1. Scope of Application.

According to the wording contained in the clause of the same name in the main body of the General Terms and Conditions of Contract.

2. Definitions.

- **FINAL ACCEPTANCE CERTIFICATE:** Certificate or document confirming final acceptance and conclusion of the Warranty Period in respect of the materials or equipment purchased or the contracted works or service, which must be signed by both parties to be valid.
- **PROVISIONAL ACCEPTANCE CERTIFICATE:** Certificate or document, which must be signed by both parties to be valid, referring to the following:
 1. The satisfactory result of the tests, trials or final inspections on a specific piece of equipment or material received by ENEL or the repair or correction of defects noted in them, where applicable, or
 2. The satisfactory result of the examination of the good working condition of the contracted service and the compliance with technical standards and contractual clauses in terms of execution, production and commissioning, in the applicable areas.
- **WORKS AND SERVICES INSPECTION CERTIFICATE:** Certificate that records any defects found in the completed works or services and the timeframe in which they must be rectified by the SUPPLIER.
- **DELIVERY NOTE:** Commercial document containing a list of the goods supplied and accrediting their effective delivery.
- **CONSIGNMENT AUTHORISATION:** Document issued by ENEL authorising the SUPPLIER to proceed with the consignment of the contracted equipment or material, or a part of the same.
- **DISPATCH NOTICE:** Document issued by the SUPPLIER once all specified procedures have been followed, informing ENEL that the contracted equipment or material or a portion thereof have been dispatched.
- **QUALITY AGREEMENT:** Agreement between ENEL and the SUPPLIER, under which the former has a certain degree of liability for the acquisition, guaranteeing quality levels that have been previously agreed by both Parties.

- **LETTER OF INTENT or NOTICE TO PROCEED:** Non-binding agreement outlining the commitments that may or may not be formalised in a Contract at a future date.
- **GUARANTEE COMMITMENT:** Set of technical and commercial guarantees covering the materials and equipment purchased and/or the contracted works or services, which the SUPPLIER undertakes to honour.
- **INSPECTOR:** Person or body appointed by ENEL to carry out inspections in any stage during the implementation of the Contract.
- **REQUEST FOR OFFERS:** Document through which ENEL issues its request for bids. This document will consist of the Technical, Commercial and Legal Specifications, including these General Terms and Conditions.
- **QUALITY CONTROL PLAN:** Document issued by the SUPPLIER specifying the processes, procedures and associated resources that will be used to meet the Contract's requirements.
- **INSPECTION POINTS PROGRAMME:** Document issued by the SUPPLIER and subject to ENEL's approval, recording the various inspections, tests, trials or checks that must be carried out.
- **ACCEPTANCE AT SOURCE:** Procedure during which the mandatory tests or checks for the handover of the materials are carried out in the presence of ENEL's technicians or of the person or body appointed by ENEL, in the SUPPLIER's facilities, those of its subcontractor or any other company agreed by the Parties.
- **ACCEPTANCE PROTOCOL:** Procedure for checking the mandatory testing protocols that have been previously carried out by the SUPPLIER, through which ENEL's technicians or the person or body authorised by ENEL, approve the consignment of the material in question or, on the contrary, decide to check results of said protocols through an Acceptance at Source procedure.
- **QUALITY ASSURANCE SYSTEM:** System establishing the requirements that the SUPPLIER must fulfil in order to provide the materials/services that are the subject of the Contract effectively and correctly.

3. Language.

The original version of this Annex III Colombia is written in Spanish.

4. Formalisation.

- 4.1 In negotiations where the quantity is not determined, the formalisation of the contract may be performed through a commercial offer accepted by a purchase order or a service order.

5. Interpretation.

All matters regulated in this Annex shall be primarily governed by the terms outlined in the clauses of the same name, and additionally by the terms outlined in the clauses of the same name in the main body of the General Terms and Conditions of Contract.

Matters whose regulation in the Annex expressly states that they shall be governed directly according to the wording contained in the clause of the same name in the main body of the General Terms and Conditions of Contract, shall be excluded from the provisions of the previous paragraph.

6. Notices.

According to the wording in the clause of the same name in the main body of the General Terms and Conditions of Contract.

7. Financial conditions.

7.1. Prices.

- 7.1.1. In the provision of a work or service, the Contract price includes, as a minimum and unless expressly included in other terms, the following:

- Direct and indirect labour.
- Machinery and associated personnel.
- Amortisation of machinery.
- Consumable supplies and permanent materials.
- Transportation of personnel, materials and resources to and from the place of work.
- Installation and authorisation of services.
- Maintenance costs.
- Overheads and business profit.
- The legally corresponding taxes, levies and duties.
- Expenses incurred by the SUPPLIER in programming, inspections and tests, controlling materials and execution methods, tests, deliveries and other analyses.

- Complete fulfilment of all the work units, in accordance with the technical specifications and all other contractual documents.
 - Construction, demolition and removal of the auxiliary works, installations, security or storage facilities or installations built in compliance with the Regulation for the Prevention of Occupational Risks.
 - Costs of financial guarantees, insurance and warranties, where applicable.
- 7.1.2. The prices shall be itemised by price of services, price of materials and the legally corresponding taxes.
- 7.1.3. The SUPPLIER shall pay any additional costs incurred in freightage and transportation and any expenses incurred due to the failure to fulfil the delivery and consignment conditions established in the Contract.
- 7.1.4. ENEL shall not pay for any materials, equipment or work not included in the Contract if their execution was not previously offered by the SUPPLIER, in writing and with an express description of the price, accepted likewise in writing by a representative of ENEL with the required level of authority.
- 7.1.5. The SUPPLIER is obliged to accept the extensions, modifications and reductions in the scope of the Contract, to the agreed prices, provided that they do not represent, on the whole, an increase or decrease of more than 20% of the Contract amount. The new delivery date, if appropriate, shall be determined by agreement between the parties, based on a reasonable proposal by the SUPPLIER.
- 7.1.6. If the extensions, modifications or reductions that ENEL proposes, which have been motivated by a justified reason, represent together an increase or decrease of more than 20% of the Contract amount, the SUPPLIER may accept or reject them, but in the latter case, ENEL shall be entitled to terminate the Contract.
- 7.2. Negotiated and cost-plus prices.**
- 7.2.1. In the cases in which a work unit that was not originally foreseen in the prices of the Contract must be executed, the corresponding price shall be agreed upon by ENEL and the SUPPLIER, on the basis of a duly justified proposal by the latter, based on an itemisation of the costs of other similar units for which there is a unit price.
- 7.2.2. The negotiation of the contingent price shall be independent of the construction of the unit in question, and the SUPPLIER shall be

obligated to implement the unit immediately after receiving the order from ENEL.

