1. Definiciones, acrónimos, abreviaturas

La tabla siguiente contiene la definición de términos, acrónimos y abreviaturas.

Acronym	Description
TSM	Technical Specification Management (Gestión de Especificación Técnica)
TCA	Technical Conformity Assessment (Evaluación de Conformidad Técnica)
QCA	Quality Control Activities (Actividades de Control de Calidad)
CMD	Components and Materials Defect (Defectos de Componentes y Materiales)
E-D	E-Distribuzione SpA
BIM	Building Information Modeling

This document contains proprietary information of Enel SpA and shall only be used by the recipient in relation to the purposes for which it was received. Any form of reproduction or disclosure without the express consent of Enel SpA is prohibited.

2. Introducción a la gestión de Ciclo de vida del Material

Este manual de usuario describe los pasos necesarios para la evaluación de conformidad técnica, para la gestión del proceso de aprobación con la secuencia de fases para cada código de material.

3. Manual de usuario MLM- Módulo TCA

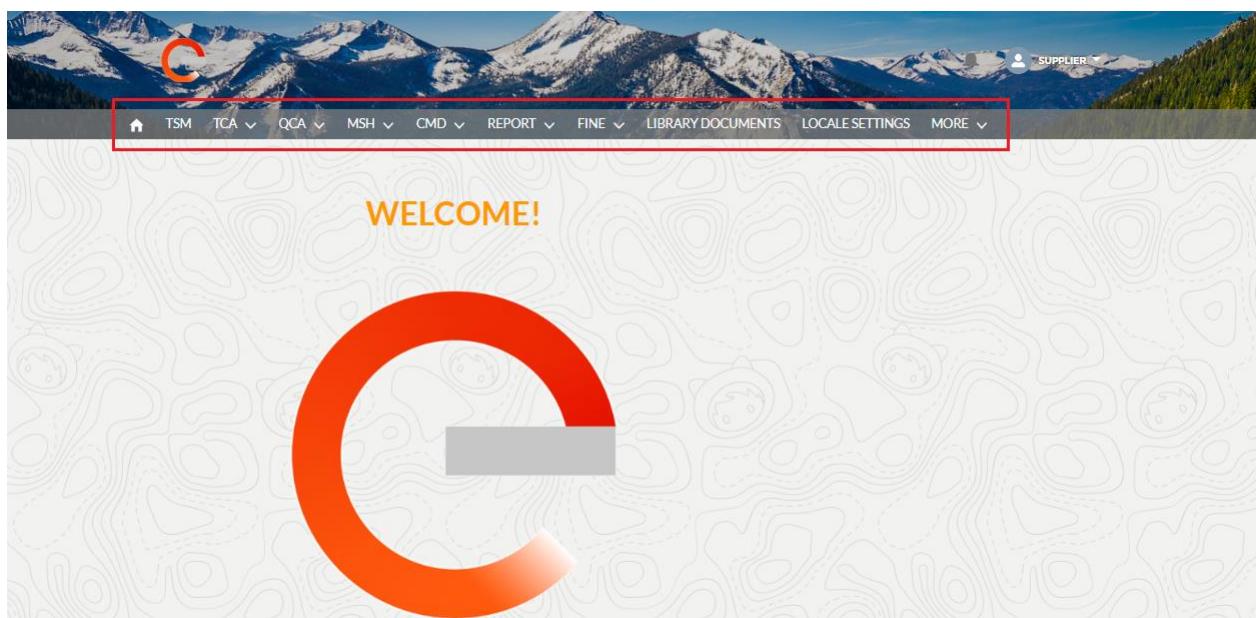

3.1 Acceso para proveedores

El acceso al portal MLM, para el usuario proveedor, solo se puede hacer a través de WeBUY haciendo clic en el enlace correspondiente en la página de inicio de la plataforma.

3.2 Usuario Proveedor: Navegación

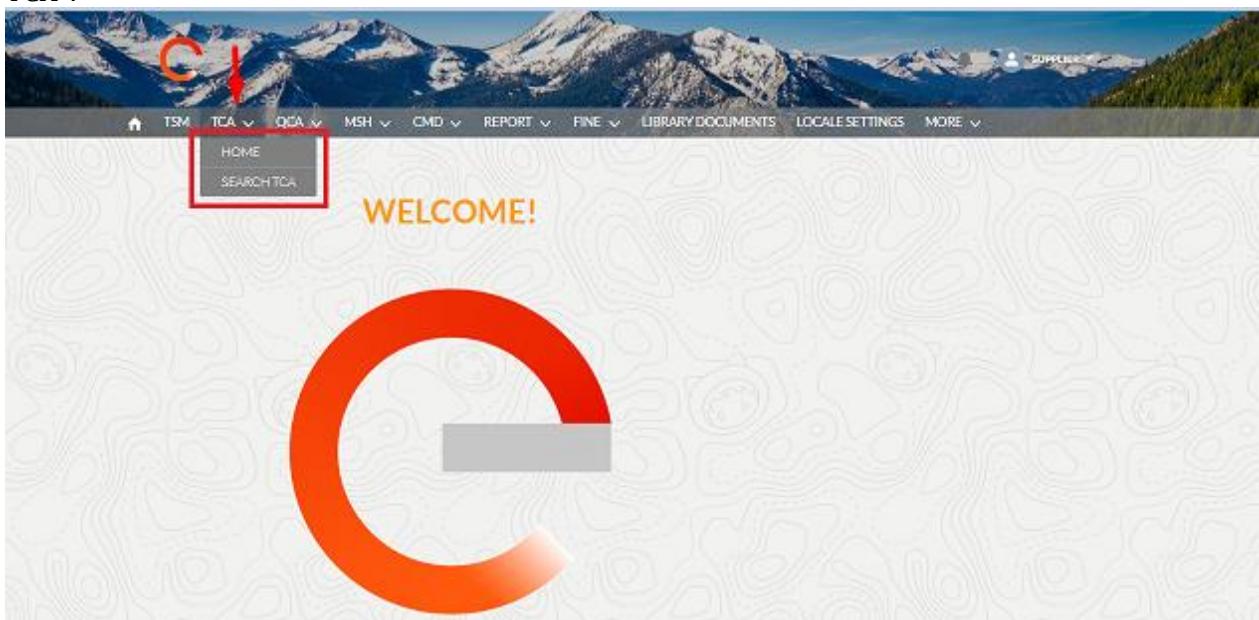

En la Home page hay seis links en la barra de navegación:

- HOME: para navegar a la HomePage
- TSM: para acceder a la lista de TS disponibles para el proveedor.
- TCA: para acceder a la lista de TCA disponibles para el proveedor.
- QCA: para acceder a la lista de actividades QCA disponibles.
- MSH: para acceder a la lista de actividades MSH disponibles.
- CMD: para acceder a la lista de tickets CMD disponibles.
- REPORT: para navegar y ver los informes disponibles para el proveedor.
- FINE: para navegar a la lista de sanciones, pedidos anticipados y avisos disponibles para el Proveedor.
- LIBRARY DOCUMENTS: Gestión Documental para el País Rumanía
- LOCAL SETTINGS: para cambiar la configuración de usuario (p.e: idioma, hora, etc).
- CONTACT REGISTRY: para ver la información propia del contacto (p.e: información general, plataformas de producción)

3.2.1. Menú TCA

Al seleccionar el menú TCA, el sistema mostrará dos elementos: "Home" y "Search TCA":

- HOME: para crear un nuevo TCA espontáneo y navegar a la lista de TCA disponibles para el proveedor registrado.
- SEARCH TCA: para buscar TCA disponible para el Proveedor registrado usando filtros

Seleccionando el ítem Buscar TCA, el sistema muestra una sección con filtros para buscar una o más TCA.

