimentoNumeroLinea> [row of the invoice to which the transport document refers]
 <IdDocumento>4500001164</IdDocumento> [document number]
 <NumItem>00010</NumItem> [identification of the single item on the document]
 <DatiContratto> [block containing the information relative to the contract]

Example of correct completion: the purchase order and the contract have been entered in the correct positions

<DatiOrdineAcquisto> [Purchase order information]
 <RiferimentoNumeroLinea>1</RiferimentoNumeroLinea> [row of the invoice to which the transport document refers]
 <IdDocumento>4500001164</IdDocumento> [document number]
 <NumItem>00010</NumItem> [identification of the single item on the document]

 <DatiContratto> [block containing the information relative to the contract]
 <IdDocumento>8400126611</IdDocumento> [document number]
 <DatiContratto> [block containing the information relative to the contract]

Stamp duty

In case the stamp duty shall be paid, the information of the specific block DatiBollo [2.1.1.6] [stamp duty] shall be completed:

- [2.1.1.6.1] BolloVirtuale SI [Virtual stamp duty YES]
- [2.1.1.6.2] ImportoBollo 2.00 [stamp duty value]

We remind that for invoices with an amount below euros 77,47 the stamp duty shall not be applied.

<DatiBollo> [stamp duty]
 <BolloVirtuale>SI</BolloVirtuale> [Virtual stamp duty YES]
 <ImportoBollo>2.00</ImportoBollo> [stamp duty value]
 <DatiBollo> [stamp duty]

If the Supplier completes the specific field mentioned above without, contextually, enter a detail row for the stamp duty value of 2 euros, the stamp duty amount will be deemed at the expense of the Supplier. Vice versa, it will be deemed at the expense of the customer if the Supplier enter the relevant detail row making the stamp duty value flow into the invoice total amount.

A correct example in the position of the row is shown here below:

<DettaglioLinee> [block always obligatory containing the detail rows of the document]
 <NumeroLinea>2</NumeroLinea> [number of the detail row of the document]
 <Descrizione>Bollo</Descrizione> [stamp duty description]
 <Quantita>1.00</Quantita> [quantity]

<PrezzoUnitario>2.00</PrezzoUnitario>	[unit price]
<PrezzoTotale>2.00</PrezzoTotale>	[total price]
<AliquotaIVA>0.00</AliquotaIVA>	[VAT rate applied]
<Natura>N1</Natura>	[nature of the transaction]
<DettaglioLinee>	[block always obligatory containing the detail rows of the document]

VAT chargeability

In principle, the Companies of the Enel Group fall within the split payment mechanism. For this reason, only e-invoices issued under the split payment regime can be accepted and any other VAT chargeability system will not be accepted entailing **the refusal of the invoice and the failed payment**. We invite you to look up the valid lists for the purposes of the application of the split payment regime in the website of the Ministry of Economy and Finance – Finance Department.