- 7.2.3. If reaching an agreement to establish a negotiated price is not possible, or if ENEL deems it necessary, the price shall be determined on a cost-plus basis, for the purposes of which the SUPPLIER shall include the corresponding price ranges in their offer, along with all the items listed in clause 7.1.1.
- 7.2.4. The execution of works on a cost-plus basis may only be carried out after the execution order has been received from ENEL in writing.
- 7.2.5. The personnel costs shall include the tools corresponding to the worker's area of expertise, as well as the equipment required for the worker's safety and protection and the correct execution of the work.
- 7.2.6. Additional costs for transport, allowances or expenses for the SUPPLIER'S personnel shall not be accepted.

7.3. Invoicing.

- 7.3.1. The following items must be shown separately on the same invoice:
 - a) Eventual works contracted on a cost-plus basis, in addition to the costs agreed in the Contract.
 - b) Increases that have already been invoiced through the application of the readjustment formula established in the Contract. In this case, the SUPPLIER must provide documents substantiating the values of the price indexes applied and the details of the corresponding readjustment formula.

7.4. Terms of payment.

- 7.4.1. All the payments made before the Provisional Acceptance in accordance with the stipulations of the Contract shall be considered payments in advance and shall be discounted from the final price. If no guarantee of the faithful fulfilment of the Contract has been presented, the SUPPLIER must provide a financial guarantee to ENEL at the same time as making each of the potential payments, in compliance with the requirements established in these General Terms and Conditions, to guarantee said payments.
- 7.4.2. The invoices shall be paid, subject to ENEL's prior approval of the compliance with the Contractual conditions, within the deadline indicated in each case, and failing this, in the first day of the bulk

payment after ninety (90) calendar days following the date of entry into ENEL's General Register, or the date of the invoice's approval, if that date is later than the date of entry into ENEL's General Register.

7.4.3 The agreed payments in foreign currency shall be made in Colombian pesos (COP) according to the Representative Market Rate (RMT) on the date of receipt of the goods and/or services. In the case of consignment materials, the RMT will be settled on the date the goods were consumed, except if another RMT is indicated in the Contract.

8. Taxes.

According to the wording in the clause of the same name in the main body of the General Terms and Conditions of Contract.

9. Execution.

9.1. General conditions.

According to the wording in the clause of the same name in the main body of the General Terms and Conditions of Contract.

9.2. Inspections, tests or checks.

9.2.1. ENEL may inspect the contract materials and equipment at any stage during the manufacturing process, as well as the execution of the contracted works or services, including the materials used by the SUPPLIER to provide the works or services. These inspections may be carried out by ENEL's personnel directly or by persons or organisations appointed for this purpose, in the works, offices, factories, workshops or warehouses of the SUPPLIER or those of the SUPPLIER's subcontractors. For these purposes, ENEL's inspectors shall be provided free access to the above mentioned installations and must be granted this access when necessary.

9.2.2 Notwithstanding the previous clause, the tests or checks shall be carried out in accordance with the Inspection Points Programme prepared by the SUPPLIER and approved by ENEL, in all cases in which the Contract specifies the Inspection Points Programme.

9.3. Quality Control.

9.3.1. Quality control covers all the actions, activities and techniques required to give sufficient confidence that the contracted materials,

equipment, works or services satisfactorily meet the conditions required by ENEL and, if applicable, comply with the corresponding technical standards.

- 9.3.2. The SUPPLIER shall be solely responsible for quality control, independently of the controls and tests carried out or demanded by ENEL with its own resources or those of a third party. These tests shall have no bearing on the full liability for quality control, which will fall solely on the SUPPLIER.
- 9.3.3. Before starting the manufacturing process or the construction of the works or provision of the contracted service, the SUPPLIER shall submit a Quality Control Plan (according to Standard ISO 10005 or equivalent), at ENEL's request, for approval, which shall include the Inspection Points Programme and a description of the applicable operations and procedures.
- Once the above mentioned Quality Control Plan has been submitted, ENEL may present its objections, if applicable and solely for well-founded reasons, within a period of fifteen (15) working days, and the SUPPLIER must modify the plan with due diligence, making the necessary corrections in accordance with the objections raised by ENEL.
- 9.3.4. During the execution of the Contract, the SUPPLIER shall rigorously and strictly comply with the contents of the Quality Assurance System and Quality Control Plan approved by ENEL, which reserves the right to carry out any audits necessary to ensure that the plans are fulfilled.
- 9.3.5. Once the Contract has been executed, the SUPPLIER shall issue a final Quality Control Report, which must be submitted to ENEL's approval. The content of this report must fulfil the provisions of the Contract and the approved Quality Control Plan.
- 9.3.6. ENEL may require the SUPPLIER to register the contracted technical documentation necessary for manufacturing the materials and pieces of equipment with a Notary. This documentation shall be made available to ENEL, which may use it in cases in which a product is discontinued or bankruptcy of the SUPPLIER or its subcontractors or suppliers.
- 9.3.7. The fulfilment of these quality control conditions shall not relieve the SUPPLIER of its liability for the inappropriate execution of the Contract in any case.