This document contains proprietary information of Enel SpA and shall only be used by the recipient in relation to the purposes for which it was received. Any form of reproduction or disclosure without the express consent of Enel SpA is prohibited.

The screenshot shows the 'Search TCA' interface. At the top, there is a navigation bar with links: Home, TSM, TCA, QCA, MSH, CMD, REPORT, FINE, LIBRARY DOCUMENTS, LOCALE SETTINGS, MORE, and a SUPPLIER icon. Below the navigation bar is a search bar labeled 'Search TCA'. A large red box highlights the 'Search Filters' section, which contains various search criteria fields. Below the filters is a table header with columns: CASE ITEM, TCA, TENDER CODE IMPORT DATE, MATERIAL CODE, STATUS, TCA SYSTEM, TCA TYPE, MANUFACTURING FACTORY, TSM, and IS BIM MATERIAL. The table body is currently empty.

3.2.2. Gestión de nueva propuesta TCA o TCA espontánea.

En la sección "Home" del menú TCA es posible visualizar la lista de TCA o crear una TCA nueva haciendo click en el botón "Spontaneous TCA".

The screenshot shows the 'TCA List View' interface. At the top, there is a navigation bar with links: Home, TSM, TCA, QCA, CMD, MSH, FINE, REPORT, LIBRARY DOCUMENTS, LOCALE SETTINGS, MORE, and a SUPPLIER icon. Below the navigation bar is a search bar labeled 'TCA List View'. A red box highlights the 'Spontaneous TCA' button. A red arrow points to the second row of the table, which corresponds to the entry '00624833'. The table has columns: CASE NUMBER, TENDER NAME, STATUS, TENDER CODE, MATERIAL CODE ENEL, MATERIAL CODE SUPPLI..., and five colored status indicators (red, yellow, green, grey, blue). The table body contains several rows of data.

CASE NUMBER	TENDER NAME	STATUS	TENDER CODE	MATERIAL CODE ENEL	MATERIAL CODE SUPPLI...	Red	Yellow	Green	Grey	Blue
00624864		To Start		0	1	0	0	0	0	0
00624834		OnGoing		2	1	0	0	0	0	0
00624833		To Start		0	1	0	0	0	0	0
00624832		To Start		1	2	0	0	0	0	0
00624831		OnGoing		2	1	0	0	0	0	0
00624828		OnGoing		2	1	0	0	0	0	0
00624827		To Start		0	1	0	0	0	0	0
00624826	2	OnGoing	2	0	1	0	0	0	0	0

This document contains proprietary information of Enel SpA and shall only be used by the recipient in relation to the purposes for which it was received. Any form of reproduction or disclosure without the express consent of Enel SpA is prohibited.

Para trabajar sobre una nueva Tender TCA o una TCA espontánea, existen una serie de pasos a seguir, comenzando con el link “Case Number” (número de identificación de TCA) el cual considera al usuario para la visualización de los detalles del TCA:

Después de hacer click en “Material Code” el usuario puede ver la lista de códigos de materiales en el TCA y comenzar el procesamiento del TCA.

The screenshot shows a software interface for managing tenders. At the top, there are tabs for 'Case', 'Follow', 'Case Number' (01770332), 'Tender Code', 'Contract Number', 'Contract Date', 'Supplier Name (TCA M)' (ABB SPA), and 'Status' (To Start). Below these, there are two tabs: 'MATERIAL CODE' (which is highlighted with a red box) and 'DETAILS'. The 'MATERIAL CODE' tab displays a list of material codes. One entry, '240193', is highlighted with a red box and has a red arrow pointing to it. Other columns in the list include 'COUNTRY: IT' and 'TYPE CODE: test'. To the right of the list is a 'Submit' button. Below the list, there is a section for 'DESCRIPTION:' with a text input field. At the bottom right, there is a progress bar labeled 'TCA request starting' with several arrows indicating the status of the request.

El botón “Details” despliega los detalles del TCA .

The screenshot shows the same software interface as the previous one, but with the 'DETAILS' tab selected. A red box highlights the 'General Information' section. This section contains various input fields: 'Name' (with a placeholder '(1)'), 'Description' (with a placeholder '(1)'), 'Supplier Name (TCA M)' (ABB SPA), 'CUI(SupplierIdentificationCode) (TCA M)' (27805), 'Tender Code', 'TCA Fee', 'Import Date', 'Total Continental Penalties' (0), and 'Description Reason Penalty'. To the right of these fields are corresponding labels: 'Contract Number', 'Awarding Date', 'Contract Date', 'Status' (To Start), 'Imported' (unchecked), and 'Total Intercontinental Penalties' (0).

This document contains proprietary information of Enel SpA and shall only be used by the recipient in relation to the purposes for which it was received. Any form of reproduction or disclosure without the express consent of Enel SpA is prohibited.

3.2.3. Iniciar el requerimiento TCA

El proveedor puede comenzar a procesar el “Tender TCA” o un TCA espontáneo.

Para procesar un nuevo Tender TCA o un TCA espontáneo, hay un número de pasos a seguir en el sistema. Comenzando haciendo click en el link “Case Number” (número de identificación de TCA), el cual toma los detalles del TCA para el usuario actual.

CASE NUMBER	TENDER NAME	STATUS	TENDER CODE	MATERIAL CODE EN...	MATERIAL CODE SUPPL...	Red	Yellow	Green	Grey
00001624		To Start		0	1	0	0	0	0
00001627		To Start		0	1	0	0	0	0
00001727		To Start		1	2	0	0	0	0
00001862		To Start		0	1	0	0	0	0
00001863		To Start		0	1	0	0	0	0
00001865		To Start		0	1	0	0	0	0
00003508		OnGoing		1	0	0	0	0	0
00005975	GARA THIRD NEW	To Start	6000000001	0	1	0	0	1	0
00005977	GARA THIRD NEW	Deleted	6000000000	0	0	0	0	0	0

3.2.3.1. Inicio de la solicitud TCA -> Crear TCA espontáneo.

El proveedor crea el nuevo TCA espontáneo haciendo click en el botón Sponteneous TCA.

CASE NUMBER	TENDER NAME	STATUS	TENDER CODE	MATERIAL CODE EN...	MATERIAL CODE SUPPL...	Red	Yellow	Green	Grey
01772089	prj4567	OnGoing	prj4567	3	0	0	3	0	0
01770341		OnGoing		1	0	0	0	0	0
01770332		To Start		0	1	0	0	0	0
01767544		To Start		0	1	0	0	0	0
01767541		Closed		1	0	0	0	0	0
01767540		Closed		1	0	0	0	0	0

This document contains proprietary information of Enel SpA and shall only be used by the recipient in relation to the purposes for which it was received. Any form of reproduction or disclosure without the express consent of Enel SpA is prohibited.

El usuario puede buscar el código de material, haciendo click en “Select Material Code”. Una vez identificado, hacer click en el botón “+” para agregar a la lista, y finalmente hacer click en el botón “Save” para guardar el TCA espontáneo.

Para copiar información de un código de material a otros códigos de materiales del TCA:

- Abrir el código de material
- En la sección “For information Copy seleccione los códigos de materiales a actualizar.
- Hacer click en el botón “Copy”.

The screenshot shows the 'TCA Request Starting' interface. On the left, there's a section titled 'For Information Copy' with a red border around the 'MATERIAL CODE' column. Inside this column, two material codes are selected: '444444' and '777777'. To the right of the table, the text 'Material Code Selected: 2' is displayed above the 'Copy' button, which is also highlighted with a red arrow.

Aceptar el mensaje de advertencia y hacer click en el botón “Confirm”.

Después de ingresar los campos requeridos, el usuario puede hacer click en “Save” y el TCA pasará a la fase “Document Upload and TCA request confirmation”. Puede hacer click en “Cancel” para deshacer la operación.

En caso de un nuevo TCA, relacionado con un TCA suspendido, el sistema mostrará una pantalla donde el componente "Related TCA Suspended" indicará la información relacionada con el TCA suspendido:

3.2.3.2. Inicio Requerimiento TCA Crear “TENDER TCA”

El proveedor puede comenzar el procesamiento del Tender TCA seleccionando el código de material.

The screenshot shows a software interface for managing cases. At the top, there's a navigation bar with icons for Home, TSM, TCA, QCA (with a dropdown arrow), CMD (with a dropdown arrow), and LOCALE SETTINGS. On the right side of the top bar are user profile icons and the name "COLLAUDO...". Below the navigation bar is a search bar containing the text "CARA FIRST NEW". To the left of the search bar is a yellow folder icon with the word "Case" above it. To the right of the search bar is a "Follow" button with a plus sign. The main content area displays case details: Case Number 00006014, Tender Code 67676767676, Contract Number 1234567890, Contract Date 01/01/2018, Supplier Name ABB SpA, and Status To Start. Below this, there are two tabs: "MATERIAL CODE" (which is selected) and "DETAILS". Under the "MATERIAL CODE" tab, there's a table with columns: MATERIAL CODE, TYPE, COUNTRY, DESCRIPTION, TRAFFIC LIGHT, and PHASE. The table contains four rows of data. A red arrow points to the first row's MATERIAL CODE column, which has a checked checkbox. The second row's MATERIAL CODE column has an unchecked checkbox. The third and fourth rows have unchecked checkboxes. The "Submit" button is located at the top right of the table. The entire interface is set against a background of white contour lines on a light gray surface.

El botón “Edit” permite al usuario acceder a todos los campos que deben ser completados. Una vez que la fase esté finalizada, el usuario Enel verá los datos de la fase actual.

This document contains proprietary information of Enel SpA and shall only be used by the recipient in relation to the purposes for which it was received. Any form of reproduction or disclosure without the express consent of Enel SpA is prohibited.

The screenshot shows a web-based application for managing Technical Change Requests (TCAs). At the top, there's a navigation bar with links like Home, TSM, TCA, QCA, MSH, CMD, REPORT, FINE, LIBRARY DOCUMENTS, LOCALE SETTINGS, and MORE. A 'SUPPLIER' user icon is also visible. Below the navigation, there are two tabs: MATERIAL CODE and CHATTER. The MATERIAL CODE tab is active. On the left, there's a sidebar with a large orange 'C' logo and some decorative patterns. The main content area displays a 'Material Code (In Progress)' entry form. The form includes fields for 'CODE: 111007' and 'COUNTRY: IT'. To the right of these fields are buttons for 'Back To TCA', 'Info TCA', 'Edit' (which is highlighted with a red box), 'Related Family Code', 'Submit', and 'Delete'. Below this, there are two expandable sections: 'Planned Date' (which is currently expanded) and 'TCA Request Starting' (which is collapsed). Under 'Planned Date', there are fields for 'TCA System' and 'TCA Type'. Under 'TCA Request Starting', there are fields for 'TCA Request Contractual Date', 'Prototype Visual Inspection Contractual Date', and 'TCA Dossier Contractual Date'.

Los campos requeridos son:

- TCA System (PRIMERO, SEGUNDO, TERCERO)
- TCA type (Nuevo TCA, Actualizar TCA, Confirmar TCA)
- Manufacturing Factory (Fabricación)
- Supplier Product Designation (Diseño de producto)
- Supplier Technical Referent Name (Nombre de referente técnico)
- Supplier Technical Referent Surname (Apellido de referente técnico)
- Supplier Technical Referent Physical Address (Dirección física referente técnico)
- Supplier Technical Referent Email Address (Dirección email referente técnico)
- Supplier Technical Referent Telephone Number (Número teléfono referente técnico)

This document contains proprietary information of Enel SpA and shall only be used by the recipient in relation to the purposes for which it was received. Any form of reproduction or disclosure without the express consent of Enel SpA is prohibited.

The screenshot shows a web-based form for creating a TCA request. The form is divided into several sections:

- Planned Date:** A section with a blue header containing a back arrow and the text "Planned Date".
- TCA Request Starting:** A section with a blue header containing a down arrow and the text "TCA Request Starting".
- TCA System:** A dropdown menu showing "FIRST".
- TCA Type:** A dropdown menu showing "New TCA".
- Material Code:** Input field containing "666666".
- ENEL Type Code:** Input field containing "prova 4 febbraio".
- Description:** Input field.
- Country:** Input field containing "IT".
- Manufacturing Factory:** A dropdown menu showing "Webresults Factory".
- Supplier Product Designation:** Input field containing "12345678".
- Technical Specification Code:** Input field containing "prova 4 febbraio 2019".
- Technical Specification Revision:** Input field containing "1".
- Technical Specification Date:** Input field containing "4-Feb-2019".
- Supplier Technical Referent Name:** Input field containing "Mario".
- Supplier Technical Referent Surname:** Input field containing "Rossi".
- Supplier Technical Referent Physical Address:** Input field containing "Via Lata".
- Supplier Technical Referent Email Address:** Input field containing "mariorossi@orange.it".
- TCA Request Actual Date:** Input field.

At the bottom right of the form, there are two buttons: "Cancel" and "Save". A red arrow points to the "Save" button.

Una vez completados los campos requeridos, el usuario puede hacer click en “Save” y el documento pasará a la fase “Documento Upload and TCA request confirmation”. El botón “Cancel” puede deshacer la operación.