9.4. Delivery and acceptance conditions.

9.4.1. General conditions.

- 9.4.1.1. If the Contract does not specify a determined date of termination and only establishes the execution or delivery timeframe, this period shall begin when the Contract is signed or on the issuance date of the Letter of Intent or Notice to Proceed.

9.4.2. Materials and/or equipment.

- 9.4.2.1. Along with each delivery, the SUPPLIER must provide all the final technical documents and test protocols established in the Specifications, in the Contract and, if applicable, in the corresponding Technical Standards.

- 9.4.2.2. In addition to these documents, the SUPPLIER must certify that the design, raw materials, brands and types of components are identical to those contained in the original approved offer, if so requested by ENEL.

- 9.4.2.3. In order to deliver the elements, the SUPPLIER must send to ENEL, addressed to the person designated in the Contract or in charge of receiving the elements, the Dispatch Notice, stating the following:

- Contract reference number.
- Number of packages sent, indicating the materials contained therein. If these were the last contracted supplies, this should be expressly noted.
- Data on the means of transport used and/or the company in charge of transport, with the telephone number of a contact person.
- Date and place of commissioning of the equipment or materials.

Furthermore, the SUPPLIER undertakes to immediately notify ENEL of any circumstance that may alter the agreed delivery conditions.

- 9.4.2.4. With regard to materials or equipment subject to quality controls, and unless the contrary is agreed, the SUPPLIER shall not send these elements until it has received the mandatory Consignment Authorisation subsequent to the Acceptance Protocol or the Acceptance at Source issued by ENEL. The supplies subject to Quality Agreements shall be exempt from this requirement. If, however, the SUPPLIER proceeds with the consignment, all the costs incurred in the process shall be at the SUPPLIER's expense.

- 9.4.2.5. Unless otherwise agreed, the delivery of the materials and equipment shall be made at the DDP (Incoterms CCI 2010) at the delivery point provided in the Contract. The terms, with reference to the delivery, ownership, insurance, etc., shall be interpreted in accordance with the Incoterm, except where such terms are in conflict with the contents of the Contract.
- 9.4.2.6. ENEL reserves the right to postpone any delivery or consignment of the materials or equipment it is to receive, without such postponement constituting a failure to fulfil the delivery dates on behalf of the SUPPLIER. The SUPPLIER shall pay any storage and insurance costs resulting from the postponement in the month following the agreed date of delivery. Should the delay be extended any longer, the Parties shall mutually agree on the appropriate compensation for the subsequent storage and insurance costs.
- 9.4.2.7. Once ENEL has received the material or equipment, it shall issue a Provisional Acceptance Certificate, which must be signed by both Parties. This Certificate must mention the satisfactory results of the final tests, checks and inspections, or a record must be made of the circumstances in which any deficiencies discovered are repaired, resolved or corrected. The Provisional Acceptance Certificate must be made out within a maximum period of eight (8) calendar days from the date on which either of the Parties requests it, once all the conditions or activities of the Contract have been carried out.

When no final tests, checks or inspections are required, the SUPPLIER's delivery of the materials and equipment shall be formalised with ENEL'S approval on accepting them.

9.4.3. **Works and/or services.**

- 9.4.3.1. After the agreed warranty period passes, the SUPPLIER must notify ENEL of the expiry of this period and request the Provisional Acceptance. In view of this request, ENEL shall communicate the established date for the Provisional Acceptance to the SUPPLIER, without this period extending further than thirty (30) days after the receipt of ENEL's notification.

On the date established by mutual agreement for the Provisional Acceptance, the state of the contracted works or service shall be inspected, in the presence of the SUPPLIER's representative, to check that it fulfils the required conditions, carrying out the necessary tests.

- 9.4.3.2. The SUPPLIER shall be fully responsible for the Management of the execution of the contracted works or services.

9.5. Transfer of ownership and risk.

9.5.1. Materials and/or equipment.

9.5.1.1. The SUPPLIER shall be liable for any hidden defects or factory defects, including during the Warranty Period and up until the period stated in the applicable legislation, in addition to legal responsibilities and other types of liabilities that may apply.

9.5.2. Works and/or services.

9.5.2.1. The SUPPLIER shall be liable for any hidden defects or faults, including during the Warranty Period and up until the period stated in the applicable legislation, in addition to legal responsibilities or other types of liabilities that may apply.

10. Assignment of the Contract and Subcontracting.

10.1. In no event shall any contractual relationship be inferred between the subcontractors or assignees and ENEL. The SUPPLIER shall be liable at all times for all the activities of its subcontractors or assignees and for the fulfilment of the contractual, legal and fiscal obligations arising from the execution of the work, including any damage or loss caused to ENEL by any of the subcontractors or assignees, their agents, assessors or employees.

10.2. ENEL shall not be liable in respect of any subcontractor or assignee, or any of their personnel, for any claims arising directly or indirectly from the Contract. To this end, the SUPPLIER undertakes and guarantees to ENEL that it will implement all possible measures to avoid the presentation and/or processing of said claims. Consequently, the SUPPLIER shall be liable towards ENEL and shall hold ENEL free and harmless from any in-court or out-of-court litigation, lawsuit or proceeding against ENEL from any subcontractor or assignee, or any of these parties' personnel. The abovementioned liability shall be sufficient to cover both the sum that ENEL may be forced to pay as indemnity, and the expenses or costs of any nature that ENEL is forced to incur as a result of said claim. The SUPPLIER's failure to fulfil the requirements established in this clause shall be considered a serious breach of Contract and shall give ENEL the right to terminate the Contract due to breach by the SUPPLIER, notwithstanding any other legal action that ENEL may institute.

10.3. In the event of assignment or subcontracting of the Contract, the SUPPLIER undertakes to procure the assignee's or subcontractor's prior acceptance of ENEL's obligations in respect of the fulfilment of the

contractual, legal, employment, confidentiality, security and health and safety conditions. Documentation accrediting the assignee's or subcontractor's acceptance of these conditions must be provided to ENEL.

- 10.4 In accordance with the above, ENEL may at any time inspect and monitor the works or manufacturing process of the assignee or subcontractor to ensure that the obligations are being met. The subcontractor or assignee must provide ENEL with all the assistance it may require for these purposes (documentation, reports, free access to its factories, workshops or installations, etc.).
- 10.5. ENEL reserves the right to reject any of the subcontractors or assignees that it deems inappropriate during the course of the work or service.

11. Transfer of rights and credits.

ENEL may assign its payment collection rights or the payment obligations resulting from the Contract to any of its affiliates, with the only requirement of providing the SUPPLIER with notice of the transfer.

12. Supplier obligations.

According to the wording in the clause of the same name in the main body of the General Terms and Conditions of Contract.

13. Supplier liability.

According to the wording in the clause of the same name in the main body of the General Terms and Conditions of Contract.

14. Guarantee commitment.

- 14.1. The warranty period for the materials and equipment and the contracted works or services and the Commitment outlined above shall last for the period specified in the Contract, or, if this is not specified in the Contract, for the period of one (1) year as of the date of the Provisional Acceptance Certificate; if this Certificate is not issued, the one-year period shall begin as of ENEL's acceptance of the delivery of the material or the notification of the completion of the contracted works or service and the delivery of the SUPPLIER's documentation for the processing of the administrative authorisation to commission the works.

- 14.2. If upon expiry of the Warranty Period, at least six (6) months have not elapsed since the commissioning of ENEL's main installation for which the element is intended or that forms part of the subject of the Contract, the Warranty Period shall be automatically renewed until those six (6) months have elapsed, unless the materials or equipment provided by the SUPPLIER have required repairs or replacements, in which case, the guaranteed for the same time as the Guarantee commitment period. In no case shall this entail higher costs for ENEL.
- 14.3. Once the Warranty Period has elapsed and the Final Acceptance has taken place, ENEL may proceed, for its own exclusive benefit and directly at its own account or with the assistance of third parties, to freely modify or alter the materials and pieces of equipment that are the subject of the Contract or the constructions or installations assembled, even if they are subject to licenses, patents or other forms of industrial property in the name of the SUPPLIER, although ENEL shall be subject to the corresponding confidentiality clauses attaching to these elements.

15. Penalties.

- 15.1. Without prejudice to the contents of clause 16.3 of the main body of the General Terms and Conditions of Contract on the termination of the Contract for causes attributable to the SUPPLIER, the SUPPLIER's failure to fulfil the delivery deadlines or the partial and final execution periods, as well as any other deadline expressly foreseen in the Contract or in these General Terms and Conditions, shall result in the application of a fine by ENEL, which shall not be considered an indemnity.
- 15.2. Where no extension or new period is established, the fine shall be equal to 1.5% of the total Contract value per calendar week of delay, during the first four weeks, and equal to 4% from the fifth week.
- 15.3. Fines for delay may not exceed 15% of the total Contract value. If this limit is exceeded, ENEL shall have the right to rescind the Contract in accordance with applicable legislation.
- 15.4. The collection of the fines shall not imply any limitation to ENEL's right to charge the costs and extraordinary expenses that it is obliged to pay to third parties as a direct consequence of the delays in question, to the SUPPLIER.

If during the warranty period, ENEL finds it is unable to use the contracted materials or equipment, or the works performed or installations set up, due to defects, damage or faults that have occurred or been discovered during the period, which are not attributable to ENEL, or due to deficiencies in the execution or works that the SUPPLIER must

correct in fulfilment of the Guarantee Commitment, the SUPPLIER shall be sanctioned with the fine established for this purpose in the Contract, or, if this is not expressly established in the Contract, a fine of 0.1% of the Total Contract Value for each calendar day during which the elements are not available or cannot be used.

- 15.5. The application of the established fines shall not release the SUPPLIER from the obligation of providing the Guarantee Commitment to its full extent. Consequently, the SUPPLIER shall be obliged to eliminate any technical deficiencies discovered; to pay the corresponding fines; and to replace the materials and equipment, or repeat or recommence the contracted works or services, as applicable, at ENEL'S request.
- 15.6. The procedure for collecting the payment of any fine derived from the Contract shall be carried out as described in this clause.

ENEL shall notify the SUPPLIER of the fine that must be paid, stating the sum of the fine and the reasons for its imposition, in writing. The SUPPLIER shall have a period of fifteen (15) calendar days as of the date of notification in which to register any objections it may wish to raise.

Once this deadline has elapsed and should ENEL not accept the arguments, the SUPPLIER shall deduct, from its invoice, the amount corresponding to the penalty applied. Should this deduction not be made, the established guarantees shall be executed or collection attempted by any other means envisaged in the Contract, Laws or in these General Terms and Conditions, notwithstanding the applicable compensation for damages in favour of ENEL.

Once the financial guarantee is executed, the SUPPLIER shall be obliged to reinstate the guarantee to its level prior to the execution, in accordance with the contents of clause 19.

Until this reinstatement takes place, ENEL shall keep possession of the sum remaining after subtracting the value of the fine from the total value of the guarantee.

If the sum of the initial guarantee is insufficient to cover the sum of the fines, ENEL shall offset the sums from the payments pending to cover the total value of the fines, notwithstanding the reinstatement of the guarantee in accordance with the above.

16. Suspension, rescission and termination.

According to the wording in the clause of the same name in the main body of the General Terms and Conditions of Contract.

17. Force Majeure

According to the wording in the clause of the same name in the main body of the General Terms and Conditions of Contract.

18. Employment Law, Social Security and Health and Safety Provisions.

18.1. The SUPPLIER declares that it is aware of and undertakes to comply with all employment law, social security and occupational health and safety obligations as well as the internal standards of ENEL applicable at any given time.