El usuario puede crear un enlace entre uno o más TCA haciendo clic en el botón "Related family code".

Es necesario crear el Código de Familia TCA y luego crear el Código de Clave TCA para asociar el código de familia relacionado.

Hacer clic en el botón "Related family code"

This document contains proprietary information of Enel SpA and shall only be used by the recipient in relation to the purposes for which it was received. Any form of reproduction or disclosure without the express consent of Enel SpA is prohibited.

El usuario Enel ahora podrá ver el link del documento, y descargar el archivo. El deberá rechazar o aprobar la actual fase para pasar a la siguiente.

3.2.5. Preliminary Documents Transmission

El proveedor puede crear el PRELIMINARY TEST TABLE para cargar documentos. Deberá seleccionar el tipo de archivo a cargar clickeando en “File to Upload”.

The screenshot shows the 'Preliminary Documents Transmission' section of the interface. At the top, there is a navigation bar with links for TSM, TCA, QCA, CMD, and LOCALE SETTINGS. Below the navigation bar, there is a header for 'Material Code (In Progress)' with code information: CODE:162090, COUNTRY:IT, TYPE CODE:DYB04/1, DESCRIPTION:DYB04/1-SK(24KV-630A-SF6). To the right of the header are Back To TCA, Info TCA, Edit, and Submit buttons. A sidebar on the left lists steps: Planned Date, TCA Request Starting, Documents Upload and TCA Request Confirmation, TCA Request Approval, and Preliminary Documents Transmission, with the last one expanded. In the main area, there is a 'UPLOAD DOCUMENTS' section containing a dropdown menu labeled 'File to Upload' with the option 'Choose a Document Type --'. Next to it is a 'Save' button and a 'Upload Files' button with the text 'Or drop files'. Below this is a 'PRELIMINARY TEST TABLE' section with columns: TECHNICAL SPECIFICATION REFERENCE, IEC (OR OTHER STANDARDS) REFERENCE (IF APPLICABLE), TEST DESCRIPTION, TEST APPLICABILITY, TEST REPORT, APPLICABILITY REPORT, LABORATORY ACCREDITATION CERTIFICATE, and EDIT. There is also a 'Remove' and 'Add test' button. At the bottom of the table section is a placeholder for 'Preliminary Documents Transmission Date'.

El usuario seleccionará “Type A preliminary documents” y deberá salvar con el botón “Save” antes de poder subir el documento clickeando “Upload File”.

The screenshot shows the same 'Preliminary Documents Transmission' interface as the previous one, but with the 'File to Upload' dropdown menu set to 'Type A Preliminary Documents'. The 'Save' button is visible next to it. A red box and a red arrow highlight the 'Upload Files' button, indicating where the user should click to upload the document. The rest of the interface remains the same, including the 'PRELIMINARY TEST TABLE' section below.

This document contains proprietary information of Enel SpA and shall only be used by the recipient in relation to the purposes for which it was received. Any form of reproduction or disclosure without the express consent of Enel SpA is prohibited.

El tablero “Preliminary Test Table” debe contener al menos un caso de test, clickeando en “Add Test”.

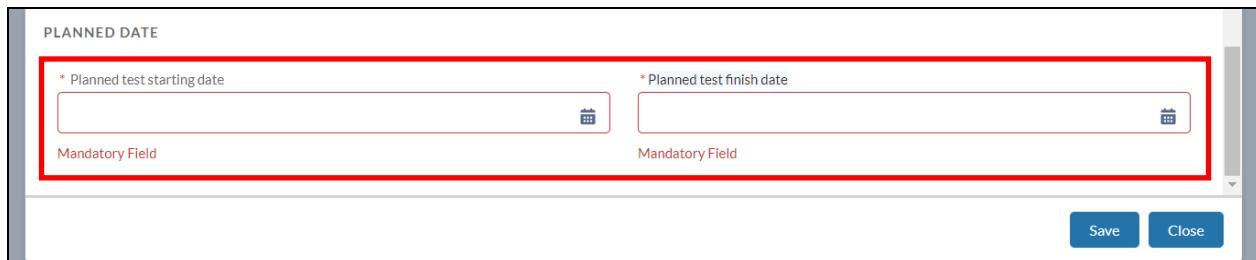

El usuario podrá acceder al siguiente formulario y completar los campos obligatorios:

- Technical Specification Reference (Referencia a Especificación Técnica)
- Test Description (Descripción del test)
- Test Applicability (Aplicación del Test) (Caso 1, Caso 2, Caso 3, etc.)

This document contains proprietary information of Enel SpA and shall only be used by the recipient in relation to the purposes for which it was received. Any form of reproduction or disclosure without the express consent of Enel SpA is prohibited.

Si el proveedor seleccionará Caso 1 o Caso 3, deberá ingresar las fechas:

- Planned test starting date (Fecha planificada de inicio del test)
- Planned test finish date (Fecha planificada de finalización del test)

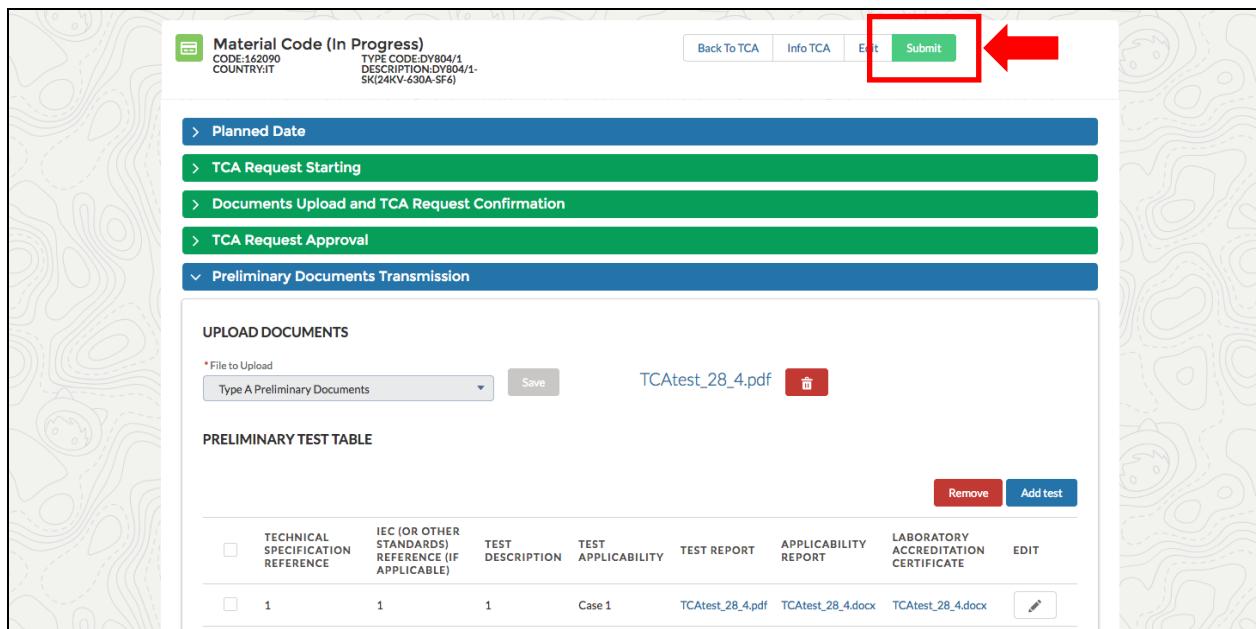

PLANNED DATE

* Planned test starting date * Planned test finish date
Mandatory Field Mandatory Field

Save Close

Luego de indicar los campos obligatorios, hacer click en “Save” y en el botón “Submit”.