Hence, the SUPPLIER undertakes to:

- a) Pay wages, overtime, Sundays and holidays and other labour items.
- b) Register all workers in the social security system established in current legislation in Colombia, thus:
 - a. Healthcare
 - b. Pensions
 - c. Occupational Safety and Health
- c) Pay all legal and extra-legal provisions that the SUPPLIER has agreed with its employees.
- d) Make all parafiscal contributions indicated and required by Law:
 - a. SENA
 - b. ICBF
 - c. COMPENSATION FUNDS
- e) Perform the medical examinations of admission and withdrawal of each worker

18.2. The SUPPLIER authorises ENEL in the event of non-payment of the wages of the SUPPLIER's personnel working to execute the object of the Contract, ENEL should directly pay those amounts to the personnel on behalf of the SUPPLIER. These amounts may be discounted from any value ENEL owes to the SUPPLIER, without it being possible to consider this as a conduct constituting labour subordination, since the payment shall be charged to the SUPPLIER.

18.3. The SUPPLIER must inform the ENEL manager, within the 30 days following the date on which they found out about or should have found out about the legal action, on embargoes of any type and on attachment embargoes and labour claims of workers who have been linked to

execution of the Contract, indicating court, reason for the claim or embargo and amount.

18.4. The SUPPLIER must submit and show to the ENEL manager, when it requests and during the term of the Contract, the information requested on its personnel, such as CVs, list of the personnel linked to the object, copy of the receipts that prove payment of the wages, benefits, compensations, paid leave, settlements, fees, compensations, social security payments for health, pensions, occupational safety and health, Caja de Compensación Familiar (Family Compensation Fund), ICBF and SENA except those exceptions determined by law and of legal labour credits, those agreed between the parties and those indicated in the commercial bid or Contract. Therefore, ENEL can make the payment of any invoice conditional upon presenting the receipts that prove compliance with this obligation.

18.5. Penalties for violation of rules relating to the protection of occupational health and safety.

Without prejudice to the provisions of the main body of the General Terms and Conditions of Contract, the following actions shall also be punishable, based on their ratings, as indicated in clause 18.2.1. of the main body of the General Terms and Conditions of Contract.

General provisions	Failure to notify Enel (within 12 hours) of fatal or serious accidents at work ¹ (initial prognosis in more than 30 days or guarded prognosis) or, regardless of the prognosis, electrical accidents or falls from heights	GG
	Failure to notify Enel (within 3 days) of minor accidents at work (with initial prognosis between 1 and 30 days)	G
	Failure to identify the person responsible	GG
	Failure to notify Enel of the contract's monthly accident statistics.	G
	Start of operations prior to Enel's authorisation.	GG
	Use of personnel unauthorised by Enel	GG
	Use of equipment and vehicles that do not comply with safety regulations	GG
	Use of special vehicles not previously declared	GG
	Failure to comply with personnel working hours and rest periods.	G
	Insufficient inspection or supervision of workers in safety procedures	GG
	Unauthorised use of Enel's machinery, equipment or systems	GG
	Tampering with temporary structures, guards or shelters belonging to Enel or third parties	GG
	Lack of documentation of controls and/or testing, in accordance with the regulations on work machinery present in Enel's offices or facilities	G
	Breach of the provisions contained in the Health and Safety Plan prepared by the Client or the Supplier	GG
	Absence or incomplete obtaining of the work permit (when required by current legislation on occupational health and safety or when demanded by ENEL)	GG
Non-conformity of personal protective equipment (e.g. brands with European certification marks, integrity, maintenance, regular inspections, etc.)	G	
Not participating in the coordination meeting (when required by current legislation on occupational health and safety or when demanded by Enel)	G	

¹ Excluding accidents on the way to and from work

	Lack of signage in work areas	G
	Non-installation or improper or incomplete installation of temporary signs for road works	G
	The consumption of alcohol or drugs in the workplace	GG
	Breach of safety signs	G
	Non-installation or improper or incomplete installation of safety signs	G
	Improper disposal of materials in the work areas	G
	Manipulation or alteration of scaffolding provided by Enel	GG
Electrical work	Lack of qualification in relevant health and safety provisions necessary to perform electrical work.	GG
	Lack of compliance or improper fulfilment of Enel's provisions in the prevention of electrical hazards	GG
	Lack or misuse of grounding devices and short-circuiting of installations for the work (in the works of rest)	GG
	Inadequate worker skills when working on electrical systems	G
Working at height	Lack of or partial fulfilment of the law on health and safety regulations on risk prevention for falls from a height	GG
Activities in mechanical lifting of loads	Improper use of lifting equipment and systems or improper lifting procedures	GG
Chemical hazards	<i>CARCINOGENIC - MUTAGENS FOR GERM CELL - acute toxicity</i>	
	Failure to notify Enel of the input of these substances at Enel's sites	GG
	Lack of or partial compliance with health and safety legislation and Enel's provisions in the handling, transport, use and storage of chemicals in relation to substance labelling and safety data sheets	GG
	<i>OTHER CHEMICAL PRODUCTS²</i>	
	Failure to notify Enel of the input of these substances at Enel's sites	G
	Lack of/partial compliance with health and safety legislation and Enel's provisions in the handling, transport, use and storage of chemicals in relation to substance labelling and safety data sheets	G
Driving Vehicles or Motorcycles	Failure to comply with local traffic rules: Speeding, not using a seat belt, no safety helmet for motorcycle riding, among others.	GG
	Not having cameras in vehicles or not sending images (in contractually defined services).	G
Physical agents	Physical agents (e.g. noise, vibration, dust) that have not been notified to Enel	G
Risk of fire/explosion	Lack of or partial compliance with Enel's rules and regulations concerning fire prevention	GG
	Failure to comply or partial compliance with Enel's health and safety legislation and Enel's regulations on explosive atmospheres (ATEX) for areas classified by Enel	GG
Work in confined spaces	Failure to comply or partial compliance with health and safety legislation and Enel's regulations on the prevention of specific risks that personnel are exposed to in confined spaces, as classified by Enel	GG
	Lack of or insufficient training and education of employed personnel	GG
Underwater work	Lack of or insufficient training and education and lack of or insufficient qualifications of employed personnel	GG

² Chemicals that may cause: skin corrosion or irritation; respiratory problems; irritation or severe eye damage; organ specific toxicity; reproductive toxicity

Without prejudice to the right to terminate the Contract, or the claim for damages in relation to any breach on the protection of occupational health and safety, ENEL shall be entitled (at its sole discretion) to impose the fines listed below, upon notice to the SUPPLIER through registered letter with acknowledgment of receipt:

- a) 200 EUR (two hundred euros) for each violation described as "SERIOUS", according to the table in clause 18 of the main body of the General Terms and Conditions of Contract.
- b) 400 EUR (Four hundred euros) for each violation described as "VERY SERIOUS" in accordance with the table contained in clause 18 of the main body of the General Terms and Conditions of Contract.

If the violations referred to in paragraphs a) and b) cause accidents or injury, ENEL reserves the right to impose (at its discretion) a fine of up to 2% of the total Contract value and, in either case, not less than 400 EUR (Four hundred euro).

19. Financial Guarantee.

- 19.1. The SUPPLIER shall constitute, at its cost, and before signing the Contract, guarantees in accordance with the ENEL Insurance Framework which will consist of policies aimed at protecting the risks associated to breach of contractual obligations on its part, including indemnities or penalties attributable to it and with the validity indicated in clause 19.2 of this Annex. The coverage, insured value and validity requested will be listed in the contractual document and will be in accordance with the risk level of the operation to be carried out. The presentation of insurance policies or bank guarantees issued by top banks will be equivalent.
- 19.2. The policies taken out by the SUPPLIER will have the duration determined in the guarantees section of the contractual document. However, to protect compliance a duration will be established of at least the same as the execution period of the contract plus three (3) months. In any case, all policies will remain in force until liquidation of the contractual relation.
- 19.3. The SUPPLIER undertakes to notify in writing and request coverage confirmation from the insurer that endorses its insurance guarantees from all modifications in the terms and conditions of the Contract. The notification shall be made within the five (5) working days following the date of subscription of the document it contains. It must submit a certificate of approval of the modification by the insurer within five (5) working days following completion of the notification period.

19.4. The guarantee established by the SUPPLIER will expire at the end of the Contract and shall be returned on written request by the SUPPLIER and once ENEL has made the pertinent discounts and checks.

20. Insurance.

20.1. If the Contract is made in the form of consignment materials with the SUPPLIER in ENEL's facilities, the SUPPLIER must take out, in addition to the insurance policies described above, insurance against theft or other damage that the deposited materials may suffer, for the whole of the Contract period.

20.2. If, in ENEL's opinion, the insurance cover of the policies obtained by the SUPPLIER in accordance with the preceding clauses is insufficient in respect of the risk exposure of the materials or equipment delivered or the works or services provided under the Contract, the SUPPLIER undertakes to revise and modify the policies as required and in accordance with the conditions of the insurance market.

21. Intellectual and Industrial Property.

According to the wording in the clause of the same name in the main body of the General Terms and Conditions of Contract.

22. Confidentiality.

According to the wording in the clause of the same name in the main body of the General Terms and Conditions of Contract.

23. Processing of personal data.

23.1. If the performance of the Contract involves the need for the SUPPLIER to access personal data for which ENEL is responsible, the provisions of this clause shall be applicable.

23.2. Any such data that is processed and managed by the SUPPLIER shall remain under the responsibility of ENEL.

23.3. In particular, the SUPPLIER declares and guarantees:

- a) That the data shall be processed pursuant to current legislation, and in accordance with the criteria, requirements and specifications

established in the Contract, and failing that, with the instructions given at any time by ENEL.

- b) That the personal data to which the SUPPLIER has access to as a result of the provision of the contracted services shall not be applied or used for any purposes other than that specified in the Contract.
- c) That it shall directly return to ENEL any personal data that have been subject to processing, in a period of fifteen (15) calendar days from the termination date of the service in accordance with that stipulated in the Contract.
- d) That it shall destroy any document, medium or copy of the personal data that have been subject to processing by virtue of that stipulated in the Contract and which it was not possible to return, for various reasons, in the terms stated in the previous point. However, the data shall not be destroyed when there is a legal provision that demands its conservation. In this case the SUPPLIER shall conserve and duly block such data.
- e) That it shall not communicate, or assign the personal data supplied to it as a result of the provision of the contracted services to other physical or legal persons.
- f) That, in its processing of the data supplied by ENEL, it shall take the necessary technical and organisational measures required by applicable legislation, as well as those that ENEL may impose in the Contract, so that the security of the personal data is guaranteed and such data is not damaged, lost, or processed or accessed without authorisation, taking into account the state of the technology, the nature of the stored data and the risks to which they are exposed, whether from human action or from physical or natural environment. Such measures shall cover, by way of example, hardware, software, recovery procedures, back-ups and personal data extracted in the form of on-screen display or print outs.
- g) That if any international data transfer was necessary for the provision of the service, the SUPPLIER undertakes to inform ENEL in advance and with sufficient notice so that it can request the corresponding authorisations, without which the SUPPLIER may not make said transfers.

23.4. Without prejudice to what is provided in letter (e) above, in the event that ENEL authorises the subcontracting of certain services in favour of third parties, which shall also entail that these third parties have to

access the personal data covered by this clause, the SUPPLIER undertakes, prior to the execution of such subcontracting, to have an agreement jointly signed by the Parties and the subcontractors under which the latter expressly accept that they shall assume responsibility for the correct processing of the personal data they have access to, with the same precautions contained in this clause, as well as compliance with obligations arising from the data protection regulations.