Si System TCA es segundo o Tercero, el sistema abrirá la fase “Preliminary documents verification” (verificación preliminar de documentos).

3.2.6. Call for Prototype Visual Inspection (Pedir Inspección Visual de Prototipo)

El proveedor puede trabajar en la fase “Call For Prototype Visual Inspection” haciendo click en “Edit”.

The screenshot shows the TCA interface with a background image of snow-capped mountains. At the top, there are navigation links: Home, TSM, TCA, QCA, CMD, and LOCALE SETTINGS. On the right, there are user icons and the text 'COLLAUDO...'. Below the header, a material code section displays: Material Code (In Progress), CODE:162090, COUNTRY:IT, TYPE CODE:DYB04/1, DESCRIPTION:DYB04/1-SK(24KV-630A-3F6). To the right of this are buttons for Back To TCA, Info TCA, Edit (which is highlighted with a red box and a red arrow), and Save. A vertical sidebar on the left lists phases: Planned Date, TCA Request Starting, Documents Upload and TCA Request Confirmation, TCA Request Approval, Preliminary Documents Transmission, and Call For Prototype Visual Inspection (which is expanded). Below the sidebar are two input fields: Prototype Visual Inspection Actual Date (containing '17-May-2018') and Call for Prototype Visual Inspection Date (containing '17-May-2018').

El proveedor debe ingresar los campos obligatorios “Prototype Visual Inspection Actual Date” (Fecha de inspección visual de prototipo) y hacer click en el botón “Save”.

The screenshot shows the TCA interface with a background image of topographic maps. The vertical sidebar on the left shows the same list of phases as the previous screenshot. The 'Call For Prototype Visual Inspection' phase is expanded. The 'Prototype Visual Inspection Actual Date' field is highlighted with a red box and a red arrow pointing to the 'Save' button below it. The 'Call for Prototype Visual Inspection Date' field also contains '17-May-2018'. At the bottom are 'Cancel' and 'Save' buttons.

Luego de salvar y clickear en “Submit”, el campo “Call for Prototype Visual Inspection Date” es completado automáticamente, y comienza la nueva fase (para usuario Enel).

The screenshot shows the TCA interface with a background image of topographic maps. The vertical sidebar on the left shows the same list of phases. The 'Call For Prototype Visual Inspection' phase is expanded. Both the 'Prototype Visual Inspection Actual Date' and 'Call for Prototype Visual Inspection Date' fields now contain '17-May-2018' and are highlighted with red boxes. Below them, the 'Prototype Visual Inspection Approval' phase is visible.

3.2.7. Definitive Type A Documentation Transmission (Transmisión definitiva de documentación Type A)

En el formulario “TYPE A DEFINITIVE DOCUMENTS” (Si TCA es el segundo o el documento definitivo aprobado por el THIRD-BODY en caso que TCA sea el tercero), el proveedor debe cargar los documentos necesarios a fin de proceder.

Antes, debe completar los siguientes campos:

- Document Name (Nombre del documento)
- Document Revision (Revisión del documento)
- Document Date (Fecha del documento)

Finalmente hacer click en “Save” para confirmar.

3.2.10. Borrar Código de Material

En cualquiera de las fases, excepto cuando el código de material se encuentre en status “In Force”, puede hacer click en el botón “Delete” para borrar un código de material.

The screenshot shows a software interface for managing material codes. At the top, there's a header with "Material Code ()" and "CODE: 101453 COUNTRY: IT". Below this, there are fields for "TYPE CODE:" and "DESCRIPTION:". To the right, there are several buttons: "Back to TCA", "Info TCA", "Edit", "Submit" (in green), and "Delete" (in red, which is highlighted with a red box and an arrow pointing to it). Below the header, there are two tabs: "Planned Date" (selected) and "TCA Request Starting". At the bottom, there are sections for "TCA System" and "TCA Type".

Deberá ingresar un motivo de borrado y hacer click en “Confirm”, o en “Cancel” para abandonar este procedimiento.

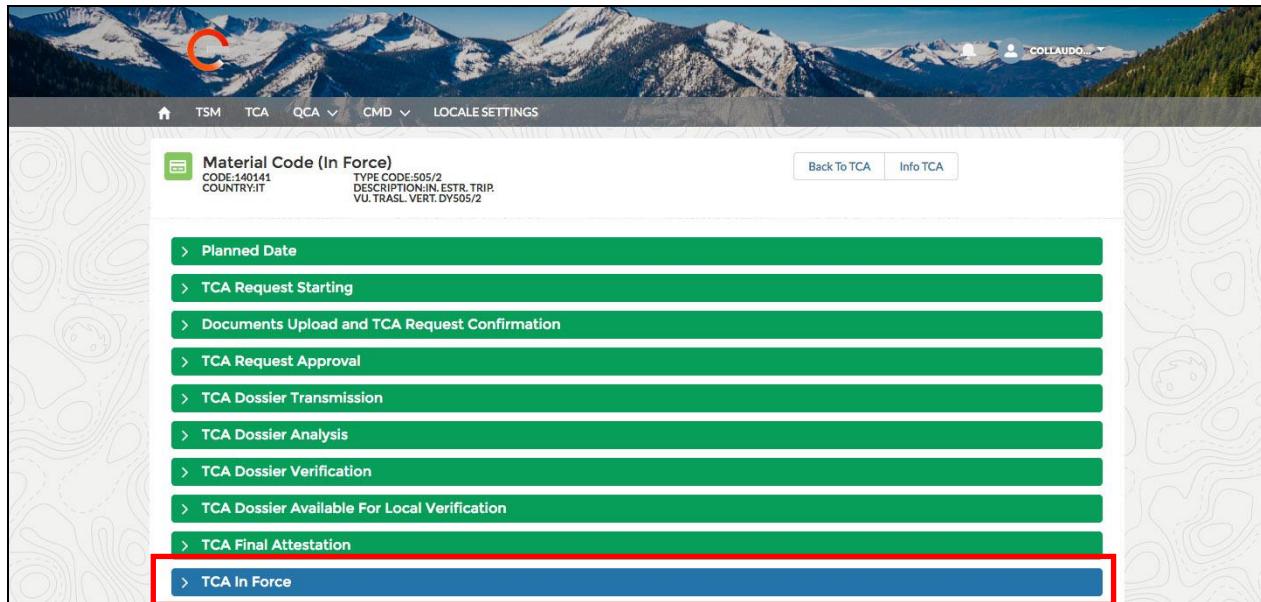

Hay 2 diferentes comportamientos de la acción de borrado:

- 1- Existe solo un código de Material asociado al TCA: si el Código de material es eliminado, el status del TCA cambia a “Delete”.
- 2- Existe más de un Código de material asociado al TCA: El status del TCA cambia a “Delete” cuando todos los códigos de materiales asociados hayan sido eliminados.