- 23.5. The SUPPLIER releases ENEL from all liability for breaches by the SUPPLIER of the provisions of this clause, and accepts to pay any sanctions, fines, compensations, damages, costs and interests that ENEL would be subjected to for such breach.

24. Environmental Protection.

24.1. Materials and/or Equipment.

- 24.1.1. The SUPPLIER undertakes to implement the appropriate measures to guarantee the strictest compliance with the obligations corresponding to the SUPPLIER under the terms of all the applicable State, Autonomous Community, Regional, Provincial and Local environmental laws, especially with regard to the correct packaging and labelling of the products supplied (packaging date, date of manufacture, expiration date, etc.), and the returnability of containers for chemical products where such products are deemed to be dangerous preparations by applicable laws, without prejudice to any future legal developments that may arise in this respect, and to reinstate or replace any damage caused as a consequence of any breach of the applicable regulations.
- 24.1.2. The SUPPLIER undertakes wherever possible to supply products or materials with environmental labelling and with a long service life involving lower costs and less likelihood of waste being generated due to shelf life expiry.
- 24.1.3. The SUPPLIER undertakes that the usable elements in its materials or equipment shall not be chemically unstable or contain carcinogens.
- 24.1.4. The SUPPLIER shall respect the limitations established on the marketing of dangerous substances and compounds by law, as well as any other future legal modification in this regard. Particularly, the SUPPLIER shall accredit the absence of PCBs in the oils used in the equipment, and the absence of CFCs, HCFCs, halons, etc., with trade restrictions.
- 24.1.5. The SUPPLIER shall be responsible for ensuring that the transportation methods fulfil the provisions of applicable legislation.

- 24.1.6. The unloading of products or materials shall take place in accordance with the appropriate procedures established to comply with applicable legislation on the handling of hazardous substances in each jurisdiction.
- 24.1.7. Whenever possible and even where this is no applicable legal obligation, the SUPPLIER shall reuse or recycle the waste generated by its products or materials.
- 24.1.8. ENEL reserves the right to monitor or oversee the SUPPLIER's waste management procedures to ensure they are correct.
- 24.1.9. The Contract may include the acquisitions of substances in the form of compounds or contained in other elements, including but not limited to:
- insulating oil
 - lubricating oil
 - greases
 - paint, ink (including toner) and varnish
 - solvents
 - chemical products
 - electric batteries
 - gas bottles
 - fuels (diesel, fuel oil)
 - laboratory reagents
 - cleaning products

The SUPPLIER must confirm that it has complied with the legislation in force on the registering, evaluation, authorisation and restriction of chemical compounds and substances. It shall provide the safety, handling and storage datasheets for the substances or compounds that it supplies, in accordance with legislation. The safety data sheet must describe the uses for the supplied substances and compounds.

- 24.1.10 The SUPPLIER undertakes to manage the empty containers used to supply the substances, in accordance with applicable legislation. In all events, it undertakes to remove such products when ENEL so requests and makes them available for this purpose. The SUPPLIER shall also be fully liable for compliance with the applicable regulations on carriage, as described in previous points. The SUPPLIER shall also be obliged to remove the packaging used for the carriage in the conditions and timeframes established in each Contract or, if these details are not specified, the SUPPLIER

shall remove the packaging from previous deliveries when making subsequent deliveries and when ENEL so requests.

The SUPPLIER of electronic equipment shall comply with the conditions imposed by existing legislation. Special attention must be paid to electronic meters, computers and installation control equipment, which must be removed at the end of their useful lives by the SUPPLIER, which must establish the appropriate logistics to pick up the returnable supplies at no cost to ENEL.

24.2. Works and/or Services.

- 24.2.1. The SUPPLIER must be aware of and follow all the applicable requirements and laws in order to perform the work.
- 24.2.2. The SUPPLIER shall guarantee and, if necessary accredit, that the employees carrying out the contracted work, have or receive the appropriate theoretical and practical training for the work, especially that required to guarantee the appropriate environmental activities and measures and reduce the risk of an incident with environmental effects. The training must cover the obligations derived from the Environmental Management System documents, should such a system be implemented or in the process of being implemented, as is usually the case in ENEL's businesses.
- 24.2.3. The SUPPLIER shall provide its employees with the measures necessary to ensure that the work can be carried out in an environmentally friendly manner. Furthermore, the SUPPLIER undertakes to fulfil all the applicable legal requirements, as well as those deriving from the Environmental Management System, should there be one implemented in the installation that is the subject to the Contract.
- 24.2.4. The SUPPLIER shall be liable for any environmental incident it causes, as a result of the works. ENEL reserves the right to pass on any claims or expenses incurred as a result of the SUPPLIER'S failure to meet its environmental obligations, to the SUPPLIER. The SUPPLIER must implement all appropriate measures to guarantee the strictest compliance with all environmental legislation, whether on the State, Autonomous Community, Regional, Provisional or Local level, that applies to the works, and shall repair any damage caused as a consequence of any breach of the applicable regulations in force.
- 24.2.5. The SUPPLIER shall prepare an environmental contingencies and risks prevention plan for the works that shall be performed, which

must be provided to ENEL when requested. To avoid any environmental incident, the SUPPLIER shall implement the appropriate preventive measures to guarantee the fulfilment of the applicable regulations in force, as well as good environmental management practices, such as:

- Appropriate storage and handling of chemical products and toxic and hazardous merchandise or waste, disposing of incompatible chemical products separately and avoiding waste materials mixing with each other.
- Putting up clear signs in the areas that are environmentally sensitive or contain waste with environmental effects.
- Preventing leaks, spills and contamination of grounds, inspection chambers or beds.
- Prohibiting its employees from lighting fires or leaving cleaning procedures or works unattended.
- Preventing the emission of dust or other substances when transporting materials.
- The SUPPLIER must especially respect the prohibition of carrying out any form of uncontrolled spilling or the abandonment of any type of waste in the area fenced off for the contracted works or services, which must be kept clean and tidy insofar as possible during each working shift and especially at the end of the shift, whilst complying with the applicable environmental procedures of the Environmental Management System, if there is one implemented in the facilities that are the subject to the Contract.
- In order to appropriately segregate each type of waste, the SUPPLIER must place a sufficient number of containers in good conditions with locks and signs, in the work area, when the works in question create waste, which must subsequently be managed appropriately, using an authorised waste management company and in accordance with applicable legislation. When requested, the SUPPLIER shall provide ENEL with copies of the waste disposal, management and transport documents, as applicable by law, as well as the permits and licenses of the waste managers and carriers used.