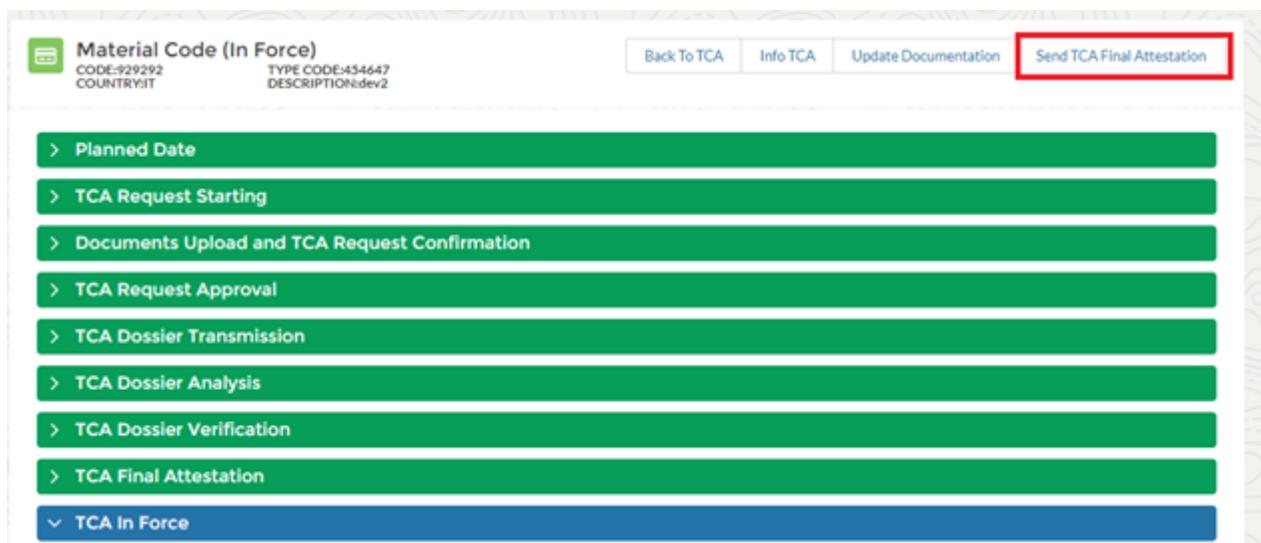

This document contains proprietary information of Enel SpA and shall only be used by the recipient in relation to the purposes for which it was received. Any form of reproduction or disclosure without the express consent of Enel SpA is prohibited.

3.2.11. TCA in Force (TCA en vigencia)

En esta fase, todos los códigos de material tienen completado el proceso de aprobación. Tienen el status "In Force".

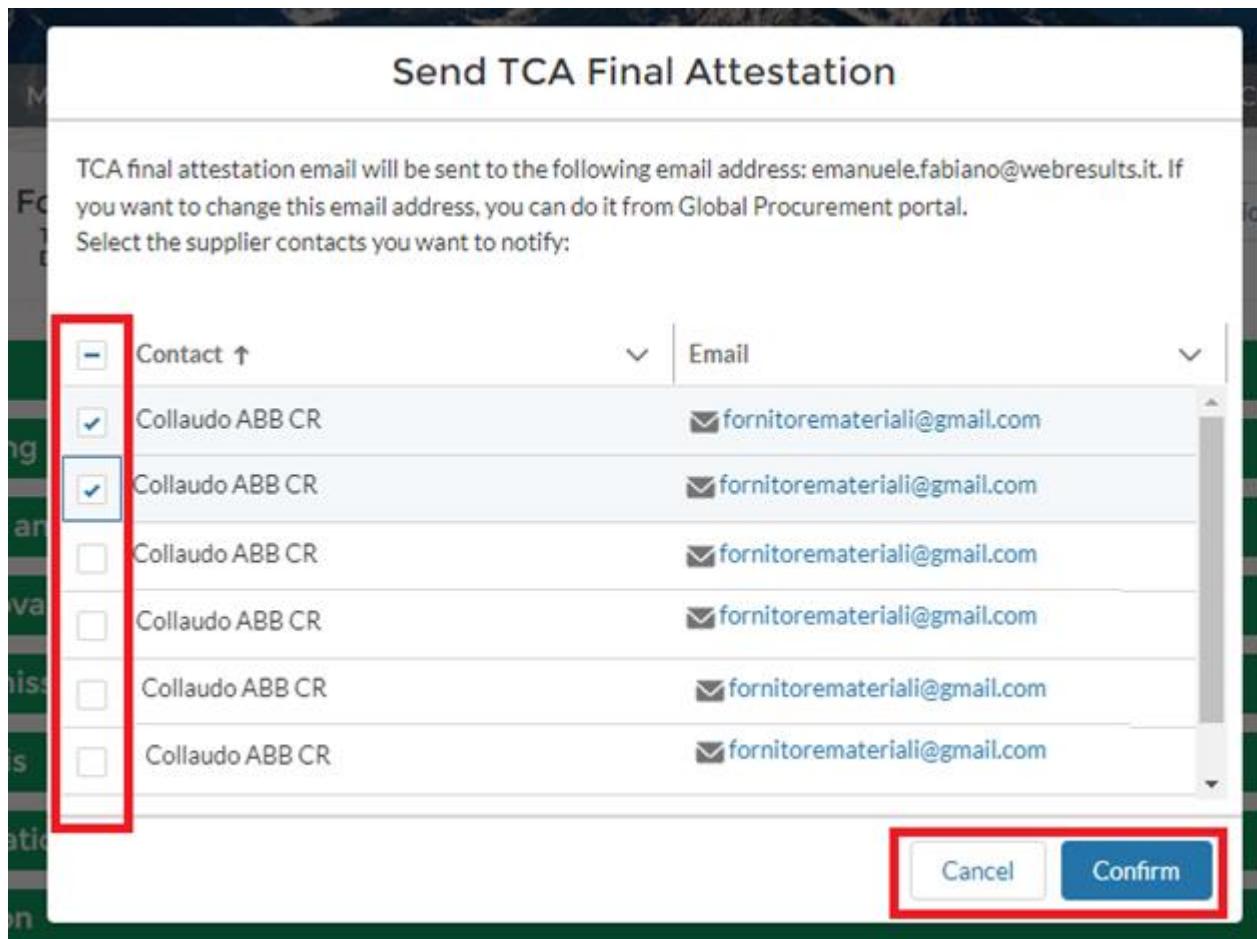

En esta fase, el usuario puede enviar un correo electrónico con TCA Final Attestation haciendo clic en el botón "Send TCA Final Attestation"

This document contains proprietary information of Enel SpA and shall only be used by the recipient in relation to the purposes for which it was received. Any form of reproduction or disclosure without the express consent of Enel SpA is prohibited.