- Once all the contracted works or services have been provided, the SUPPLIER must leave the working area clean and tidy and free from any remains, removing at the end of the work all the debris, packaging, containers, rubbish, scrap metal and any kind of waste, with all the removal, transport and authorised management operations at the SUPPLIER's own cost and account.
 - Furthermore, the SUPPLIER shall implement the appropriate measures to guarantee strict compliance the environmental laws in force applicable to said work.
- 24.2.6. The SUPPLIER's Foreman shall be in charge of overseeing that the procedures are followed and may appoint another person to carry out this task, after notifying the ENEL technician in charge of supervising the work and providing the person's identification details. The appointed person must follow any specific environmental instructions given by the ENEL technician during the work.
- 24.2.7. The SUPPLIER undertakes to immediately notify the ENEL technician supervising the work of any environmental incident that occurs during the work, and must present a written report on any such events and their causes.
- 24.2.8. In the event of any type of environmental incident, the SUPPLIER undertakes to follow the instructions issued by the ENEL technician supervising the work.
- 24.2.9. In the event of any breach of any of these clauses, the ENEL technician supervising the work may bring the works to a halt, in which case the SUPPLIER shall pay for any losses caused, and in any case, the failure to fulfil the obligations regarding the maintenance of the work area shall result in the deduction of the costs caused as a result, plus 10% of these costs as a penalty, from the SUPPLIER's invoice.

The SUPPLIER agrees to apply these specifications in all the works or services that it carries out in any ENEL facility or in the facilities of any third parties.

25. Vendor Rating.

According to the wording in the clause of the same name in the main body of the General Terms and Conditions of Contract.

26. United Nations Global Compact.

According to the wording in the clause of the same name in the main body of the General Terms and Conditions of Contract.

27. Ethical Conduct Standards.

27.1. General conditions.

In its management of its business and its business relationships with third parties, the ENEL Group follows the principles established in the 'General Principles for Criminal Risk Prevention'. The SUPPLIER undertakes to comply with these principles or other equivalents in managing its business and relations with third parties.

These Principles, as well as the rest of the Ethical Conduct Standard, are available at the address www.endesa.com.

27.2. Conflict of interest.

By signing the Contract, the SUPPLIER (if an individual) declares:

1. That they shall not hold senior management positions (director, senior manager with strategic responsibilities) in Enel Group companies, or employee or auditor positions for the ENEL Group;
2. That they do not have family / second degree relatives / spouse not legally separated / cohabitant / spouse or children of their partner / who are related by blood or marriage working for ENEL Group companies;
3. That in the last 24 months, the SUPPLIER and their relatives (spouse not legally separated or first degree relatives), have not held or do not hold, government positions or posts in organisations entrusted with public service entities that have been directly connected with activities undertaken by any ENEL Group companies (granting concessions, supervision activities, etc.).

By signing the Contract, the SUPPLIER (if a legal person) declares:

That as a result of the knowledge of its business structure, no person belonging to its governing bodies, management or supervision (including trusts):

- a. Is a member of Senior Management, Management Bodies or the Audit Committee, or an executive with key responsibility in the ENEL Group

companies, or is a second degree relative, spouse, partner, child of a spouse or partner, or dependent (by blood or marriage) of those members.

- b. Is an employee in an ENEL Group company or is a second degree relative, spouse, partner, child of a spouse or partner, or dependent (by blood or marriage) of an employee.
- c. Have not held or hold, in the last 24 months, both the person and their respective relatives (spouse legally separated or first degree relatives) government positions or posts in organisations entrusted with public service entities that have been directly connected with activities undertaken by any ENEL Group companies (granting concessions, supervision activities, etc.).

The SUPPLIER must notify ENEL of any changes that may occur in the future and while it has the active status of SUPPLIER, regarding the foregoing information before signing the Contract.

28. Applicable Law.

- 28.1. The Contract and any disputes that may arise between the Parties in relation thereto shall be governed exclusively by Colombian law, to which the SUPPLIER and ENEL expressly submit themselves.
- 28.2. All litigations, discrepancies or disagreements that may arise between the SUPPLIER and ENEL, resulting from the interpretation and/or application of the Contract, execution of the construction work, service provision or delivery of the materials or equipment agreed in the Contract or of provisions or stipulations directly or indirectly related to it shall be resolved by an Arbitration Panel, which will be subject to Law 446 of 1998 and Decree 1818 of 1998, and the rules regulated, added or amended, in accordance with the following rules:
 - a) If the amount of the dispute claimed is less than or equal to five hundred million Colombian pesos (\$500,000,000) the Arbitration Panel will be formed by one (1) arbiter.
 - b) If the amount is higher than this figure, the Panel will be formed by three (3) arbiters.
- 28.3. The Panel shall decide in law and shall operate in the city of Bogotá D.C., in the Centre of Arbitration and Conciliation of this city's Chamber of Commerce. The Parties establish the city of Bogota D.C. as their contractual address, therefore renouncing any other domicile. The arbiters shall be designated by the Parties by common agreement, but if this was not possible, they shall be designated by the Director of any

Centre of Arbitration and Conciliation, at the request of any of the parties, by a draw made between the arbiters registered in the lists of said Centre. They will have recourse to the rules stipulated for this effect by said Centre of Arbitration and Conciliation.