Dentro de la ventana emergente de "Send Tca Final Attestation" el usuario puede seleccionar los contactos del proveedor que desea notificar y luego hacer clic en el botón "Confirm" para confirmar la operación o en el botón "Cancel" para cancelar la operación.

Actualización de Tca

El proveedor tiene la posibilidad de añadir documentación adicional, en un TCA vigente para añadir y enviar la nueva documentación al proceso de aprobación por parte de los usuarios y hacer clic en "Update Documentation"

This document contains proprietary information of Enel SpA and shall only be used by the recipient in relation to the purposes for which it was received. Any form of reproduction or disclosure without the express consent of Enel SpA is prohibited.

3.2.12. TCA con Proceso BIM

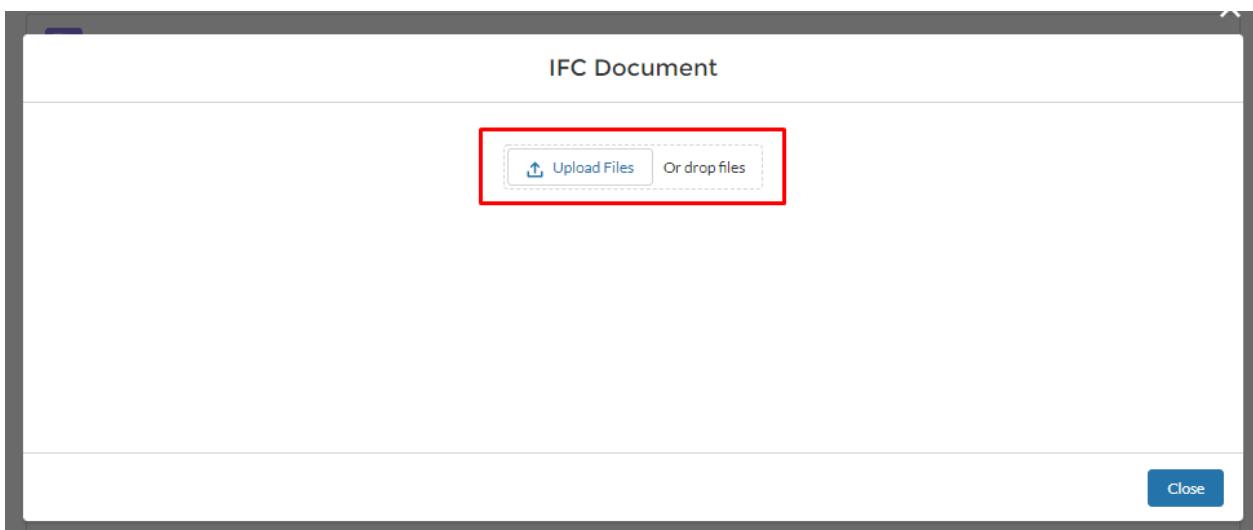

Si el usuario de Enel ha indicado que el código del material requiere el Proceso BIM, habrá un componente "Proceso BIM" para poder cargar los archivos necesarios para el proceso BIM (archivo IFC y error log).

El archivo IFC se puede cargar en cada fase del TCA, incluso cuando el código del material está "vigente". El archivo IFC solo puede ser cargado por el Proveedor utilizando el botón correspondiente:

BIM Process					
ACTIONS	IFC NAME	IFC DATE	ERROR LOG	ERROR LOG DATE	ERROR LOG RESULT
<input type="button" value="+"/>					

Cuando se selecciona el botón "+", el sistema abre una máscara para cargar el archivo IFC:

This document contains proprietary information of Enel SpA and shall only be used by the recipient in relation to the purposes for which it was received. Any form of reproduction or disclosure without the express consent of Enel SpA is prohibited.

Una vez completado el archivo IFC, el sistema habilita el botón para poder enviar el archivo a AIN y proceder con el control de calidad:

BIM Process					
ACTIONS	IFC NAME	IFC DATE	ERROR LOG	ERROR LOG DATE	ERROR LOG RESULT
	IFC.ifc	8/6/2022, 12:49			
Notes:					

Una vez enviado el archivo IFC a sistema AIN para que lo controle, el usuario de Enel será el responsable de cargar el archivo de registro de errores y aprobarlo o rechazarlo. Para ambos eventos, rechazo o aprobación del archivo error log, se enviará un correo electrónico y una notificación del sistema a los contactos del proveedor para informarles del resultado del archivo de error log.

Solo después de la aprobación o rechazo del archivo de registro de errores, será posible cargar un nuevo archivo IFC para poder repetir el proceso BIM.

3.2.13. Historial de chat

En todas las fases del TCA, incluida la fase "In Force", el usuario tendrá disponible la función Chatter para intercambiar mensajes.

La función Chatter estará disponible dentro del Código de material:

This document contains proprietary information of Enel SpA and shall only be used by the recipient in relation to the purposes for which it was received. Any form of reproduction or disclosure without the express consent of Enel SpA is prohibited.

The screenshot shows the Case item page with a header featuring the enel logo and a background image of snow-capped mountains. The top navigation bar includes links for TSM, TCA, QCA, MSH, CMD, REPORT, FINE, LIBRARY DOCUMENTS, LOCALE SETTINGS, and MORE. A 'SUPPLIER' user icon is in the top right. Below the header, a 'Case' card displays details: Case Number 01770341, Tender Code, Contract Number, Contract Date, Supplier Name (TCA M) ABB SPA, and Status OnGoing. A 'Follow' button is on the right. The main content area has tabs for MATERIAL CODE and DETAILS, with MATERIAL selected. It shows a table with columns for MATERIAL, TRAFFIC LIGHT, BIM, and PHASE. An arrow points to the MATERIAL row for code 240193, country IT, type test. The PHASE column shows a green checkmark followed by 'TCA request approval'. A 'Submit' button is at the top right of this section.

The screenshot shows the Case item page with the same header and background. The top navigation bar is identical. Below the header, a 'CHATTER' card is visible. It displays a post titled 'Material Code (In Progress)' with code 240193, country IT, type test, and description 'matricola per test'. It includes buttons for 'Back To TCA', 'Info TCA', and 'Delete'. Below the post, there are four expandable sections: 'Planned Date' (blue), 'TCA Request Starting' (green), 'Documents Upload and TCA Request Confirmation' (green), and 'TCA Request Approval' (blue). The 'TCA Request Approval' section is currently expanded.

Al hacer clic en la función "Chatter", el usuario puede crear un post, una encuesta o una pregunta sobre el Case Item.

The screenshot shows the Case item page with the same header and background. The top navigation bar is identical. Below the header, a 'CHATTER' card is visible. It shows a red-bordered box around the 'Post' tab. Below the tabs is a text input field 'Share an update...' with a rich text editor toolbar. A 'Share' button is at the bottom right. A 'To' field contains 'CI-00185436'. The overall layout is clean and modern, designed for user interaction.

This document contains proprietary information of Enel SpA and shall only be used by the recipient in relation to the purposes for which it was received. Any form of reproduction or disclosure without the express consent of Enel SpA is prohibited.

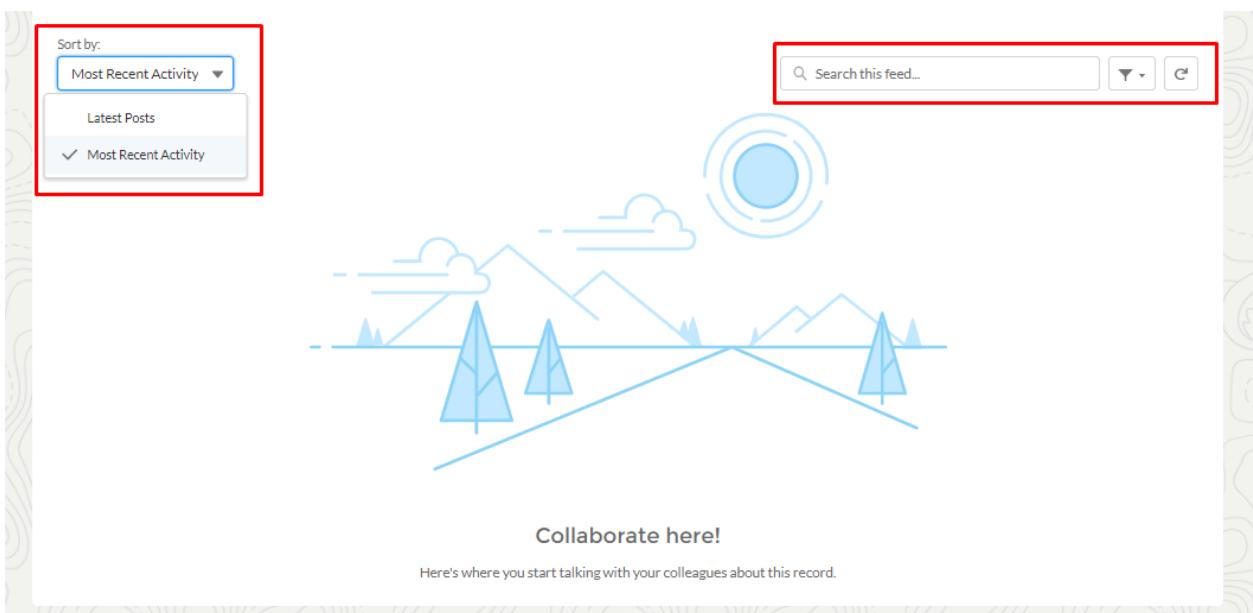

Con el post el usuario puede insertar un mensaje, adjuntar archivos o imágenes:

Con la encuesta, el usuario puede ingresar una pregunta con varias opciones:

Con la pregunta el usuario puede ingresar una pregunta, agregar detalles sobre la misma, adjuntar archivos o imágenes:

También existe la sección de resumen de publicaciones, encuestas o preguntas que se pueden ordenar por las publicaciones más recientes o el usuario puede buscar un feed en particular:

This document contains proprietary information of Enel SpA and shall only be used by the recipient in relation to the purposes for which it was received. Any form of reproduction or disclosure without the express consent of Enel SpA is prohibited.

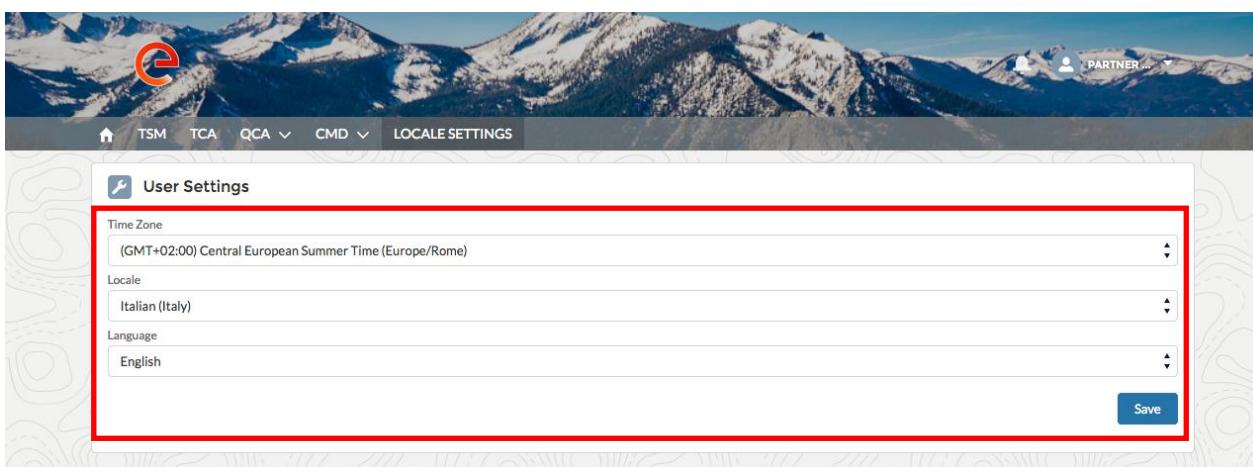

3.2.14. Configuración regional

El Proveedor puede cambiar la configuración regional clic en la pestaña “configuración regional”:

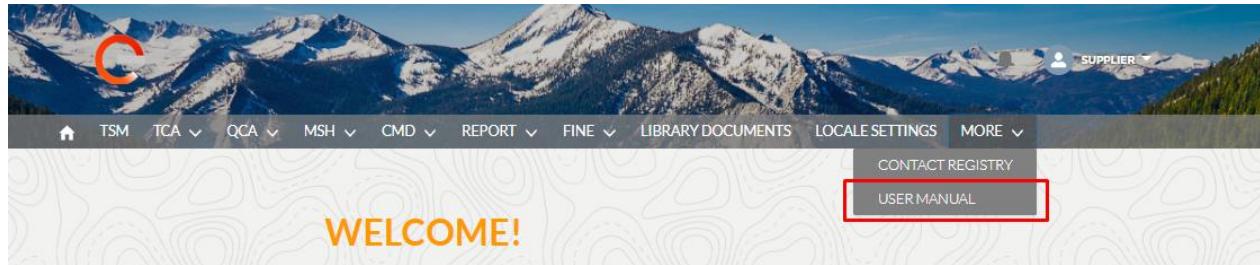

la página “configuración regional” ya está abierto y el proveedor, utilizando las tres listas de selección, puede cambiar:

- **Zona horaria**
- **Lugar (Zona)**
- **Idioma (ENG, POR, ITA, ESP)**

y luego se puede guardar los cambios, hacer clic en el botón "Guardar".

3.2.15. Manual de Usuario Proveedor

La funcionalidad de descarga manual permite al usuario tener el manual disponible en cualquier momento. Al hacer clic en el enlace "Manual del usuario", puede consultar el sitio web globalprocurement.enel.com y comenzar a descargar el manual correspondiente en formato .pdf.
